

SUGAR FACTORY BREAKS RECORD

Already 10,000,000 Pounds Have Been Turned Out and There Still Remain 40,000 Tons Of Beets—\$200,000 for Farmers.

A message from Lehi this morning states that the 10,000,000 pound mark in the output of sugar will be passed during this afternoon or early evening. This is practically what the factory turned out last year, but there still remains about 40,000 tons of beets to work, which will consume from thirty-five to forty days more time. Up to today the factory has worked 42,000 tons of beets and received 62,000 tons. A close estimate received from the agents in all the fields today puts the amount of beets yet undelivered at about 15,000 tons, which will bring the total tonnage for the year very close to the original estimate of 80,000 tons.

A DISEASE PECULIAR TO ICELAND

Shepherd from Beaver County Died at Holy Cross Hospital! Today who was Supposed to Suffer from Echinococcus.

At the Holy Cross hospital this morning there died a patient by the name of John Ward, and the cause of his death is now supposed to have been what the doctors call echinococcus. Two months ago the unfortunate man presented himself to Dr. Mayo, county physician, and applied for relief. He explained that he had been herding sheep in Beaver county, and that his disease had grown upon him until he was then unable to do further work without being relieved. Upon Dr. Mayo informing the man that he must procure a certificate from Beaver county before attention could be paid to his case the patient secured the necessary paper and he was taken to the Holy Cross hospital. His case was a puzzle and no help seemed to come of the treatment. It was thought by Dr. Mayo that Ward's disease was echinococcus, and his opinion was concurred in by all other physicians who examined the patient. This disease, explained Dr. Mayo, is peculiar to Iceland and is superinduced by the close association of human beings and dogs. It appears in the form of a series of hooks similar to miniature cat's claws and first gains ingress by means of the alimentary canal, thence through the bowels into the stomach, where it eats its way through the walls of that organ until it reaches the region of the liver, where it attaches itself and grows. It is then in the form of a cyst containing a mass of eggs and sometimes contains such large eggs as to contain from 10 to 30 gallons of foreign liquid. At 5 o'clock this evening at O'Donnell's undertaking establishment an autopsy was begun in the presence of a number of prominent physicians who were interested in the case; and if it may be shown that the deceased was afflicted with echinococcus it will have been the first instance of the disease discovered in Utah.

FRANCE'S TRIUMPH IS COMPLETE.

Official Note Announces the Porte Will Yield to All Demands—Soon as Trade Is Issued Ratifying the Decision, French Squadron Will Leave Mytilene.

Paris, Nov. 8.—France has scored a complete triumph in the Turkish dispute. An official note was issued at 1 p. m. today to the effect that the porte had decided to yield to all the demands of France, and that as soon as the sultan has issued an irade ratifying the decision, the French squadron will leave Mytilene. This may be done within the next 24 hours, or it is expected, at the least, in two or three days. President Loubet presided today at the cabinet council. The foreign minister, M. Delcasse, announced that the porte had just advised him that it had decided to give satisfaction to the French demands to which M. Delcasse replied that so soon as the sultan's order regarding the porte's decision was communicated to him, Admiral Callard's squadron would leave the island of Mytilene. The Temps prints a dispatch from Constantinople today which says that the sultan, in accepting the French demands, has accepted the working of the French schools, hitherto unrecognized; secondly, he recognizes, officially, the existence of the religious and hospitable institutions already founded and accords them customs immunity and exemption from certain taxes, and, thirdly, he authorizes the reconstruction of the schools and hospitable institutions destroyed at the time of the Armenian troubles, which a detailed list is attached to the French note. Tewfik Pasha, the Turkish foreign minister, has announced that the recognition of the Chaldean patriarch, demanded by France, already has been accorded.

CHURCH SCHOOL CONVENTION

Dr. Tanner Arranging for General Meeting of the Teachers.

