

FOR EXPANSION OF THE CURRENCY

Am. Bank Assn. and N. Y. Chamber of Commerce Committees Will Recommend It.

MEMBERS RETICENT ON PLANS

Graduated Tax to be Fixed on the General Credit Issues.

Washington, Nov. 14.—Currency expansion legislation in some form will be recommended for the action of Congress at its coming session, as the result of the sessions of the currency committees of the American Banking Association and the New York Chamber of Commerce, which have been held here for the past three days. What legislation will be, none of the members is willing to say at this time, as all of them have been pledged to absolute secrecy until the final draft of the bill proposed is passed on by them, which is expected to be at the final session tomorrow.

At today's meeting the final work of getting the principles agreed on in regard to outlining the details for the practical application was referred to a special committee, consisting of A. B. Hopkins, president of the American Banking Association; James B. Fisk, president of the First National Bank of Chicago; and John Ferris, president of the American National Bank of Indianapolis. These are to be the main features of the bill, and are expected to be passed by the National City Bank of New York and the American National Bank of Chicago.

Chairman Fowler of the house committee on currency and comptroller of the currency Klugey were present at the sessions of the committee today. It is said the principles determined by the committee will be passed on by the committee tomorrow. The greater portion of today's sessions of the committee was consumed in the consideration of the report of the sub-committee, consisting of Messrs. Morgan, Keenan, and Vanderlip of New York, to which was referred the question of the amount of tax to be imposed on the issue of general credit money currency to be issued by banks at times of financial stringency. Some features of their report, which is understood included a graduated tax, was not entirely satisfactory to the bankers, and it was recommended to the special sub-committee for further consideration. Incidental to this, also was the establishment of an immediate guaranty fund to meet the obligations of any bank which failed before the regular guaranty fund, is available. There was a division of sentiment as to the amount of the graduated tax, some of the members favoring a tax ranging from 1 to 5 per cent, according to the amount of notes emitted, and others expressing the opinion that the tax should be between 2 and 3 per cent.

MURDERER CONFESSES.

Husband of Murdered Woman Will be Saved From Trial.

New York, Nov. 14.—Unable to eat or sleep, he says, under the pressure of his conscience, John Wehner, aged 23, an Austrian baker, last night confessed to the murder of his wife, Julia, who was killed by a blow from a brick, which he threw at her, after she had been beaten by him, at No. 15 Second street. The woman's husband, Alex Gordon, was a short time ago taken into custody by the police, and is now in the Tombs prison without bail, to await an inquest. The confession of the man, who is now in the Tombs prison, is the first confession of a man charged with the murder of his wife, since the confession of the man who was charged with the murder of his wife, since the confession of the man who was charged with the murder of his wife.

KANSAS TREASURER SHORT.

Oceordia, Kan., Nov. 14.—The disappearance of James E. Wade, treasurer of Oceordia, is \$10,000, according to an advertisement in the local papers, which has been examined the books, and it is a shortage of \$10,000.

DELICIOUS WILL CASE.

The Threatened Contest Has Been Practically Settled.

New York, Nov. 15.—The threatened contest in behalf of the widow and son of the late Herman Delich, has been practically settled, according to an announcement in the Herald today. Under legal steps that will be taken today, the estate of the late Herman Delich, who died last year, will be divided into two parts, one of which will be given to the widow and the other to the son.

The legal step to be taken today is a motion that will come up in the supreme court asking for permission to open a certain locked box left by Mr. Delich, and which, it is thought, might possibly contain a letter which would settle the matter. The box was found by the police after the death of Mr. Delich, and it is now in the hands of the court.

PIPES WILL BE HIGHER.

New York, Nov. 15.—Advices from London say that smokers of pipes are going to be paying an increase of 50 per cent in the price of pipes. This is due to the fact that the chief cause of the increase is the scarcity of pipes in Germany, France and Nuremberg, and the output for three months has been very small.

GOV. ELECT HUGHES.

He Will Retire Altogether From His Old Law Firm.

New York, Nov. 15.—Gov.-elect Charles E. Hughes, who returned last night from a brief vacation in the Adirondacks, will, according to statements made by his family, retire altogether from the law firm of Hughes, Bond & Schurman. From the same source came the announcement that he will also give up his home in this city and move with his family to Albany. Mr. Hughes, it is stated, is taking the next two years exclusively to his present professional connections and living at the state capital.

