

LOCAL AND OTHER MATTERS.

FROM MONDAY'S DAILY, NOV. 10.

GONE WEST.—Governor Geo. L. Woods left this City on Saturday on a visit to San Francisco.

SURELY.—Surely there never was finer weather hereabout at this time of the year.

REMITTED.—The Mayor has remitted \$90 of each fine lately assessed against the City liquor dealers, reducing them to \$10 each, instead of \$100.

BOOKS AND CLOTHING.—One day last week John Swenson, of Beaufort, on his way home from this City, when a short distance north of the Warm Springs, found a trunk containing a quantity of books and clothing and a small box inside of the larger one. The owner of this property had better inquire about it.

CACHE COUNTY CO-OPERATIVE STORE.—Mr. Thomas Aubrey, painter, of this City, returned from Logan the other day, having been up there graining the woodwork of the new co-operative store. He finished the outside and expects soon to return and do the interior. Mr. Aubrey is a very superior grainer. He informs us that the co-operative store is doing a very large wholesale business.

ELOCUTION.—We are requested to announce that Prof. Griffith, the talented elocutionist, will deliver a series of free lectures at the Morgan College, the first of which will be given to-morrow evening, commencing at seven o'clock. Teachers of schools particularly and the public generally are invited to attend. We understand those lectures are preparatory to the organizing of classes for the purpose of giving "drill exercise" in elocution.

MEASLES.—Mr. Geo. Farnworth writes from Mount Pleasant, Sanpete, Nov. 4th, that there is scarcely a family there escaping a visitation from the measles. Six of Mr. Farnworth's own children were down with it at the date of his writing. Mount Pleasant appears to have been singularly unfortunate lately in the matter of health. First it was a peculiar kind of fever, then smallpox and now it is measles.

He further says—"The people in this and surrounding settlements are making good use of the pleasant season, threshing, plowing, &c."

JOURNEYING WESTWARD.—We had a visit to-day from W. H. Gregg, Esq., President of the Southern White Lead Company, of St. Louis. This is Mr. Gregg's first visit to this city, and he is very much pleased with its general appearance. He is accompanied by Mrs. Gregg. They left by the afternoon train for San Francisco, where they purpose spending a few weeks.

The Company, of which Mr. Gregg is President, manufacture an unsurpassed article of white lead. This, we believe, is the general, if not exclusive verdict of the painters in these parts.

FROM IRON COUNTY.—Mr. Wassell, of the Great Western Iron Mining and Manufacturing Company, arrived from Iron County on Saturday evening and is more than satisfied with his trip south and the results of his observations. Mr. Wassell has been appointed general superintendent of construction, to take the supervision of the erection of the company's works, &c., in Iron County, and also to transact business in the east connected with the great enterprise. He purposes leaving for the east on Wednesday, where he will get out plans for the works and attend to other necessary work.

SEVERE ACCIDENT.—Yesterday Heber Clive, aged about nineteen years, son of Mr. Claude Clive, tailor, was riding on horseback, in company with a number of other lads, somewhere on the bench north-east of the City, when he was thrown off his animal and received very severe injuries in the side of his head and neck. So badly was he hurt that, we are informed, this morning he was insensible and had been in that condition all the time since the occurrence of the accident. Dr. W. F. Anderson is attending upon him.

RAILROAD MEETING.—There was a directors' meeting of the Utah Central and Utah Southern railroads, at the office of President

Young on Saturday, when the various reports were read, approved and accepted. It was shown that both roads were in a very sound and satisfactory condition financially, as well as in all other respects. A determination was expressed to push the Utah Southern southwards as fast as circumstances would permit, as the development of the vast resources of that part of the Territory depended almost solely on the opening of railroad communication.

A PLAYFUL FELLOW.—A playful "soldier boy," who rejoices in the euphonious cognomen of Mike Smith, indulged in sundry suspicious maneuvers on Saturday night. He attempted to break into three different establishments in the vicinity of Commercial St., one of which was a tailor's. From the latter he was scared off and ran away. His last visit was to the stable of Mr. Balmforth, Second South Street, where he tried to manipulate the lock of the door. He was caught by officers Phillips and A. Smith and locked in jail. He was not intoxicated when he indulged in these peculiar freaks.