Dr. J. M. Tanner has just returned from Sanpete county, where he has been delivering lectures and inspecting the Church schools in that locality. One of the most important matters that Dr. Tanner has on hand at this time is arranging for the coming convention of the Church school teachers. The convention will be held in this city just prior to or immediately after the state teachers convention in order that the Church teachers may have the benefit of attending the latter. Full arrangements for the convention have not been made, but Dr. Tanner is busy preparing topics for consideration. The most vital one perhaps will be the advisability of adopting in the Church schools the same secular text books as those that are in use in the state schools in order that the training in the one, so far as secular education is concerned, will be uniform with that in the other. Dr. Tanner is strongly in favor of the move, and it is not at all improbable that uniform text books will be adopted. Dr. Tanner says that the care that should be taken in adopting text books for the public and private schools cannot be emphasized too strongly. Some books, he said, have found their way into the schools that are of so inferior a character that the teachers have taken it upon themselves to introduce supplementary books into schools, thus entailing an additional expense upon the patrons.

THOUGHT TO BE INSANE.

Jane McCoy Will Be Examined Tomorrow Regarding Sanity.

Jane McCoy of 749 east Fourth South, will be examined tomorrow afternoon at 2 o'clock as to her sanity. She is said to be a woman 67 years of age, lives alone and is utterly incapable of taking care of herself. Her neighbors and the county have been providing for her. The house in which she resides is owned by her brother, who herds cattle in the southeastern part of the state, and who has not been here for two years.

CREDIT MEN'S BANQUET.

Business Men to Gather in Honor of Sec. Pengergast.

The Credit Men's association of this city will tonight give an elaborate banquet at Beardley's Tavern in honor of M. A. Pengergast, the secretary of the National Credit Men's association. There will be covers for fifty guests and the banquet room will be elegantly decorated for the occasion. Secretary Pengergast will make an address on the "Bankruptcy Act and its Enforcement" and there will be other speeches made.

