CONCENTRATES.

Copper Acres, which is one of Jesso W.Fox's properties in the Battle Moun-tain district, sprung a surprise yester-day in an assay made. Rock which it was believed would run about 16 per ini copper showed returns of 25.5 per cent copper

Word was received from the Lower Mammoth mine last night that the double compariment shaft has now reached the 700 foot level and that work is progressing rapidly. Under good conditions the retimbering pro-gresses at the rate of 12 feet a day. General Manager Charles E. Taylor eports that the drift on the Chafey

Consolidated Leasing company property in Earber canyon has struck the ora en-countered in the shaft in stuking. There is a whole face of ore, five feet wide, which will not average much less than then a tex \$100 a ton.

C. W. Watts, a Salt Lake mining op-erator, left for the east yesterday with some line samples of ore taken from three claims he and associates have the up near Lodi. Nev., which is about 60 miles south of Austin. Two shipments miles south of Austin. Two snipments have been made from the property. One netted \$150 a fon while the other was better than \$309 a ton. My, Watts de-clares that there are a number of Salt Lakers operating near Lodi at present.

The Amalgamated Nevada Mines & Power company which owns property in the Blackhorse and Osceola mining disricts has been reorganized according to John D. Cowley and D. Austin Brown, Boston capitalists who are directors of the company. Considerable development work is going on at the property. A mill will be built. Sevleasers expect some good returns from their placer workings this spring. The local management of the Seven

The local management of the boyst Troughs Mining company yesterday re-ceived assay returns on its first ship-ment of gold buillon to the local United States assaying office. President R. J. Evans yesterday pulled down a check le Sam's treasurer for \$12,286.74. on Uncle Sam's treasurer for \$12,200.0% and with the small consignment of bul-lion still expected as the final clear up, the week's run will amount to \$13,000 or better. The ore was taken from the dump of the company's Fair-view mine and was gleaned from 140 tons 1020 255 2013 tons.

"DOLPH" WHITNEY, Stock Broker.,

ened in an exceedinty unsettled state, with wide price changes in both directions. When trading began prices of Americans in London had reboand ed violently from the low level of yesterday's closing here. Some stocks showed sympathy with this influence In the New York opening dealings but others suffered from renewed liquidation. Reading was lifted two points, St Paul, Baltimore & Ohio and Republic steel 1%. Illinois Central and Preased Steel Car a point. The first sales of United States Steel were of 6,000 shares at \$1 % and \$1%, compared with 41% last night. Canadian Pacific ran off 23%, Northern Pacific 2, Missouri Pacific 1% and American Smilling and Tennesses Copper about a point. The dealings were very large and there was much confusion in the early sea-

Violent and feverish fluctuations reflected the contest between opposing forces in the market. When support became effective the shorts scrambied to cover and some effective thousand

Prices fell back from the early high Prices fell back from the early bigh level, trui met buying again and a mors stable tone developed. There were declines in isolated stocks due to belated liquidation. Erie first pre-ferred broke 345. Mercantile marine prefored 242, and U. S. Rubber, Mac-kay companies - and International Pump 2. On the re-bound the gain in Reading reached 345. Baltimore & Obio. Denver & Rio Grande and Amirican Car 245, Sloss-Schuffield Steel and Re-public Steel preferred 145. Penasyl-Car 24, Sloss-Scheffield Steel and Re-public Steel preferred 14%. Pennsyl-vania and Great Northern preferred 1%. U. S. Steel, Colorado Fuel and Atlantic Const line 1½, and several other active stocks a point or more. At

other active stocks a point or more. At the end of the hear the general list was a fraction under the best. Read-ing had reached Pa. The market became quiet around the lower level and attempts were made to bid up prices. The rally carred the market a fraction higher shan before but increased offerings were encountered, and the market weak-ened. Gains in People's Gas had weaked in Traine Parille 1 and Wabled 1%, Union Pacific 1, and Wa-