SEEKING EMPLOYMENT.—On Saturday Mr. Evans Rogers, the gentleman who was robbed the other evening of \$2,700, was seeking for employment. He is here with his wife and his misfortune has left him almost entirely destitute of ready means, but he has willing hands and a strong will left and he wants work. He appears to be temperate and respectable, has been accustomed to ranching for the most part of his life, and would be glad of a situation on a ranch, although he is not averse to any other employment that he can attend to.

A BAD FOUNDATION.—The necessity of having a good, sound foundation to every building was illustrated yesterday at the new two story house of Mrs. Kesler, 16th Ward. The partition foundation gave way, letting all the floors and inner walls down a distance of several feet, converging towards the middle of the house, and racking, tearing and cracking them all over. The foundation was composed of cobble rock and being built on soft ground, it gave way, loosening the cobbles, causing them to separate and the foundation wall to be entirely demolished.

The house is a good one, being built of adobe, the partition wall also being of that material. The plastering was completed in all the rooms excepting one.

It is surprising the small amount of judgment and good sense some builders manage to mix in with the rock and mortar. The man who put in that foundation deserves a "puff."

THE EUROPEAN MISSION.—The following are from the *Millennial Star* of Oct. 21—

"Appointments.—Elder L. J. Herrick is appointed to the "temporary charge" of the European Mission, during which time Elder R. T. Burton will preside in the London Conference, Elder John Mendenhall will have charge of the Birmingham Conference, and when the missionaries arrive from Utah, who were called during the October Conference in Salt Lake City, Elder M. H. Hardy will preside in the Birmingham Conference.

Elder H. Leigh is appointed President in the Liverpool Conference.

Business.—Elder L. J. Herrick having been appointed to the "temporary charge" of the European Mission, communications to this Office will be addressed and post-office orders made payable to him.

"ALBERT CARRINGTON."

MALICIOUS.—Mr. Dye has put up a very nice picket fence in front of his residence, 20th Ward, which has been suitably painted. There is nothing particularly striking about this fact, seeing that there are quite a number of nice fences around, but there is about the fact that some diabolically inclined person or persons should cut, hack and disfigure a large number of those same nice pickets, as they did the other night. This is the second attempt to destroy this fence, the former effort being to destroy it by fire, only a few of the pickets then being caught by the flames, however, and scorched.

This must be the work of some parties who are contemptibly mean and who deserve to have some prominent bumps on their heads with a club, to counteract that of destruc-

tiveness of which, judging from the indications, there appears to be an uncommon development.

Mr. Dye does not feel safe under these circumstances and is under the dire necessity of offering a reward of \$20 for the discovery of the fence destroyer.

LOST HIS TEAM.—On Saturday Mr. Cook, of Mill Creek, had occasion to call at a store on Second South Street, and left his four mule team and wagon in front of Showell's stables while he did so. When he returned, his team and wagon were gone. Thinking they had started for home he went off in that direction, but his search was fruitless. He returned to town and made many anxious inquiries about them. This morning, however, he found them at Morrell's stable, First South Street, where they had been taken by a clerk of the Z. C. M. I. drug store. When the animals left the front of Showell's stable they wandered on the street for some time, when some person tied them to the hitching post in front of the drug store, where the poor beasts stood the whole of Saturday night, until yesterday morning, when they were taken to Morrell's stable by the considerate clerk. Mr. Cook will not be apt to leave his team untended on the street again. It is a bad plan and is the cause of many of the disastrous runaways which are of more than daily occurrence here.

DEAD HORSE.—Dead horses are generally objectionable, whether figurative or real. A figurative "dead horse," so called by mechanics and business men generally, is when they are working off an old debt. That they call a dead horse. We wish to speak of a genuine dead horse, however. On Saturday a man from the country was passing along South Temple Street, with team and wagon and, when nearly opposite the planing mill of Latimer, Taylor & Co., one of his animals dropped dead. Instead of seeing to the removal of the carcass the man borrowed a horse to go home with and left the body of the dead one on the street, where it remained until nearly noon to-day, when it was removed by direction of the captain of police, to whom the citizens of the neighborhood complained of the nuisance. The owner of the dead horse will be found and will have to pay the expense of the removal of the carcass.