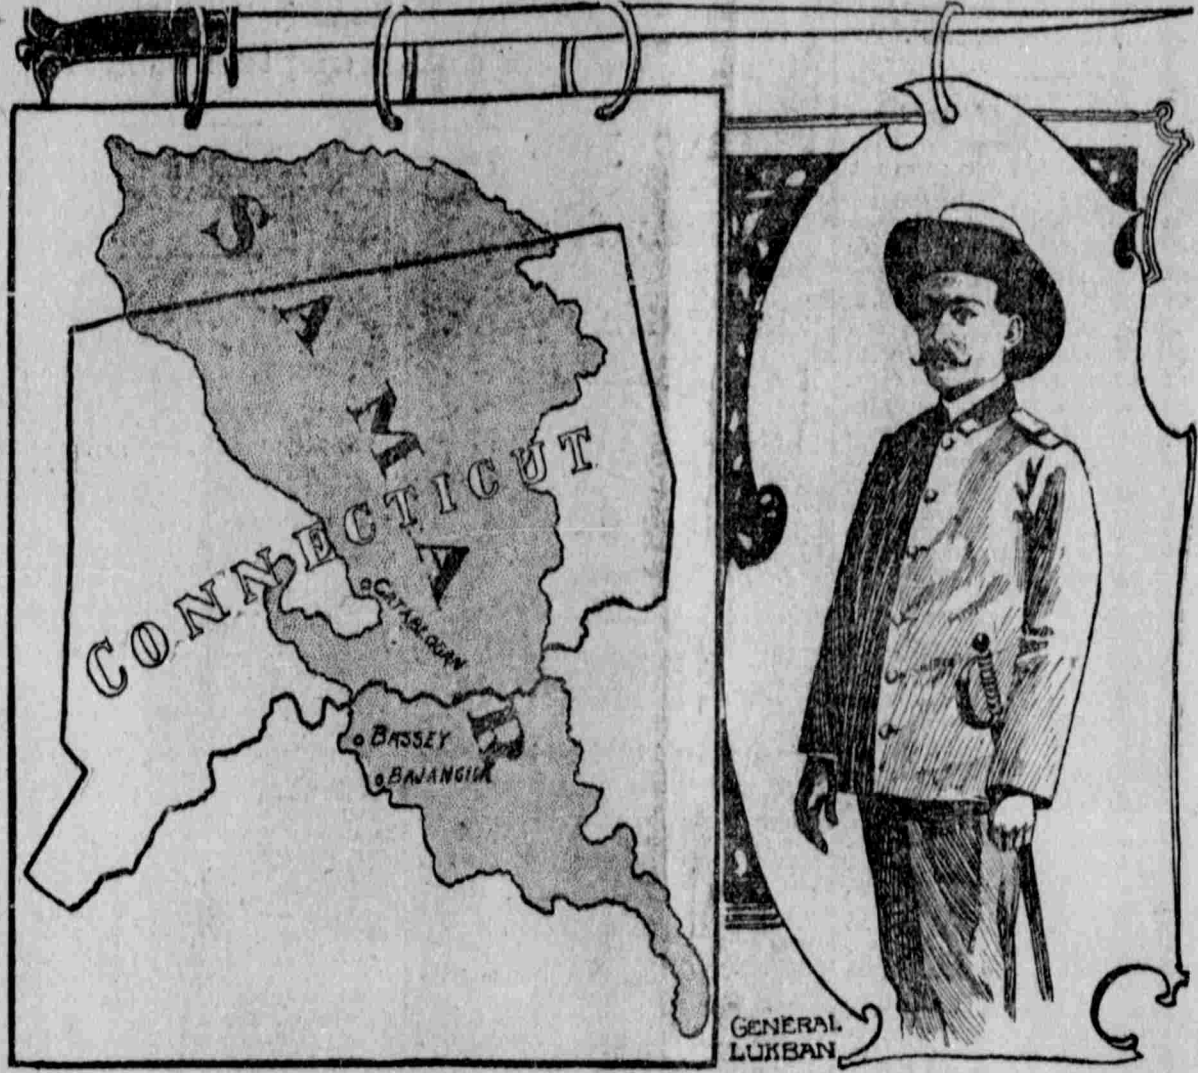

NASH IS A CANDIDATE.

A. H. Nash is a candidate for the postmastership of Salt Lake. He, however, wishes it understood that he is not depending on any outside influence, and recognizes the fact that Senator Kearns and Congressman Sutherland absolutely control all the appointments for Utah. Having been removed by President Cleveland after two years' service, Mr. Nash hopes that this fact may have some weight towards his appointment. Postmaster Thomas' commission will expire early in January.

AFTERNOON MINING CALL.

Uncle Sam Active—Carissa Firmer—Sunshine Stronger.

Business was light on the mining exchange this afternoon, though a number of stocks were traded in. Carissa sold at \$1.15 while Uncle Sam released 4,700 shares between 1.01 and 1.02. Sunshine dropped 1,000 at 10.4 and 11. California sold at 95 and 94 while 100 Century changed hands at \$3. Emerald was in demand at 12. Daily West loosened up 100 at \$22, while 1,500 West Morning Glory were handed out at \$24. Star Con. sold at 35 and 35.5. Ajax was stationary while Tesora was traded in at 45. Boss Tweed advanced to 25.4, while Burton sold at 15.4. Victor let go 1,000 at 58, while Tetro sold from 25 to 27. La Reine was offered at 22 with 19.4 bid. May Day advanced to \$1.08 and closed at \$1.07. Swanssea was held at \$1.95 with \$1.70 bid. It is reported that the Highland Boy Mining company has declared a dividend of \$275,000 or \$1.25 per share, payable December 6th.

GENERAL LUKAN, FILIPINO LEADER IN SAMAR, AND HOW THE ISLAND COMPARES WITH CONNECTICUT IN SIZE.

THE island of Samar, where General Lukan is directing the campaign of the Filipinos and Visayan bolomen against the United States, is the most easterly of the Visayan group. It has a superficial area of about 5,200 miles, about 500 more than the state of Connecticut. There are about 200,000 natives in the island, a trifle more than one-fifth of Connecticut's population. Samar's greatest length, from northwest to southeast, is about 150 miles, and its greatest breadth, from east to west, is about seventy-five miles. There are but two islands larger than Samar in the Philippines, Luzon and Mindanao. Owing to the mountainous character of Samar and its lack of roads campaigning is very difficult.

YUAN SHI KAI SUCCEEDS LI HUNG

At Present He is Viceroy of Shan Tung Province.

CHANG CREATED A MARQUIS

New Name of Li Wen Chung Bestowed on Him, by Which He Will be Known in History.

Washington, Nov. 8.—Minister Conger at Peking, has informed the state department that Yuan Shi Kai has been appointed to succeed Li Hung Chang as viceroy of Chi Li and that Wang Wen Shao has been appointed deputy viceroy of the same province. Yuan is the present viceroy of Shan Tung province.

