L Bristow Has Made Careful Study of It at the Instance Of the President.

NICE QUESTION INVOLVED.

Relates to Policy and Must be Settled -It is Desired to Conserve Rights Of All Concerned.

Los Angeles, Cal., March 15 .- Joseph L. Bristow, formerly fourth assistant postmaster general, arrived here today from an official visit to Panama in his capacity as special commissioner to the Panama railway, in which company the United States is the chief owner.

"The Panama railway," said Mr. Bristow today, "has a 50-mile right of way across the isthmus from Colon to Panama, owns many locomotives, passenger cars, freight cars, service cars, steamers, tugs and lighters, and has an authorized stock isue of \$7,000,-000. It is, in fact a commercial enterprise of no little importance, particular-

ly to the Pacific coast interests. It is the president's desire," continued Mr. Bristow, "to be in possession of all the facts concerning the commercial side of this acquisition, which is, as you know, the first railroad to be owned outright by the United States. There are in addition many delicate questions to be settled as to policy, relations with other lines, with connecting steamship companies and as to the manner of op-entian. Hence, where the settlem the settlem companies and as to the manner of op-eration. Before committing the govern-ment to any fixed policy, and that no injustice may be done the shippers, in short, in order to give a square deal to all, it was necessary to make a study of the situation on the ground, and for doet surveys I was assigned.

a five-year term for forgery. He tap-ped the main current wire in the pump house and put in an improvised switch. When ready to leave before daylight Williamson shut off the lights, tied a string to his switch lever, which he at-tached to a water bucket. He punctur-ed the bottom of the bucket and drop-ped it into the water tank outside the building. The water slowly filled the bucket, which was weighted with lead, until it sank, after a period of two hours and a half, and turned on the lights again. In the meantime Wil-liamson scaled the penitentiary wall in a dark spot and escaped. Warden Curtis happened to be at the Southern Pacific depot and recognized the fellow as he was about to board a train for Port-land, and re-arrested him. five-year term for forgery. He tap-

Paris, March 15.—The Temps this af-ternoon published a dispatch from Mad-rid, saying that the newspapers there energefically oppose the government's proposition to give Gen. Weyler a pen-sion of \$2,000 and the grand cross of the Order of San Fernandino in recog-nition of his services as a governor-general of Cuba. The military jour-nals are particularly opposing Weyler, but the government press maintains that his record of services prior and pending the war with the United States has long been overlooked. The press opposition foreshadows a lively contest in the cortes. The general impression Steps to End it in Siam. New York, March 10.-Permission to take steps which may end legalized gam-bling in his country has been asked of several treaty nations by the king of Siam according to the advices received by the Rev. Arthur J. Brown, secretary of the Preabyterian board of foreign missions. Requests are to be sent to America, Eng-land, Germany and other governments for permission to raise elightly the import duties, in order that a part of the revenue now accruing from the gambling conces-sions throughout Siam may be replaced. The larger part of the revenue will be de-rived from an increased land tax. Siam is an extra-territorial country, and its import duties are regulated by treaty. Secretary Brown declares that at present gambling is the curse of the country, where every town has its "official" gambling house, licenses by the government, which frequently auctions the privilege. All are conducted openly and in many of them free entertainments, theatrical and oth-ervises are given nightly to attract 'pa-trease. The missionaries have long pointed out in the cortes. The general impression prevails that the measure will not suc-

tronage. The missionaries have long pointed out to the king that gambling habit is inimi-call to the best interests of Siam and that money the government derived thereby was obtained at a ruinous cost to char-acter and legitimate industry. The king is now said to have accepted this view, and will attempt to institue reforms. New York, March 16 .- After a search o 12 years James Travis of Flushing, L. I. Texas & Pacific Report.

12 years James Travis of Flushing, L. I., has been located in Australia. He ran away from home 53 years ago in a whal-ing vessel, and had long ago been given up as dead by his brotner and others of the family. Twelve years ago a wealthy relative of the family died and willed James \$50,000. Advertisements for the missing man were inserted in newspapers all over the world. The state department also made attempts to find him. Travis finally saw an ad-vertisement in an Australian newspaper and wrote to his family. He had been married, was the father of il children, he wrote, and had prospered financially. The legacy he will now receive has almost doubled in value.

New Geyser in Yellowstone Park

St. Paul, March 15.-Reports received at Northern Pacific headquarters from officials of the Yellowstone Park as-sociation indicate that the new geyser in Norris basin is a permanent addi-tional attraction. It has feen named the "Skyrocket" because of its peculiar appearance when it spouts, and its com-

Appearing on the certificate as president of the company is the name of James A. Kebler. Mr. Keb-ler was never president of the company. There is also on the certificate the forged signature of Secy. D. C. Beaman. The counterfeit certificate has no likeness to the genuine certificates of the company. It is evident from the "like diset" marks near the company's name on the counter-feit that other counterfeits were made at the same time and a strict watch has been ordered in order, if possible to lo-cate the counterfeits and he makers. Washington, March 15.—A delegation of Ute Indians from the Uintah reser-vation in Utah arrived in the city to-day. They are not statisfied with the pro-visions for the proposed opening of their reservation and have come to Washof the "Constant Geyser," located in the same basin. the same basin. The "Skyrocket" plays at regular in-tervals, three times a week and spouts boiling water to an immense height. An odd fact in connection with it is that it made its first appearance on Washington's birthday when it spouted to a height of 300 feet. The noise ac-companying the discharge was terrific and attracted the attention of the cav-alry troop in the park, who witnessed its birth. Maj. Macomb Was Not Captured.

Maj. Macomb Was Not Captured. Washington, March 15.—The general staff of the army is advised that Maj. Macomb, one of the American military observers with the Russian army in Manchuria, was not captured by the Japanese at Mukden and that he is still at Gen. Kuropatkin's headquar-ters. Capt. Judson and Dr. Valery Har-vard, the two observers who fell into the hands of the Japanese, have cabled the general staff they are sound and well.

An Important Literary Find.

New York, March 16.—An important lit-erary discovery is announced from Och-senfurt, a small place near the City of Wurzburg, Eays a Times dispatch from Berlin. D. Hefner, a chaplain there, has found three fragments of a German herolo epic of the thirteenth century. The subject is a love affair of Alexander the Great, and is supposed to have entered German literature from Latin and French sources.

Landslide on the Santa Fe.

Landslide on the Santa Fc. San Bernardino, Cal., March 15.-An-other landslide has occured in Cajon Pass on the line of the Santa Fe railroad and nine passenger trains are tied up in the mountains. Five eastbound and four west-bound. As the storm is still raging in the mountains with a heavy rainfail and strong wind, it is impossible to ascertain the full extent of the damage done to the tracks, but it is thought here that the trains cannot get through until some time late Thursday afternoon.

Torpedoboat's Boilers Explode.

New York, March 16.-A bolier explosion on board the torpedoboat destroyer Lank po during her trial run has caused the death of two firemen, says a Herald dispatch from Venice. Two engineers were injured, but managed to close the valves, preventing a greater disaster.

Earthquake at Naples.

New York, March 16.—Slight undulatory earthquake shocks have been felt in Na-ples, cables the Herald's correspondent in the city. They were more perceptible and longer at Benevento, Solerno, Cassino, Aveilino and Castellamare, causing a panle without, however, doing any dam-age.
