

**TEXAS MOB BURNS A NEGRO.**

Was Swung to a Tree and a Fire Built Under Him.

**CHARGED HIM WITH MURDER**

**Thousands Have Kidney Trouble and Don't Know It.**

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells you more about it, both sent absolutely free by mail.

Address Dr. Kilmer & Co., Swamp-Root Co., P.O. Box 589, Binghamton, N. Y. When writing mention reading this generous offer in this paper.

**HE IGNORES CHAMBERLAIN.**

Kitchener Pays No Attention to His Proclamation.

**BOERS NOT SURRENDERING.**

**The Colonial Secretary's Promises and Menaces Have No Effect Upon Them—Suspicious Stock Captures.**

New York, Aug. 21.—Lord Kitchener's weekly summary while not so encouraging for the British side as the previous one, accounts for 427 Boers and a large quantity of stock, says the London correspondent of the Tribune. The report does not contain evidence that the recent proclamation is exerting much influence, since the voluntary surrenders are below 100 and less than the number reported in the recent summaries.

Lord Kitchener's mobile columns are scouring the country and doing their work without reference to the menaces or promises of Mr. Chamberlain's proclamation. The captures of stock reported from week to week are so large as to excite the suspicion that the horses and cattle have been taken only to be re-captured by the Boers. Otherwise the agricultural wealth of the Dutch republics has never been rated adequately. Military men admit that a considerable portion of the stock taken is lost before it can be driven into the fortified camps along the railways and that much of it has appeared in the summaries of captured property two or three times. The prisoners, however, are not allowed to escape and their number is steadily increasing. It is estimated that the British government is now feeding in military prisons or camps of concentration, about one-third of the entirety of the population of the two republics. This estimate does not include refugees from Johannesburg and British localities.

The Boers' business like report upon the progress of the war helps to explain the pause in the British operations which was as notable a feature of the early summer months. Seasoned troops had been withdrawn and the new men sent out required many weeks of training to make them fit for their work. The imperial yeamery have cost the British nation more than their wages to keep.

**Medical Students Will be Barred.**

New York, Aug. 21.—A very large number of medical students of the city and state of New York will be barred from the September preliminary examination for admission to practice, if a ruling of the state regents holds. About 2,500 students are eligible to sit for the regents have required that no one under 21 years of age. This will bar about one-half of those otherwise eligible. The students have brought the matter to the attention of the authorities of the university and Bellevue hospital medical colleges, Cornell medical college, and the College of Physicians and Surgeons, and the secretaries of the California medical associations, and the colleges of the United States—have promised to use their best endeavors to have the regents change the ruling in their students.

Sittart demanded his arrest of the superintendent of police, and charged him with complicity in the attempted blowing up of the British rule ship, Mechanic, which occurred at the stock landing below the city early in the morning of the 9th of August.

**Valuation of Idaho Sheep Reduced.**

Boise, Ida., Aug. 20.—The state board of equalization today reduced the assessment valuation of sheep in this state from \$2.9 a head to \$2.50.

**Swan Knudsen's Body Found.**

Grangeville, Ida., Aug. 20.—The dead body of Swan Knudsen was found on the Salmon river trail near the state bridge in Idaho county. The man had been ambushed and murdered, and his pack horse was also killed. A bullet had penetrated Knudsen's head and another had struck him in the breast. The crime is clouded in mystery.

**A LITTLE BIG WASTE.**

**D**ISTINGUISH between economy and wisdom. Sitting at home to save shoe-leather is economy, but it is scarcely wisdom. In the same way, doing without Ivory Soap is economy but it isn't wise; your risks are greater than all possible saving. Every cheap soap contains free alkali. Now, free alkali will eat its way through the new oil cloth on the kitchen floor. Imagine, then, what it will do in a single Monday's washing! Is such economy wise?

Dallas, Tex., Aug. 20.—A dispatch received here tonight from Whitesboro, N. Y., says the negro, Alf Wilder, was charged with the murder of Mrs. Caldwell, the wife of a Grayson county farmer, and a bride of six months, who was taken to a tree and burned to death on Saturday last, was captured by a mob and burned at Nelson's farm, two and a half miles east of Whitesboro. The burning occurred early in the morning. The mob was composed of 200 men.

The negro was taken to a tree and swung up in the air, wood and fodder piled beneath his body and a hot fire kindled. It was suggested that the man ought not to die too quickly, and a party went to Dexter, about five miles distant, to procure coal oil. This was thrown on the flames and the work completed.