LI HUNG'S NEW NAME.

Peking, Nov. 8.—The special edict has arrived here appointing Yuan Shi Kai (governor of Shan Tung) to be governor of Chi Li and appointing Wang Wen Shao, who is vice president of the foreign office and a member of the cabinet, to succeed Li Hung Chang as plenipotentiary. They are both ordered to Peking forthwith. Another edict creates Li Hung Chang a marquis and bestows on him the new name of Li Wen Chung, by which he will be known in history.

Arrested for Visiting Mr. Dickinson

Sofia, Bulgaria, Nov. 8.—The government last night caused the arrest of a man who was visiting United States Consul-General Dickinson and searched him, presumably thinking that he was an emissary of the brigands and expecting to seize a communication from or to Miss Ellen Stone, the American missionary. The man was subsequently released. This action of the authorities was, seemingly, a deliberate attempt to frighten delegates who might visit Mr. Dickinson, and thus prevent negotiations from taking place in Bulgarian territory. The attitude of the authorities hampers Mr. Dickinson as plenipotentiary. The brigands refuse to treat in Turkey.

Big Fire in Bradford, Pa.

Bradford, Pa., Nov. 8.—A fire which originated in the livery stable of Frank P. Beamer today consumed a dozen buildings including the \$35,000 city hall. Thirty-seven horses in the stable perished. The loss is estimated at \$150,000. Barnstable, Mass., Nov. 8.—Miss Jane Toppin, the nurse accused of the murder of Mrs. Mary E. Gibbs by poisoning, was before the district court here today, but the hearing was postponed until November 15.

An Electrician Electrocuted.

Council Bluffs, Iowa, Nov. 8.—Frank McCoy, an electrician in the employ of the electric light company, was electrocuted by a live wire at the top of a 120-foot electric tower today. He went on the tower to repair a broken light and was found dead later, a current of 5,000 volts having passed through his body. He was suspended in the air, hanging across the railing of the platform at the top of the tower.

Diss De Barr Hearing.

London, Nov. 8.—The hearing of the charges against Theodore and Laura Jackson (Ann O'Della Diss DeBarr) at the Marylebone police court here, continues to attract crowds. Prominent stage people, including H. J. Irving and Clement Scott, and leaders of the bench, bar, church and parliament were among today's audience. The male prisoner is ill and was allowed to be seated in the dock. Laura Jackson was continually and unostentatiously administering him sips of water. The testimony today was a reiteration of previous evidence. The proceedings were enlivened by several brisk passages between the presiding magistrate and the woman prisoner, the latter informing the court that she was tired of his evident partiality for the witnesses.

ARRAIGNED IN LONDON.

St. John Dix Charged with Larceny Committed in United States.

London, Nov. 8.—At the Bow street police court H. St. John Dix was charged on a provisional warrant with larceny committed in the United States. It is alleged that he obtained control of three banks in the state of Washington in 1899 and that he subsequently wrecked the Scandinavian-American bank at Whatcom, Washington, and disappeared with over \$3,000. Dix, who was arrested in the city this afternoon, was remanded after formal evidence of his arrest had been presented.

Some weeks back the authorities of Scotland Yard informed the United States embassy that Dix was available if required. The usual inquiries were instituted and Tacoma sent a request for his arrest.

Adolph F. Kraus, Sculptor, Dead

Hyde Park, Mass., Nov. 8.—Adolph F. Kraus, the famous sculptor, died in Danvers insane hospital last night. Mr. Kraus had been receiving treatment at the institution since last July. He was 51 years of age. A widow, four sons and two daughters survive him. A pensioner of the Prussian government and winner of the grand prize of Rome, the name of the sculptor was established in Europe before he came to America in 1881. In this country he continued to win fame and it was the disappointment of his ambition to produce a masterpiece which is said to have caused his mind to give way. He had partially completed a model in clay of a heroic figure of Belshazzar at the moment of seeing the hand-writing on the wall when his mind became unbalanced. Among his noted pieces in America are the Theodore Parker and the Crispus Attucks monument. In the competition for the Iowa state soldiers' monument Kraus won second prize. He was the sculptor of the winged figure of Victory that crowned the tower of machinery hall at the world's fair at Chicago, and which received great admiration.

