

# DESERET EVENING NEWS

## WEATHER REPORT.

Record at the local office of the weather bureau for the 24 hours ending at 6 a. m. today:

Barometer reading at 6 a. m., 25.61 inches; temperature at 6 a. m., 54 degrees; maximum, 78; minimum, 52; mean, 64, which is normal.

Deduction of daily mean temperature since the first of the month, 5 degrees.

Accumulated excess of daily mean temperature since January 1st, 475 degrees.

Precipitation since first of month, trace, which is 28 inches below the normal.

Accumulated excess in precipitation, since January 1st, 1.26 inch.

FORECASTS TILL 6 P. M. SATURDAY.

Local forecast for Salt Lake City and vicinity:

Fair tonight and Saturday; cooler tonight.

Forecasts for Utah, made at Denver, Colo.:

Probably fair tonight and Saturday; cooler tonight.

## WEATHER CONDITIONS.

Pressure is low over the northern Rocky Mountain slope. The crest of an area of high pressure lies along the Washington and Oregon coast. Light rain has fallen over Washington, northern Idaho and Montana. It is cooler over Nevada, and warmer over the northern and middle Rocky Mountain slope.

L. H. MURDOCH,  
Section Director.

## LOCAL BRIEFS.

The city school teachers will meet with Superintendent Christensen at the old University building tomorrow morning at 10 o'clock.

The general committee of the Labor day celebration met last night and drew up a report which will be presented to the federation of labor this evening.

A uniform wage for plumbers has gone into effect and no strike will take place. From this time on every union plumber will get \$4.50 a day for eight hours' work, and the helpers will get \$3.

Edward H. Frye, the celebrated monologist, will present a rendition of "David Harum" at the First Congregational church this evening. The affair is under the auspices of the Garfield and Abelian Yslems.

The commanding officer at Fort Douglas has been notified of the coming of Maj. Caffit and Capt. Cronkhite of the artillery corps. Maj. Caffit will be the commanding officer of the post. Capt. Schley expects to be sent away.

About \$40,000 has been received by the city treasurer on account of the tax assessed against the building property on Third South and Second South streets for the asphalt and stone block pavement to be laid.

Mrs. Annie M. Bradley, secretary of the state Republican committee, has accepted an invitation to go to Ohio and stump that state. She will leave about Oct. 1. The invitation came from Chairman Dick of the Ohio state Republican executive committee.

Dr. and Mrs. Albritton were tendered a reception last evening by the members of the First Methodist church at the church parlors. A pleasant time was had by all present. A brief program was rendered consisting of prayer by Dr. Paden, two violin solos by Will Davis, an address of welcome by Rev. Richard Wake and a response by Dr. Albritton.

The local Yale graduates are receiving circular letters from their respective class secretaries of the bicentennial celebration at New Haven, October 20th and 23rd. The circular states: "It will be the greatest gathering of Yale men that it will ever be our opportunity to see, and in the most striking features of the celebration the graduates will take part as the celebration, as a whole, is for them in particular."

R. W. Merrill had a close encounter with death yesterday afternoon while coming down P. J. J. canyon. His horse became frightened by an approaching train and nearly threw himself onto the track in front of the engine. A horse, belonging to M. M. Miller of Murray, was tied to the rear of Merrill's wagon, was struck by the train and killed. Merrill left the horse lying there and Deputy Gibbs has notified Mr. Miller to remove it.

We pay 1 per cent interest per annum on \$1 to \$5,000. Zion's Savings Bank & Trust company. Lorenzo Snow, president; George M. Cannon, cashier.

**UTAH COMMERCIAL AND SAVINGS BANK.**  
Interest paid on savings. W. F. Armstrong, pres.; P. W. Madsen, vice-pres.; J. E. Caine, cashier.

**UTAH COAL.**  
Castle Gate, Sunnyside and Clear Creek—Lump, \$5.00 per ton. Winter Quarters Lump and all nut coal, \$4.75 per ton. Anthracite all sizes, 75 south Main St., Telephone, 429.

