LOCAL AND OTHER MATTERS.

[SPECIAL TO DESERET NEWS.]

HEAVY HAIL AND RAIN STORM SOUTH.—The following telegram has been received per Deseret Telegraph line:

St. George, S.—There was a severe hail storm here this afternoon which injured the fruit. After the hailstorm there came on a heavy rain storm, which lasted about an hour. At the cotton factory, Washington, a big flood came down immediately after the storm, doing considerable damage to the factory dam and water courses. The great mill was also injured, together with the farms on the stream below the factory. The extent of the damage is unknown as yet.

President Snow and company started for Panaca and the north-western settlements, to-day; they anticipate being gone about two weeks.

CALLED.—We had the pleasure of a call to-day from Dr. Samuel S. Wood, of the Chicago Journal of Commerce, who is on a tour of inspection through the West. Being connected with one of the leading commercial journals of the country, Mr. Wood is naturally interested in the commercial advancement of young and rising Territories, like those of the Rocky Mountains. He will stay in Salt Lake City for about a week, devoting his time to inquiries upon the various branches of business and manufactures carried on here, which he intends to make the subject of letters to the journal which he represents. We wish the Doctor a pleasant stay in our city.

DIED.—At noon, to-day, after a lingering illness, Harriett, wife of Bishop Jacob Weller, Third Ward. Funeral services at 10 a.m. to-morrow, at residence. Friends are invited to attend.

IN TOWN.—Elder C. C. Rich, of Rich county, called this morning. He left Paris on Wednesday morning, and up to that time there had been no locusts there; but when he reached Swan Creek, he met them in full force. They had done some damage on Tuesday night at some of the southern settlements; and if they alighted, being extremely numerous, they would be likely to make considerable havoc with the crops.

DISTRICT COURT.—The District Court, for the Third Judicial District, will resume its adjourned session on Monday the 11th inst., at 10 a.m., at Faust's Hall, Second South Street.

LAND OWNERS ATTEND!—All interested in the Seventh Ward pasture, and the prevention of trespass therein by stray stock should not fail to attend the meeting at the Fourteenth Ward School House, to-night at half past seven o'clock.

"HOME AGAIN ONCE MORE."—We were very pleased to have a visit this morning from Elder Albert Carrington, who reached home from his mission in Europe a week ago. Having been formerly intimately connected with the News, and well acquainted with all hands the greeting was of the most cordial and friendly character. The many friends of Elder Carrington will be pleased to learn that he is well in health, and evidently never felt better in spirit. He has enjoyed himself away, but is glad to be again amongst his friends in the Valleys of the Mountains.

MINING STATISTICS.—As our readers are aware we have on two occasions published letters in the News, purporting to give a reflex of the mining prospects in Cottonwood Canyon. There are always two sides to every story, and we give space to-day to a communication, giving another view of the subject, from Mr. Hammer. We also publish, by request, the following statement of statistics, as to whether mining in that Canyon does or does not pay, which we are assured, on reliable authority, is bona fide.

Six hundred tons of ore already shipped in less than one year, and mainly from one mine, have netted to this Territory \$50,000, viz:

Teaming,	\$12,000
Miners,	20,000
Merchants,	18,000

This ore has been sold, as per the books of shippers, at an average of \$150 per ton; consequently this moiety of Utah has already produced from its bowels \$90,000. There is now at Little Cottonwood Canyon five hundred tons of ore ready for shipping or smelting, being of the value of \$90,000. This will continue to be shipped until our own smelting works save the Territory the heavy margins paid for carriage and reduction.

We have no reason to doubt the truth of the above statement, but it furnishes no proof whatever, that mining in Cottonwood Canyon is a paying operation. This statement shows the income, but only part of the expenditures are given, if they were given in full a very different showing might result.

BETTER STOP THAT PILFERING.—The writer of the following note means business and the parties alluded to had better cease their operations or they may find themselves in an awkward fix:

S. L. CITY, July 8th, 1870.
"Editor News.—I have been a sufferer by the 'grasshoppers' to a large amount, but their ravages are nothing compared to the depredations of some mean, petty thieves, who seem to think that my orchard is at their disposal, and they have appropriated the most of what the 'hoppers' have left. Day after day has the fruit disappeared, until two trees, which were covered with the best of apples, have been made bare, and their thieving propensities have begun to work on a third and fourth. All efforts to stop them have proved fruitless, and as a last resort, I wish to inform them that if they do not stop, I shall publish their names as they are well known to me, or make them pay the uttermost farthing for the damage done.
Respectfully,
L. PRATT.
17th Ward.

PIC-NIC.—The Seventh Ward Sunday School, under the direction of Superintendent McLachlan, accompanied by Bishop McLellan and many of the parents of the children, went for an out yesterday to John R. Hill's farm, on Mill Creek, and spent the day in the most agreeable manner. Bro. Hill has an excellent place for such a party to visit to have a day's relaxation and pleasure; though but just opened, and

as yet unfinished, we know of no pleasure ground near this city possessing such facilities for enjoyment. He has a pond covering an area of four acres, on which are three very good boats, each large enough to accommodate from ten to sixteen persons, four large swings and a good bowery which furnishes a very agreeable shade from the hot sun and, under part of which a floor is laid where dancing may be indulged in. He has been at considerable expense in planting trees and laying out the grounds, to furnish a pleasant resort to a pleasure-seeking public, and he deserves encouragement for his efforts. The party yesterday started down about seven o'clock in the morning and some remained until quite late in the evening, indulging in dancing, swinging, equestrian, aquatic and other sports, until all were thoroughly satisfied with their day's enjoyment.