ash 15. Sime ting common yielded 25% below ist night. Toledo, St. Louis & West-rn 15%. Erie and Southern Railway 14. and Reading fell back to below 50. The tone was irregular at noon. 125. The tone was irregular at noon. Bonds were irregular. An interval of duliness followed a raily in which most of the leaders touched their best prices. Union Paol-fic, Reading and United States Steel were absorbed in round amounts, Great Northern preferred advanced 2 points, United States Steel 214 and Toledo, St. Louis & Western preferred declined 3. The market suffered another reaction, which did not run far, speculation be-coming quiet as soon as prices declined

vauda and Atchison, 2: Norfolk & West-ern and Analgumated Copper, 1%. The market closed quiet, but firm, and mar the best prices of the day. Reading's gain reached 5. Delaware & Hudsor, General Electric and American Cotton Oll 3, and Union Paelfic, St. Paul, Kansas & Texas, Rock Island preferred, Pacific Mail, Colorado Fuel, Brooklyn Transit, Sloss-Sheffeld, Pressed Steel Car and United States Steel preferred 2 to 2%. There were fractional recessions in the late deal-ings.

MacFarlane of Denver writes that the concentrator, although three and a half concentrator, although three and a har miles from the mine, will be supplied with ore through the Mascotte tunnel by electric haulage. This tunnel will give the company a depth of about 1,400 feet on the ore body.

a recent letter President James

1.400 feet on the ore body. "The development work now going on in the transportation tunnel," says Mr. MacForlane, "proves that the ore in-creases in value with depth and has added millions of tons to its present re-

"The Ohio Copper company's 4,500-ton concentrator (eight units of 362% tons each) one-half of which will be in ap-cration about May 1, is constructed of steel and sement throughout and has every known appliance for the comom-leat handling and treatment of low grade sulphide copper ores. The build-ings of this plant when completed will cost approximately \$2,000,000

CONCENTRATING RESULTS.

CONCENTRATING RESULTS. The method of treating the ors and the machinery installed have been de-termined upon after operation of the company's 200-ton mill on its ore for a period of two and one-half years. The results obtained from this mill have proven that the company can make a saving in excess of 80 per cent of the metallic contents of the ore, and al-so have proven that the estimates made by the company's engineers as to cost of missing and concentrating are very conservative and are at least 21½ per cent in excess of the actual rost of production, because, oven with the poor facilities afforded by this 200-ton mill, the company obtained an av-erage concentration, over 18 tons into one.

"The caving system is the most eco

The caving system is the most economical known method in mining because the product is clean ore and there can be no over-burden or refuse carried to the concentrator to reduce the average assay of the ore and thus increase the cost of both mining and concentrating.
 The matter of transportation, as compared with its neighbors, the Ctab Copper Co. and Hoston Consolidated, it is estimated that the cramon will save like or the Mascotte tunnel. This item alone will make a sering, applicated to the company's dividend paying funds, of over \$162,000 per commun.

Still Unsettled.

Still Unsertied. James P. Gräves, president of the Bingham company, who has just re-turned from a visit to the property, says in the Hoston Financial News: "The transfer of the Bingham Consol-liated Albing Co, property has finally been made to the Bingham Mines Co, and nothing now stands in the way of active explorations. Heretofore we have hesitated to spend maney for devel-opment work, as the title of the prop-ratises had not passed to the hew com-pany. Work on the Dalton & Lake prop-

"Work on the Failton & Lake prop-erty will be started immediately and the work on the Eagle & Blue Bell, how being done mostly by leasers, will shortly be augmented by the compa-or's management. Active develop-ments on the Commercial property will have to be delayed until arrangements can be made for the proper whetling of the subplide ores. "It is uncertain what will become of the shelling end of the company. We may be able, however, to sell the ametic new cloued by the courts to a party who anticipates no difficulty in operating it without injury to the surrounding county."

NEWS FROM BLUE MOUNTAINS.

J. F. Younger, in writing from Land, itah, has the following to say as in is intention with regard to his copproperties:

per properties: "I go up to my mine tomorrow with a crew of miners and intend sinking on the copper vein, which I think, with a little more denth will prove to be a good shipping propesition. For come time I have been prospecting in the noised Shauntie district out from Milterd and there is no doubt but my mine is simply an extension of same, as the formations are identical and the showings at the same depth are the more. I hope within a short time to