D. J. SHARP, Agent.  
Patronize Stores That Display "We Give Trading Stamps" (signs).

**FLEES FOR SAFETY.**  
Miss Emily Campbell a Fugitive From Sanpete—Was Shot by Lover.

Miss Emily Campbell, the young lady who was shot nearly to death by Rasmus Anderson, her rejected suitor, on August 1st, is now in the city to keep away from Anderson's mother, who threatens to complete the job her son made a failure of. As soon as Anderson shot the girl he turned the gun on himself and ended his own life. His victim lingered in the shadow of the grave for some time, but eventually began to grow better and while convalescing threats against her life reached her and her family. She then removed to Gunnison and as soon as she was able to travel she was brought to Salt Lake. She is now at the home of her grandmother, Mrs. Ellen Campbell, 315 south fifth East street.

# SPECIAL!

## THE "NEWS" DURING FAIR AND CONFERENCE WEEK.

All indications point to an immense attendance at the coming Conference and State Fair, the first week in October. ADVERTISERS DESIRING TO REACH THE PEOPLE IN THEIR HOMES can do so effectively by using the Semi-Weekly News (Printed Mondays and Thursdays) before Conference season. As all subscribers of the Semi-Weekly News who visit the city receive the DAILY FREE during their stay, that paper will be an unexcelled advertising medium during Fair and Conference week.

## 150,000 SHARES OF STOCK IN ALBERTA LAND AND STOCK CO.

(Properties located in Alberta, Canada.) for sale, at par value of stock—\$1.00 per share. The officers and directors of the company are:—  
Samuel W. Woolley, President; Charles McCarty, Vice-President; George Romney, Secretary and Treasurer; Moses W. Taylor, W. J. Robinson, E. P. Ellison and Ezra Shomaker.

The money arising from sale of this stock is to be used in purchasing cattle and sheep to place upon the fine ranches of this company.

Conservative management guaranteed and good returns assured. The stock offered for sale by this company will enable investors of either large or small amounts to obtain an interest in a section of country unequalled for stock-raising purposes, and in which the increase in the value of the land owned by the company will of itself pay a moderate interest on the investment. Applications for stock should be made to George M. Cannon, No. 1 Main Street, Salt Lake City.

## PRACTICAL EDUCATION.

Views of a Noted Mechanic and Successful Man of Business.

To the Editor:  
Your article in the "News" of Tuesday on the schools called attention to a very common error in relation to what constitutes education. Education obtained from schools and colleges is one kind and education obtained in a shop or factory is another kind; but there is still another which can only be gained by actual experience, and that is to treat your fellow men in such a manner as to gain their respect and their esteem, whether it falls to your lot to control and lead others or for them to lead and control you.

I was present at a meeting on Sunday last when two gentlemen in their remarks urged very strongly and forcibly upon all persons to obtain a collegiate education; as it would be the most decided benefit to everybody.

To this advice I do most emphatically take exception. I have had some experience myself, and I have brought up a family and if I were asked today after my own experience and what I now know, "Would you if you were starting in life take a collegiate course or would you give it to your children?" I should most decidedly say NO. I would not, and herein is my reason for so doing.

When a boy has arrived at the age, say not later than fifteen he has probably some idea of what vocation he intends to take. If he follows it he intends to be a learned professor, school teacher, lawyer or doctor, the college course may be the best, but if he intends as I did from the time that I first understood anything about it to follow the manual trade or profession of an engineer or any other trade the college course is not the best.

From the age of fifteen to twenty or thereabouts is the peculiar time when a man is the best able to absorb a training of any kind, and if he fails to obtain the necessary training then he seldom succeeds in obtaining it later on, and the only way that appears to be successful of obtaining a shop training is to obtain it in the shops. This is how I obtained mine and how my sons obtained theirs, and with what measure of success anyone can easily ascertain.

