

week, upon a case involving the principle of this question, can hardly be considered a very magnificent triumph by the military, seeing that their counsel took exceptions to it in open court, on the point of the decision that drunken and assaultive soldiers, cavorting around in the city, could legally and properly be arrested and restrained by the civil authorities.

As to the point suggested by the western *Herald*, that the citizens here are mostly "Mormons, you know," and therefore held to be not entitled to much consideration any how, the *Herald* is right. Such sentiment is entertained here by certain parties, and moreover has been done into public print, in a palliative and exclusive spirit, in connection with the late occurrences, by the subsidized organ of the "ring" in this City.

THEY MAY TAKE HONORS.—The woman's movement goes on. The Convocation of the University of London has decided by a considerable majority that "it is desirable that women should be permitted to take degrees."

But the Brooklynites appear to have discovered that there is danger in the association of the sexes in the educational field, and they mean to have it discontinued, judging by the following from an East-ern paper—

"The Brooklyn (N. Y.) superintendent of public schools having made a report that in his opinion the co-education of the sexes in the schools was dangerous and tended to immorality, the board of education, through a committee, investigated the matter, and at their last meeting discussed the whole subject. The committee reported that the system was simply dangerous; and recommended that hereafter the sexes be separated. The report of the committee was finally adopted by the board, which made an order in accordance with the recommendation of the committee."

NEXT INAUGURATION DAY.—The *St. Louis Globe*, thinking perhaps of a third term, says that the next inauguration day, March 4th, 1877, falls on Sunday, so that the presiding officer of the Senate pro tem will be President of the United States from Sunday midnight till Monday at the hour that the President elect is sworn in; and that this has occurred twice before, Monroe beginning his second term Monday, March 5, 1821, and Zachary Taylor his term on Monday, March 5, 1849.

GOLD FISHES.—Seth Green says that the death of gold fishes that inhabit glass globes is due to one of three causes—"handling, starvation or bad water."

FOR THE ARCTIC REGIONS.—A steam yacht, the *Delta*, has left Dundee for an exploration of the Arctic Seas. The commander of the vessel, Capt. Wiggins, intends being absent about four months, and hopes to discover the Austrian expedition, which went out two years ago.

THE NARROW-GAUGE railroad from Palisade to Eureka is progressing at a rapid rate. Yesterday we learned from F. C. Minshall, the attentive and pleasant agent of Pritchard's freight line, that by next Saturday the road will be completed to a distance of twenty miles from Palisade. The Eureka stages and freight line will connect with the rail at this point, thus saving five hours in the stage time and one day by the freight line. This will be good news to the citizens of Pioche who are traveling West or receiving goods from San Francisco. In future merchandise by Pritchard's freight line will only be thirteen instead of fourteen days in transit. Mr. Minshall informs us that the greatest activity prevails in pushing forward the work of building the line. It has been graded seven miles beyond the point the rails will reach by next Saturday, and the track layers are following fast after the footsteps of the

grading force. — *Pioche Record*, June 17.

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY, JUNE 23.

Frederick Mosser.—If Frederick Mosser, or Marian Mosser, supposed to be in Utah, will communicate with Mr. William H. Perkes, of this Office, they may learn of something to their advantage.

Meeting at the City Hall.—Tanners, workers in leather, and others who are interested in home manufactures are invited to attend a meeting at the City Hall at six o'clock this evening.

Convalescent.—Judge Sol. P. McCurdy was out this morning for the first time since he was so unmercifully maltreated by private Thomas Hackett. The injury to the Judge's neck must have been very severe, as he is yet unable to turn his head without also turning his whole body.

That Canal.—Bishop A. Gardiner informs us that work on the Carson & Buzzo canal, West Jordan, is progressing satisfactorily, but, owing to some alterations at the head of it, involving more labor, the job will not be completed as soon as previously expected. The alterations are the widening of two miles of the ditch and the shortening of it at the head by two miles.

Missionaries.—A private letter from Elder William B. Barton, dated at New York, June 15th, states that himself and fellow missionaries arrived there on that day, after a pleasant journey overland. They had secured berths in the steamship *Minnesota*, which was to sail for Liverpool on the day following the date mentioned. So far as he could learn, the people in the East are complaining very generally of dull, hard times.

Racing on Sundays.—The gentleman arrested for racing his horse on Agricultural Park race track on Sunday was fined \$15 yesterday.

In connection with this case we may mention that the Directors of the D. A. and M. Society adopted a resolution on Saturday not to allow their track to be used on Sundays for racing purposes. The parties who went to the park to race last Sabbath were, we understand, aware of the resolution of the Society, besides being notified concerning the City ordinance, by an officer at the race track.

Abusing Horses.—It is somewhat of a mystery how livery stables in this City can be run in a manner to make them paying concerns, considering the way in which their teams are used, as a general rule, by parties who hire them. On the outskirts of the city those hired teams can be seen dashing over the ground at a speed that would ruin the best animals in existence. This break-neck recklessness regarding other people's property is reprehensible, as well as being inhuman in point of cruelty to the horses.

