MONTANA OIL. Four Ounces of Petroleum in

Pound of shale.

Millon, (Mont.), Examiner-William O'Rourke, of Dell, was in town Monday organizing a toral company to up some of the oil hands in the field about four miles west of Dell many to take lest of Dell. Several of the young men of town have and several 160 joined in the company tere tracts will soon 1 located by Mr. O'Reurke for the new While the oll fields among the last to be company. near Dell are scated, it was

there that the first of ations ever found in Beaverhead. aunty wore disfound in Beaverhead county were dis-covered. Over twenty years ago oil was found on the seepages from the springs in that vicinity, and at that time considerable work was done on some lignite coal deposits. In recent years these coal mimes have been re-located and at present several coal miners are doing some work on the miners are doing some work on the properties.

The surface of the Dell oil fields is covered with a since as in smallhorn canyon. This shale has been submitted to destructive distillation with the result that four ounces of crude pe-troleum can be retorted from a pound

of the shale. Another inflammable substance has been found in this vicinity. If has the appearance of being a slate rock. When placed in a fire it burns freely and gives out an intense heat. It is evidently oil-impregnated and when the oil burns out of it the rock is set there and helds out of it the rock is still there and holds its resemplance to a mece of slate.

Hecker Mining Co.

The Hecker Mining company filed ar-The Hecker Mining company filed ar-ticles of incorporation with the coun-ty clerk today, The capital stock amounted to \$30,000 in 10-cent shares, of which 100,000 shares are treasury stock. The directors are Harvey Har-dy, president; Sidney Hecker, vice-pre-sident; C. E. Jack secretary and treas-urer; J. S. Daveler, C. F. Willsie and S. M. Stenhouse, The company will develop the three Eagle claims in the old Summerville

Eagle claims in the old Summerville mining district, of Emery county.

Montaga Placers.

Operations at the Montana placers have terminated for the season and all will be quiet until good weather opens up again in 1962. The A. F. Graeter boat closed down for the season a week ago, says the Dillon Examiner, and Treasurer M. M. McDonald and President F. L. Champlin left for their home in Chicago Monday evening. The Graeter was the last of the boats

in this county to suspend operations this year and it had one of the longest funs on record this senson. The electric boat shut down about a month ago and both of the boats, according to the story of the managers, had a prosperous and successful run this season.

These stocks found buyers at the pov-

Of the two other boats in the county, the Montana Gold Dredging Co.'s, at the mouth of Spring, Gulch, on the Grass-

hopper, ceased operation ten days ago and it did a good year's work. The Montana boat was only laid up on one occasion, which was a few weeks ago

plaintiffs and defendant then entered into an agreement, the terms of which were that the plaintiffs were to convey a one-third interest in the mine to Harris Kirk and he, in consideration thereof, was to transfer a two-thirds interest, together with a certain water right, or rather a right in the use of the water, to Messrs, Traphagen and Sales. Prime mercentile paper, 4%@5 per

water, to Messra, Traphagen and Sales. Kirk has never transferred the interest and the suit is to compel specific performance.

Emery County Progress: If flowing oil is encountered in the wells of the San Rafael, California, Utah and Mil-ton Oil companies, all located some dis-tance apart, the fact will be established that Emery county possesses fully half a million acres of oil producing land, Oil is found here in hundreds of places, but flowing oil in paying quantities must be obtained before ours is proven to be an oil region. Unless the hard-

est sort of luck obtains, within the next ninety days we will know whether the fates are kind or only fooling with us. If productive oil wells are opened up by these companies—as we have every reason to hope will be—dn a year hence there will be a hundred or more such wells all around us, for it will be an easy matter to interest capital to sink other wells when success crowns the ploneer efforts. Let flowing oil be found here and in the very near future the production of this fluid will be the most interesting and absorbing industry in Utah.

Pony, (Mont.), Sentinel-The people of this section had added cause for thanksgiving yesterday when it was undeputedly learned that the Fourth of July group of nilnes had passed into the hands of the Speculator mine people, of Omaha and Butte, for \$50,000 spot cash. This group of mines, ten in spot clear. This group of mines, ten in all, is bounded on the south by the Clipp-r-Loss Tweed group and the Jeancite townsite; on the north and west by the Willow Creek Ned group; on the east by the Strawberry group. By this anyone at all familiar with the mines here can see that it is one the mines here can see that it is one of the most desirable properties on Mineral bill. The ten claims are the Fourth of July, State Line, T. & J. Fraction, Afterthought, Noonday, Look-out, Midnight, Howard Placer, Fourth of July millisite and State Line millisia The work of crosscutting the lead on the Golden Wave mine, under lease and bond by Col. McKaskle, has been con-tinued all week. Up to Wednesday night the lead was proven to be sixty fect wide and no sign of the other wal McKaskle is talking of letting a co.

t act to run a 300 foot tunnel, starting over down the hill which will give a greater depth.

two large local concerns causes considerable trading in their stocks.