AN UNEQUAL CONTEST.—This morning a poor deluded cow undertook to butt against the cow-catcher of the engine attached to the southward bound mixed Utah Central train, about two miles this side of Wood's Cross. She might as well have tried to butt against fate. The unfortunate animal, as a matter of course, was knocked over, minus one horn and with a terrible bruise on one side of the head. She did very well as long as the stun lasted, as she lay quite still, but before the way car got past she commenced kicking out her legs preparatory to an attempt to rise, when two wheels went over one of the hind limbs, severing it in two, except that it was left dangling by a piece of the hide. The train was stopped, but no one could tell to whom the animal belonged. She was in good condition, being quite fat, and some people living near the spot purposed shooting her. It was a pitiable sight to see the poor beast get upon three legs and try to hobble about, with the fourth dangling loosely about.

BY TELEGRAPH.

AMERICAN.

PROVIDENCE, R. I., 6.—A large meeting of the creditors of the A. & W. Sprague Manufacturing Co., and of A. & W. Sprague was held this forenoon. Thurston, attorney for the Spragues, read a communication from the debtors, expressing the belief that if an extension was given they could pay all their obligations, and retain their print works, and perhaps their other manufacturing property, and pledging their utmost efforts to that end. He added that the whole object of the Spragues was that their property should be devoted to the payment of their debts, and that the trustees to be appointed should be friendly to the house only so far as, that after the debts were paid, the property should not be dissipated. It was important that the appointment of

this committee should be such that it would be impossible to say anything was intended except that which was for the good of all. A committee was then appointed to confer with the Spragues in regard to a trust mortgage and the appointment of trustees.

WILLIAMSPORT, Pa., 6.—At 1:40 to-day an attempt was made to hang Wade, but the rope was too long, and he touched the ground. The rope is now being shortened for another trial. Wade told the jailer to hurry up, as he had an appointment to dine in hell with the devil at 2. He said the only thing that was troubling him was whether those he murdered are in heaven or hell.

In the court of Oyer and Terminer, to-day. Judge Davis sentenced James D. Centre, the eighth juror in the Stokes' case, to thirty days imprisonment, and a fine of \$250 for the too free use of his tongue while the trial was progressing.

Laura Keene, the well-known actress, died at New Jersey, to-day, of advanced age.

BOSTON, 6.—The Lowell mills will begin on three-quarter time on Monday evening.

WASHINGTON, 6.—On and after Monday next, the First National Bank will pay thirty cents on the dollar. Its total liabilities, exclusive of the capital stock, are over two millions.

The iron mills at Mauch Chunk have suspended entirely. They usually employ five hundred hands, and had been running on half time, and the others on three quarters. General Patterson's mill, employing five hundred hands, is running full time, but at a reduction of 15 per cent in wages.

CARLO, Ills., 6.—Duke Morrison and Adam Drummond were arrested to-day, charged with kidnapping a boy and girl from Evansville, and forcing them into crime.

LEWISTON, Me., 6.—This morning a grindstone in the scythe factory of H. Hall & Co., at East Milton, burst, killing O. O'Healy, and Gilbert L. Heald, the superintendent.

LITTLE ROCK, 6.—Yesterday Dr. Eagle, a leading farmer of Lonake county, with two kinsmen, one of them an officer, and Jos. Sullivan, arrested a couple of negro hog thieves. During the night the hives escaped, and it was reported in the negro neighborhood that the KuKlux were after them. This morning, the Eagle party, on resuming the pursuit, were confronted by an armed body of negroes, who killed the three Eagles, and mortally wounded Sullivan. The sheriff with a posse of fifty men has gone in pursuit of the negroes.

KNOXVILLE, Tenn., 6.—There is no settlement of the railroad difficulties yet. The company moved the first freight in six days to Bristol, to-day. The strikers are quiet. Both sides are determined.

The employees of the Knoxville and Ohio railroad having struck against a reduction of wages the company have stopped all trains.

The representatives of twenty southern railroads met at Chattanooga to-day, and unanimously adopted a resolution to offer a reasonable reduction of wages, recognizing the right of any employee to refuse to work for the wages offered, and condemning, as unjustifiable and indefensible, all combinations for the purpose of resisting the rightful authority of any company by interfering with or attempting to intimidate or injure others willing to work for the wages offered, and pledging each other in no case to employ any one discharged on account of insubordination or combination to stop operations on any road, by intimidating or interfering with others willing to work, and promptly to inform each other by a printed circular of all such combinations, with the names of the parties engaged. All the railroad companies in the United States are invited to co-operate.

