MINING, BUSINESS AND STOCKS

BUSINESS GOOD ON EXCHANGE.

May Day Fell Off Slightly For No Particular Reason.

TOTAL SALES GOOD AVERAGE.

Interest in Stocks About Normal Once More, and General Conditions Healthy.

Sales on the local stock exchange during the regular forenoon call were fairly large, considerable activity being noted in several stocks. May Day, contrary to custom, fell off somewhat during the morning, 1,500 shares selling at 28¾, or several points lower than yesterday. Thirty-three hunded New York sold at 33¾ to 34, and 2,578 Lower Mammoth changed hands at 48½ to 50½. A total of 10,958 shares changed hands on the regular call, representing a value of $12,774.25, and 36,225 shares sold on the open board, bringing $9,338.75.

NEW UTAH CORPORATION.

Files Articles With Secretary of State —Authorized Capital $300,000.

The Wilson Mesa Mining and Milling company of Grand Junction, Colo., filed a copy of its articles of incorporation with the secretary of state today. The capitalization of the company is $300,000, divided into shares of the par value of $1 each. A board of seven directors will handle the business of the company until the first regular election. The company owns some mining claims in the southeastern part of Utah.

PROSPECTS FAVORABLE.

Improvement in Little Bell Property May be Loked for for Years to Come.

Reports from the Little Bell continue of a favorable nature, and those in a position to know say the property is very valuable. Supt. J. H. Ketley was in town yesterday, and said he considered the stock better worth $20 today than $6 90 days ago, and that a steady improvement in the property may be looked for for years to come.

WHY

have a torpid liver when Herbine, the only liver regulator will help you? There is no reason why you should suffer from Dyspepsia, Constipation, Chills and Fever or any liver complaints, when Herbine will cure you. F. C. Waite, Westville, Fla., writes: "I was sick for a month with chills and fever, and after taking two bottles of Herbine am well and healthy." Sold by Z. C. M. I. Drug Dept., 112 and 114 South Main Street. B

LOCAL EXCHANGE TAKES ACTION.

Committee of Local Business Men Left for 'Frisco Today.

TO CONFER WITH BROKERS.

Ultimate Result of Movement is Awaited With Every Confidence in Success of the Mission.

A well attended meeting of the Salt Lake Stock & Mining exchange was held yesterday afternoon with President James A. Pollock in the chair. The object of the meeting was to agree upon a concerted plan of action looking to the securing of the quotations and sales of Nevada stocks on the Salt Lake exchange, temporarily at least, permanently if agreeable.

Considerable discussion of the matter took place, but this was mostly of a favorable nature, and after listening to a number of well taken arguments pro and con, it was decided to send a committee to San Francisco at once to confer with stock operators there touching the matter. Mr. Pollock, who has been the controlling spirit in the movement right along, agreed to organize a committee consisting of representative business men in every line interested and it was announced this morning that the following had been chosen: Frank Knox, president of the National Bank of the Republic, representing the banking interests; E. G. Woolley, Jr., representing the exchange; Glenn Miller and G. S. Holmes, representing the business interests of the city, and W. H. Clark and C. E. Hudson, the 'Frisco and Salt Lake exchanges.

The attitude of the delegation will be entirely friendly, care being taken to impress this point on the 'Frisco brokers. The many reasons for the movement will be presented, and the subject gone into thoroughly, pro and con before a final decision is made. The fact that Salt Lake rather than either 'Frisco or an eastern city is the logical point for the handling of Nevada stocks is becoming more and more apparent, and the feeling of almost apathy which seemed for a time to exist with regard to the matter, is gradually giving place to a strong interest, and a keen desire to get the thing settled and disposed of. Much credit is due Mr. Pollock, president of the exchange, for the enterprise he has shown in handling the situation, and but little doubt exists as to the sucess of the mission.

The committee above mentioned left for 'Frisco on the noon train today, and will probably be away some days.

CARISA MINE DOING WELL.

News of Recent Strike Just Leaks Out, And Prospects Good.

