ts order to Deal with Pugilistic Prisoners-Gymnasium to be Bigged Up for the Police.

A movement is now on foot to revive interest in athletic exercises among Salt Lake's "finest," and so far it is meeting with hearty approval. The men have not forgotten the delight they experienced of yore, in putting on the "mitts," punching the bag, wrestling, swinging Indian clubs, etc.

For several days past a number of the officers have been urging the organization of a gymnasium at police headquarters. "I think it would be a spiendid thing," said Chief Hilton yesterday afternoon. "I remember when Land and I used to box with each other and I enjoyed it."

Officer Jim Williams stated several days ago that he would gladly assist in fitting up a gymnasium and would also be pleased to give the boys pointers in the art of self-defense. The idea is belean out the large room in the basement underneath the officers' quarters, and stretch a canvas over the floor. A punching bag will be put up, a couple of sits of boxing gloves, Indian clubs, and sher muscular developing implements will be purchased. Jim Williams said vesterday that the boys would be in no langer of taking cold while practicing a the basement even though there is As stated above the fire there. sheme is meeting with much favor and doubtless in the near future it will materialize.

SEATING RACES ARRANGED.

Will Take Place January 4th - One and Five Miles for State Championship.

On January 4th the first of a series of skating races will take place on the eight-lap course at Tenth South and

state street. Races will be for one mile and five miles for the State championship and the winners will be presented with gold medals. Following these races several match races will be arranged, for specal prizes. A great deal of interest is manifest among local skaters and a sumber from Provo and Ogden will doubtless enter the races.

He secured in his purchase 150 head of Lincoln-shire buck lambs, averaging 142 pounds per head, the lightest weighing 116 pounds and the heaviest 173 pounds. Mr. Oswald will keep these lambs at his feed lots at Wood River. The coming spring he will ship them to his range in Idaho, where they will be put to service with his great flocks. Mr. Oswald says he has the finest lot of buck lambs ever shipped out of Canada, and expects great results to accrue from their superior breeding qualities, and in the near future will have one of the best and largest well bred flocks to be found in the western country."

ANXIETY OVER SITUATION.

Speculation on the Campaign-England Urged to Take Delagoa Bay -Kruger Would Make Peace.

New York, Dec. 22 .- A dispatch to the World from Modder river, Dec. 16, says: The Boer ambulance which came for the Boer wounded in British hands have just passed out to the Boer camp.

Du Boit, the Boer general, complains that the British brought up guns and ammunition in ambulances. The Boers thoroughly believe the

story, to which color was given by the firing of a naval gun by the British during Tuesday's (Dec. 12) armistice, after Methuen's crushing defeat at Magersfontein.

No doubt the Boers were warned of Monday morning's attack by spies, one of whom is being tried today.

New York, Dec. 22.-A dispatch to the World from London says: The London Morning Post of today prints the following from its military expert

"If it be true, as well informed persons assert, that the troops in South Africa are without transport, divisional, brigade or regimental, except such ox-transports as the generals have been able to get together, many things which at first sight appeared absolutely inexplicable become intelligible. Even the dispersion of a force becomes capable of, if not justification, at least explanation. A general can do nothing with troops he cannot feed.

"The situation resulting from these conditions is not pleasant to contemplate. It led to attacks on prepared positions which every general would have preferred to flank or turn.

"The neglect in this case has been that of the political clash leaders of both parties. They have not for many years taken seriously the possibility of war as a conflict in which the nation's existence or that of the empire might be staked.

"The movements so far do not bear out the idea that the military depart-ment of the war office is out of order. but there are many things which the military department cannot do of its own initiative, one being the spending of large sums of money not set down in the annual estimates. The economy of money, due to a false esti-mate of the political situation, translates itself in a few months into heavy

"Every little dodge which can throw dust in the eyes of the English is resorted to and helped by the Portuguese in Delagoa Bay.

"Bear this very much in mind, for it is a vitally important point. Were Delagoa bay today a Boer possession it would be infinitely better for the British government, because he would then know what to do, but today we are powerless to search vessels properly or to prevent recruits from arriving. "In the light of what we know, there is nothing to do but for England to remember that she has a fleet and to

use it to occupy Lorenzo Marquez.