I received what I suppose would now be called a high school education, and I spent many hours and days in studies which in after life have been absolutely forgotten. I studied Latin and French, which have been of no use whatever. I studied algebra and was very much interested in it, but have scarcely ever had occasion to use it and yet my profession is that of a mathematician. Of about fifty boys whose careers I was cognizant of, not one besides myself ever had occasion to use it at all.

While of use to some, in a large majority of cases their mission is accomplished, as far as the usefulness of the knowledge is concerned, when the coveted diploma has been conferred. As an eminent Englishman is said to have remarked, "Every boy should study Latin and Greek. It is such a comfort when one is grown to say one has forgotten them."

That ancient romance, the "Iliad and Odyssey," is of such immense value to the iron man of today. Its reference to a piece of iron that two men could carry as being something prodigious is conspicuous.

Whether Romulus sucked the wolf or the vice versa, is such valuable knowledge for our every day life. And of the whole line of history any man who has learned to read must be thankful indeed, who cannot follow it up and study for himself without needing to be coached by any instructor.

I would say to the boys of Utah, learn agriculture or a trade, wherever your taste of inclination leads you to do so, and above all stick to whatever you start at till you are proficient at it. And remember that when a man stops learning he may be said to die, as far as his particular avocation is concerned. I have been learning my profession ever since I first started at it, and I expect to continue to learn as long as life lasts.

WM. J. SILVER.

# AGRICULTURAL COLLEGE WORK.

## Its Helpfulness to the Utah Husbandman.

Supported by the Government and Devoted to the Work of Original Research in Agriculture.

## THE EXPERIMENT STATION

In the field of agriculture the Agricultural College of Utah aims to be helpful to the agriculturists and the agricultural interests of the state in three directions.

First, through the Agricultural Experiment Station, to develop agricultural sciences through investigation and experiment and to disseminate the same through bulletins and reports.

Second, to give instruction in agriculture through the various courses of study offered.

Third, to disseminate agricultural knowledge among the farmers of the state by means of farmer's institutes, popular publications, etc.

## THE AGRICULTURAL EXPERIMENT STATION.

The Agricultural Experiment Station, a department of the college, is largely supported by the United States government and devoted to the work of original research in agriculture. It is the policy of the station to make special study of the agricultural problems peculiar to Utah. Irrigation is at the foundation of our agriculture. The mission of the station officers has set before them to study the fundamental problems and the peculiarities of crop production under an irrigation system; using the word crop in its broadest significance to include both plants and animals. They all point to the advancement of agricultural science in its fundamental character is kept in view.

The law establishing the experiment station, requires that the station shall be established in such a manner as to disseminate the results of the work of the station among the people. To date seventy bulletins and seven reports have been issued. These bulletins and reports are sent free to residents of the state upon application. Five thousand copies of each of the bulletins and reports are printed and distributed at cost. The station is also a means of disseminating agricultural information through correspondence and answers to inquiries, and also by articles sent to the press of the state.

## COLLEGIATE INSTRUCTION IN AGRICULTURE.

In the arrangement of the college work in agriculture the aim is to meet the needs of that large class who expect to make the farm their home. Students who enter the college from the eighth grade enter on a course in agriculture. This is continued the second year, and with the third year of a very complete course in practical agriculture.

Following the above course are three years which leads to a degree and gives the student that information in science that will enable him to understand and grapple with the problems of the agricultural practice. In the junior and senior year the student is allowed to specialize either in agronomy, animal industry and dairying, or in horticulture. Those who are qualified to take positions as teachers and assistants in colleges and experiment stations, or as managers of large farms, or who desire a special agricultural training but to give a broad education. The farmer in America is both proprietor and manager of his farm, and is a citizen in the country where the citizen is sovereign. The education of such a man should be broad and suggestive. The agricultural course brings the student into contact with nearly all the students of the college and opens to him many fields that invite future study and research.

