

AWFUL CONDITIONS PREVAIL IN RUSSIA

Details of Late Happenings Show
That Upheaval Was Worse Than
At First Reported.

BUTCHERS 99 AFTER STUDENTS.

The Black Hundred Attacked a Pro-
cession of Children Carrying
Red Flags.

St. Petersburg, Nov. 8.—As details of what happened throughout European Russia during the week ending Nov. 7, the stories grow more revolting.

In the Baltic provinces revolt and incendiaryism prevailed.

In Poland even the clergy, Catholic and Protestant, participated in the manifestations in favor of the autonomy of the ancient kingdom. In southwestern Russia hardly a city or town escaped Jewish massacres.

At Tomsk, Siberia, according to the latest reports received here, the whole population of 40,000 and the military stood by while 600 men, women and children were burned in a theater. The courthouse at Tomsk and the mayor's residence, where the students and revolutionists took refuge from the mob, were burned and those who tried to flee were killed in the streets.

In Moscow the Social revolutionists and the Black Hundred and the Cossacks and police fought bloody battles.

The descent of the butchers of Moscow with their knives and axes upon the students was one of the most horrible chapters, but not as pitiful, however, as the attack of the Black Hundred on a procession of school children carrying red flags. When the children sought to escape the police barred the way and the youthful martyrs were beaten into insensibility and in some cases were actually torn to pieces.

In the Alexander garden, at Moscow, Cossacks lay in ambush in the shrubbery and set upon their victims with whips. Many were beaten to death and others were hardly able to crawl away.

The reports from the Caucasus show there is no immediate prospect of suppressing the present state of anarchy.

Battles between Tartars and Armenians continue and the destruction of the railroads and the lack of troops make it impossible for the authorities to cope with the situation.

CALM AT ODESSA.

Odessa, Nov. 8.—Outward calm has returned here, but the tension is still great. Reports that the police are preparing for terrible vengeance upon the Christians are being industriously circulated among the lowest and most ignorant classes, and it is feared that they may lead to a recurrence of anarchy. These reports declare that the Jews intend to blow up the churches and distribute poisoned food-stuffs to the Christians.

Perfect Neutrality to whom much of the responsibility of last week's occurrences is attributed, is still in office, despite urgent demands for his removal.

THE CHRONICLE TOWER.

Damage to it Far Less Than at
First Reported.

San Francisco, Nov. 8.—An investigation today of the damage done to the Chronicle building by the fire which started on the roof late last night, showed that the loss is far less than was at first indicated. The clock tower was destroyed and the little story partially gutted, but the valuable part of the newspaper remains almost intact. The machinery was promptly covered and, with the valuable library and presses, escaped injury.

On first inspection of the building this morning M. H. Young, its owner, estimated that \$25,000 would cover the loss. But a most complete investigation showed that the newspaper plant had not suffered more than \$10,000.

Sangster Returns to Jail.

Chicago, Nov. 8.—S. W. Sangster, who was recently arrested in Kansas following charges that he sent poisoned candy to his wife and daughter, was arraigned in court here today. He pleaded not guilty and in default of bail was taken back to jail.

THE INSURANCE INVESTIGATION.

J. R. Hegeman of the Metropolitan
Life Testifies Regarding Indus-
trial Insurance.

IS MOST EXPENSIVE OF ALL.

Actuary McClintock of the Mutual
Told of Purely Technical
Matters.

New York, Nov. 8.—In the testimony of John R. Hegeman, president of the Metropolitan Life Insurance company, before the insurance investigating committee, upon the resumption of the insurance investigation today, it was brought out that industrial insurance was considerably more expensive than other forms of life insurance, and Mr. Hegeman, after elucidating industrial insurance as a retail and the ordinary life as wholesale, illustrated the fact by an example in which for a stated age it was shown that for a \$1,000 policy of ordinary life the Metropolitan charged \$14.55 annually, while for \$984, the nearest amount for the stated age under the industrial plan, \$31.20 was charged.

Mr. Hegeman was on the stand the greater part of the afternoon, and his testimony was along the line of the amount of the company's increase in business.

