

TO HINDER AND DELAY CREDITORS

Charles W. Clark's Transfer of Stock to Father Alleged to Have Been Fraudulent.

HE IS SUED ON A JUDGMENT.

Court Asked to Set Aside Transfer and Order Sale of Enough to Satisfy Debt.

Helena, Mont., Oct. 31.—A suit for collection of a judgment against Charles W. Clark, son of former United States Senator Clark, which was filed in the federal court today by a Mexican bank, charges that a certain transfer of stock by Charles W. Clark to his father "was a fraudulent device to hinder and delay the creditors."

The plaintiff, Succulent Del Banco Minera de Chihuahua, alleges that in 1900 Charles W. Clark agreed to finance the mining operation of Edward L. Whitmore and F. L. Sizer, the latter opening an account with the complaining bank. On April 30, 1902, it was found that an over draft had been made. Suit for its payment resulted May 4, 1906, in the securing of a judgment for \$7,198.12% in American money and the costs of the suit.

Attempts of a United States marshal to levy on the execution by garnishment of property alleged to have been owned at that time by Clark in the Colorado-Pueblo Mining and Smelting company in Butte, Mont., and in the firm of W. A. Clark & Brother, bankers according to the petition, were met by the statements that these latter parties had no property in their possession or control belonging to the defendant, Charles W. Clark.

The plaintiff now alleges that Charles W. Clark was the possessor of mining stocks valued at \$3,660,000 and that the transfer of these stocks to former Senator W. A. Clark "was a fraudulent device to hinder and delay the creditors of said Charles W. Clark."

The court is asked to set aside the transfer of this stock as void, and to order the sale of so much of it as shall be necessary to satisfy the judgment and costs of the litigation.

ROCKY MOUNTAIN CLUB.

Will Become Fixed Feature of New York Life.

New York, Nov. 1.—Upon taking possession of its new quarters in the Hotel Knickerbocker tonight, the Rocky Mountain club will become a fixed feature of New York City life. Organized only last January, the club has grown in membership to such an extent that it was found necessary to have room in which to expand. Accordingly, the magnificently furnished suite on the fourth floor of the Knickerbocker has been leased for a term of years. Membership in the Rocky Mountain club is limited to residents or former residents of Alaska, Washington, Oregon, Idaho, Montana, North and South Dakota, Wyoming, California, Nevada, Utah, Colorado, Arizona, New Mexico, Texas and Oh Mexico. There are now 330 in the membership list. John Hayes Hammond is president.

JAPANESE EMPEROR.

Japanese in New York to Celebrate His Birthday in Carnegie Hall.

New York, Nov. 1.—The Japanese of New York will celebrate the sixty-first birthday of their emperor, by a mass meeting at Carnegie hall. The emperor's birthday falls on Sunday. The gathering, it is said, will be the first grand meeting of Japanese ever held in this city.

The entertainment will consist of addresses by prominent Japanese residents, Japanese music, a theatrical performance, Mine, Hanako and an exhibition of wrestling and jiu-jitsu.

PREFERRED SUICIDE TO FACING IMPENDING TROUBLE

Des Moines, Oct. 31.—National Bank Examiner H. M. Bowcock is in charge of the First National bank of Chariton, whose cashier, F. R. Crocker, committed suicide rather than face imminent trial. Crocker had been charged with aiding himself. Crocker addressed a note to Examiner Bowcock, whose visit was expected. This note explained his intent to commit suicide if he was compelled to take immediate charge. The bank is capitalized for \$100,000 and has a surplus of \$60,000. It carries about \$90,000 in deposits. The other banks of Chariton, which were unaffected by the closing of the First National bank and they did business all day, the Bank of Russell, a private institution of Russell, and the Bank of Chariton, were president, also closed at noon temporarily.

