PROBABLE SUICIDE.

Indications Point to Self Murder in Case of Frank Mason.

RHEUMATISM AN INSIDIOUS DISEASE THAT BREAKS DOWN THE STRONGEST

Rheumatism does not come on in a day; the insidious causes that produce it work silently in the system for years. This insidious disease becomes entrenched in the blood, and some exposure to cold or damp weather, or slight indiscretion brings on an attack. Poor digestion, stomach troubles, weak kidneys, torpid liver, and a general sluggish condition of the system are responsible for Rheumatism. Food souring in the stomach poisons the blood, the failure of the kidneys and liver to act properly leaves waste matter and impurities in the system, which, coming in contact with the natural acids of the body, form uric acid. This is absorbed by the blood, and as it penetrates to the muscles, nerves and bones produces the terrible pains and aches and other disagreeable symptoms of Rheumatism. Life is made a torture by its excruciating pains, nerves are shattered, the health undermined, and if the disease is not checked it breaks down the strongest constitution. It will not do to depend on plasters, liniments, etc.; such treatment is helpful in easing the pain and reducing the inflammation, but does not reach the blood where the real trouble is located. S. S. S. cures Rheumatism by purifying and invigorating the thin, acid blood, driving out all impurities and poisons and sending a stream of strong, rich blood to wash out all irritating particles that are causing the pain and inflammation. S. S. S. stimulates the sluggish organs to better action, tones up the stomach and digestion, restores nervous energy and builds up the entire health. S. S. S. cures Rheumatism, whether acute or chronic, and the cure is thorough and lasting. Book on Rheumatism and any medical advice desired without charge.

The police were unable to find any trace of his watch or telescope valve, which are missing. The facts surrounding Mason's death are very peculiar and Acting Coroner E. D. Murphy has decided to hold an inquest this afternoon. A number of witnesses have been subpoenaed to give testimony, and some light on the case may be obtained at the inquest. DAMAGE SUIT HEARING.

Suit for Fire Losses Against the Ogden & Northwestern Railroad.

Ogden, Jan. 9.—Last evening in the district court before Judge Howell and a jury the taking of testimony in the case of Joseph Eckles vs. the Ogden & Northwestern Railroad company was completed. The suit has been on trial for several days, and a large number of witnesses have been examined for both sides. The plaintiff is asking damages in the sum of \$675 alleged to be due for the destruction of the plaintiff's crops, hay, fences and bridge, caused by sparks flying from the company's engine on its dummy line running out to the Hot Springs. These fires occurred in 1904. Arguments were made this morning and the case submitted to the jury. Judge Howell rendered his decision on the demurrer of the plaintiff to the defendant's answer in the case of A. J. Stone, administrator of the estate of Joseph Eckles and three others against the Union Pacific Railroad company, wherein heavy damages are asked for the death of the four men in the Azusa wreck about two years ago. The railroad company has fought hard to prevent the cases going to trial, but the decision of Judge Howell makes it necessary for the actions to be tried in the courts.