According to reports, a strike of more than ordinary importance has been made on the 700 foot level of the Carisa. Supt. E. Hoffman of the company is said to have telephoned the news to the offices yesterday afternoon but in some quarters it is said that the discovery has been known among a certain select few for days past. It is also said that the strike occurred only 25 feet from the end lines of the Victor Con., and that the lode bears away in about equal strength in both directions. The news created a strong demand for Victor Con., the trading in that security yesterday being the heavist for some time past.

WEST QUINCY MINING CO.

Tests of New Cone Drill Now Being Made From 440-Foot Level.

Mr. Davis of the manufacturing firm of Davis & Calyx, manufacturing the famous Davis-Calyx cone drill, is at present in Salt Lake in conference with President Turner of the West Quincy Mining company. The mines of this company are practically closed down at present, development work having been at a standstill for some time past. Prospects just at present are more favorable than for some time past however, the water in the main shaft is steadily decreasing, less than 100 feet now remaining. Tests of the cone drill are now being made by Mr. Davis from the 440 foot level, and so far these have resulted very satisfactorily, with the knowledge of the surrounding strata gained from a thorough use of the appliance, work will shortly be recommenced and the development of the property, pushed forward with renewed vigor.

PARK CITY ORE SHIPMENTS.

Figures of Good Volume go to Swell Substantial Total.

Following is the list of shippers and the number of pounds of ore and concentrates sent to market from Park City during the past week:

Silver King	1,601,860
Daly West	1,150,000
Little Bell	34,000
Daly Judge	1,157,000
Daly Judge middlings	505,000
Blakes & Clegg	86,000
Total pounds	4,563,860

The Original Laxative Cough Syrup is Kennedy's Laxative Honey and Tar. It expels all cold from the system by acting as a cathartic on the bowels. Kennedy's Laxative Honey and Tar is a certain, safe and harmless cure for colds, croup and whooping cough.—Sold by F. C. Schramm, druggist; where the cars ston.

NOTES FROM YERRINGTON.

British Capital Attracted by Wonderful Opportunities Presented for Investment.

LARGE DEALS OCCUR DAILY.

C. D. Rooklidge Returns After Adding to His Holdings And is Greatly Impressed With Country.

Mr. Chas. D. Rooklidge returned from Yerrington, Nev., yesterday and will resume his duties as manager of the Pioneer Sampling works. Mr. Rooklidge has been making investments in this region for some time past and appears to have met with on unusual measure of success. At this time he and his associates have three separate claims, and some of these are said to have shown exceptionally good values in gold and copper. Together with Mr. Joseph E. Caine, Mr. Rooklidge added still another gold property to his holdings during the trip. This is located about 30 miles southeast of Yerrington, and consists of two lode claims and a water location. The ground is known as the Wheeler mine, and the ledge has been opened through four tunnels and every test made is said to show better than $30 per ton. Sixty tons of ore has been sacked and is now awaiting shipment, which it is said will go $75 per ton, while samples taken from the second-class dumps show a worth of not less than $18. Timber sufficient for many years to come exists in abundance and the company's water right amounts to nine miner's inches.

Mr. Rooklidge says the town of Yerrington is surpassing itself. Valuable properties change hands every day, and large deals are so common as scarcely to attract attention. Large numbers of outside investors are making the town their headquarters, to say nothing of the ubiquituous British capitalist attracted by the unprecedented opportunities for investment. No effort is being spared to make this summer a record breaker in the history of Nevada mining and from appearances it would seem that success is assured.

DOUGLAS GROUP SOLD.

Utah Capitalists Gain Control of Important and Valuable Property.

It was stated in mining circles late yesterday that the Douglas group in the Yerrington Copper district had become the property of a syndicate composed of Walter C. Orem, general manager of the Utah Apex, Butler Liberal and Red Wing properties of Bingham, F. J. Hagenbarth and others. Neither gentleman cared to state definitely that this was the case, but in addition to expert examination a personal inspection has been made, and the deal is generally accepted as an accomplished fact. The property has an established output of large volume, but this is said to be small as compared with the result of the campaign of development to be inaugurated by the new owners.

LOWER MAMMOTH GAINING.

Recent Development Shows Plenty of Good Ore in Sight.