"If England acts thus with regard to Delagoa bay the war will be over in three months. If she leaves things as they are now the war will last for at least a year. "If England takes Delagoa bay she

will have nothing to fear. France will not move without Russia, and if Russia moved she would have Japan on

top of her. "Germany has been paid." "What do you mean by that?" was

"I don't mean exactly in cash, but in promises of a guid pro quo in Africa. In a short time you will find that a convention between England and Ger-many will come to light.

The crux of the present question for England in South Arica is, briefly, that if England wants to finish this war she has got to buy or occupy Delagoa bay, and remember she has got a pre-emp-tion in the matter of purchase."

New York, Dec. 23 .- A dispatch to the Herald from Paris says: The Matin contains an interview with Dr. Leyds, the representative of the

Transvaal in Europe Dr. Leyds says that even the most incredulous are now beginning to think

right will win the day in South Africa, and that even England seems to be losing her illusions on the subject, "Still," continues Dr. Leyds, "I am

glad to repeat, especially after our series of victories, that we shall al-ways be ready to listen to proposals of peace, provided they are equitable.

Dr. Leyds complains bitterly that he can only correspond with Pretoria by letter, adding that the British cable censorship is a flagrant abuse of her

monopoly. Asked regarding the safety of the mines, Dr. Leyds said: "The mines have been intrusted to safe and loyal hands. President Kruger has set troops and police to guard the property, and

the bank to remain open lenger will result in injustice to unsecured creditors, now that the condition of insolency is found to exist, it becomes my duty under the law to appoint a re-ceiver. A considerable cash dividend can be paid to creditors at once.

The condition of the bank was dis-covered by Special Examiner Wing in time to secure such action on the part of the directors as will probably prevent the failure from inflicting heavy losses upon the depositors, but the directors and stockholders will lose heavily.

The bank, it is understood, was involved in the Squire failure and in mining stocks.

The following is a condensed state-ment of the condition of the bank, as reported to the comptroller, December

It is a peculiar thing that the use of Coffee and Tea has not been replaced, more than is the case, by the use of Van Houten's Cocoa.

The reason for that is to be sought in the force of habit. But habits should be broken through, and Van Houten's Cocoa taken, now that it has been proven to be a much healthier and more delicious drink than Tea and Coffee, while at the same time so nourishing and easily digested.

For the Nerves, also, Van Houten's Cocoa is so much better; because, although it is equally refreshing, it has not pernicious after-effects upon the nerves, such as follow after using Coffee or Tea.

It is not an expensive habit to use Van Houten's Cocoa; indeed, after actual trial of various brands, and even loose cocoa, many persons have discovered that Van Houten's Cocoa is not only the best and most delicious, but it is also the most economical.

"The three league scheme," declared Mr. Hart, "is one that will bring harmony and establish baseball on a good basis all around. I am heartily in faver of it and hope to see it accom-plished. French Earl Oliver, the Evangelist, gave another sermon on the sinful man and woman last night. He poured out the vials of his earnest wrath upon the

heads of dancers, theater-goers, cardplayers, and everyone else, whose presence was not an inspiration for good, and whose words were not a benediction. Mr. Oliver is a decided believer in the idea that the world has gone astray, and he thinks the so-called

Christians are to blame for it. What the Lord wants, says Oliver, is a man who is genuine through and through,

not a sugar-coated, nickel plated Christian, for they are no more potent for good than a post. He thinks any police court in the country can be bribed for \$50. He says he is going to remain here and look into things very carefully, and promises to scourge for the delectation of the public, all the forms of vice and iniquity present in

the city. Nothing is going to escape his eagle eye, and when he gets through there won't be anything for the devil to levy on but a corset string and a back tooth.

THOSE LITTLE VESTS.

We spoke of yesterday caught the mothers by storm-fully half of them found owners by closing time -and we judge the other won't remain long. They're certainly the swellest things we've ever seen-they're of fancy silk-single or

double-breasted style-just like men's-for ages 3 to 10. Price, \$2. glove section? If you're doubtful THE HOUSE COATS.

THE BOYS' CLOTHING.

For gifts? Yes, and what sensi-ble, serviceable gifts to make, too. We do believe people are geiting more sensible in gift-making each year; guess that's why this business grows greater each year; guess that's why we sell more boys' clothing each year. Any kind of a boy's suit you want, for any kind of a boy, for any kind of a price, \$1.00
