

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY.

CALIFORNIA VEGETABLES.—Green peas, cauliflowers, radishes, onions and other vegetables, imported from California, are now for sale in the market of this city.

ERRATA.—By a mistake of our types, Elder John Taylor was made to say, in the minutes of the Conference, "As great improvements had taken place in literature, science, &c., that there ought to be a corresponding improvement in religious matters." It should have read, "men thought there ought to be a corresponding improvement in religious matters." It was also made to appear that Conference was adjourned till the 9th instead of the 6th of Oct.

PETTY STEALING.—On Saturday last, Mr. Ellsworth, of Coalville, left his buggy in the Tithing Office yard while he put his mules in the stable and when he returned to the vehicle he discovered that some person had stolen from it an overcoat and a lady's cloak. Brother David Hilton, of the Tithing office, also informs us that during the last few days he has missed several ropes, halters, &c. Persons who would be guilty of such petty acts of dishonesty are supremely small and contemptible.

RETURNED.—Brother W. D. Roberts reached this city last night from his trip East, bringing a number of choice fowls, and one hundred and twenty-five stand of honey bees. All parties who are entitled to a share of these bees are requested to apply for them as early as possible to S. H. Putnam, at Dinwoodey's cabinet and furniture manufactory, near the meat market in this city.

This installment of bees makes 673 stands in all that Brother Roberts has imported into this Territory.

Elder Hopkins Pender reached home on Saturday night from his mission in the Eastern States. He left here a year last October, and has traveled and preached in Missouri, Illinois and Iowa, and has baptized some fifteen or sixteen persons. He was sometimes abused on account of his religion; but the generality of people treated him kindly, and he never was in want of food or shelter during his trip. He returns in good health and spirits.

MEETING AT CITY HALL.—The meeting at the City Hall, last night, of the members of the society for the importation and improvement of stock, &c., was thinly attended and but little business was done. The rules and regulations for the government of the co-operative fish association were read, accepted and the committee discharged.

A communication on sheep-raising, from Mr. Joseph Harker, a man who has had large experience in the business, was read and will appear in the News at the earliest opportunity.

Some talk among various members then took place about the importation of hybrid bees from California, some two hundred swarms of which have been offered by a nephew of Mr. Phineas H. Young, at such a figure that it was thought they could be laid down here at ten or twelve dollars a stand. Without arriving at any conclusion the meeting adjourned for two weeks.

SALT LAKE CITY, April 9th, 1871.

Editor Deseret News:—Dear Sir, I wish to correct a statement made in the News of the 8th inst., in relation to Newton, Clarkston and Round Valley, to the effect that the grasshoppers and their eggs were so numerous in those places that the people felt discouraged and were consequently sowing but little grain. It is not the case in Clarkston, there being no eggs in that settlement, and the people are sowing a greater breadth of land than on any previous season, and feel quite encouraged. I am not posted with regard to other localities, but hope people will nowhere neglect to put in their crops, for those who do not sow cannot expect to reap. It is time we did reap for we have suffered heavily from the ravages of the insects for the last five years, but trust it has all been for our good and that we will profit thereby.

Yours truly,
SIMON SMITH.

FROM WEDNESDAY'S DAILY.

FRUIT.—Owners of orchards containing apricot trees have felt some apprehensions about this fruit during the cold weather we have had a part of the time since Spring opened. So far, however, we believe the fruit is not injured to any extent, and though the weather is still cool, yet it is probable that the fruit will escape frost. This cool weather is an advantage to the fruit. A backward Spring is generally followed, in this country, by a fruitful Summer, especially in the case of orchards. perambulate nice clean graveled sidewalks. It is a good work; the gravel will soon become packed and solid if kept moistened, which we suppose will be done.

TRADE.—The Spring trade has now fairly opened; and there is an unusual amount of freight arriving per the U. C. R. R. Our principal stores are doing a very good business, and there is an appearance of business and bustle in our streets now not noticeable a year ago. The old and well established firms in the city will, without doubt, do a good business the coming summer months,

but there is a possibility of some others, who have started into business with the idea that they have the "world by the wrist," being disappointed.

SECRETARY'S OFFICE.—Secretary and Acting-Governor Black has removed his office to the building formerly occupied by Mrs. King, on First South Street, a few doors east of Hooper, Eldredge & Co's bank.

A PHENOMENON.—We were, yesterday, informed by a gentleman that, on Monday night, he saw, suspended perpendicularly in the air, directly over the north eastern part of the city, a brilliant streak of light, in the form of a pole, about nine feet long, and two wide. There were other persons who saw this curious phenomenon.