THAW ORDERS CLOTHES.

New York, Nov. 15.—Harry K. Thaw, who yesterday ordered three suits of clothes, presumably for his trial, which will begin to-morrow.

fore Recorder Goff on Monday, Dec. 2. Recorder Goff becomes a member of the supreme court on Jan. 1, so that the indications are that the Thaw trial will be much shorter than has been generally expected.

The opinion of the district attorney's office is that the trial, for a big murder trial, should not last so very long. The prosecution will not introduce any extraneous matter and Dist. Atty. Jerome expects to conduct the case for the people with dispatch.

It is expected that the defense will be long and that the trial will be held on holding sessions, and it is said this will be done should there be indications that the trial would last over Christmas.

WHOLESALE SUICIDE.

One Hundred and Ninety-one Cases in New York in Three Months.

New York, Nov. 15.—One hundred and ninety-one persons committed suicide in New York during the three months previous to July 1 last, says the report of Health Commissioner Darlington, sent to Mayor McCellan yesterday.

Sixty-seven persons were killed by electric cars during the quarter, 11 of the total number being in Brooklyn.

Rebecca Mochler, 39, and Rose Laemle, 16.

SALE OF A PEW.

New York, Nov. 15.—A curious sale was made at auction in the real estate exchange yesterday. It was Pew No. 11 in Grace church, and it brought \$3,675. The pew was sold by the estate of Francis Jones.

Another sale that attracted attention was that of 30 shares of stock of the Keely Motor company, which once attempted to manufacture a perpetual motion machine. The stock brought \$1.

THE AMERICA'S CUP.

Sir Thomas Lipton Says That He Will Come Again For It.

New York, Nov. 15.—Sir Thomas Lipton, in a speech delivered during a regatta in Brooklyn last night, said he would come again in search of the America's cup.

Lipton is to sail for Europe Saturday and some definite announcement regarding his negotiations with the New York Yacht club for another race is looked for by yachtsmen that day or soon thereafter.

THE NEW PURE FOOD AND DRUG LAW.

We are pleased to announce that F. J. Hill and his associates, who are engaged in the manufacture of pure food and drugs, have been successful in their efforts to secure the passage of the new pure food and drug law.

The new law, which is now being passed by Congress, will require that all food and drugs sold in this country be pure and free from any harmful or poisonous substances. It will also require that all food and drugs be labeled with their true names and the names of the manufacturers.

DEAN OF TAMMANY.

Patrick H. Keenan Will Retire From Active Politics.

New York, Nov. 15.—Patrick H. Keenan, dean of the Tammany district leaders, and one of the old guard of the Democracy, has retired from politics. He gives up the leadership of the sixth assembly district and will leave before the end of the week for a protracted trip to the west to recover his health.

Mr. Keenan, who is city chamberlain, announced his intentions yesterday. He gave up his position as dean of the district and will leave before the end of the week for a protracted trip to the west to recover his health.

CRIME IS STILL UNCHECKED IN PITTSBURG.

Pittsburg, Pa., Nov. 15.—With detectives from neighboring states who are here in the hope of finding crooks of international reputation, there has been no apparent cessation in the crimes that have stirred Pittsburg within the last two weeks.

During last night and early this morning scores of people were arrested on the streets as suspicious characters. Dispatches to the Associated Press from last night from surrounding towns portray a reign of lawlessness never before equalled in these parts.

APPEAL FOR E. M'DOWELL.

New York, Nov. 15.—An appeal for contributions for a fund to be devoted to the relief of Edward M'Dowell, the American composer, now mentally incapacitated from continuing his work, was issued today. It is signed among others, by Grover Cleveland, Andrew Carnegie, George B. Cortelyou, J. P. Morgan, and Bishop Henry C. Potter.

A MOUNTAIN OF GOLD.

could not bring as much happiness to Mrs. Lucia Wilke of Caroline, Wis., as did one box of Bucklen's Astringent Salve, when it completely cured a running sore on her leg, which had tortured her 23 long years. Greatest antiseptic healer of Piles, Wounds, and Sores. 35c. Z. C. M. L. drug dept., 112-114 So. Main St., Drug store.