A message to the "News" from Lohi this morning states that the sugar fac-tory had passed the 16,000,000 pound mark, and that the run would be conmark, and that the run would be con-tinued till about the 15th inst. Under the influence of the recent advance in the price of granulated sugar, the stock of the Utah Sugar company advanced to \$15, a sale of 100 shares having been made at that figure last night.

"Cache county real estate has in-creased greatly in value since the com-pletion of the Logan sugar factory," said U. S. Marshal Glen Miller Just returned from there. "The factory is working to its fullest capacity," said he, "and yet the great stacks of sugar beets in the vicinity seem hardly to have been touched. It is quite a sight to see regular mountains of sugar beets stacked between the ratiroad tracks and filing every accommodation made for them. The factory is doing Cache val-ley a world of good. Farmers have already commenced to pay off mortgages on their places and real estate is very much on the increase in values." regard my COLD CURE as more It not only cures colds in the head,

An member violating or infringing this rule E. C. Coffin & Son, Stock Brokers, in any manner shall, upon conviction be fined fifty dollars for each offense 1 to 5, Jennings Block. Tel. 1007. and repeated violation of the same shall subject the offender to suspension of 202-203 D. F. Walker Block. Tel. 536. exclusion from the exchange. Broberg & Thompson, Stock Brokers,

Mine owners and the public, or that portion of it which deals in stocks, will find much for congratulation of them-selves and the exchange in the passage 21 Walker Bros. Bank B'ld'g, Tel, 1257z. of that resolution, and together with the effort that is being made to inform Decline of Silver Attributed to Light citizens of the financial standing of securities in which they desire to deat. it ought to bring about a reconciliation The New York Journal of Commerce of all factions and re-establish the pop says that bar silver was quoted in London on Monday at 251-18d per ounce. This is the lowest price in about ularity of the exchange. It certainly should fix a more stationary bases upor which people may indulge in legitimate three years, the highest in that period having been reached at 303-16d, in 1900

PRICES DROPPED.

During been reached at 30.3-16d, in 1900. During the past week the price has sagged of about a full penny. In-quiry among dealers in silver tends to show that the decline in the price is not due to increase in production, but pather to a decrease in the decand There was universal depreciation in prices on the Exchange at this morn-ing's call, but why that should be heaven only knows, for nearly all of the working properties are daily giving betrather to a decrease in the demand in continental Europe. The two great foreign markets for silver at present ter accounts of themselves and reporting brighter prospects for future opera-tion. There is an exception to this rule are the continent and India, and it is asserted that the competitive buying of of prosperity, however, and that is found in Tesora. This mine's difficulty. these two customers is necessary to maintain the price. India is at presthough, is mainly attributed to its ent buying about its usual quota of sil-ver, but the demand on the continent has been much curtailed. The domesfinancial obligations and the 20-cent asessment that entrained therefrom and is not chargeable to poor physical conditions. It is said that with proper tic demand runs along evenly, with little feature. As to the reason for the handling the property may and shall be made to pay. But the millstone around lecline in the demand from the contadecline in the demand from the conti-nent there seems to be some difference of opinion. There is at times consid-erable speculation in silver, as in metals like copper and the lit is ar-gued that a large surplus is being car-ried in this country. This, however, is denied by the refiners, who declare they are suffing their product as fast as it its neck is the indebtedness and the ignorance of the public as to its extent. Today sales of the stock were made at as low a figure as 8% cents and when the closing quotations were posted it commanded but 85 in the blidding and 8% in the demand. Should matters conare seiling their product as fast as it is refined, and explain the decline by ie in their present tendency but very little time need elapse ere holders of the stock will reinquish it for little or saying simply that the continental de-mand at present is dull. nothing more than an agreement from the buyer to assume payment of the pending assessment, which becomes deinquent on the 21th of this month California was a principal sufferer, being knocked down at 58 cents, a fig-Mining and Oil Land Transfers, Loure that would almost give assurance that some conscienceless knave had Special Correspondence. Frovo, Dec. 4 .-- A guit claim from W.

converted the stock list into a black list for the benefit of beardom. Carisa, as on yesterday, did the biggest lot of trading, but the prices were ply rediculous in that they degenerated so low as a paltry 73 cents. Of course, no dividend has recently been paid, but even the most vicious of bruin's ilk must admit that the mine is still an earth is still on earth.

Comparing the prices of today with those of several weeks ago and having
