## GRAND JURY SECRETS OPENLY

PUBLISHED.

The daily Tribune, which publishes this morning what it claims to be a portion of the minutes of the grand jury, for refusing to testify before which Anna Galtiff was sent to the Penitentiary, five days before she gave birth to a child. These pretended minutes make Anna Galtiff answer some of the very questions for refusing to answer which she was imprisoned like a convict.

The correctness of these minutes are open to dispute for several reasons. One is that they are published in the Tribune. Another, that during the two trials that have recently occurred so much comment, the prosecution has played the grand jury testimony down to its full capacity. Witnesses have been intimidated by the insinuation that they had made certain damaging admissions to the grand jury which they were contradicting before the petit jury. This has been tried in numerous instances and the witnesses have expressed the utmost astonishment at the pretended testimony which it was intimated they had given before the grand jury, and have declared solemnly that they gave no such testimony at any time or in any place.

The object of the insinuation of the prosecution that the witnesses had given conflicting testimony on different occasions, was evidently to produce a bad effect on the jury. The grand jury minutes were not cited or produced openly. The prosecution had no right to read them in open court. There is no proof that the insinuations of the prosecution were founded on truth; the evidence of many witnesses goes to show the contrary. And now that which the prosecution dared not give to the jury, that which the law requires to be kept secret, is openly published in a newspaper for the purpose of influencing the jury and damaging the defense in case still pending.

For these reasons and because the pretended answers of the witness Anna Galtiff, are some of them such as she was not likely at all to make, which it is well known she refused to give, and was willing to be imprisoned rather than do so notwithstanding her delicate condition, we consider the pretended minutes utterly unreliable and that they carry with them prima facie evidence of having been doctored for a purpose.

And now we ask, by what right are statements made in secret as provided by law, given to the public by officers of the bar, through a notorious and disreputable newspaper, solely for the purpose of prejudicing the court and the jury against the case of the defendant, now in legal jeopardy? If it is whispered around at any time that something done in grand jury room has leaked out, or become known to the public, what a hubbub ensues in consequence? The necessity for secrecy and the law providing for it are dilated upon, and the direct vengeance is invoked upon the individual who is supposed to have sprung the leak. And yet to-day questions and answers alleged to have been made before the grand jury, which the prosecution dared not speak about before the trial jury, are given to the public, court, jurors, witnesses and the world!

Is this not contempt of court? Or is that offence limited to the refusal of delicate women to answer questions to the grand jury? Is the grand jury the dignity of the court? Is this open violation of its rules and placed in imminent danger by the recalcitrance of a witness? Or is it all right because the contempt arises from a venial source, "Mormon" sources?

We say nothing about the indecency, effrontery and utter lack of principle exhibited in the publication of the pretended minutes before a grand jury, but being just anxious to say one thing that the dignity of the court which cannot brook the silence of a lady witness should be properly upheld, we do point to this publication of alleged proceedings which the court holds must be held in secrecy, as a glaring case of contempt on the part of the press which has published them and that of the official who gave them away. And the object and intent of their publication—to prejudice a case on trial, to the detriment of a man placed on trial, is distinctly in the extreme, and a piece of audacious infamy that would be perpetrated by no other paper in the land but the Salt Lake Tribune.

## MISSIONARIES MOLESTED.

Elders Herbert B. Bell and Peter L. Lemmon, recently wrote to the Sevier Valley Echo, from Schuyler County, Illinois, the following being an extract from their communication: "One night lately, between the hours of six and ten o'clock, a storm struck the Bethel school house, having owing to its being a brick structure, very little damage was done, excepting to doors, etc. On examination the next morning it proved to have been a shower of stone coal, and was limited to the small square on which the school house stood. The cause of the disaster was a collision between truth and error, which took place on the evening previous, while the gospel of Jesus Christ was being promulgated, truth being sustained by two young mountain boys from Utah, and error by the Liberals, as they call themselves, and they proved to be true to their bogus name, for they left us to choose as to our quarters for the night, whether we should sleep in the street or in the school house. We accepted the latter. This was no doubt the cause of attracting the storm; to that particular building, the mobbers thinking by so doing they would scare us out, but like all other schemes of the adversary it failed to have the desired effect."

## AN UNUSUAL CASE.

On October 22nd there was a large crowd of people present in the United States Circuit Court in New York, to hear the verdict in the case of Peter Gomez, a Portuguese seaman, who was charged with running away with the ship *Julia Baker* and selling her cargo, after the very sudden death of her captain, Mr. Lewis. Edward Gomez, whose usual amble and seemed confident of acquittal. The foreman handed in a sealed verdict, which was opened by the court and read aloud. In it the jury found Gomez guilty of scuttling the ship and selling the cargo. They also rendered their opinion that it was necessary to the death of Capt. Lewis. Gomez was remanded for sentence.

## THE WIFE AND THREE CHILDREN OF THE PRISONER.

The wife and three children of the prisoner were in court. The former appeared much affected by the unfortunate position in which her husband is placed. The facts in the case against Gomez are well known. On the 10th of June the *Julia Baker* sailed from New York for Key West. While on the voyage the captain died, and the mate, William Gomez, was charged with subsequently running away with the vessel and afterwards selling her cargo. Of the mate's guilt there has been but little doubt, and now the verdict of the jury in the case of Gomez finds him guilty of a crime so serious that only a long term of imprisonment will legally expiate his offence.

## MISSIONARY WORK ABROAD.

LABORS OF ELDERS ALLEN AND WOODRUFF.

GAY ST., OFF GAY JACKSON ST., Manchester, Oct. 15, 1884.

Elder C. W. Penrose, Salt Lake City, Utah: Dear Brother—Being unacquainted with you personally, I am writing you by mail for addressing a few lines to you.

Since my arrival in England last fall I have labored in the Manchester Conference, and in humility have been trying to diffuse the truth, as restored in our day, among people who truly are groping in darkness. The past four months Elder A. H. Woodruff has been my traveling companion, and together we have held over 100 meetings, most of them open air, some of them in places where the Gospel trumpet has not sounded for many years. We have met with some opposition, which is a good thing to a certain extent. A few have applied for baptism, and we have had our testimony strengthened by the fact that some of the people who were formerly sick have been healed, and the promises of the servants of God have been literally fulfilled.

Both of us take the News, semi-weekly, and also, besides the copies of two or three subscribers in our town—Mount Pleasant—sent to me. All of them are very anxious to know of our progress, and we know that much good results from the distribution of a paper which will be read with interest by everybody but "American gentlemen." Isabella Brooks, of Ashton-under-Lyne, wishes to know of our progress, and she writes to me by mail. She works at Ellis Foundry, Bradford, Yorkshire, and her address is No. 1, back of Winter Street, Hurst Brook, near Ashton. She wishes me to write to you, as editor of the News, and ask you to inquire through that paper about her brother.

She works at Ellis Foundry, Bradford, Yorkshire, and her address is No. 1, back of Winter Street, Hurst Brook, near Ashton. She wishes me to write to you, as editor of the News, and ask you to inquire through that paper about her brother.

Both of us take the News, semi-weekly, and also, besides the copies of two or three subscribers in our town—Mount Pleasant—sent to me. All of them are very anxious to know of our progress, and we know that much good results from the distribution of a paper which will be read with interest by everybody but "American gentlemen."

Isabella Brooks, of Ashton-under-Lyne, wishes to know of our progress, and she writes to me by mail. She works at Ellis Foundry, Bradford, Yorkshire, and her address is No. 1, back of Winter Street, Hurst Brook, near Ashton. She wishes me to write to you, as editor of the News, and ask you to inquire through that paper about her brother.