BUILDING MATERIAL.—Lumber and in fact all kinds of building material is just now commanding a good price and ready sale. Mill owners are making preparations for doing a heavy business and most of the mills will without doubt be run to their utmost capacity the coming summer. The amount of building being done in this city at present is unprecedented here. This state of affairs is likely to continue, too, for some months.

PROGRESSING FAVORABLY.—Parley Burrows, the boy who accidentally shot away a portion of his left hand on Sunday morning, is doing well, although suffering considerable pain.

EMIGRATION AGENCY.—Elder W. C. Staines, the Church Emigration Agent at New York, will leave for that city on or about the 21st inst. All persons here wishing to do business through him had better see him before the above date. His New York address will be, as formerly, Box 3957.

A HEALTHY ORDINANCE.—The City Council of Ogden on the 10th inst., passed an ordinance for the protection of quails. It makes persons killing any of those birds liable to a fine "in any sum not exceeding twenty-five dollars for each offense."

SPRING CITY.—George Brough, in a letter dated, Spring City, Sanpete Co., April 10th, says: "For a few days past the weather has been very stormy and unfavorable for seeding, although considerable grain has been put in, and much more will be sown as soon as the weather clears. There are not many grasshopper eggs in our fields, and the people feel confident that good crops will be raised this season. General good health prevails here."

GUNNISON.—H. Thunneson, writing from that place on the 7th inst., says that times are rather dull there and the people are rather cramped for means as they are exerting themselves to pay for their lands, which are now in the market. Some grain had been put in but not so much as usual on account of some being short of breadstuff, a few not even having sufficient seed wheat. A large quantity of rock salt had been shipped from there last year and one reason of the tightness of the times was that those who had contracted for it had not paid those who supplied it.

ST. LOUIS.—Elder Thomas Harris, President of the Branch of the Church in St. Louis, reports things in a prosperous condition in that locality. Since the arrival of Elder D. M. Stuart, who was appointed to labor there last fall, matters have assumed another appearance; as the dead twigs are cut off the branch assumes a flourishing condition.

Elder Stuart commenced to deliver a course of lectures in his original style upon the principles of our faith, last February, which have been well attended by a respectable portion of the community, and a number have been added to the Church by baptism.

SURGICAL OPERATION.—For some time past John D. T. McAllister, Esq., the Territorial Marshal, has been troubled with a Sebaceous Tumor on the parotid gland, close to the lobe of his left ear. Various remedies have been tried by him to remove it; but they failed to affect or reduce it. As it was still enlarging he consulted with the surgeons about having it removed by the knife, and they decided the operation was practicable and comparatively safe. This morning he underwent the operation, Drs. Anderson, Bernhisel and Heber J. Richards being present, the latter gentleman performing the dissecting. It was a very difficult case, not so much because of the extracting of the tumor as the calloused nature of the skin and flesh. They were as hard to dissect as integument itself, the remedies which had been applied having cicatrized the part; the sack also of the tumor was fastened to the bone, and it required considerable trouble to get it free, as it was a place where the knife could not be used without risk. The operation, however, was thoroughly successful, and occupied eighteen minutes. The patient was under the influence of chloroform.

MARRIED.

In this city on the 10th inst., by Prest. D. H. Wells, Mr. CHRISTOPHER J. THOMSON, of this city, and MISS J. H. HANSEN, of Plain City.

AMERICAN SAW COMPANY.

Manufacturers of
MOVABLE-TOOTHED CIRCULAR SAWSAnd Saws of all kinds,

First Premium Awarded by American Institute, Nov. 5th. 1870.The Great Improvement in
ROOFINGH.W. JOHNS' PATENT
ASBESTOS ROOFING

This Improved Roofing Material is entirely different from any other, and is TEN TIMES STRONGER than any other Portable or Composition Roofing in use. It is adapted for steep or flat roofs in all climates, and can be readily applied by anyone.

From Certified Report of Judges' American Institute, Exhibition of 1870:

This Improved Roofing is strong and flexible, unaffected by the sun's heat, practically fire-proof and water-proof, and is really an article of the first order of merit.

HORACE GREELEY, President,
Signed, GEO. PEYTON, Recording Sec.,
SAM'L D. TILLMAN, Corresponding Sec.
From Report of American Institute Farmers' Club, Dec. 6, 1870.

"This material constitutes one of unusual merit, much superior to any of the class previously brought to their notice, and worthy of trial by those who desire a durable, easily applied, comparatively inexpensive and safe roofing, the material having, in addition to the other merits claimed for it, that of being practically fire-proof."
