The Londou Telegraph's special from Batoum says about five o'clock on Friday morning the Russians, largely augmented, ad-vanced with field artillery and made a furious attack upon the heights defending Batoum, on the land side, occupied by Bashi Ba-zouks. The Ottoman troops were-entrenched, and opened a terrible well-sustained fire of cannon and musketry, which literally mowed the Russians down in swathes. They fell by scores and hundreds on the plain below. A body of Turkish horse and foot, taking ad-vantage of a thick forest, broke forth upon the flank of the Russian column and effected great slaughter, the Muscovites,

were desperately maintained, but towards midday their artillery fire gradually slackened, and they at considerable losses. Eyewitnesses to this important

engagement testified that the Ottoman soldiers behaved admirably. They had, however, during a great part of the action, the advantage of entrenchments on high ground, and it is due to this fact, no doubt, that their losses, compared to the Russians', were insignificant.

The London Telegraph's Batoum dispatch, dated Saturday, says the victory was won by the extraordinary courage of the Bashi Bazouks. The dead and wounded Russians exceed 4,000. The engagement lasted four hours. The last of the Russians did not withdraw until near midnight. The Russians lost many guns. The only Tuckish officer of note killed was Khalim Bey, major of the irregulars.

Willard, May 12th-. The song of the day is "How are the Grasshoppers?" And the first verse is repeat-ed for a chorus. A large number of men, women and children have been out in the battle field all this week. There have been lots of hopperssiain in various ways, Some are digging trenches, some burning them with straw, while others are driving them in streams of water and catching them in sacks and baskets. Mr. Hubbard and family caught between five and six bushels in one day and burned a great many besides. The health of the people generally is good.

Crop Reports.

CHICAGO, 14.—The Times this morning publishes crop reports from thirty-one counties in Kansas. In nearly every county the total acreage under cultivation largely exceeds that of last year; and wheat, oats, rye, barley, etc. never looked better for a heavy yield. Corn planting has been delayed by the backward spring in few localities. The grasshoppen question remains an unsolved prob lem, but it seems to be generally settled that Kansas will almost wholly escape the destruction of her crops by the locusts this year.

Beecher on the Heathen Chinee.

NEW YORK, 14. - Beecher, in iving notice yesterday of a lecture by Prentice Mulford, upon the Chinese in California, said, "We are in danger of repeating toward the Chinese those errors and mistakes and crueities that we were guilty of towards the African.