NO FAULT.

More Puns in our store to select from in both quantity and value than the total aggregation of local fur stocks combined. We please you with our enormous assortment. Mehesy, the Furrier.

TEN YEARS FOR ADAMS.

Pleaded Guilty to Stealing Gold Dust From Assay Office.

Seattle, Wash., Nov. 14.—Fred Adams pleaded guilty today to robbing the United States assay office in Seattle, and was sentenced to 10 years at hard labor in the federal penitentiary at McNeil's Island. He pleaded guilty to two counts charging the theft of \$35,000 worth of gold dust.

POSITIVE PROOF.

Should Convince the Greatest Skeptic in Salt Lake City.

Because it's the evidence of a man, prominent in the educational affairs of Utah.

The strongest endorsement of merit. The best proof. Read it:

David John (president Utah stake, vice president Brigham Young university, and residing at 257 south Academy avenue, Provo, Utah, says: "Doan's Kidney Pills proved to be the best remedy I ever used to keep me free from any pain caused by the kidneys not performing their work properly. I have also found them very effective to ward off attacks of backache. I have used them for years for occasional retention of the kidney secretions and at other times a too frequent action. Whenever I feel the need of them I take two pills at a dose which always relieved any pain or distress. I can certainly recommend Doan's Kidney Pills in the highest terms, hoping it will be the means of helping other sufferers."

THAW ORDERS CLOTHES.

New York, Nov. 15.—Harry K. Thaw, who yesterday ordered three suits of clothes, presumably for his trial, which will begin to-morrow.

ANOTHER NORTH POLE EXPEDITION

Wellman is in Paris Supervising The Making of a Balloon On New Lines.

FEELS SANGUINE OF SUCCESS.

Thinks Peary Has Demonstrated Impracticability of Reaching Pole By Sledging.

Paris, Nov. 15.—Now that Commander Peary has returned from the arctic regions without having reached the north pole, the only expedition known to be preparing to seek the pole next year is that of Walter Wellman. There are other arctic expeditions in the field, but none of them has the pole as an objective. Mr. Wellman is hard at work with his preparations for next year's expedition. Work has begun at Asnières, a suburb of Paris, on the construction of a large hangar or workshop in which the polar airship, America, of the Wellman-Chicago Record-Herald expedition, is to be constructed during the coming winter. After study of the latest balloons—dirigible, including the Lebaudy, built as an aerial cruiser and scout for the French army, the Major Faroual ship in Berlin, designed for the German army, and the airship, designed on a plan of reconstruction designed by himself with the assistance of his expedition engineers. The new airship, Mr. Wellman believes, will mark a distinct advance in aeronautics as applied to geographical exploration. It will have a total lifting force of 8,200 kilos, or more than 18,000 pounds, and will carry a crew of five men and a fully equipped sledging expedition, 3,000 kilos, or 6,600 pounds, of petroleum for the motor of 80-horsepower. Instead of letting the work be done by the expedition engineers, Mr. Wellman, an American, Lieut. Havelock, and Charles, will be in charge of the expedition with the expedition at Spitzbergen last summer.

Commander Peary has made a plucky and gallant effort to reach the north pole, but he has failed in his great ambition, all Americans are proud of his achievement in attaining the highest north. Commander Peary has fully demonstrated the impracticability of reaching the pole by the old method of sledging with dogs over the unstable, drifting sea ice. Years ago, after bitter experience, I came to the conclusion that method was a failure, and began searching the modern arts for some more effective. I believe now more strongly than ever that we have hit upon the right idea—a motor driven airship. It is my belief that we shall reach the pole next July or August from the immense aerostatic base we have established. If it is possible, our airship will only carry us to the pole or to Spitzbergen. The drift of ice which prevented Peary reaching the pole would be no obstacle to our airship, and there is no constant current from the pole through the only outlet of the Arctic ocean, sweeping the west coast of Spitzbergen. While we have not yet been able to build a motor driven airship, in case of necessity, we believe our airship, with a fair degree of good fortune, will carry us to the pole and southward again to land and safety.

