

OUR RETURN TO BARBARISM.

We are receding from civilization, not in foregoing Sunday and throwing open stores and theatres for evil stimulants for body and mind—these are advances that barbarians have not made—but in resuming the peculiarities of the red men whom we have dispossessed.

Their passion for feathers, paint, gay colors, and fantastic costume has been often illustrated. Men and women delight in brilliant contrasts. Whatever is garish, pronounced and "loud" catches their eye and mind. Accordingly the Dolly Varden patterns are chosen for them by the Indian commission—the staid and peace-loving members of which resolve themselves once a year into a shopping party, and do the buying of dresses for the ladies of Red Cloud's connection.

But we are fairly abreast of our predecessors. Hair, beard, chess, eyes and eye-brows are colored or painted among us; and he who walks Broadway cannot fail, in flaming neckties, parti-colored garments, and brilliant varieties and hues of skirts, to notice the bent of our taste and our appreciation of the rainbow and the peacock.

The marriage tie has always been a little slack among our savage precursors; and we are hastening to the same laxity. Divorce courts come to be a superfluity, and men and women marry and unmarry themselves with fatal facility. The inconvenience occasionally arising about questions of property might embarrass conscientious law courts, but our judiciary is not likely to be hampered with scruples.

Among savages, as among the other creatures of the forest, the males contend in deadly feud for the females, and the strongest frequently takes the fair prize. Our superiority appears in our having, in addition to bowie-knives and daggers, the reader six-shooter, with which to dispatch a rival, and clear the way to the favor of the fair. To be sure, the plan of buying wives is not unknown to some ruder races, nor are we wanting in examples of the same delicate traffic; but we manage it with taste and discretion, as becomes higher civilization.

The savage establishes a right to what he wants by taking it. If there is a fight—so far well. It is an incident of his life. And the young braves whose happy hunting-grounds are about the lower levels and sides of Manhattan Island, now enter the saloons and demand "drinks" at the point of a pistol or dirk; and when the vendor asserts rights of property and shoots first, there is a kind of poetical justice in his walking out of court with credit rather than otherwise. He beat the bully at his own weapons.

Savages sleep with the spear at their heads, to start on the slightest sound and repel the aggressor. We have nice black-walnut doors and elegant furniture, and handsome appointments; but our main care is to be safe in our beds. Guns, patent locks, burglars' alarms, electric apparatus, for our houses, and revolvers for the street cars and the streets—these are the spears at our heads—the indications that we take precautions, and if we get any warning will not "die easy."

Rights of property are not of much account among savages. When a missionary explained to a knot of them that venerable prohibition, "Thou shalt not steal," they laughed a loud guffaw in his face. It was too ridiculous! To be sure, there are feats in theft not open to them from their backward condition. Forgery, or the larceny of a railroad lying loosely around, is beyond their reach; but when they do the best they can they are entitled to credit. We have improved our advantages. It is disgraceful to steal small things, or to make unsuccessful attempts; but steal and succeed, and our happy community accepts the success, and tolerant and liberal-minded society winks hard, and does not see the methods by which it has been reached.

So in dress and address, in manners and customs, in the arts of peace and the weapons of war, we are in this good city of New York, through our native enterprise and our foreign accessions, making rapid strides toward barbarism. Should not our wise men, fathers of families and owners of real estate, look into it?—N. Y. Ledger.

A waiter at a restaurant going over his formula, "What will you have, sir, roast beef, roast mutton, roast veal, roast chicken," was interrupted by the hungry Democrat saying, "I don't care, hurry up, anything to beat Grant."

PROVO CO-OP. POTTERY.

Provo City.

Are indorsed and prescribed by more leading Physicians than any other tonic or stimulant now in use. They are a SURE PREVENTIVE for Fever and Ague, Intermittents, Biliousness, and all disorders arising from miasmatic causes. They are highly recommended as an anti-dyspeptic, and in cases of indigestion are invaluable as an Appetizer and Recuperant, and in cases of General Debility they have never in a single instance failed in producing the most happy results. They are particularly BENEFICIAL TO FEMALES, strengthening the body, invigorating the mind and giving tone and elasticity to the whole system. The HOME BITTERS are compounded with the greatest care, and no Tonic Stimulant has ever been offered to the public SO PLEASANT TO THE TASTE, and at the same time combining so many remedial agents, indorsed by the medical fraternity as the best known to the Pharmacopoeia. It costs little to give them a fair trial, and

Every Family should have a Bottle.