THE INQUEST BEGUN.

Into Death of Alleged Victims of Jane Toppin.

Buzzards Bay, Mass., Nov. 8.—The inquest into the deaths of Mrs. Mary E. Gibbs of Cataumet and of Annie E. Gordon of Chicago, alleged to have died of poison administered by Jane Toppin, was begun today before Judge Swift of the first district court of Barnstable county. The inquest was conducted behind closed doors, and only one witness at a time was admitted to the courtroom and each was strictly enjoined to maintain secrecy as to the nature of the evidence disclosed. The witnesses who were present today were Prof. Whitney of Massachusetts, general hospital, Boston, who assisted at the autopsy held on the bodies of the two women at Cataumet; Dr. R. H. Faunce, of Sandwich, medical examiner for this district, who performed the autopsy; State Officer J. C. Whitney, C. A. Brigham, of Lowell; Mrs. Beulah Jacobs of Somerville, who was staying at the cottage when Mrs. university, Professor Wood of Harvard university, who chemically analyzed the stomach of the deceased women was called but was not present when the inquest began.

Capt. Redford Sargent Dead.

Philadelphia, Nov. 8.—Capt. Redford Sargent, marine superintendent of Cramps' ship yard, died today, aged 60 years. All his vessels built by the Cramps during the last nine years have been under the direct command of Capt. Sargent on their trials.

New Lord Mayor Installed.

London, Nov. 8.—The new lord-mayor, Sir Joseph Dimsdale, was installed at Guildhall this afternoon with all the quaint formalities and ceremonies customary on the transfer of this office.

Remarkable Linotype Record.

Dayton, O., Nov. 8.—A remarkable record on the linotype machine was made Thursday in the office of the Daily News when Claude Cramer set 3,260 lines of nonpareil, 10-meter count, making a total of 84,500 ems in eight hours, machine speeded to seven lines a minute. To secure this result it was necessary to touch the keys 46,000 times, or nearly six times a second.

York Created Prince of Wales.

London, Nov. 8.—The Duke of Cornwall and York has been created Prince of Wales and Earl of Chester.

UP GOES THE PRICE OF BREADSTUFFS

Flour Takes Another Jump of Ten Cents a Hundred.

COMBINATION OF MILLERS.

Fool of Utah and Southern Idaho Millers to be Effected in the Near Future.

The wholesale price of flour was again advanced this morning another 10 cents per hundred pounds on each of the three grades. The ruling prices now are, for High Patent \$1.50; for Straight, \$1.70, and for Baker's, \$1.60 per hundred pounds. The local millers give as a reason for the advance, which is the third of 10 cents each to be made in the last few weeks, that the price of wheat has so greatly advanced recently that flour could not be manufactured without loss at the previous prices. When one prominent miller was seen this morning he said: "The price of flour simply had to be advanced and yet now we are making very little money. Wheat has gone up in bounds during the past six weeks and we can't get it in the quantities we want and need. Early in the season great quantities were shipped to Colorado and other states and there is a scarcity now. I don't think it will last very long, but I shall not be surprised to see flour sell at still higher prices. The dry season just past, shortened the crop of wheat as it did the hay and other crops and that, in connection with the fact that much wheat exported from the state, has caused the scarcity, and the raise in prices."

It is stated that the combination of the Utah and Southern Idaho millers will be effected during this month or in December. A McKenzie of Denver, who was here for some time and who secured options on all the principal mills in southern Idaho and in Cache, Weber, Davis, Salt Lake, Utah, and Sanpete counties of this state, is in the East at present arranging for the early completion of the deal. The syndicate will invest \$1,000,000 or more in the enterprise. Just what its action will be if the control passes while present conditions prevail, is very much in doubt, but it is more than likely that some mills would be closed down and that, since some of the people interested are Colorado flour men, what would be shipped in from that state or elsewhere.

News in Miss Stone's Case.

Washington, Nov. 8.—All that can be gathered here touching Miss Stone's case is that the reports from the Levant are to the effect that some kind of communication is being maintained through very indirectly between Miss Stone's captors and the people who are seeking to secure her release. It is believed that up to this point the missionaries themselves have been the only persons able to keep over the line of communication.