The negro was captured near Dexter on Saturday afternoon. He had been seen before by a negro who knew him, and who had informed the citizens. The case was at once organized, and the party went to Dexter on Saturday night.

It was said that it was the intention of the mob to take Wilder to the jail, but he was warned by telephone and fled. He was captured near Dexter on Saturday night.

At Whitesboro a great crowd had gathered in anticipation of a chance to participate in the lynching, and when it was learned that the work had been completed, they expressed great disappointment.

Caldwell was a bride of but six months.

Dexter is far from railroads. There is no telegraph facilities, and it will be some time before all the details of the lynching can be learned.

**Old Woman Suddenly Made Rich.**

New York, Aug. 21.—Henry Dolan who died in this city a few days ago, left an estate valued at \$8,000,000. He had no near relatives here and his property is to go, it is understood to his niece, Mary L. DeForest, of Irving, Marshall county, Kansas. She is the daughter of his only brother and is an old woman now with several grown sons and daughters.

Dr. Dolan was past 80 and eccentric. He was also philanthropic, the negroes being his special favorites when it came to dispersing charity and he always gave with a free hand. It is estimated that he gave away hundreds of thousands of dollars. Dr. Dolan for the last thirty years has been a member of the Union club, of which organization he has been a member since 1862.

Practically all his fortune is in New York real estate.

**Will Establish Shipyard.**

New York, Aug. 21.—A controlling interest in the structural iron and steel company of Baltimore has been purchased, says a special to the Tribune, by capitalists from the United States. It is proposed to establish a shipyard in connection with the iron works. William T. Stillwell is the president of the company.

**Consolidation of Lumber Firms.**

New York, Aug. 21.—The consolidation of the lumber concerns in what is known as the Chequasset Co., with a capital of \$1,000,000, is announced. This, according to Chas. E. Corke, president of the Chequasset Lumber company, says the Tribune, is the result of the consolidation of the Muskoka company going into the hands of the receiver, is announced. Mr. Corke named the following as the organizations which will form the Chequasset company: The Chequasset Lumber company, New York; the American Hardwood company, Cincinnati; the Muskoka Lumber Co., North Tonawanda, N. Y.; the Sylvania Lumber company, Philadelphia; the Delmar and Collins company, Pittsburg; the Baltimore Lumber company, Baltimore; the Chesapeake Lumber company, Baltimore; the Stork Lumber Co., Baltimore; the Towson Lumber Co., Towson; the Perry company, Pittsburg; the Manor Lumber Co., Corbett, Md.; the Parkton Lumber company, Parkton, Md.; and the Suburban Coal and Lumber company, Garrison, Md.

In all these companies, says Mr. Corke, and his reason associates are largely interested. The combined sales of the companies at present are about \$3,000,000.

**Attorney General on Trusts.**

Answers the Letter of the American Anti-Trust League.

Information Requested Not in His Possession—Makes Some Short and Sharp Replies.

Washington, Aug. 20.—Attorney-General Knox today sent the following letter to the joint committee of the American Anti-Trust League and District Assembly No. 66, Knights of Labor, in reply to one from the committee requesting information from Mr. Knox regarding the United States Steel corporation.

"Washington, Aug. 20.—H. B. Marlin, Chairman Joint Committee American Anti-Trust League:

"Sir—I have the honor to acknowledge the receipt of your letter of August 18, 1901, in which you request to obtain for your certain information with reference to certain alleged 'agreements or understandings between the constituent companies and individuals who organized the United States Steel corporation.' You ask me to assure you all the information that I may possess or can obtain, and you specifically refer to an alleged 'trust or syndicate agreement' which you state the president of the United States Steel corporation, C. M. Schwab, 'refused to furnish the United States industrial commission when on the witness stand before that body,' and you further state that your request for information to be understood is a request for information of a similar kind with which you are acquainted or which you can obtain for us.

"You also state that your request for information is founded upon the belief that at the time this contract, or contracts was or were made that I was 'in some way officially connected with the Carnegie company,' and you therefore assume that the information which you request to be put in my possession or conveniently at hand, I am therefore requested to give you substantial facts, or, if possible, a copy thereof.

"I am sorry to permit me to say that your request is founded upon an erroneous assumption. I do not know who the individuals are who organized the United States Steel corporation. If they are the persons referred to usually in the newspapers as the promoters of that organization, with the single exception of C. M. Schwab, I do not know, never saw and never was in any way connected with any of them. I never heard of an agreement between them, and the constituent members of the steel corporation.