The course cannot be arranged as a manual training course. As practically all the students are from the farm, it is assumed that the student is acquainted with the work of the farm to a certain extent. Special emphasis is laid on the training of the faculties of observation, and the description of the work of the student is made to make the student acquainted with those things that will enable him to study profitably and with interest the books and papers on agricultural topics.

The college department libraries enable the student to become acquainted with the wide range of agricultural and related literature while the laboratories of the college and experiment station affords opportunity for training and experience that would be impossible to get from books. The outline of the course prescribed will give a fuller understanding of the work offered. (See catalogue of the Agricultural College of Utah.)

The winter course in agriculture is designed to meet the needs of young men, of mature years who desire to excel in some agricultural pursuits and who feel the need of more thoroughly preparing for their work, but can devote only the winter season to such preparation.

The subjects presented are those about which every one engaged in agricultural pursuits should have a definite knowledge of both the science and the art—the underlying principles and the best practice—relating thereto. The class-room instruction will be supplemented by practice in the live stock judging room, veterinary hospital, college dairy, horticultural and horticultural laboratories, and greenhouse, and by visits of inspection to herds and farms and other points of interest.

For instruction in the above lines the Agricultural College of Utah was never before so thoroughly equipped. The new cattle barn and sheep barn with a large number of pure bred animals of different breeds and varieties, and excellent facilities for the work in animal husbandry. These new buildings will afford room for seventy-five head of cattle and sixty sheep. For the coming year the station poultry is made available for study. A new laboratory will be equipped for the study of soil and agricultural physics, and a department museum will be started, and cataloged so as to be readily available for reference and study. The college dairy will be remodelled and some additional equipment added.

In these departments of natural science closely related to agriculture

particularly chemistry and botany, the facilities for instruction are also very much better than heretofore.

## SUSPICIOUS WATCHMEN.

Each Thought the Others Were Real Tough Characters.

That there were numberless humorous incidents connected with the big fire goes without saying. In times of excitement there is always some individual who distinguishes himself in that direction. While in the great Oregon Short Line fire of Tuesday there were no cases of frantic men throwing typewriters out of the upper story windows and then solicitedly carrying bundles of papers through the building smoke downstairs; yet at the same time there were one or two incidents, which, under other conditions, would have raised a hearty laugh.

It remained for the watchman who had been placed by Spencer Clawson to guard the ruins on Tuesday night, however, to bring down the wrath of the police department on his devoted head, and ever since Sergeant Burbridge has been alternately saying rail road crosses and laughing until his sides run down his cheeks. It was too funny to keep.

It was 4 o'clock in the morning when the telephone at police headquarters sounded and the next instant Look Sergeant Livingston wrapped the receiver and breathed his characteristic "Well." A voice replied that there had been some suspicious characters hanging around the scene of the fire and that he wanted the police to come down and take a hand.

"Who are you?" asked "Uncle" Charley.

"I am the watchman who has been hired to look after the property which is under the ruins of the fire," came the answer.

Sergeant Burbridge at once repaired to the scene and began to investigate. The watchman promptly introduced himself and pointed out one man delving among the rubbish, while two others were sitting some distance apart, one of them holding a lantern.

Burbridge lost no time in getting into communication with the men. The first man questioned said that he was the watchman of the ruins of the Oregon Short Line and Smelter Supply company to keep an eye on things. He professed to be glad that the police had come down to ask questions for there were four suspicious characters around who needed looking up.

Then Burbridge did the rounds and found that the men had been employed respectively by the board of education, the Oregon Short Line, Spencer Clawson and other establishments which had suffered in the fire. Every man had been suspicious of the other, and had been standing around piles of debris eyeing each other the livelong night until the strain became so great that one of them telephoned for the police.

What Burbridge and the other men said when the light evidently broke upon them is not recorded.

## EXCURSION NORTH.

Saturday, Sept. 21st.