Scotland, S. D. Bank Robbed.

Omaha, Neb., Nov. 8.—A dispatch from Yankton, says the bank of Scotland, S. D., was robbed last night of \$5,000. The safe was blown open and the entire contents carried away. About 2 o'clock this morning an explosion occurred in the building in time to see the robbers making their escape on horses. They were pursued, but have not been captured.

THE JESSUP EXPEDITION.

Finishes Its Work, Leaders Arriving in Moscow.

St. Petersburg, Nov. 8.—The Jessup expedition has finished its work. The leaders, Norman C. Buxton, an American, and Algenon (Jackson) have arrived at Moscow after having traveled 5,500 versts in Kamchatka and other semi-polar districts. They have brought with them one hundred boxes of collections for the American Museum of Natural History of New York City. Duplicates will be given to the St. Petersburg Academy of Sciences. The explorers have thoroughly investigated many tribes during the past four months.

HUNTING FOR ESCAPED CONVICTS

Forty Mounted Guards Beating the Country Around Leavenworth—Three Are Surrounded in Barn and Killed.

Leavenworth, Kan., Nov. 8.—Forty mounted guards are beating the country for a radius of five miles around the federal penitentiary today in search of the twenty-six convicts who succeeded in escaping from the guards late yesterday. The country is wild and rough and affords ample opportunity for escape and as all of the convicts are desperate men and armed conflicts will doubtless result before they are captured. The net known result of the mutiny and the following fight with the guards was one convict killed and four guards shot or otherwise hurt, but it is believed that many of the fleeing convicts were however serious from the bullets sent after them by pursuing guards.

THE DEAD.

Quinn Fort, a desperate criminal from the Indian Territory, who is believed to have been the ringleader of the break.

WOUNDED.

Joseph B. Waldrup, prison guard, shot in forehead and breast, condition still critical. Arthur Treford, captain of the guard, shot in leg, not serious. C. E. Burrows, guard, shot in neck, slight.

Andrew Leonard, guard, leg broken. It developed that the mutiny was hatched several months ago but that the men had never found a favorable opportunity to carry it into effect until yesterday. The general plan was not set, but it proved effective because of the limited number of guards. As the better behaved prisoners are used in the outside work, the conspiracy was hatched among the men in the inside gangs.

The convicts chose the most favorable moment of the day, while many of the guards acting as foremen of construction of the new cell-house were unarmed. As soon as the alarm was given, guards were formed in marching order and mounted men, armed to the teeth, were drawn up in front of the main entrance of the prison. Most of the guards were old plainmen and the diversion of hunting down criminals stirred their blood as nothing else could have done. The escaping convicts were counted the most desperate criminals in the southwest and the guards started out on their hunt in full realization of this fact.

The scene of mutiny, however, being some distance from the prison proper the convicts had secured a good start and, aided by the rough, wooded country they had, before darkness fell, placed a good gap between themselves and their pursuers. The guards at best could make but a desultory attempt at pursuit and were compelled to await daylight to take up the search.

The officials at Kansas City, Atchison, St. Joseph, Topeka, and Leavenworth were asked to keep their police on the lookout and all night in each of the cities named police and detectives patrolled the outskirts.

During the night reports came from eleven directions of thefts of horses and vehicles, clothing and food by the convicts and as the report that the convicts were at large spread, citizens in the outlying districts became terror-stricken and barred their houses. Early this morning an increased number of guards, well armed and mounted, were started out from the penitentiary and today was spent in an exciting man hunt, perhaps, as has been expected in this part of the country since the border days.

It is believed that all the convicts will ultimately be captured, if not overtaken by the guards and shot. Each prisoner has undergone an examination.

SCHLEY COURT OF INQUIRY.

Transferring Its Effects from Gunners' Workshop to Up Town.

Washington, Nov. 8.—The Schley court of inquiry is today transferring its effects from the gunners' workshop in the navy yard to the up-town quarters in the McLean building, Vermont avenue and H street, which will be the consulting quarters. No effort will be made by the members of the court even to confer upon the case, however, before next Monday, as they are in need of mental and physical rest. The court will ask the navy department to supply it with clerical assistance and a stenographer to do the mechanical work involved in a preparation of the report. In order that the court may absolutely control such assistants, it is probable that recourse will be had to men in the naval service such as yeoman who are subject to naval discipline. Capt. Lemly, the judge advocate of the court, has gone to Kansas City, Mo., to attend the meeting of the National Prison Reform association, in which he is interested by reason of the fact that he is specially charged with the conduct of the naval prison at Boston, Norfolk and elsewhere.

