DESERET EVENING NEWS: SATURDAY, JANUARY 2, 1904.

Wednesday's horror at the Iroquois theater. As a result of an investigation made by his orders, and lasting but a few hours, ninetcen theaters and museums were ordered closed, some of them being among the leading and most popular playhouses of the city. The action of the mayor was based on one single violation of the ordinances which intended to protect the patrons of theaters from just such an occur-rence as that which cost so many lives on Wednesday. This was that every one of these places had omitted to sup-ply an asbestos curtain.

THEATERS CLOSED.

The theaters ordered closed are Howard's Sam T. Jack's, Marlowe, New American, Olympic, Academy of Music, Alhambra, Avenue, Bljou, Chi-Music, Anamora, Avenue, Biod, Chi-cago opera house, Columbus Stock, Thirty-first street, Criterion, Flegen-baum's, Milwaukee Avenue, Garrick, and Glickman. In addition to these, the London Globe museum and the clock street museum were also com-Clark street museum were also com-

Clark street museum were also com-pelled to close their doors. The Chicago opera house and the Olympic theater are vaudeville houses of the highest class and probably do as much business in point of numbers as any of the theaters in the clty at single performances. They give, how-over, a matinee every day in the week, on that souldon that seats can be chand it is seldom that seats can be ob tained for any performance at the time of opening. In addition to this they have been accustomed to selling large numbers of tickets for standing room, and as a general thing more people are within these places of amusement at an average performance than can be found at any other playhouse in the

The Garrick theater, which was ordered closed, is a small playhouse on the northwest side of the city, and should not be confounded with the larger theater of the same name, sit-uated on Randolph street, one block west of the Iroquois

INSPECTION CARRIED OUT.

The inspection ordered by the mayor today was carried out by Building Commissioner Williams and Chief of Police O'Neill. The scope of the in-vestigation included no other feature than asbestos curtains. The mayor in-

"There were other glaring defects." said Building Commisioner Williams, "which were noticed in some of the houses, but we were not paying partic-ular attention to them today, although I noted them, and the theatrical man-agers will be compelled to remedy them as soon a posible. as soon a posible.

MAYOR VISITS THE IROQUOIS.

Mayor Harrison today, in company with Building Commistoner Williams, Alderman Mayor and several archi-tects, visited the Iroquois theater building and went over it thoroughly. As they stepped into the building the mayor accidentally tred on a large

nayor accidentally trod on a large lock of human hair, which had been torn from the head of some victim of the disaster. He shuddered, and, re-moving the hair from his shoe, placed jt on one side of the hallway and passed

The mayor went everywhere except into the cellar. He went out on the fire escape, tried the exits, and finally mounted the rigging loft above the stage. The dressing rooms were visited and the whole interior explored. T. P. Marshall the architect of the building, accompanied the mayor throughout the trip. When in the gallery the mayor paid particular attention to the exits and tried all the handles by which the doors are opened

NO EXIT SIGNS UP.

The failure to comply with the ordinance requiring that exits shall be in-dicated by printed signs struck the mayor, and when he noted that heavy damask curtaius were hung before some of these doors he inquired of Architect Marshall why they had been

placed there. Mr. Marshall replied that it was done to improve the appearance of the house

It was also noted by the mayor that the ordinance requirement which in-sists that galleries above the ground floor must each have a separate stair-floor must each have a separate stair-way leading to the street had been dis-regarded. This circumstance excited the indignation of Mayor Harrison, who said:

"This theater should never have been easily answered, for that depends upon allowed to open, because the ordinances what the party will say and do when next it convenes in national convenon gallery stairways has received no attention and has been disobeved. The tion. If it shall wisely address itself to the issues of the day, asserting nothing offensively, apologizing for noth ing, and shall name for its nominees men who ought to be and therefore will be acceptable to its rank and file, it will win. But if in folly it repudiates its past-its recent past-or if it need-lessly antagonizes and drives away elements which were not with it or which left it in its recent past, the promise of the times and of conditions will prove delusive, and we shall go down to defeat. "I have no platform to suggest, no candidates to commend to the exclusion of others. As one who followed enthusiastically the party flag, borne so nobly by your great Nebraskan, I of such space." To this Mayor Harrison said nothing, would be unwilling, even with sweep-ing victory as the price of the baseness,

The public schools of Chicago will be closed on Monday on account of the large number of funerals of victims of the fire. All the church bells of Chicago will toll at noon tomerrow in token of grief while the bodies of those who lost their lives at the theater are receiving the last rites. Mayor Harrison, at the instance of several ministers, suggested that 'the church bells be sounded for five min-

BATTLE OF NEW

ORLEANS CELEBRATED.

Omaha, Jan. 1.-Nearly 500 Democrats f Nebraska tonight celebrated the eighty-ninth anniversary of Andrew Jackson's victory over the British at New Orleans, and incidentally the thir-teenth annual banquet of the Jacksonian club of Nebraska. The speakers included Senator Francis G. Newlands of Nevada, Congressman David DeAr-mond of Missouri, an Congressman Hitchcock of Nebraska.