At the morning session Emory McClintock, actuary of the Mutual Life Insurance company, who has been examined in part at previous sessions, was called and continued his testimony on technical insurance.

In answer to a question Mr. McClintock could not remember a case in which the actuary's department has ever been consulted by the officers of the company as to the amount of money to be expended in the purchase of the company's policies. He was of the opinion that the agents' commissions were larger for the endorsement policies than on an ordinary life policy with annual dividends.

Mr. Hughes asked Mr. McClintock: "In 1903 the amount realized by the company was \$5,563,361 and the amount of dividends paid was \$75,047. In 1904 the amount realized was \$6,054,677, and the amount of dividends paid \$78,304. Why, when the amount realized was over \$1,000,000 more, was the amount set aside for actual dividends nearly \$300,000 less?"

Mr. McClintock said that the reduction of interest must be taken into account. He also said that as the estimate for the year's earnings was made in November and the dividends to be paid were calculated on the estimate, it was impossible to get accurate results.

In reply to questions, Mr. McClintock said that one of the factors considered in computing the dividends was the "loadings" of the premiums for the conduct of the company. What remained of the "loadings" after payment of expenses, he said, was devoted to dividends. The amount of the "loadings" was estimated by the experience of previous years.

Mr. McClintock was asked if there was any way the cost of procuring new business could be lessened. He replied that the company might adopt a new method of valuation. He said the ratio of expense to the total income of the Mutual Life Insurance company was 20 per cent for the year 1904. This, he said, is also true of the New York Life and the Equitable Life Assurance society. In smaller companies the ratio was much lower, in some instances as low as 13 or 14 per cent.

The ratio of expenses to the amount paid to policyholders of the Mutual was 40 per cent. In the New York Life it is 40 per cent. In the Equitable it is 43 per cent. In some smaller companies it is as low as 23 and 30 per cent.

Following Mr. McClintock, John R. Hegeman, president of the Metropolitan Life Insurance company, was called to continue his testimony where he stopped two weeks or more ago. Mr. Hegeman, who wished it for the record, Mr. Hegeman told at greater length than his previous testimony the growth of his company. In 1887 the company had a surplus of \$861,392, and at the end of 1904 it was \$14,835,741.

At the end of 1887 the outstanding insurance was \$152,031,077, of which \$147,758,287 was industrial. At the end of 1904 the outstanding insurance was \$1,420,427,231, of which \$1,127,889,229 was industrial. The premium paid in 1887 amounted to \$5,618,767, and in 1904, \$50,808,824.

Witness then identified a table of weekly rates for various ages, and said the aggregate rates for a year of industrial insurance were greater than ordinary life because the industrial was retail insurance, while the ordinary might be characterized as wholesale. An example was taken at an age of 22 years, and it was shown that the Metropolitan sold a \$1,000 ordinary life policy for \$16.55 annually, while for \$984 worth of industrial insurance \$31.20 was charged.

Resignation Accepted.
St. Petersburg, Nov. 8.—The resignations of Prince Hilkoft, minister of railways, and Charles Von Schwanebach, minister of agriculture, have been accepted. Both have been appointed members of the council of the empire.

Midshipman Branch is Buried.
Annapolis, Md., Nov. 8.—The funeral of Midshipman James R. Branch, who died Tuesday morning after receiving injuries in a fist fight with Midshipman Minor Meriwether, Jr., took place today from the old naval academy church. Chaplain H. P. Clark conducted the funeral services and the interment was in the naval academy.

Will Investigate Massacres.
Moscow, Nov. 8.—The city council today rejected a proposition to organize a city militia. Only 10 votes were cast in favor of the proposition.

The council has taken measures looking to the investigation of the recent massacres. The council declared its intention to prosecute those responsible for the massacres and appropriated \$25,000 for that purpose.

PHILADELPHIA HAS BEEN REDEEMED

City Party Carries City of Brotherly
Love by a Plurality

THE CITIZENS ARE REJOICING.

State Treasurer-elect Berry Will Let
People Know Just How He
Finds Things.

