

Educational Matters.

A Course of Reading by Young People—Rawland Hall—The Public Schools—Notes.

The following suggestions as to a course of reading by young people, are offered by Professor R. J. MacLean of the Agricultural College, Logan.

The people of Utah, with their rapidly increasing population, are in need of a course of reading, with the highest educational attainments, and the most practical knowledge of the world. The people of Utah, with their rapidly increasing population, are in need of a course of reading, with the highest educational attainments, and the most practical knowledge of the world.

There are many who, however interested, must consider their school days past—yet many men and women, for various reasons, must early assume the duties and responsibilities of active life. In these, the older students, a large portion of this class is reached by a system of "university extension" lectures, in which university professors, lecturers and lecturers, are invited to give lectures in the various departments of knowledge, and to the young people in their own neighborhoods. In this, the young people are given the opportunity to hear the best of the world's literature, and to hear the best of the world's literature, and to hear the best of the world's literature.

Learning how to choose books, and how to use them, is a large part of the education given by the schools. The person who would choose his books, and how to use them, is a large part of the education given by the schools. The person who would choose his books, and how to use them, is a large part of the education given by the schools.

THE CONTRIBUTOR,

THE AUTHORIZED ORGAN OF THE Y. M. M. I. A. OF UTAH.

Prospectus for Volume XVI

1894-95.

In this volume we propose to introduce the following special features among many other instructive articles of general interest.

Shining Lights. How They Acquired Brightness.

Under this heading we design giving a series of biographical sketches of some of the prominent living men of our community, and tell what means they adopted to attain success. These articles will be illustrated with full size engravings of the persons mentioned.

Temple Manifestations.

There have been many remarkable experiences of Latter-day Saints in our temples which have never been recorded. These incidents have a tendency to create and encourage faith, and consequently the knowledge of them should be widely disseminated. A series of articles on this subject will be presented in Volume XVI of THE CONTRIBUTOR.

Sermons from the Prophets

will be the title of a series of articles by Dr. H. H. HARRIS, containing the choicest gems of thought of the leading men of this dispensation. Part attention will be of inestimable value to all young people, and will be completed with special reference to Mutual Improvement work.

Beyond the Arctic Circle.

Continuing through Volume XVI, will be published an intensely interesting narrative, richly illustrated, of experiences and observations in the Land of the Midnight Sun, by Elder Nephth Anderson.

The Study of Self.

Professor George H. Hinckley, M. H. Hardy, and other able instructors will handle this subject and present such ideas to young men as will enable them to better understand themselves, and thus more rapidly attain the better model whose life and character we should constantly keep in mind.

Prof. N. L. Nelson, whose excellent articles in Volume XV of THE CONTRIBUTOR have been of such great service to all readers will continue to write on.

Preaching and Preaching.

In the first six numbers of Volume XVI, these articles will be devoted especially to the compilation and delivery of sermons. NELSON will write on.

Mormonism and Theosophy.

a subject which, in these times, is of special interest, and should be carefully studied by the Latter-day Saints.

Reminiscences of the Scandinavian Mission

will be treated by Elder Andrew Jensen, than whom no person is better qualified to write upon this interesting subject. In this series must be a large unpublised history and many facts and incidents not generally known will appear.

M. I. A. Manual, Part II.

prepared by Professor M. H. Hardy and George H. Hinckley, and approved by all the M. I. A. general officers, will be published in Volume XVI. Every association member should study carefully these lessons. In the new volume will be issued the

Prize Story and Prize Male Quartette

for which THE CONTRIBUTOR offered prizes at the Territorial Fair of 1894.

We will also aim to have a valuable piece of

Vocal Music

In each number of the new volume.

Our Illustrations

will be of the very highest class, and mostly original. They will also be abundantly used in the volume.

Department of Inquiry

We propose to devote not to exceed three pages of each issue to the answering of all proper questions, the answers to which will be of general interest. Inquiries concerning association work, doctrine, missions, etc., it will be the endeavor of THE CONTRIBUTOR to answer.

Association Suggestions.

It will be the aim to present in an instructive and entertaining manner, items of general interest and benefit concerning Mutual Improvement work. In order to make this department of general value we cordially invite those actively engaged in association work to give us the benefit of their suggestions.

Our Missions

throughout the world will receive attention, and everything of interest or profit connected therewith will be communicated to our readers.

As Writers

for the coming volume we will have some of the most able among the people. Every effort will be made to make THE CONTRIBUTOR what it should be—a worthy organ of the Young Men's Mutual Improvement Association of Utah.

Many New Features

Which We Cannot Now Mention, Will be Introduced in Volume XVI of THE CONTRIBUTOR.

Subscription Price \$2.00 Per Year, Postpaid.