The occasion was of special signifi-cance to the Nebraska Democracy because of a reunion of the factions that have formerly been known as "Gold" and "Silver" Democrats. Congressman Gilbert M. Hitchcock of Nebraska took for his theme "The Lag-

gard Law Congressman David A. DeArmond of Missouri addressed the assemblage on "What of Our Future?" as follows: "It is a question of the ages, and the

ages will repeat it until time shall be no more. It is the question of ambi-tion, of hope, of fear, of love, of hate, of charity, of selfishness. The ques-tion of great and small, of good and had. But as sesigned to ma the ave-

very portion of the city almost li seemed as though there were funerals going or undertaking wagons arriving with dead, who were being brought to their homes for the last time. While the funeral processions were

moving through the snow-covered streets to the various cometeries, the throng about the various morgues and undertaking establishments seemed almost as large as ever. The scenes here were the same as those of Wednesday and Thursday night. Many men appeared at the door of Bolston's and Jordan's morgues this afternoon who

had been for 48 hours constantly searching for those they had lost. WHERE THE DEAD ARE.

structed Commissioner Williams to report to him promptly at the conclusion of his investigation, declaring that it was his intention that no theater should be allowed to open its doors in Chicago hereafter unless it is provided with an asbestos curtain of standard quality that would work at all times and under all conditions.

MAYOR TALKS.

"It may not be posible." said Mayor Harrison, "to prevent loss of life when sudiences rush for the doorway, but I have determined to see that every precaution is taken to prevent such oc-currences as will alarm the people and start them on a rush for the exits. It is all very well to say that the great loss of life in the Iroquois theater was due to the fact that the people lost their heads and crowded into the doorways and aisle like maniacs, but the fact re-mains, and it cannot be denied, that there would have been no panic if the apparatus in this theater, which, judged by all ordinary standards, was the best equipped playhouse in the city, had been in proper working condition. There is no getting beyond the fact. From all evidence now in hand, it is clear

ARCHITECT EXPLAINS

Explaining the lack of a separate stairway for the second balcony, Architect Marshall said:

"There was more total space for the people to get out of the gallery than if separate stairways had been provided. The law requires eight inches of sair and door space for each 100 persons, and we have nearly three feet

but commented again on the fact that damask curtains had covered the doors and that there were no signs indicating the exts. "The signs were being made ready,"

Mr. Marshall said, "but temporary signs were not being used because it was not desired to mar the beauty of the interior with them." To this Mayor Harrison rejoined:

'This theater was opened on Nov. 23 It has been running fully five weeks. In heaven's name, how long does it take to make a few signs?" To this Mr. Marshall offered no reply.

WHAT MAYOR THINKS.

Returning to his office the mayor said "I think exactly as I thought yester-day of the theater. I could not see any explanation of the disaster except the

Simply select the book you need. It is my experience as a specialist of 30 years. In the book I tell how at last I found a way to reach difficult, deep-seated diseases. Thirty years of earnest, ardent toil in hospitals and at bedsides, made it possible for me to write these books.

The books tell how I perfected my prescription-Dr. Shoop's Restorative How by scientific experiment I traced out the causes that bring on chronic diseases

I found invariably that where there was a weakness, the inside nerves were weak, Where there was a lack of vitality, the vital nerves lacked power. Where weak organs were found, I always found weak nerves. Not the nerves commonly thought of, but the vital organs' nerves. The inside-the invisible nerves. This was a revelation. Then my real success began. Then I combined

ingredients that would strengthen, that would vitalize, these nerves. That prescription I called a restorative. It is known the world over now as Dr. Shoop's Restorative. After that I did not fail to cure one case in each hundred treated. I found cancer incurable. Cancer is for surgery, not medlcine.

Then how to get this prescription to the sick ones everywhere was my thought. I must announce it in the public press. But, thought I, will they realize the real truth of my discovery, the real power of Dr. Shoop's Restorative? Then a way came to me-like an inspiration, "I will offer it to the sick on trial." Then they will know I am sincere-that my prescription is unusual."

I wrote a reliable druggist in each city and village in America. They agreed to co-operate with me. Now by any sick one.

Dr. Shoop's Restorative

Send no money, Just write me for the book you need. When I send it I will tell you of a druggist near you who will permit the month's trial. Use the Restorative a month. Then decide. If you say to the druggist, "It did not help me," that will relieve you of any expense whatever. He will bill the cost to me. This is my way of clearing your mind of all doubt as to what Dr. Shoop's Restorative can do.