Longbaugh Positively Identified.

St. Louis, Mo., Nov. 8.—The Post Dispatch today says that the man arrested Tuesday night suspected to be one of the robbers who held up the Great Northern "flyer" near Wagner, Mont., last July, was positively identified today as Harry Longbaugh, who is known to have been one of the participants in the robbery. The identification was made by a St. Louis business man who was prosecuting attorney in Cook county, Wyoming, in 1887, when Longbaugh was arrested as a member of a gang of horse thieves and convicted.

This man asked the police to conceal his identity, which is done. Longbaugh started when the St. Louis man first walked into his presence today. The prisoner still refuses either to admit or deny his identity after the interview.

Suicided by Burning Himself.

Leavenworth, Kansas, Nov. 8.—Mrs. Wm. Textor committed suicide today by setting fire to her clothes, which she had saturated with coal oil. Mrs. Textor was injured three weeks ago and her mind is believed to have been deranged by the wounds.

CONVICTS TRYING TO CROSS RIVER.

Kansas City, Mo., Nov. 8.—A special to the Star from Leavenworth, Kansas, says:

Messages received from Tonganoxie, Kansas, at noon indicate that a number of convicts are trying to cross the Kansas river near Linwood, twenty miles southwest from Leavenworth. Warden McLaughry is centering his force in the Linwood neighborhood. Up to 12:30 o'clock today not one of the twenty-six convicts had been captured.

THREE CONVICTS KILLED.

Kansas City, Mo., Nov. 8.—A telephone message from the Leavenworth Standard at 3:25 this afternoon says: Early this morning at Nortonville, 25 miles northwest of Leavenworth penitentiary, five of the escaped convicts from the Fort Leavenworth prison were surrounded in a barn by a party of citizens and ordered to surrender. The convicts refused and a battle ensued, during which three of the convicts were killed and the other two wounded, how seriously is not known. Whether or not any of the citizens were wounded is not known in Leavenworth.

LORD RECTOR CARNEGIE.

Unanimously Elected to Position in University of St. Andrews.

London, Nov. 8.—Vice-Chancellor Donaldson of the University of St. Andrews announced today the unanimous election of Andrew Carnegie as lord rector. The students greeted the announcement with prolonged cheering and the singing of "He's a Jolly Good Fellow." The vice-chancellor remarked that Mr. Carnegie's election was with the approval of the whole nation.

CAUGHT IN ANTARCTIC ICE.

Remarkable Experience of the Sugar Laden Bark Nuanu.

Philadelphia, Nov. 8.—The first vessel to be caught in antarctic ice this season, a remarkable experience owing to the fact that the ice was within 100 miles of Cape Horn, was the sugar laden bark Nuanu, which was docked at the Spreckels' sugar refinery today after a run of 125 days from the Hawaiian Islands. The Nuanu left Honolulu in June last and after having encountered two severe gales in the Pacific ocean, was caught in the field ice in the early part of September while rounding Cape Horn on her way to the Atlantic ocean. Far to the south nothing but ice could be seen. The sea was smooth and there was no sign of land.

The wind was fair at the time and this enabled the Nuanu to work her way into clear water. Capt. Joselyn, the vessel's master, calculated that the ice was about 500 miles south of Cape Horn. The Nuanu's run was over 14,000 miles. She is the first of a fleet of sugar laden sailing vessels bound from the Hawaiian Islands to Philadelphia and New York, which, it is said, are to displace steamers which have found the trade unprofitable owing to the long run.

The London Fog Has Lifted.

London, Nov. 8.—The fog has lifted and numerous vessels damaged by collisions have been arriving at various ports. No serious fatalities are reported.

The British steamer Middleton from Buenos Ayres, October 13, for Hamburg and the British steamer Cotan, which arrived at London, October 21, from Palermo, have been in collision off the Goodwin sands. Both vessels sustained much damage. The Middleton is full of water.