Philadelphia, Nov. 8.—Complete returns from every ward in the city give the City party 148,619 and the Republican candidates 105,316, a plurality for the City party of 43,303. Berry, union candidate for state treasurer, carried the city over Plummer, Republican, by 30,937 plurality.

There was a great demonstration at the mayor's office today by the victorious City party leaders and others. Scores of leaders and hundreds of workers of the reform organization who had assembled at City party headquarters for other congratulatory functions in line and headed by two brass bands, marched through the streets to city hall.

In the line were some of Philadelphia's best known citizens. Each carried a flag, and the enthusiasm was so great that hundreds of persons on the street caught the spirit and joined the marchers. The men marched into Mayor Weaver's large reception room and cheered him, while the bands played patriotic airs.

Mayor Weaver was lifted on a table and made a stirring speech in which he paid a warm tribute to the police for their loyalty to duty. He gave the people credit for the victory and said it was the clearest election held in Philadelphia in many years.

Rudolph Blankenburg, one of the successful candidates for commission, aroused much enthusiasm by declaring that the fight against the Republican organization must be carried on to February, when an election for members of city council will be held. The other candidates and a number of the leaders also spoke. The demonstration lasted more than an hour.

The City party has planned to hold a mass-meeting and street parade Friday night in honor of its victory. The managers of the reform movement intend to at once begin the campaign for the February election. A staff of attorneys employed by the reform leaders is at work preparing to bring about 200 prosecutions for offenses against the ballot laws. Judge Biddle, in common pleas court, today ordered the arrest of the entire election boards and 11 divisions for neglecting to make reports to the president of the notaries' office.

Chairman Franklin Spencer Edmunds of the City party committee said today that the cost of running the reform campaign was approximately \$10,000.

The Republican organization leaders had little to say today regarding their defeat. United States Senator Penrose and Israel W. Durham, the leader of the local Republican organization, had a long conference at which they discussed the situation. Mr. Durham, accompanied by a few friends, will go south tomorrow for a rest.

Mayor William H. Berry of Chester, the successful union candidate for state treasurer, was in this city today receiving the congratulations of his friends. Mr. Berry, who will be the first Democrat excepting Gov. Pattison, to occupy a state office in Pennsylvania in many years, said that his policy in conducting the state treasury will be publicity. "I propose to thoroughly investigate the entire condition of things in the state treasury," he said, "I intend to let the people know just how I find things."

Senator Bunkers Out on Bond.

Sacramento, Nov. 8.—This afternoon Harry Bunkers the ex-senator under sentence of five years for bribery, was released on bond and brought to this city by his wife. The bond was furnished by the Aetna Indemnity company of San Francisco, and was approved by Judge Hart. Bunkers and his wife and child left for San Francisco this afternoon.

OLD PEOPLE CONSTANT SUFFERERS IN WINTER

Most old people are great sufferers in winter. They are seldom free from pains or ailments of some description, because they are not as able to withstand the severity of the climate, with its damp, changing weather, as are their younger, more vigorous companions. Cold weather starts the old aches and pains; they suffer with chilly sensations, cold extremities, poor appetite and digestion, nervousness, sleeplessness and other afflictions peculiar to old age. With advancing years the strength and vitality of the system begin to decline. The heart action is weak and irregular, the blood becomes thin and sluggish in its circulation, and often some old blood taint that has lain dormant in the system for years begins to manifest itself. A wart or pimple becomes a troublesome sore or ulcer, skin diseases break out, or the slight rheumatic pains felt in younger days now cause sleepless nights and hours of agony. There is no reason why old age should not be healthy and free from disease if the blood is kept pure and the system strong, and this can be done with S. S. S. It is a medicine that is especially adapted to old people, because it is made entirely of roots, herbs and barks, selected for their purifying, healing and building-up properties, and is very mild and gentle in its action. S. S. S. warms and reinvigorates the sluggish blood so that it moves with more rapidity, and clears it of all impurities and poisons. As this rich, healthy stream circulates through the body every part of the system is built up, the appetite and digestion improve, the heart action increases and the diseases and discomforts of old age pass away. S. S. S. cures Rheumatism, Catarrh, Skin Diseases, Sores and Ulcers, and all troubles arising from diseased blood.