The miners in the coal mines at Careyville are on strike against the employment of non-society men. The miners are boisterous.

A train returning from Careyville last night, going to Stone Creek, discovered obstructions on the track, placed there by unknown parties; the engineer discovered the obstructions in time to avoid an accident.

TORONTO, 6.—The steamer *Bavarian*, bound from Hamilton to Montreal with six cabin passengers, took fire about six o'clock last night, fourteen miles from shore, opposite Oshawa. The fire broke out in the centre of the boat near the engine,

and the flames spread with great rapidity. The boats were immediately lowered, and one went adrift and was lost. The passengers and crew got into the other boats, one of which contained nine passengers, including the pilot, a lady's maid and seven of the crew; the other boat contained thirteen persons, including the first and second mates, the purser and two passengers and five of the crew. Both boats reached the shore safely. There are fourteen persons to be accounted for including Captain Carmichael, Mr. Finnion, the chief engineer, Wm. Spence, the steward, Mrs. Hubbard and daughter, of Brooklyn, Miss Ireland, of Kingston, and Mr. Wier of Chatham; these were not able to get into the boats. The last seen of Captain Carmichael he was on a plank in the water.

MONTREAL, 6.—The Ville Marie bank was robbed of ten thousand this morning.

NEW YORK, 7.—The bricklayers are still on strike. The Central Council of the Union of the American Bricklayers met last night, in secret session. It was stated that a compromise was suggested, that the employers should only deduct 25cts instead of 50 from a day's pay.

Judgment has been given for the defendant in the suit of Wm. A. Britton, of New Orleans, against Gen. Butler, to recover the value of two notes seized by the latter while commanding at New Orleans.

A letter, numerous signed, has been forwarded to President Grant, urging him to use his great authority and power to relieve the passengers on board the captured steamer *Virginian*, from imprisonment and impending execution. General Ryan is on board.

CHICAGO, 7.—A Washington special says that the estimates for the Indian service are \$6,725,000, an increase over last year of \$1,272,000. The total increase in the estimates of the interior department, including the above for the Indian service, is 1,800,000, or only about \$600,000 increase for the entire department outside of the Indian bureau. The estimates of the department of Justice are about the same as last year. So far as can be ascertained from the figures already prepared, the total of the estimates for all the departments will exceed those of last year by about five per cent.

ST. LOUIS, 7.—Two iron works in South St. Louis have stopped, throwing about two hundred men out of employment. The Vulcan iron works have stopped two of their three furnaces, closed their rail mill, and discharged about 400 men. Older works have also stopped some of their furnaces or discharged part of their employees, and all have reduced their wages twenty per cent. Many manufacturing establishments in the city have materially reduced their force.

SAN FRANCISCO, 7.—The U. S. steamer *Tuscarora* has arrived from her cruise, sounding for a cable line to the Orient. She cruised one thousand one hundred miles towards the Aleutian Islands. One hundred miles west of Mendocino she found a submarine mountain four thousand feet high, the deepest sounding was 2443 fathoms. When one hundred and forty miles west of the Fallarone Islands, she was ordered back on account of the lateness of the season.

Young Donald, who was shot by McArravy, for seducing the latter's sister, died this morning.

OTTAWA, 7.—The following is the new ministry, so far as known: McKenzie premier and minister of public works; Blake, without a portfolio; Senator Christie, secretary of State; Cartwright, finance; D. A. McDonald, post-master general; Doiron, minister of justice; Letteller De Saint Just, senator and minister of agriculture and immigration; Fournier, inland revenue; J. Smith, marine and fisheries; Isaac Burpee, customs and receiver general; Ross, president of council and *pro tem* minister of militia; Laird, minister of the interior. One seat is vacant. It is announced that the late government, shortly before its resignation, made the following appointments—R. L. Tilley, M. P., lieutenant governor of New Brunswick; John Crawford, M. P., governor of Ontario; Hugh McDonald, M. P., judge of the Supreme Court of Nova Scotia.

TORONTO, 7.—Captain Howard, general superintendent of the Canadian navigation steamers, reports that the burning of the *Bavarian* was caused by the breaking of the walking beam, the forepart of which fell on several barrels of spirits stored on the deck,