No matter how prejudiced, you cannot dispute this absolute security I offer. You cannot resist an offer like this if you are at all sick. If you have a weakness, write me. If you can't do things like you used to do them, fell me about it. Write in confidence. As a physician I will tell you a way to help. Get my book now-today.

to say aught or do aught in repudiation of the man who led on the mil-lions of devoted Democrats who followed the party banner in 1896 or 1900 But '96, with its stirring activities, is in the great ocean of time that has been; and so it is with 1900. Today is our day, and this is the year of our press-

I would welcome all who scriptive. come to battle on our side now, for what is in issue; and I would repel none whose help we may have now cause we did not get it in some camof the past; just as we welpaign comed those who came to us in '96 after a lifetime of opposition. None who were against us before, but sin-cerely desire to be with us now, will come with words of denunciation upon their lips, or the 'holier than thou' spirit in their hearts. The sincere ones

who should find a hearty welcome and full fellowship are those who would be with us now for the country's good; because they believe we are for what, in the fight now on, is right. Those, if there be any, who would come to ask us to repudiate our past and humbly glorify them for their past, either are utterly wanting in sincerity, or are too vain and too dictatorial, too narrow and vengeful, to be of value to the party. "I am one of those who believe that

no man who did not support the ticket in 1896 or 1900 can be available for the presidential nomination in 1904. The easons for this conclusion are so many and so evident that any specification would be tiresome as well as useless. But the issues will arouse the patriotic citizen to a high pitch of zeal and energy. We shall stand for the reforms so ardently desired by many, vital to many. The country is ripe for a change. Warrant for Lawyer Bischoff.

Warrant for Lawyer Bischoff. New York, Jan. 2.—The sheriff of New York county has received from the surro-yates court an order directing him to ar-rest and imprison Lawyer Franklin J. Bishoff, a brother of Supreme Court Jus-tice Henry Bischoff The order of commitment has been is-sued because of Lawyer Hischoff's alleged court \$22,000, which, it is charged, he owes the estate of Sibina Jost, of which he was empowered, under the will of his father, who left a large estate, to settle all in-debtedness of Franklin, but has been pre-vented from doing so by notice of a con-test of the will, which was filed by the brother. The accounting on the Jost es-tate was made in 1894, when the surrogate notified Bischoff to turn in \$18,000. The matter has been in abeyance since then and \$4,000 interest has accrued.

the wearisome round again and again, came this afternoon in utter despair to the office of Chief of Police O'Neill and begged two detectives to assist him He also pleaded with newspaper men and his voice choked and failed as he referred to his wife, who lay utterly

prostrated at their home. Mr. Lange said these were his only children, and the detectives and news paper men promised him every assistance, though themselves almost worn out by long hours of work in behalf of other people similar to that which Mr. Lange requested their aid. Finally the body of the girl was found, and the brokenhearted father smiled through his tears as he gathered up the little form and carried it to his carriage. 'I have one of them at least," he said, "and this will be a great comfort to her mother." The absolute failure of Mr. Lange to identify any of the bodies as that of his son aroused some hope that the boy may still be alive and cared for in the hospital.

THEY CAME HOME.

Mr. Lange's sorrow was turned to by when he reached his home at 1280 Forty-fifth street tonight. As he drove up to the door with the body which he ad brought from the morgue as that of his daughter, he was greeted by his wife, who told him that their two children had returned home this evening in safety. They had become dazed ap-parently and had been wandering around the city without knowing where they were. Mr. Lange at once re-turned to the morgue with the body of the little girl which he thought to be that of his own child.

"There was so litle by which I could recognize the body," he said, "that I was confident that I never would able to satisfy my own mind absolute-ly that it was my daughter, but at the same time there were some strong points of resemblance and I concluded that it must be she."

A CLERGYMAN'S EXPERIENCE.

The funeral of the two Regensberg children was held this afternoon at the home of their parents, 3440 Michigan avenue, in the heart of the aristocratic section of the south side, Because of the many calls upon his time, Dr. Emil G. Hirsch, who conducted the services, announced that he would be able to deliver only a short address. In four other homes of the members of his gregation lay the bodies of children waiting for him to officiate at their funerals,

From the Regensberg home Dr. Hirsch went to that of Dr. Joseph Zeisler, 3256 Lake Park avenue, to attend the funeral of another young victim. Walter B. Zeisler, who was considered one of the brightest students in the University of Chicago.

The experience of this one clergyman in his rounds from home to home is but an instance of what dozens of other ministers of the gospel were called upon to perform during the day.

SCARCITY OF CARRIAGES

It was absolutely impossible for the bereaved relatives to secure all the carriages they wished to convey their friends and relatives to the cemeteries. In many cases it was not possible for all the members of the family to ride in the funeral cortege, because no carriages could be procured for them.

The liverymen were simply over whelmed by the demands made upon them, and earnestly urged that as far as possible the relatives should content themselves with a carriage for the pallbearers, the hearse and one other car-riage for the family. Where there were

nore in a family than could convenient. y ride in the single carriage they were compelled to make their way to the cemetery by other methods of transportation.

This was the situation in Chicago today, and tomorrow it will be intenst-fied. The coroner's office today issued nearly 300 burial certificates for people killed in the fire. Some of these for people residing in other cities, but they were comparatively few.

MCMULLEN'S STORY.

The police today vigorously pushed their inquiry into the causes of the fire, and made several other arrests of stage hands, among them William Mc. Mullen, the operator for the light which started the fire. He was tocked up at the central station, and Wilson | the bridge to the stage. A little child
