PHILIPPINE TARIFF IS UNDER DEBATE

Mr. Payne Champions It, Showing How Beneficial it Is—Mr. Swanson Attacks It—Will Be Voted On Tomorrow.

Washington, Dec. 17.—The first debate of the session in the House began today on the bill to provide temporary revenues for the Philippine Islands. Under the agreement made last Friday the debate is to continue today and tomorrow until 4 o'clock when the vote will be taken. Mr. Payne, the floor leader of the majority, opened for his side and owing to the indisposition of Mr. Richardson, the floor leader of the minority, who is suffering from an attack of grippe, the task of opening for the minority side devolved upon Mr. Swanson, of Virginia. There was a fair attendance in the galleries. Before the debate began some preliminary business was transacted. Messrs. Taft, (Mo.) and Broussard, (La.) who had not hitherto appeared at this session, took the oath.

After the routine had been disposed of Mr. Payne moved that the House go into committee of the whole for the consideration of the Philippine revenue bill. Two Democrats, Messrs. Vandiver, (Mo.) and Cooper, (Tex.) attempted to interrupt the motion with remarks to the effect that the bill was a mere revenue measure and that it should be referred to the committee on ways and means. Mr. Payne declared that Mr. Vandiver's resolution recites the finding of the court of inquiry reflected against Mr. Vandiver and calls for an investigation of the Philippine revenue bill. SUIT AGAINST DOWIE

Evidence Offered to Show that He Possesses Some Strange Power.

Chicago, Dec. 17.—Testimony was offered before Judge Tully today in the suit for the appointment of a receiver for John Alexander Dowie's Zion lace industries to show that Dowie possessed some mysterious power over his disciples and that by means of this power he induced them to obey his commands implicitly. Samuel Stevenson, the plaintiff, who charges Dowie with having defrauded him of \$15,000, his power went on the witness stand again at the opening session and swore that Dowie waved his hands and exerted this influence by pressing him closely in his body. The attorney for the defense tried to have this power appear in the records as magnetism but the court would not permit it. Stevenson testified that three times he had been cured of a disease when Dowie pressed him to his body and that on this influence he and other persons felt that Dowie could call down a curse upon him.

DE SHAZO IN TROUBLE

Chronicle Offender Gathered in Again By Police.

Bert de Shazo is again in "limbo." It is almost an impossibility for Bert to keep out of jail. He was arrested by Detective Sheets this morning on the charge of obtaining goods under false pretenses. According to the officer's story, De Shazo has been going about town representing himself to be an employee of the Woods Mercantile company, and by such representation he has obtained money and rooms to sleep in.

He has had some woman with him and the two have engaged rooms at various places. De Shazo is a "standing the landlady off" by saying the "lady" was his wife and he "was employed by the Woods's company."

During the year he has been arrested at least half a dozen times for petty larceny, vagrancy and other offenses. The last time he was in court Judge Dehl permitted him to go upon the promise that he would leave town and never come back here. But no sooner does he get back into town than he finds his way into the hands of the police. He was arrested by Detective Sheets on the charge of obtaining goods under false pretenses, promising to leave town within an hour.

ABUSIVE HUSBAND

Mills Fined \$25 for Abusing and Ill-Treating His Wife.

Passengers on the Waterloo car bound for town about 7:30 last evening, were forced to hear some vile and shameful language from a drunken bartender who thought it a splendid opportunity to abuse his defenseless wife. From Seventh and Fifth East to First South and East Temple street he kept up a continuous stream of abuse. The lady attempted to get off the car on Second South but the man would not allow her to do so. When First South was reached she jumped quickly from the car followed by the enraged husband.

The woman ran to Officer Randolph for protection, and the vehement individual was placed under arrest and locked up on the charge of using abusive and profane language.

The man's name is F. H. Wills. His wife is suing for a divorce and the two met at St. Ann's Orphanage last evening, where they had gone to see one of their children who is sick. When Mrs. Wills left the orphanage, Wills followed her and, according to her story, he dragged her for at least half a block. She screamed for help but none came. When the car came they boarded it and he again commenced to abuse her.

Wills' bail was fixed at \$100, which he was unable to give and he was forced to spend the night in jail. In court this afternoon Mills was convicted of using abusive language and fined \$25.

This work is expected to occupy them for several days. Senator McComas of Maryland, who is the navy department today and had latter departed for the cabinet meeting, is understood to be preparing the statement of objections to the court's findings which Admiral Schley has been granted authority to file with the reviewing authority, Secretary Long. JAMES R. HAY AND \$3,800 ARE MISSING

Secretary of the Pacific Lumber Company Drops Completely Out of Sight After Securing Sack of Gold Coin.

The news of the apparent defection of a young man well known in society and business circles comes like a thunderbolt from the clear sky to those who were intimately acquainted with him. His many friends hoped it might be otherwise and made every effort to hush the matter up in the hope that everything would come out all right, but following the rumor of his defection the facts leaked out despite the efforts to prevent it.

The case involves the departure of James R. Hay, secretary of the Pacific Lumber company, and with him, it is said, \$3,800 in gold coin, the company's money. He is supposed to have left last night and all efforts to locate him in the city or secure any clue whatever as to his whereabouts at the present time have been utterly futile. In spite of the great amount of secrecy which surrounds the case, the story leaked out last night and came from reliable sources.

IN GOLD COIN

Yesterday afternoon, Peter Mortensen, a contractor at 220 Walnut Ave., who was indebted to the Pacific Lumber company to the tune of \$3,800, called at the company's office to settle the account. He had the money in gold coin but it being after banking hours the company would not receive the money on account of the risk it would incur in keeping so much gold in the office over night. Mr. Mortensen was requested to take the gold home and bring it down in the morning. He took the money to his residence. The following incidents which happened in quick succession indicate strongly that the Pacific Lumber company would now be about \$3,800 better off, or at least some body would, had the company received the wealth and run the chances of gold burglars breaking in and stealing it.

COLLECTED AFTER DARK

According to the "News" informant, Mr. Mortensen had not been home a great while when he received a caller. The chances are he was not greatly surprised to discover that his caller was the secretary of the lumber company, for the reason that they do, or did not live a great distance from each other. Neither was he greatly surprised when Mr. Hay stated in direct tones that Manager George B. Bonney had sent him there with instructions to get the money and return to the company today. From what can be learned of the interview between Hay and Mortensen, there was nothing in the former's demeanor to indicate anything wrong, and Mr. Mortensen did not become at all suspicious of his visitor. It is not said whether Hay smiled or not as he left with the gold. Certain it is that he has not been seen since.

Becoming alarmed at his absence, it is said his wife instituted a search for him.

GOLD IN PHILIPPINES

Commission Will Not Interfere With Its Export or Import.

Manila, Dec. 17.—The United States commission has finally decided to not again interfere with the importation or exportation of gold or silver, unless absolutely compelled to do so by the circumstances, but beginning with the year 1902, the commission will alter the two to one rate, in accordance with the existing ratio, in the hope of preventing the further export of gold and American bills which are at present being shipped.

The reports from the provinces of the earthquake of Sunday last show that they suffered more severely than Manila. At Battangas a soldier was killed by falling masonry. Ships felt the shock several miles at sea. Seven hundred bolomen have surrounded the island of Samar, owing to the lack of food. The son of the governor of the island of Negros has been killed in an engagement with bandits. Four cases of the plague have occurred here, the first since October.