Worry over losses sustained in alleged misappropriation of funds forced him to make the cause. Crocker left a note saying:

ITCHING PIMPLES TORMENT 5 BOYS

Arms and Hands Affected—Could Not Sleep Because of Itching—Suffered for Two Months Until Two Cakes of Cuticura Soap and

ONE BOX OF CUTICURA CURED THEM ALL

"I have five boys, from five to eleven years of age, who were affected some time last winter by some kind of skin disease. The worst parts of the body were around the arms and hands, where small pimples formed and itched. They would not sleep because of it, so they could not sleep at night. Noticed an advertisement about the Cuticura Remedies and we made a trial of one or two cakes of Cuticura Soap and a box of Cuticura Ointment which gave great satisfaction. Washed their bodies with Cuticura Soap and applied Cuticura Ointment every other day. Since then they have all been well. A. E. Carlson, Norcross, Travers Co., Minn., Nov. 26 and Dec. 23, 1906."

WORST ECZEMA

Baffled Medical Treatment For a Year, Cured by Cuticura.

"About four years ago I was afflicted with blisters all over my face and a few on my body, which produced a severe itching irritation, and which caused me a great deal of suffering. I was forced to call in two of the leading physicians of — After a thorough examination of the complaint they announced that the skin disease was incurable. They treated me for a year, but their treatment did me no good. Finally I became despondent and decided to discontinue their services. My husband purchased a complete set of Cuticura Remedies, which entirely stopped the trouble. I continued to use the Cuticura Remedies for six months, and after that every splash was entirely gone and the affected parts left as clear as ever. I have not felt a symptom of the eczema for three years." Mrs. Linzie E. Sledge, 540 Jones Ave., Selma, Ala., Oct. 28, 1906."

*Complaint External and Internal Treatment for Every Skin Disease. Helps to relieve the Skin, Controls Inflammation, Cures Ulcers, Sores, and other Skin Diseases. Used throughout the World. Druggists and Chemists. **Mailed Free.** Cuticura Book on Skin Diseases*

The jury is kept in the former bar-room of the Mountain View hotel, but is not allowed to have any liquor. L. G. Willis, owner of the Coeur d'Alene Journal, was reported ill today. An effort was made to get him whisky on a physician's prescription, but it was unsuccessful. The jury is in charge of four bailiffs, two by night and two by day. They are allowed to read the newspapers with the reports of the Adams trial eliminated. From the present outlook the case will consume a month and perhaps longer. Judge James W. Hawley of Boise, who appeared in the Haywood case, was here last night, but went to Spokane today. It has not been determined that he will take any active part in the prosecution. From present appearance the jury will not be completed for at least 10 days.

TREATY WITH RUSSIA.

Negotiations for One on Naturalization Opened.

St. Petersburg, Oct. 31.—The American charge d'affaires, Mr. M. Schuyler, Jr., has opened negotiations for a treaty reciprocally recognizing naturalization in either country. The treaty will recognize naturalization unless the person naturalized fled abroad to escape military service after being called to the colors. Under the present Russian laws the transfer of allegiance without the consent of the sovereign is a crime punishable by fine and imprisonment.

In view of the Russo-Japanese treaty permitting the establishment of a Japanese consulate at Vladivostok, Mr. Schuyler has broached with the authorities the question of the establishment of an American consulate at Vladivostok instead of the existing consular agency.

JOHN MITCHELL OPERATED ON.

Indianapolis, Oct. 31.—The national executive board of the United Mine Workers of America adjourned today to meet again in Indianapolis Dec. 19. Information has been received at Indianapolis that John Mitchell, a member of the executive board, suffered an operation at LaSalle, Ill., for an abdominal abscess last night.

DR. MOHR FALLS DEAD.

Philadelphia, Oct. 31.—Dr. Richard Mohr, general director of the Hospital of the Holy Cross in this city and professor of obstetrics and gynecology at the University of Pennsylvania, died yesterday morning at Atlantic City in September last, but that time it was endorsed by a nearly unanimous vote after strong arguments in its favor by A. Barton Hepburn, president of the Chase National bank of New York, and Representative Charles N. Fowler, chairman of the house committee on banking. The committee which framed the measure was continuing its work in the hope of further action. He has not had a meeting since the convention at Atlantic City, but some of the western members are strongly desirous that such a meeting be called at an early date, in order to

AVAILABLE SUPPLY OF CASH INCREASED

Caused by Imports of Gold and Enlarging Bank Note Circulation.