CHAIRMAN PARSONS REPLIES TO EX-GOV. ODELL.

New York, Nov. 14.—Representative Herbert Parsons, president of the New York county Republican committee, replied today to part of the criticism of former Gov. Odell regarding the management of the late campaign in the state.

"Considering that State Chairman Woodruff had only five weeks to prepare to conduct the state campaign," said Mr. Parsons, "I believe that he has shown excellent results. If he had had more time he undoubtedly would have accomplished many things that it was impossible to do between the time of his selection and election day."

"As to Gov. Odell's criticism of the campaign, I can only say that in view of the fact that Mr. Hearst and his campaign speakers declared that the views of the president and Mr. Hearst were practically identical, and that the statement of the president's actual position was entirely pertinent. The memory of voters is usually short, and we know that many voters had actually begun to believe that what the Hearst speakers, particularly those who made addresses in foreign languages, said, was true."

"The president to him to state his position, as he had a perfect right to do both as president and as a citizen of the state."

DEMOCRATIC PRINCIPLES.

League Formed in Boston to Propagate Them Regardless of Candidates.

Boston, Nov. 14.—To foster, disseminate and give effect to Democratic principles without favoring any presidential candidate or any national issues for at least a year, are the purposes of the New England Democratic Progressive league, formed here today by representatives from five New England states, Vermont being unrepresented. Temporary organization was perfected.

Alexander Troup of New Haven was chosen president and George Fred Williams of Massachusetts, chairman of the executive committee.

The meeting was held behind closed doors, but during the session Mr. Troup, who joined with George Fred Williams in calling the meeting, denied that the object of the meeting was an endorsement of W. J. Bryan for president. One of the purposes of the gathering, he said, was the organization of clubs throughout New England, "not especially for Bryan, but for any candidate the party nominates."

Mr. Troup said that he should be in Lincoln, Neb., on Sunday, and would probably tell Mr. Bryan something about today's meeting.

At the meeting former Gov. Garvin of Rhode Island offered a resolution that the consideration of national candidates and policies should be postponed for one year. The resolution was unanimously adopted.

NO CASE OF PNEUMONIA ON RECORD.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not let a cough or cold pass by without taking a course of this medicine. It contains opium, which causes constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. For sale by F. J. Hill Drug Co.

NATIONAL GRANGE CONVENTION

Wants Congress to Appropriates \$50,000,000 for Improvement Of Highways.

OPPOSED TO SHIP SUBSIDY.

Would Make It Plain to Congressmen That Association Has no Use for It.

Denver, Nov. 14.—Every state in the Union is represented at the annual convention of the National Grange, which was called to order in the chamber of commerce here at 11 o'clock today by Prest. M. H. Bachelder of New Hampshire. The first session was occupied with the appointment of committees and other routine work. The sessions will continue 10 days, and an attendance of 1,500 delegates is expected.

At the afternoon session the national master, ex-Gov. N. J. Bachelder of New Hampshire, delivered his annual address to a large and enthusiastic audience representing not alone the farmers of America, but the allied interests of science, public affairs and education.

The address was in part as follows: "Considering the great importance of inaugurating a policy of national improvement of our highways at the earliest possible date, I recommend that the grange, in addition to re-affirming its position in support of this measure, conduct a special campaign to secure the prompt passage of a satisfactory bill. And, furthermore, as much valuable time has been lost through the failure of Congress to act, I also recommend that a new grange bill be prepared and submitted to Congress, increasing the total appropriation called for to \$50,000,000, be divided into five annual appropriations of \$10,000,000 each, to be expended in co-operation with states for the improvement of main highways."

"Congress has given to the United States a denatured alcohol law equal to that of the German law, which is the broadest and most liberal of any other nation."

"I am informed that many new distilleries are being planned in the west as well as in the east, to make alcohol from corn, potatoes, beet sugar waste, etc. Development along these lines should be encouraged until every section of the country has its industrial distillery."

"To order to insure the early establishment of a parcels post I believe it will be necessary to include other measures of postal reform in our demands, and I recommend as measures that should be advocated by the grange in connection with the parcels post; first, correct the abuses of the franking privilege; second, withdraw free postage from all departments of the government and provide in lieu thereof that the postal service of each department be met by specified appropriations to be included in the general congressional appropriation; third, provide for the readjustment of railroad mail contracts; fourth, make it obligatory on the postmaster general to include in his annual reports detailed information showing the actual cost of each department and the revenue derived from each. I am convinced that a grange postal reform bill or bills will receive consideration."