We ask every one to read the following Certificates from many of the most eminent physicians in the country:
St. Louis, July, 1870.—JAMES A. JACKSON & CO.; Gentlemen—As you have communicated to the medical profession the recipe of the "Home Bitters," it can not therefore be considered as a secret or patent medicine, no patent having been taken for it. We have examined the formula for making the "Home Bitters," and unhesitatingly say the combination is one of rare excellence, all the articles used in its composition are the best of the class to which they belong, being highly Tonic, Stimulant, Stomachic, Carminative and slightly Laxative. The mode of preparing them is strictly in accordance with the rules of pharmacy. Having used them, seen its effect in our private practice, we take pleasure in recommending them to all persons desirous of taking Bitters, as being the best Tonic and Stimulant now offered to the public.

L. CH. BOISLINIERE, M.D., ALFRED HEACOCK, M.D., DRAKE McDOWELL, M.D., J. C. WHITEHILL, M.D., Dr. C. V. F. LUDWIG, W. A. WILCOX, M.D., J. S. MARINE HOSPITAL, St. Louis, Mo., Oct. 8, 1870.—JAS. A. JACKSON & Co., I have examined the formula for making the "Home Stomach Bitters," and used them in the Hospital for the last four months. I consider them the most valuable tonic and stimulant now in use.
St. Louis, July 6, 1870.—JAS. A. JACKSON & Co.; Having examined the formula from which your celebrated "Stomach Bitters" are prepared, and having witnessed the method of combining the different ingredients, we can safely recommend them as the best tonic with which we are acquainted. From the great care with which they are compounded, and from the choice materials which enter into them, we have no doubt that they will prove, as they deserve to be, the most popular tonic and stimulant in use.
T. J. VASTINE, M.D., T. G. COMSTOCK, M.D.

We cheerfully concur with every word contained in the above testimonial.
JOHN CONZELMAN, M.D., JOHN HARTMAN, M.D., CHAS. VASTINE, M.D., JOHN T. TEMPLE, M.D., G. S. WALKER, M.D., E. C. FRANKLIN, M.D., CINCINNATI, Oct. 19th, 1870.—Messrs. W. B. KENNEDY & Co., Agents "Home Bitters"; Gentlemen—Agreeable to your request, I have examined the formula of the "Home Stomach Bitters," and find the remedies it contains such as are in general use by the Medical profession. They are very scientifically and pleasantly combined, and as stimulating tonics will be found especially adapted as corroborants to the treatment of low or debilitated stages of the system, whether arising from impaired digestion, or from malarious diseases.

Dr. J. L. VATTIERS, R. S. WAYNE, Chemist, W. T. TALLAFERRO, M.D., J. E. QUINN, M.D., J. H. BUCKLE, M.D., W. R. WOODWARD, M.D., CHICAGO, Sept. 30, 1870.—J. L. SMITH, Esq.; We have examined the formula of the "Celebrated Stomach Bitters," and find it to be composed of articles that are considered the best tonics used by the Medical profession, and one of the best bitters we know of now in use.
H. S. HAHN, M.D., J. B. WALKER, M.D., NORMAN S. BARNES, M.D., R. C. TICAR, M.D., G. A. MARINER, M.D.

140,000

SINGER SEWING MACHINES

WERE SOLD DURING THE PAST YEAR.—Scientific American, June 10, 1871

The Singer Manufacturing Company,
AT THE
WORLD'S FAIR,

Constituted by the homes of the people,
Received the Great Award of the Highest Sales! and have left all
Rivals far behind them! As the following article shows:
"SEWING MACHINE SALES FOR 1870.