ACUTE STAGE OF CRISIS OVER

Expected There Will Soon be an Abundance of Money to Resume Cash Payments.

New York, Oct. 31.—Indications that available supply of cash would be materially increased within a short time with imports of gold and the increase of the bank note circulation, and that the movement of cotton and grain crops would be facilitated in every way possible, with the result of increasing our credits abroad were the salient features of today's financial situation. It seemed to be recognized everywhere that the acute stage of the crisis was over and that all that remained was to obtain sufficient currency to resume currency payments upon a broad scale and thus to restore conditions prevailing before the crisis.

The engagements of gold made in New York, Chicago and elsewhere brought in the total import movement within the past week to \$22,750,000. As much note is given to the amount of gold as to the existing pressure. The amount of the Bank of England in holding in account rises to \$1,000 per cent. This is in accordance with expectations in conservative circles. The fact that the increase was run made to 6 per cent and that the English rate remains 1 per cent below the German rate is accepted as an indication that the situation at London is not considered acute.

The prompt response of the national banks throughout the country to the suggestion of Comptroller Eliot to they should employ United States bonds as largely as possible to secure circulation and substitute other bonds for those pledged against deposits of public money, promises a considerable increase in the available stock of currency. The estimate of an increase in the bank note circulation of \$20,000,000 is considered well within the probabilities. It will require time, however, for some cases for the banks to obtain proper bonds to substitute for their United States bonds. Mr. Vanderlip, vice president of the National City bank, made the fruitful suggestion today that the savings bank would at once improve the general situation and add to their circulation what they would sell their holdings of United States bonds to the national banks. Even though what they do not care to sell, it is believed that they will lend the bonds to the national banks, as has often been done in the past.

Interest is continuing to center in the movement of the cotton crop from New Orleans and other southern points where it is an essential to provide bills for the cotton crop. The cotton industry, according to Washington dispatches today, was disposed to increase deposits of public funds in the southern banks as rapidly as such funds become available. This will supply the banks with the stock of currency so much needed to handle the cotton crop and will enable them to await the arrival of their cotton bills in Europe and the bringing back of their cotton.

The committee of New Orleans bankers which is in Washington has suggested that the New York banks can ease the situation by giving the southern banks credit for checks on foreign banks forwarded as soon as they receive telegraphic notices of the amounts. This will enable the southern banks to check against such bank remittances in payment of collections and in making remittances to interior banks throughout the country.

It is noted with interest by leading bankers here that the present scarcity of currency and the recourse which had been had to the national banks' circulation was the only thing that held up the plan for currency reform which was endorsed by the American Bankers' association. This plan was adopted in December of last year, after consultation with representatives of the New York chamber of commerce and was presented to Congress at that time. The plan did not receive the definite approval of the American Bankers' association until the meeting at Atlantic City in September last, but that time it was endorsed by a nearly unanimous vote after strong arguments in its favor by A. Barton Hepburn, president of the Chase National bank of New York, and Representative Charles N. Fowler, chairman of the house committee on banking. The committee which framed the measure was continuing its work in the hope of further action. He has not had a meeting since the convention at Atlantic City, but some of the western members are strongly desirous that such a meeting be called at an early date, in order to

EAT ANYTHING IF EATEN SLOWLY.

A prominent specialist on stomach trouble in a lecture to the Allied Ladies Club Association stated that the reason so many people were the victims of the disgusting and dangerous malady dyspepsia was simply because they ate too fast. He says there is much talk about what should and what should not be eaten, but all this might be held in total disregard if the proper mastication were given to food, no matter what nature it is.

