A Lying Sheet .- On Tuesday evening we published an account of John Aird's having been arrested that morning for forcibly entering the rooms of Mrs. Thomas, formerly Aird's plural wife, and taking some articles there-from, and gave the proceedings at the 140-Wm. McIntosh, St. Johns. 141-Jas. McKnight, Stockton. examination. Yesterday an alleged 141-Jas. "Penitentiary reform does not seem to have worked all the glorious results desired in the case of John Aird. The facts which his former trial for cohabilitation revealed were of a most disgusting nature, and his term of confinement has evidently failed to make any particular change in his principles or aspirations."
The statement that the facts revealed at Aird's trial for cohabilitation "were of a most disgusting nature," seems to be almost as near the truth as that sheet can get, and is faise. Aird was never tried for cohabilitation, so it was impossible for any "disgusting" facts never tried for cohabitation, so it was impossible for any "disgusting" facts to be revealed, but when he was ar-raigned before the Third i District Court, he pleaded guilty to the charge of unlawful cohabitation. On his promising the Court to live within the Edmands law, and to use his influence to persuade others to do the same, a fine of \$300 was imposed, no imprison-meat being inflicted, so that the "term of confinement" amounted only to re-maining in the penitentiary for 30 days in lice of the fine Auother item of "mews" given by the unreliable sheet is: "The DESERST NEWS asserts that Aird has been knows to visit both of his former wives since his relates from the penitentiary, and uses the allega-tion as evidence of the fruitlessness; to come within the is rumped up for effect." The DESERST NEWS masser of the fine at that could be construed by an intelligent person linto an assertion impossible for any "disgusting" facts

ace. We learn from an Arizona paper that the yucca plant, with which our neighboring Territory abounds, is to be utilized in the manufacture of paper. The London Telegraph, which uses from 150 to 200 miles of paper every day, has purchased a large tract in the Mojave desert, California, where the yucca abounds, and will have the plant shipped to some point on the Colorado rivers where if will be ground into pulp, thence shipped by rail to New Orleans, and then by sea to Liverpool.
