Object of Making Them.

J. H. Clive Returns Today from Pony

District-At the Honorine-News

from Other Camps.

The comparative success that is at-

tending the efforts of the Wandering

Jew Mining company on its property in

the mountains east of Bountiful is

proving a stimulant to other mining

companies," said a mining man on the

streets today. The Bountiful Mining

and Milling company has just let a con-

tract for 400 feet of tunnel work in a

vein that has an excellent outcrop. This

company's property adjoins the Wan-

dering Jew. In addition to this a new

incorporation is now being organized

for the purpose of working other claims in the neighborhood, and it looks as if the mountains in that vicinity will soon be made to disclose a great deal of

The Wandering Jew crosscut from the

tunnel is showing nearly a foot of fine looking chalcopyrite and galena in a new vein from that which has been followed in the tunnel. Some pieces of ore containing rich gold values have been found, and it looks as if the expectations of some of the old settlers.

pectations of some of the old settlers

are about to be realized, who have found pieces of very rich float in this vicinity. Some of the copper ore from the recent strike in the Wandering Jew

THE PONY DISTRICT.

of the District's Big Mines.

J. H. Clive reached town today from

copper ore from which assays were

recently obtained showing from 5 to 10 per cent copper on the surface. At present the vein at this particular blace has been opened up 4 feet deep for a

distance of 30 feet with very encouraging results. At another point on the

vein a shaft has been sunk 100 feet and

some drifting done without encounter-

ing ore. The vein is said to be large and extends for upwards of a mile

plainly visible on the surface. It is about seven miles from Black Rock

HONORINE SINKING.

The Present Undertaking Said to be

a Gigantic Struggle,

trouble with water. It is doubtful, in Mr. Simmons' opinion, if the present course will lead to success, much as it is desired by the Honorine people, and all who have the interests of the old camp at heart. It is necessary to move

Blake sinking pump whenever

round of holes are fired. This takes time, and means that several feet of

water has to be pumped out after every discharge. It is further stated that the

scharge. It is further stated that the ring of the shots by a battery—the use fuse is said to be out of the question

discharges them all simultaneously, nd very little effective work is flone.

The rock is extremely hard, and it is stated that sometimes not more than 2

or 3 skips of rock is loosened by the hots. Trouble is also found in convey-

ing compressed air a distance of 3,100 feet through the tunnel and have it ef-

BUFFALO HUMP.

Great Number of Investors and Pros-

pectors Entering the Camp.

The Buffalo Hump correspondent of the Mining News says that investors and prospectors have been coming into the camp for several days at the rate of 100 a day, and the significant thing about it is that the former outnumber the latter. There are several people here or on the way who represent some of the most active operators of the West. Within the next two weeks a

A Healthy Increase Over Shipments for Same Months of 1899. The shipments of gold from the Bolse assay office since the first of the year shows a healthy increase over the ship-ments for the corresponding months of

1899, says the Bolse Statesman. The total shipments up to the middle of this month have been \$511,925.64. For the first five months of 1899 the shipments amounted to \$454. TO SALT LAKE. 597.35. This shows an increase to the credit of the first five months of 1900 of \$57,328.29. The shipments for the remainder of the month will materially increase it. The shipments by months for the two years were as follows:

January ., ... 4107,741.08 \$120,159.70 May 133,929,53 135,935,2

Total \$454,597.35 \$511.925.64 Increase \$ 57,328.25 This is not absolutely a fair comparison, as the season opened this year fully a month earlier than it did last Still as every month has shown an in-crease the closing down of the season month earlier this year will not serve to destroy a showing of substantial in-crease. The shipments for June last year amounted to \$184,000 and for July,

SIBERIAN GOLD.

California Capital and Miners Will Enter the Russian Gold Fields.

