The resolution of Miller submitted yesterday, was agreed to, directing the Committee on Indian Affairs to extend its enquiries in the investigation recently ordered on the condition of the Indians of Catifornia.

The bili passed granting a pension to the widow of General Ord; also the bill increasing the pension of General Frank P. Blair's widow, and one to authorize the President to appoint General Averill to the position of Colonel in the army, and then place him on the retired list as of that rank.

The Senate went into executive session, and when the doors re-opened a recess was taken till 9 p.m.

The Senate met again at 9 p.m. and a message was received from the House announcing the concurrence of that body in the conference reports on the river and harbor bill, the bill to punish violations of the internal revenue laws, the bill amending the 72d article of war, and the bill to consolidate the bureau of military justice and the correct of Indian arms.

war, and the bill to consolidate the bureau of military justice and the corps of Judge Advocate of the army. The Senate agreed to the reports of its own conferees on all these bills.

Consideration of the postal telegraph bill was then proceeded with. It authorizes the Postmaster-General to contract for postal telegraph service, and provides that if the rates be not satisfactory the government may buy satisfactory the government may buy or build lines and do the work itself It fixes the rates at which contrac-tors or the government shall do the

bitant rates.

Maxey said the majority of the Senate committee on postoffices and postroads were opposed to the proposition that the government should buy or build lines. There was no constitutional objection, he said, to the government contracting for the transmission of intelligence by telegraph, any more than by mail, but that was as far as the committee wished to go He moved. than by man, but that was as far as the committee wished to go. He moved to strike out the clauses authorizing the buying or building.

The bill passed to establish a bureau of navigation in the Treasury Department, under the commissioner of

On motion of Bayard, the bill for the relief of Wm. McGaraghan was indefinitely postponed. The Senate at 10.30 went into executive session. When the doors reopened, the Senate took a recess till to-morrow.

Washington, 5.—Shortly after the Senate was called to order Logan rose and in a long speech defended himself against the charge of land grabbing.

Ou motion of Culiom, the Senate took up the bill to establish a commission to regulate inter-State commerce.

Allison presented the conference report on the legislative, executive and judicial appropriation bill. The House agreed on all except three points, the most important being the one relating to the reduction of internal revenue and customs collectors.

The Senate further insisted on the remaining amendments, and ordered a new conference.

remaining amendments, and ordered a new conference.

The inter-State commerce bill on motion of Miller of New York, was postponed until December next, he stating that while his full sympathy was with the purpose of the bill, it was manifest it was the most important measure of the session, and could not be properly discussed in the time now at the disposal of the Senate. Miller's motion was agreed to and the bill goes over accordingly.

Logan submitted the report of the conference committee on the fortification bill, to which the Senate agreed.

The Senate proceeded to the consideration of the House bill to prohibit the importation of foreigners under contract or agreement to perform labor in the United States.

At evening session the Senate insisted on its amendments to the consular and diplomatic appropriation bill and ordered a new conference.

Hoar announced that the conference on the electoral count bill had had several meetings, and he saw no possible hope of an agreement.

Allison submitted the conference report on legislative, executive and judicial appropriation bill. The report annonced the conferees had come to an agreement on all the amendments except that relating to the contingent fund, the Senate provision covering the compensation for Senators' cierks. The Senate further insisted on the amendment.

Washington, 4—The House met at 10 o'clock this morning in continuation of Thursday's session.

The conference report on the bill to consolidate the Bureau of Military Justice and the corps of Judge Advocates was agreed to.

The House then resumed consideration of the Senate amendments to the Mexican pension bill, but the want of a 'quorum was disclosed, and after several roll calls, a call of the House was then ordered.

Brewer, of New York, moved that at 12 o'clock the House go into committee of the whole for the purpose of considering that state paper, the Declaration of Independence, and that the important document be now read for the information of members not absent from their posts of daty.

The Speaker ruled that the motion was not privileged.

Roll call followed roll call in monotonous succession on motions to ad-

Townshend who had charge of the bill proposed that the Senate amendments be non-concurred in and a conments be non-concurred in and a conference ordered.

Hewitt, of Alabama, objected,
Shelly suggested that the bial be laid aside, and the House proceeded to the consideration of the private pension bills, and Calkins asked Townshend to comply with that suggestion, at the same time complimenting him on the gallant fight he had made for the Mexican pension bill.

same time complimenting him on the gallant fight he had made for the Mexican pension bill.

Townshend, however, refused to accede to the request, and the question recurred on ordering the previous question on concurring in the sixth amendment of the Senate, which limits the provisions of the bill to officers, enlisted men and widows who may become 62 years of age, or have, or may become subject to any disability or depending, equivalent to some cause recognized by the pension laws as sufficient reason for the allowance of a pension and excludes from its benefits such persons as have incurred disability while aking or abetting the rebellion. This is the question which has been pending the whole day, and on which no quorum has voted at any time. It was not more successful tonight, and on the yea and nay vote, the House was left without a quorum.

Holman submitted the conference report on the legislative, judicial and executive appropriation bill.

On the 283 amendments, placed on the bill by the Senate, the conference committee reached an agreement on all except 26.

The total amount appropriated by the bill as agreed upon is \$23,336,421.

The House insisted on its disagreement to all the several amendments in dispute.

Holman, Hancock and Cannon were reappointed conferees, and the House at 12.30 o'clock adjourned till to-morrow.

Washington, 5.—The decision, prima facie, on the right of Skinner to the seat as representative from the First District of North Carolina went over to the second Monday in December.

The House then proceeded to industriously kill time and succeeded well in its object. The Mexican pension bill was the first on which the motions turned. The electoral count bill will not pass this session.