Via the Oregon Short Line, at the following rates:

To	Limit	To	Limit
Bingham	\$2.50	Reber	\$1.50
Brigham City	\$1.50	Mark	\$1.50
Cedar Breaks	\$1.50	Dubois	\$1.50
Logan	\$1.50	Prescott	\$1.50

St. Anthony	\$1.50	Huntington	\$1.50

Proportionately low rates from other points in Utah.

Trains for Cache Valley leave at 7 a. m.

For points east of McCammon, 10:50 p. m., and for all other points at 9:45 a. m. and 10:50 p. m.

Trains on Wood River branch will run Sunday, Sept. 22nd.

City ticket office, 201 Main street.

## BUSINESS EDUCATION.

If interested in commercial work send for the catalogue published by the Salt Lake Business College, Templeton, Salt Lake City.

Thousands suffer with torpid liver, producing great depression of spirits, indigestion, constipation, headache, etc. HERBINE will stimulate the liver, keep the bowels regular, and restore a healthful buoyancy of spirits. Price, 50 cents. Z. C. M. I.

## FERRY ESTATE.

First Account is Filed With Clerk of the Probate Court.

The first account in the matter of the Ferry estate was filed in the probate court yesterday by W. Montague Ferry and Edward S. Ferry, as guardians of the estate of the father, Edward P. Ferry. On Sept. 27th, the petition for approval will be heard.

The report shows receipts from March 1st, to August 13, 1901, of \$36,677.71, mostly derived as dividends from the Silver King Mining stock. Disbursements for family allowance and preliminary expenses of litigation against D. D. Erwin and W. B. Rice for recovery of 15,333 shares of Silver King stock, and other securities claimed by the guardians amount to \$20,262.52, leaving a balance of \$16,415.23.

The guardians ask authority to prosecute the claim against Erwin and Rice, and to accept of the settlement with Rice, especially as regards the investment in the Rice Lumber company. Petitioners also desire to sell the estate's one-third interest in the Superior Mining claim to the Wahwah Mining company, and ask for authority to give a bond on the two-fifths interest in the Elizabeth claim in the Rush valley district for \$10,000.

## A BRAVE THING TO DO.

Mrs. Belle Aspinwall Stops Runaway Horse—A Man Was Afraid To.

Mrs. Belle Aspinwall, who lives in the Eagle block, and whose husband is a member of the Elks lodge, gave an exhibition of pluck and courage yesterday afternoon that excited the admiration of all who witnessed it, even the stranger who had refused to do what she did. She was walking down West Temple street when her attention was called to an elderly lady in a buggy whose horse had become frightened by a piece of paper and was on the verge of running away. Mrs. Aspinwall cried to a man who was standing near to stop that horse, but he must have lacked the nerve, for he didn't budge. Then Mrs. Aspinwall threw her flowers, which she was carrying, at his feet with the request that if he had nerve enough to please watch that runaway horse, she would give him for a moment. She then ran after the horse and seized it by the bridle and succeeded in stopping it after she had been dragged across the street and bruised to some extent. She halfly when she had thus saved wanted to give her fifty dollars, but she would not accept of it. She went back to her flowers, told the man who had refused to go to the assistance of the lady in the buggy, to take off the Elks badge he was wearing, for he was unworthy of it, and then she continued down the street. The occupant of the buggy was Mrs. N. P. Jackson.

## DEPUTY SHERIFF'S FIGHT.

Has Lively Encounter With Fake Jeweler.

Deputy Sheriff Maus of Murray and Peace Officer E. W. Teachner of Bingham Junction had a desperate fight with eight fake jewelry peddlers near Bingham Junction last night, and only succeeded in taking them after five or the belligerent hoboes had been laid off by blows from the butts of the officers' revolvers.