The magnitude to which the manufacture of sewing machines has attained is shown by the 'SWORN' returns (to which anyone can have access) of the manufacturers for the year 1870 to the owners of the leading patents, on which they pay a royalty. According to these returns the number of machines sold by each manufacturer in 1870 is as follows:

The Singer Manufacturing Company.....	127,833.....	Difference.
Wheeler & Wilson Manufacturing Company.....	83,208.....	44,625
Howe Machine Company.....	75,158.....	52,677
Grover & Baker Sewing Machine Company.....	57,402.....	70,431
Weed Sewing Machine Company.....	35,002.....	92,831
Willcox & Gibbs Sewing Machine Company.....	28,890.....	98,943
American Buttonhole & Overseaming Company.....	14,573.....	113,260
Florence Sewing Machine Company.....	17,680.....	110,173
Gold Medal Sewing Machine Company.....	8,912.....	118,921
Elna Sewing Machine Company.....	5,806.....	122,027
Empire Sewing Machine Company.....	3,560.....	124,273
Finkle & Lyon Manufacturing Company.....	2,420.....	125,413
Parham Sewing Machine Company.....	1,764.....	126,067
Wilson.....	500.....	127,333

And several other Companies who sold a few Machines.

It will be seen by this table that the popularity of the Singer Machines far exceeds that of all others, their sale being one-half greater than even that of the famous "Wheeler & Wilson" Machine. This is owing to the fact that the Singer Company have lately commenced making, besides their old and well-established manufacturing machine, what is known as their "New Family Machine," which is selling at the rate of nine to one better than the old style. Their total sales for 1869 were 86,781 machines against the 127,833 of 1870, showing an increase of one half in the latter year.—New York Sun.

The total Sales of "Singer" Machines are very nearly
THREE QUARTERS OF A MILLION!!!
Two Thirds of which were Sold within the Last Three Years, and all are in
SUCCESSFUL DAILY USE!

And still there are Agents, for even the poorest Machines, who persist in the most "unblushing manner," in decrying ours, as if it were possible for the "Overwhelming and Rapidly Increasing Majorities of Singer Purchasers" to be mistaken.

We are not so vain as to suppose that these large sales are due to superior business capacity so much as to the superior merits of
the Singer Machines, as well as the

OBSERVATION OF THOSE WHO BUY AND USE,
And are personally interested in comparing the merits of the different
Machines before making a selection.

THE
'NEW FAMILY SINGER' SEWING MACHINE,
WITH ATTACHMENTS FOR ALL KINDS OF WORK,

We claim and can show is the cheapest, most beautiful, delicately arranged, nicely adjusted, easily operated, and smoothly running of all the Family Sewing Machines. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of texture which it will sew with equal facility and perfection, using silk twist linen or cotton thread, fine or coarse, making the INTERLOCKED-ELASTIC-STITCH, alike on both sides of a fabric sewn.

The only STITCH that is Universally Approved, or is at all adapted to
FIRST-CLASS WORK.

Thus, beaver cloth, or leather may be sewn with great strength and uniformity of stitch, and, in a moment, this willing and never-wearying instrument may be adjusted, even by a child, for fine work on gauze or gossamer tissue, or the tucking of tarian, or ruffling, or almost any other work which delicate fingers have been known to perform.

All Machines Sold Guaranteed to give Entire Satisfaction!
Terms to Suit All!

OTHER MACHINES THOROUGHLY REPAIRED AT REASONABLE RATES!
WE MAKE NO CHARGE FOR CARTAGE WITHIN SALT LAKE CITY!
BEWARE of Spurious Needles, Poor Silk, Twist, Linen and Cotton Thread, Bad Oil, etc., Which may render the Best Machine Useless. The Singer Company manufacture their own Needles, Silk and Twist; furnish Linen and Cotton Thread and Oil—all of Superior Quality—but which can be relied on only when obtained through their Principal or Branch Offices.

THE SINGER COMPANY have, for the past three years, been unable to supply the demand for their machines, though much has been done to increase their manufacturing facilities. Much more is being done at home and abroad in enlarging their present manufacturing, building new ones, availing of the best machinery, and the services of the most skillful artisans, in the hope of being able to accept propositions for agencies, where such are not already established, though they are now tolerably well represented throughout the civilized world.

Be Sure to get the Best. Before you Purchase be sure to see the "Singer" at the Central General Agency, Singer Sewing Machine Depot Z. C. M. L., EAST TEMPLE ST., second door South of Eagle Emporium, SALT LAKE CITY.

H. B. CLAWSON, Supt.