He also gave out a most valuable prescription for the benefit of those already suffering from the effects of dyspepsia or indigestion in any form. It is as follows: "Two ounces Peppermint oil; one ounce Camphor Compound; three ounces Syrup Glycerine. These to be well mixed and used in doses of from one to two teaspoonfuls after each meal also at night for first few days."

This makes a simple mixture which can be gotten at any well-stocked drug store and easily prepared at home. It is pleasant to the taste and he says is the most effective formula known to science for restoring the digestive organs to their full vitality and activity; so it surely must be worth a trial by those thus affected.

bring the subject property before Congress while public opinion is aroused on the subject.

ALWAYS WAS SICK.

When a man says he always was sick, it is not a very good sign. If he should say—he never was sick since going Ballard's forehead cap, he would be right. Ballard, Denver, Colorado, writes: "For years I was troubled with a severe cough that would last all winter. This cough left me in a miserable condition. I took S. S. Dr. Z. C. M. Drug Dept., U.S. and 11 South Main St.

R. FOWLER ELECTROCUTED.

Over a Year Ago He Murdered His Sweetheart. Mary Hager.

Columbus, O., Nov. 1.—Royal Fowler, of Dayton, who killed his sweetheart, Mary Hager, more than a year ago, was electrocuted in the annex at the Ohio penitentiary, a few minutes past midnight. Fowler maintained the stoical indifference which marked his conduct during imprisonment, to the very last. No unusual incidents attended the electrocution.

Royal Fowler, aged 25, was electrocuted in the annex at the Ohio penitentiary after midnight tonight for the murder of Mary Hager, his sweetheart, at Dayton in the summer of 1906. Ever since his incarceration in the death cage, Fowler has been apparently indifferent to his fate. A final appeal in his behalf was made by his mother, Mrs. Anna Arnold today, but Gov. Hartsell declared the circumstances of the crime did not justify clemency. Fowler served several sentences in the Dayton workhouse and was regarded as a degenerate. He had professed conversion and seemed to be deeply religious.

BANKERS' TRUST CO RECEIVER.

Kansas City, Oct. 31.—Thomas R. Marks, chairman of the Republican county committee, was today appointed receiver for the Bankers' Trust company, which closed its doors Oct. 28, under instructions from Secy. of State, Snyder, because the local managers would not give in the privilege granted other banks of issuing clearing house certificates. The indebtedness of the company, outside of the half million capital stock, is \$800,658. In the petition for receivership nothing is said about the assets.

The local financial condition today continued to show improvement.

UTES ARE QUIET.

Pierre, S. D., Oct. 31.—Telephone messages to the Cheyenne agency tonight say that all is quiet there with Utes as far as known. No trouble is expected.

INVALUABLE FOR RHEUMATISM.

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24, '02, John C. Deegan, Kinsman, Ill. 2c. 5c. & 1c. Sold by Z. C. M. Drug Dept., U.S. and 11 South Main St.

All will pay 25 per cent off. W. A. Duvall, 119 West Second South.

THE DESERET NEWS.

GOOD BOOKS FOR THE HOLIDAYS.

The work of preparing high class books that will suit the tastes of young and old for the coming holidays is now going on at the Deseret News Book store.

Several years of experience have demonstrated to the satisfaction of the management that the demand for the best literature at Christmas time is steadily growing. To meet this demand, one that ought to be encouraged in all ways, the Book Store has decided to devote the space hitherto used for toys and holiday gifts to books, therefore of the best grade, will form the big feature of the Deseret News establishment during holiday time.

Shipments have already begun to arrive, and arrangements have been made with such standard publishing houses as Harper Brothers, McMillan & Co., Dodd Mead & Co., Scribner's, Little & Brown, and many others for their standard works. Even though it is a little early yet, people who want to select books for their friends can have them set aside and carefully held until near the holiday dates.

In the meantime the public is invited to inspect the large, rare and beautiful stock of standard literature which the establishment has received and is daily receiving for the holiday trade.
