PATENTS

obtained for new inventions, or for improvements in, old ones, for musical or other compounds, trade-marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringements, and all cases arising under the Patent Laws, promptly attended to—Inventions that have been REJECTED by the Patent Office may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, enables us to make closer searches, and secure Patents more promptly, and with broader claims, than those who are remote from Washington.

INVENTORS should by all means employ the best skill to prepare their Specification, and in a model or drawing we make examinations and advise as to patentability free of charge. All correspondence strictly confidential. Prices low, and we make NO CHARGE UNLESS PATENT IS SECURED.

We refer to Washington, to Hon. Postmaster General D. M. Key, Hon. P. D. Pepper, The German-American National Bank, to officials in the U. S. Patent office, and to Senators and Representatives in Congress, and especially to our clients in every state in the Union and in Canada. Address,

SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The Laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is not a sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

Lord Salisbury on the Fishery Question.

WASHINGTON, 17.—Lord Salisbury, in reply to Secretary Evart's dispatch concerning the Halifax fishery award, after recalling at considerable length, the circumstances which led to the organization of the commission, and quoting the decision given by the majority of the commissioners, says: In the dispatch, which has been communicated to her Majesty's government, Mr. Evarts seeks to invalidate the award upon the ground that in estimating the claims of Great Britain, the commissioners must be assigned to have taken into consideration the circumstances which the treaty of Washington had not referred to them. There is nothing upon the face of the award which gives any countenance to the supposition that the commissioners travelled beyond the limits assigned by the treaty. Mr. Evart's estimate, at a very high value, the profit which British fishermen have derived from opening a market with the United States, and concludes that the sum fixed by the award is so much larger than these considerations would have justified, that the United States government can only explain its magnitude on the assumption that the commission has mistaken the question that was referred to it. To argue against the validity of the award solely on the ground that the conclusion arrived at by the arbitrators on the very [illegible] Majesty's government can only accept now, as on similar occasions they have accepted before, the decision of the tribunal to which they have solemnly and voluntarily submitted.

At the close of his dispatch Mr. Evarts calls attention to the fact that the award of the commission was not unanimous, and that in the treaty of Washington, no stipulation is in this case made that the decision of the majority is to be binding. The opinion that according to the treaty of Washington the fishery commission was incapable of pronouncing any decision unless its members were unanimous, is one in which Her Majesty's government are unable to concur. It is not difficult to produce from text books, even of very recent date, authority for the doctrine that in international arbitration the majority of the arbitrators binds the minority, unless the contrary is expressed. I am not aware that any authorities who, in respect to international arbitrations, could be quoted in a contrary sense, and it would not be difficult to show, by reference to cases in American as well as in English courts, that the same rule has always been judicially applied in case of arbitrations of a public nature. The language and stipulations of the treaty itself, so far as they are explicit upon the subject, point to a similar conclusion. The suggestion that the framers of the treaty meant by their silence to prescribe the mode of proceeding, which before a tribunal thus constituted is unexampled, can only be accepted on the hypothesis that they were deliberately preparing an insoluble controversy for those by whom the treaty was to be executed.

Lord Salisbury enters into a lengthy argument in support of his position, and concludes as follows: If a jury was constituted on the principle that the plaintiff should choose one-third and the defendant another third, very few persons would be found to expose themselves to the cost of an action at law. Had it been known five years ago that an award would be prevented by dissent of one of the members of an arbitration constituted on the same principle, though I do not venture to conjecture what the course of the United States government would have been, I feel confident that England would have declined to enter upon so unfruitful a litigation.

Reciprocating cordially the courteous and friendly sentiments by which Mr. Evarts' language is inspired, her Majesty's government feel confident that the United States government will not, upon reflection, see in the considerations which have been advanced, any sufficient reason for treating, as a nullity, the decision to which the majority of the commission have arrived. I have, etc.

SALISBURY.

To JOHN WELSH, Esq.

A Stormy Scene.

NEW YORK, 17.—A stormy scene occurred at the Bowery Theatre last night, the leading actor, Cyrille Searle, coming forward and declaring that the management had cheated the actors out of their salaries. The audience, one of the regular Saturday night Bowery sort, took the actors part, and created the greatest uproar by cat-call cheers; groans and demands to pay up. Rose Eytinge, accompanied by the proprietor, then came upon the stage and made a short address which conciliated matters.

U. S. Educational Exhibits.

The *Herald's* Paris special says: It is officially announced that government will set apart a room in the Palais Bourbon for the permanent collection of United States educational exhibits, which have already been donated.

A "Huron" Survivor.

The *Herald's* Washington special has a long story of the arrival there of a survivor of the wrecked *Huron*, who was afloat 24 hours, and rescued and taken to Norway.

Fatal Quarrel.

Last night, Michael Rositter, living at 10 Washington street, quarrelled with his wife, and deliberately hurled a lighted lamp at her. The kerosene that was scattered over her clothing ignited on the instant, and she was so frightfully burned that she died in a few hours.

$100,000 Fire.

NEW ORLEANS, 17.—A Galveston *News'* special from Tyler says: A fire here, on Saturday night, destroyed five large stores, the United States court room, together with all its contents. The loss is about $100,000; insured about half.

Shot and Killed.