The Apple Crop.—There are indications that the apple crop is likely to suffer somewhat this season, from the same cause as it did last year. This morning a gentleman showed us a number of young apples from his orchard, in the 20th Ward, all of which were injured by the codling moth, and he states that all of his apples are similarly affected. It is probable that if the recommendations of the Horticultural Society regarding the best method of destroying those orchard pests had been universally adopted in the city a large amount of fruit that will likely be lost would have been saved.

A Pleasant Meeting.—President George A. Smith informs us that when on his eastern trip, last year, himself and party had the pleasure of meeting Mr. and Mrs. P. Clapp, of New York, at Ismailia, Egypt, and they traveled in company from that point to Jerusalem, the associations formed on the journey being very agreeable and friendly. A few days ago Pres. Smith had a most pleasant surprise, in receiving a call from the lady and gentleman named, who had reached this city on their return from a trip round the world. The meeting was reciprocally pleasant, none the less so from being in a part of the world far distant from the place where the first acquaintance was formed, and under very different circumstances.

Roses.—Choicest and most beau-

tiful and fragrant of flowers is the rose. This opinion was heightened in us this morning when Brother Thomas Fenton, nurseryman, of the 6th Ward, laid upon our table a basketful, which delighted the eye and filled the air of the sanctum with delicious perfume. There were forty-two specimens, each of a different variety, and he informs us that he has about sixty other kinds, making in all about a hundred, differing, and varying in color all the way from pure white or yellow to deep crimson and damask.

With all those varieties of rose trees, raised here, where lies the necessity of people importing them from the east and west, some of them at very high prices? The roses produced in Utah are as beautiful and fragrant as those produced in other places.

Miscellaneous Trades and Professions.—We have received from Mr. William C. Morris the minutes of a meeting, of which he was secretary, of persons belonging to various branches of business, held last night, at the 13th Ward Assembly Rooms. The object of the gathering was to take steps towards co-operating together with a view to encouraging home manufactures, etc., and was a result of a previous meeting held in the same place. The painters, tailors, printers, paperhangers, butchers, bakers, school teachers and photographers were represented, and reports were received from some of those branches. Bishop E. D. Woolley and other brethren made suitable remarks. Another meeting was appointed for next Monday evening at 7 o'clock, at the same place, and a meeting of the painters was appointed to be held at the paint shop of Mr. Joshua Midgley at six o'clock on Wednesday evening.

London Conference.—A conference was held in the "Horn's Assembly Rooms," Kennington, London, May 17, Elder R. T. Burton presiding, and Elder M. H. Hardy acting as secretary, according to report in the *Millennial Star*.

Elders present from Utah—Jos. F. Smith, President of the European Mission; R. T. Burton, Pres. of the London Conference; Chester Call, Pres. of the Bedford Conference; Geo. F. Gibbs, from the Liverpool office; J. F. Wells, Traveling Elder in the Nottingham Conference; Volney King, traveling Elder in the Durham and Newcastle Conference; John Squires, M. H. Hardy and B. W. Carrington, traveling Elders in the London Conference.

Meetings were held morning, afternoon and evening. The statistical report showed the Conference to be composed of 25 branches and 7 districts, with a total of 1221 members; that during the last six months 80 had been added by baptism and 114 had emigrated. The Conference was addressed by the above-named Elders.

"The Conference gave great satisfaction. Our Hall was a good and comfortable one, pleasantly situated, and opposite Kennington Park. The meetings were well attended, especially in the afternoon and evening, the many strangers present paying marked attention, as was shown by inquiry after our public tions, periodicals, etc., after the adjournment of the Conference. "The Saints rejoiced and all seemed refreshed and gratified."

ESTRAY NOTICE.

I HAVE in my possession the following estrays: One bay MARE, supposed to be about ten years old; she has brands on the left shoulder, which appears to be IM and J with half circle over it. One sarel MARE COLT, one year old, white streak in face, right hind foot white, brand H L combined on left thigh. One roan yearling MARE COLT, right hind foot white branded J 7 on left thigh. CONFERENCE NOTICE.—H. Brunton, late of the Washington House has removed to the Overland House Meals 30 cents. w13 ly

LOST.

A SMALL YELLOW ROAN HORSE three years old, branded W A on left thigh. Any person giving information that will lead to his recovery will be suitably rewarded. w12 s24 tf T. E. TAYLOR, this Office.

NOTICE

IS HEREBY GIVEN THAT ON THE 22nd day of April, 1873 Orson A. Dispain's cash entry R. and R. No. 182 of the N ½ of the S W ¼ of Section 12, S 3, R 1 E, was suspended in Washington, for the reason that in the Township Plat it appears that this tract was returned as mineral land and a hearing was ordered by the Commissioner of the General Land Office to determine the mineral or non-mineral character of the said tract. Therefore, the 27th day of June, 1874, is set for hearing for the said Orson A. Dispain, whose post office address is Granite, Salt Lake County, Utah Territory, to appear at the U. S. Land Office, Salt Lake City, Utah, to prove the non-mineral character of said land and of each equal subdivision of the same, at which time all persons are notified to appear and show the mineral character of the same, there being no mineral lying on the same or no known mineral mines in the immediate vicinity. WILLETT POTTINGER, Register. GEO. OVERTON, Receiver. w17 lm

SCHUTTLE WAGONS!