For the first time in a number of weeks the policy of silence inaugurated and adhered to by the management of the Lower Mammoth, has been brought to an end. It is now acknowledged that the 1,600 foot level has been reached in the winze sent down in the west fissue; 75 feet of drifting has been done, and the ore taken out has been showing a steady improvement. Ore with a net value of $35 per ton is being mined and shipped and good copper percentages are becoming more and more apparent.

Supt. William Ball has now no further doubt as to the future of the company or the value of the property. Since the 1,500 foot level has been reached, all questions as to the possibility of the ore giving out at that depth is at an end, and there is every evidence that the two following levels will show a distinct improvement. That news of this important nature was perhaps not altogether unknown in certain quarters is pointed out as a reason for the advancing price of the company's stock. As matters now stand, however, it is said, necessary to handle all rock from the 1,500 foot level three times in order to get it into the loading bins, and while these conditions prevail, assessments rather than dividends, are likely to be in order. The present market price of the stock is not high in comparison with the securities of other companies, and those in a position to know have every faith in its ultimate dividend paying power.

CONCENTRATES.

The Taylor & Brunton Ore Sampling company acknowledge receipt of four cars from Nevada, two from Idaho and 10 from Tintic. The Pioneer Smelting company has received two cars from Bingham, two from Tintic and one from Idaho.

To draw the fire out of a burn, heal a cut without leaving a scar, or to cure boils, sores, tetter, eczema and all skin and scalp diseases, use De Witt's Witch Hazel Salve. A specific for piles. Get the genuine. No remedy causes such speedy relief. Ask for DeWitt's—the genuine.—Sold by F. C. Schramm, durggist; where the cars stop.

STOCKS SHOW SIGNS OF STRENGTH

In London Americans Made Wide Recoveries From Yesterday's New York Closing.

VIGOROUS RALLY BY NOON.

Big Demand For Amalgamated and Reading Renewed Strength in General Market.

New York, April 24.—London prices for American stocks this morning represented wide recoveries from the closing level here. There were gains at the opening of the stock market in New York in sympathy but they were not up to the London parity of prices, and were mixed with losses. Anaconda was 2 points higher than last night; American Ice a point and Canadian Pacific and Brooklyn Transit large fractions. Denver and Rio Grande, Northern Pacific and New York Central were large fractions below last night. The market was active and broad.

Stocks fluctuated quite irregularly before the market moved uniformly downward. Prior to the general declines Reading and Brooklyn Transit had been persistently bought until they ruled a point above yesterday's closing. The ensuing weakness was of a very general character and losses of a point or more were numerous. Stocks of relatively light activity were unloaded on a large scale, especially the industrials.

Among the important declines during the first hour were Northern Pacific 3½, Great Northern preferred 3¼, Sault Ste Marie 2¾, Delaware & Hudson 2½, Third Avenue 3½, Tennessee Coal 4, U. S. Pipe and Denver and Rio Grande 2, Union Pacific 1⅜ and Reading, U. S. Steel preferred 1, Smelting 1. Prices rallied vigorously at 11 o'clock.

Prices recovered generally and Reading advanced again to the high level of the first hour. U. S. Steel was lifted ¾ over last night. The demand subsided to small proportions at the recovery, and a yielding tendency developed again.

Bonds were easy.

The general market developed renewed strength under the influence of a large demand for Amalgamated and Reading. Advances in other stocks were confined to slight fractions but there was increasing strength manifested in St. Paul, Union Pacific and the United States Steel stocks. Reading and U. S. Rubber improved 1¾ and Northwestern, the U. S. Steel stocks and Amalgamated Copper 1.

Prices went higher in most cases, but the movement was rather irregular.

LIVESTOCK.

KANSAS CITY.

Kansas City, April 23.—Cattle—Receipts, 10,000; market steady. Native steers, 4.25@6.80; southern steers, 3.50@5.25; southern cows, 2.50@4.00; native cows and heifers, 2.50@5.00; stockers and feeders, 3.00@4.75; bulls, 2.50@4.00; calves, 3.00@5.50; western fed steers, 3.50@5.25; western fed cows, 2.75@4.25.