DEADWOOD, 17.—John Cole arrived here, last night, from Inyan Kara mountains and gave himself up to the sheriff, stating that he had shot and killed a man named George Heuston, in self defence. Witnesses to the affair say that Cole was justified in killing Heuston, as the latter commenced the quarrel and fired a rifle shot at Cole, who returned the fire with fatal result. Heuston was from Illinois.

Another Telegraph Line.

The telegraph line from Deadwood to Fort Keogh, Montana, has been completed. This line opens central Montana and Yellowstone up to communication with the outside world via the Black Hills and Cheyenne telegraph line, with which it connects.

Acquitted.

The jury in the case of the Territory vs. George W. Bell, charged with the murder of Charles E. Lee, of Chicago, rendered a verdict of acquittal.

FOREIGN.

GREAT BRITAIN.

Russian Cavalry.

LONDON, 17.—A Constantinople dispatch says: Nine regiments of Russian cavalry have arrived at Adrianople.

The Greek Frontier.

Relative to the Greek frontier the Turkish council of ministers ultimately adopted the view in favor of a frontier line on Thessaly, as recommended by the congress, but only favored the cession of a quarter of Epirus, excluding Janina. It is stated the Sultan has assured the French ambassador of his adhesion to this rectification.

What Russia Demands.

The Roumanian minister has informed the Roumanian [illegible] demand, as a condition for evacuating Roumania, the right to occupy and fortify Kustendje and other strategetical points in Dobrudja, and to maintain a military route through Roumania.

RUSSIA.

Reception Advised.

ST. PETERSBURG, 17.—It is stated, on good authority, that the Russian papers have been advised to moderate their language against foreign powers.

ITALY.

Attempt to Assassinate King Humbert.

NAPLES, 17.—As King Humbert was entering the city in state, today, a poorly-clad man attempted to assassinate him with a poinard. Signor Cairoli, chief of the ministry, who was in the carriage with the King, laid hands on the man, who wounded him in the thigh. The King drew his sword and struck the assassin, who was immediately secured. The King received a slight scratch. The popular indignation is intense, and the demonstrations of loyalty are unbounded. The assassin is 25 years old, and by occupation a cook. He says he belongs to no society, but being poor, nourished a hatred towards the King. His name is Gioanni Passanante.

He was bearing a banner among the trade associations which paraded to salute the King. He had fastened the dagger to the flagstaff.

GOLD MEDAL

Has been awarded at the Paris Exposition

J. & P. COATS,

for their best Six-Cord Spool Cotton, confirming the estimate placed upon their goods at all the world's Expositions, from that at London, 1862, to the Centennial Exposition of 1876, where they took a diploma for "SUPERIOR STRENGTH AND EXCELLENT QUALITY."

The Second Prize of a Silver Medal was taken by the Williamantic Linen Company, which claims to be the special champion of American industries, and which has extensively advertised a Grand Prize at Paris.

NO GRAND PRIZES were awarded for Spool Cotton at PARIS!

Messrs. J. & P. Coats have established in Pawtucket, R. I., the largest Spool Cotton Mills in the United States. Every process of manufacture, from the raw cotton to the finished spool, is conducted there. Their American-made Spool Cotton took the award at the Centennial, and while they have never claimed special merit for their American-made Spool Cotton over that manufactured in their Scotch Mills, we have the satisfaction of announcing that they have so identified themselves with this country, that

AMERICA, as represented by

J. & P. COATS, is still

THE CHIEF OF HEALING COMPOUNDS.

HENRY'S

Carbolic Salve.

The Most Powerful Healing Agent ever Discovered.

Physicians give it the highest recommendations.

POINTS TO BE BORNE IN MIND.

Carbolic Salve positively cures the worst sores.

Carbolic Salve instantly allays the pain of burns.

Carbolic Salve cures all cutaneous eruptions.

Carbolic Salve removes pimples and blotches.

Carbolic Salve will cure cuts and bruises.

Henry's Carbolic Salve

ranks at the head of all Salves, Ointments and other Healing Compounds, and has achieved a greater reputation and has a larger sale than any other similar preparation. The most

VIRULENT SORES AND ULCERS

have been cured with wonderous rapidity by the use of Carbolic Salve, and it is advertised now almost universally by Physicians throughout the country in their practice.

Testimonials from the most respectable sources, medical and otherwise, are constantly accumulating on our hands, demonstrating the sovereign efficacy of

This Great External Remedy,

and that the cures which it affects are as prompt as they are complete. The two following excerpts are all we deem it necessary to insert.

Geo. B. Lincoln, Pres't of the Board of Health, N. Y., writes: Your Carbolic Salve is an excellent article, and I thank you for it. This is another evidence of the great value of the discovery of carbolic acid.

D. H. Locke (Petroleum V. Nasby), of New York states that he had "on the forefinger of his right hand one of those abominable, a 'run-round.' The finger became inflamed to a degree unbearable.

A friend dressed it with Carbolic Salve, and in twenty minutes the pain had so much subsided as to give a fair night's rest.

The inflammation left the finger in a day."

Henry's Carbolic Salve

is used extensively in Hospitals, and is found to be not only a thorough purifier and disinfectant but also the most wonderful and speedy healing remedy ever known. Sold by all Druggists.