A San Francisco, Cal., dispatch today says: Considerable California capital has been invested in an extensive mining enterprise in Siberia and Manchurla. Concessions for large tracts of land have been obtained from the Russian and Chinese ogvernments, and the work of development will soon be-gin. The Chronicle says that represen-tative of the syndicate has engaged 5? experienced miners in this State and ordered \$300,000 worth of modern mining machinery, besides making arrange ments for the shipment of a million dollars' worth within a year. Part of the machinery has already been shipped from this city and New York, Th mines are placer in character and will be worked on a very extensive scale.

Bull Valley Gold. J. S. Huntsman and J. T. Dotson, who recently bonded a group of claims in Bull valley to Walker Bros.for \$6,000, came in from their other mining property in Bull valley Sunday, and left again Monday for their homes down the river, says the Washington County News. Mr. Huntsman had three returns with him of assays from twelve samples of ore, made by John T. Reed of San Bernardino, Cal., showing values in gold as high as \$162.05, the lowest value of the twelve samples being \$6.20 and the average gold value from the twelve assays \$35,49. Mr. Huntsmon stated that the samples were picked up from all parts of the fourteen-foot vein, some of the apparently lowest values being selected with some of the highest so as to get a fair average of the body of ore. He is enthusiastic over the property and believes it the richest thing in the valley. They intend returning in about ten days to resume

Federation of Miners.

Denver, May 23 .- The Western Federation of Miners elected the old officers and decided to keep the headquarters of the organization at Butte, Mont.

MINING NOTES.

The Carlsa of Tintic had a car of ore on today's market.

A carload of ore was on the market today from the May Day of Tintic. H. S. Joseph went out to Fish Springs today to inspect the Galena mine.

The Taylor-Brunton sampler reported 12 cars of ore from Tintic today. Ten cars of ore were on the market

today from the Centennial Eureka of Eight cars of crude ore and one car

of concentrates were on the market today.

The Conklin sampler reported 9 cars of ore from Tintic and 1 from Nevada John Dern of the Mercur mine is at present visiting his birthplace in Ger-

Superintendent R. H. Channing of the Highland Boy mine at Bingham was in town today.

It is stated that the West Argent Mining company will build its new mill

at the mine instead of at Stockton as at first intended.

Director John Pardise of the Valeo Mining company of Park City, says there is no strike in the lower tunnel of that property.

George H. Robinson has arrived in the city from Montana where he has bene taking part in the big mining suit in progress there.

The directors of the Sunbeam Mining company of Tintic met yesterday af-ternoon and levied another assessment f 10 cents a share, payable immedi-

Manager Pat Ryan of the Golden Star is back from a short visit to that property, and reports it looking very well. Mr. Ryan says that the state ment recently made in the "News" that no shipping ore is exposed on the prop-

Sec'y F. W. Muhlenbruch of the May Day Mining company reached town to-day from De Lamar, Nev., where he went to inspect some prospects. While away he glanced over the De Lamar mill and also visited the April Fool, where five stamps are being dropped on good gold ore

on good gold ore, Hailey Times: The improvements making at the Hope group of mines indicate that the management intends to employ quite a force of men. A dwelling house is being remodeled and en-larged for the occupancy of L. S. Mc-Lure and his wife, who will live at the Hope from now on, Mr. McLure intending to have his headquarters there,

MODERATE BUYING ORDERS

Railroads Made a Better Showing in Wall Street Today,

Then The Market Became Almost Lifeless-Live Stock Fairly Steady - Produce Quiet.

New York, May 23.-Interest in the market, while small, was better diffused then on yesterday, and there were moderate buying orders for the leading railroad stocks. Northern Pacific and Reading first preferred made an extreme rise of a point, but St. Paul, Burlington, Atchison preferred and Union Pacific were up large fractions. Sugar vibrated frequently above and selow 115, while American tobacco rose steadily to 92%. The market was easier at 11 o'clock. The intense duliness was somewhat relieved by buying of Brook-lyn transit, which rose 2½. Sympathetic gains were made in some of the specialties. Standard railroad stocks vere almost lifeless after falling back o near last night's level. Sugar lost all its advance in the last

hour and dragged the market backward with it. The closing was heavy and almost lifeless, and net changes were