Many complaints had been received with regard to the actions of the peddlers, and last night the officers raided their camp, and told them they were under arrest. The eight refused to give up without a struggle, and a free fight followed. Fortunately, neither of the officers was much the worse for the battle, although Teachner had his trousers badly ripped.

# CHURCH NEWS.

## HIGH PRIESTS' MEETING.

The regular semi-monthly meeting of the High Priests of the Salt Lake Stake of Zion will convene in the lecture hall of the Latter-day Saints' university, Salt Lake City, on Sunday, September 16th, 1901, at 12 p. m.

JAMES D. STIRLING,  
Clerk of Quorum.

## RELIEF SOCIETY.

The Relief Society officers' meeting will be held in the Fourteenth ward assembly hall, Saturday, the 14th, 1901, at 2 o'clock.

M. I. HORNE, Pres.

## TEMPLE NOTICES.

St. George, Sept. 8th, 1901.—The St. George Temple will close on September 27th, and reopen on October 29th, 1901.

DAVID H. CANNON, President.

## A Certain Cure for Dysentery and Diarrhoea.

"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford County, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward of the Laceyville Messenger suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully, and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy, and this time one dose cured me."

## UNIVERSITY OF UTAH, SALT LAKE CITY.

The University of Utah comprises thorough collegiate courses leading to degrees in general science, liberal arts, and mining and electrical engineering. Besides which the State Normal School and a preparatory school are conducted under the direction of the University faculty.

Excellent opportunities are offered to students who desire to pursue electrical and mining engineering courses, and also courses in arts and general science.

The laboratory is thoroughly equipped for work in chemistry, assaying, electrical measurements, general physics, mineralogy, and biology. Shops are provided for work in wood and metal.

The Normal School offers a four years course leading to a certificate of graduation; and advanced courses leading to a degree and a normal diploma. The certificate entitles the holder to teach in any of the common schools of the state for five years without examination. The normal diploma is equivalent to a life certificate.

The training school and kindergarten connected with the Normal School are equipped in accordance with the most modern methods.

Manual training and laboratory practice in elementary sciences are features of the normal training courses.

A small annual registration fee is required but no tuition is charged. Fall term begins September 11th. Send for Annual which gives full information concerning courses, etc.

D. R. ALLEN, Secretary.

## UNIVERSITY AND COLLEGE TEXT BOOKS.

National text book for High school and college work. Complete lesson books, pens, pencils and general school stationery. CANNON BOOK STORE, (Deseret News, Props.) 11 & 13 Main street.

"Take life as it comes, and make the most of all circumstances, but for a bad cough or cold, take BALLARD'S HOREHOUND SYRUP, the best known remedy for quick relief and sure cure. Price, 25 and 50 cents. Z. C. M. I.

## ROYAL BREAD.

Everybody eats it. Nothing beats it. Look for the label and ask your grocer for it every day. Health follows.

Corn-huskers' sprained wrists, tarbed, and corns, and cuts from their own cause, are quickly healed when BALLARD'S SNOW LINIMENT is promptly applied. Price, 25 and 50 cents. Z. C. M. I.

## L. D. S. NIGHT SCHOOL.

Now open in New Business College, east of Temple. Five nights per week. Bookkeeping, Telegraphy, Penmanship, Grammar, Arithmetic, Spelling, Typewriting, Shorthand, etc. \$4 per month or \$20 per year.

## Dr. G. J. Field.

Specialist: Skin, Genito-Urinary and Rectal diseases. 5th floor, Progress Bldg.

## OCDEN EXCURSION \$1.00.

Sunday, Sept. 16th.

The Rio Grand special train leaves at 10 a. m. Kolitz will serve free candy and ice cream in cafe car. Dinner in buffet car. Canyon. Baseball. Bicycles free.

## For Over Fifty Years.

Mrs. W. J. FARRINGTON, who has been and for children teaching. It teaches the child, not the parent, to read, write, and to the best results in education. 20 cents a bottle.

# PROFESSIONAL CARDS.