"Neither at the time of the formation of the United States Steel corporation, nor at any time, was I officially connected with the Carnegie Steel company. I was formerly one of its legal advisers in the conduct of its manufacturing business, but was never connected with reference to the formation of the United States Steel corporation, in relation to the sale to that company of the shares of stock held by the stockholders of the Carnegie company.

"I have never seen the papers or agreements to which you refer nor have I been informed of their contents. I have no knowledge whatever of their existence, the terms or scope, I am thus specific, as I desire to cover both the spirit and the letter of your inquiry.

"I may say, however, that I have access to the agreements or papers to which you refer. I know nothing of the one to which you especially refer, and do not even know that such an agreement exists. The information you request is not in my possession or conveniently at hand, as you assume, and it is therefore impossible for me to comply with any of the requests set forth in your letter. All this information you could at any time have acquired through the usual method of direct personal inquiry, thereby avoiding the doubtful propriety of addressing me through the medium of an open letter which you conceivably delivered to this office. Whether, if such papers were accessible to me, it would be my duty to obtain them and furnish them for use in legal proceedings to which you are a party, and the nature of which you do not explain is a question which I do not care at this time to discuss.

"If I may regard the letter as addressed to me ordinarily I would say, if this department is under obligations to furnish information to prospective litigants in undisclosed proceedings, its responsibilities and labors are necessarily greater than they have ever been imagined from the time of its formation. Indeed, as there are generally two parties to every controversy, it would be difficult to justify such alleged duty to both parties in view of conflicting interests. This department was not called into being to furnish information to private litigants. Its duty and its object is to enforce the federal statutes as interpreted by the courts wherever there is probable cause for believing that they have violated. Very respectfully,

"Attorney-General."

**Relieving British Troops in China.**

Peking, Aug. 21.—The British troops who have been here since last year are leaving and are being relieved by new commands. Three companies of the Fourteenth Sikhs and a battalion of the Sixth Burma have arrived. Col. Cary replaces Col. Alexander as commander in Peking.

The failure of the British to evacuate Peking annoys the Chinese officials. They alone refuse to permit Yuan Shih Kai's troops to enter Peking, though only two of the twelve proposed posts are within the former British section. Chinese officials confess that the reason given for the court's delay in returning to Peking is a mere pretext. The excuse offered recently has been the bad condition of the roads, the heat, the difficulty of procuring provisions, and the desire to celebrate her birthday at Kaifeng Fu. The real reasons are that the powers still retain supremacy in Peking and vicinity, and evacuation has not been accomplished.

Chinese censors are becoming obstructivists. They have sent several memorials to the throne, especially denouncing the Chinese for assisting foreigners who thought their aid necessary in the administration in the affairs of Peking.

**St. Louis Exposition.**

President Will Issue Proclamation Notifying Foreign Governments.

New York, Aug. 21.—Ex-Gov. D. R. Francis, of Missouri, who is president of the Louisiana Purchase exposition, is in the city. Preparations for the exposition, he says, are advancing.

President McKinley, Mr. Bryan, a proclamation to the governments of all the foreign countries inviting them to take part in the exposition. The exposition has appointed a special commissioner for Alaska and one for the Hawaiian Islands. The plans will probably be completed in the early autumn. There will be main buildings.

**Affairs in Philippines.**

There Are to be Nine New Bishops in Islands, Seven to be American.

Manila, Aug. 21.—Influential Catholics here say they have reliable information from Rome that the Philippines will have nine new bishops, seven of which will be presided over by Americans, giving the islands an archbishop and twelve bishops.

Gov. Taft expresses satisfaction with the results of his recent trip through the northern provinces to establish civil government there. He thinks the great rivalry between the various political factions speaks well for the interest felt in the government. Wherever it was possible, natives were invariably appointed governors.

The Philippine commission arrived at Laoag, North Luzon, yesterday and received an unusual reception, some of the delegates welcoming them having traveled forty miles through a mountainous country. There are no signs of hostility to the Americans in the province. The inhabitants have been struggling with the most tangled politics.

The military authorities advocated the appointment of an American for governor of the province, but they were opposed by a number of the delegates, who urged the appointment of a native. Among those supporting the contention that a native governor was a factum led by Bishop Aglipay.

The commission appointed the candidate of the military authorities, but all the other officials appointed are natives with the exception of Lieut. Currie, who was appointed treasurer.

A typhoon is threatening and the commission therefore shortened its session and is making haste to reach Aparri, province of Cagayan, by sea, before the storm breaks.