Referring to the propaganda carried on in favor of a ship subsidy measure, Mr. Bachelder said: "This will make it necessary for members of the grange to again co-operate on behalf of the taxpayers of the country against this attempt to divert public funds to private ends, and it is only necessary that we should make it plain to the representatives in Congress from our respective districts that we are unalterably opposed to this subsidy scheme in order to insure its permanent defeat."

On the subject of insurance the address said: "The idea of uniting old line soundness and fraternal economy is one which is sure to make rapid headway in the next few years and, indeed, the time is now at hand when it ought to make the most rapid headway. By all means, sound, reliable, full legal reserve life insurance furnished by a society controlled by its own members, and not by the greedy hands of stockholders, is the foundation to build upon."

Reports from all the state officers and posts from the secretary and treasurer, showing the society to have net assets today of \$35,000, followed the master's address.

BAPTISTS BREAK A WAY.

They Sever Relations With the American Bible Society.

Richmond, Va., Nov. 14.—By resolution the Baptist convention today broke off all relations with the American Bible society and refused to use their publications. The trouble grew out of the printing by the Baptists of Bibles for the "Apostles" in which the Greek word "baptize" was translated "dipped." The American society contended for the translation "sprinkle" and refused to aid in the circulation of the Baptist Bibles.

DEATHS FROM APPENDICITIS.

THE QUALITY STORE

There were Forty-five Thousand In the Last Five Years.

Chicago, Nov. 15.—During the last five years 45,000 persons were murdered in the United States. More persons were murdered last year than died of typhoid fever. This awful total has been due to the way in which the law was administered. And the law itself is bad and inefficient. It is burdened with restrictions and technicalities, and in almost every case the criminal has nine chances of escaping to one of being found guilty. So declared Judge Marcus Kavanagh last night in an address before the alumni of St. Ignace college, gathered at a banquet at the Great Northern hotel. He spoke on "Enforcement of the Law in Large Cities," and vigorously assailed the operation of the courts under the jury system.

SO SAYS JUDGE KAVANAGH.

This Record Was Due to the Way in Which the Law Was Administered.

MURDERS IN THE UNITED STATES

There were Forty-five Thousand In the Last Five Years.

SO SAYS JUDGE KAVANAGH.

This Record Was Due to the Way in Which the Law Was Administered.

Chicago, Nov. 15.—During the last five years 45,000 persons were murdered in the United States. More persons were murdered last year than died of typhoid fever. This awful total has been due to the way in which the law was administered. And the law itself is bad and inefficient. It is burdened with restrictions and technicalities, and in almost every case the criminal has nine chances of escaping to one of being found guilty. So declared Judge Marcus Kavanagh last night in an address before the alumni of St. Ignace college, gathered at a banquet at the Great Northern hotel. He spoke on "Enforcement of the Law in Large Cities," and vigorously assailed the operation of the courts under the jury system.

That the United States is the most criminal country in the world, the jury system the most loose and antiquated and the law open to attack, were among the assertions made by Judge Kavanagh. Figures and grim statistics of the great countries of the world also were given and it was shown that, while England and Wales had only 317 murders last year, in the United States 3,300 persons died by the hand of the assassin.

POSTMASTER ROBBERED.

G. W. Fouts, Postmaster at Riverton, Ia., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow; when my doctor prescribed Eucletic Bitters, which cured me and have kept me well for eleven years." Sure cure for Biliousness, Neuralgia, Weakness and All Stomach, Liver, Kidney and Bladder derangements. A wonderful tonic. Z. C. M. L. drug dept., 112-114 So. Main St., Drug store, 50c.

Cut in Prices of Furs ever known in this city, especially now when you want them. Mehesy's.

CHILDREN AND PARENTS.

B. J. Marsh Would Tear Them Asunder If They Didn't Suit Him.

Chicago, Nov. 15.—A sensation was sprung at the session of the American Homeopathic association yesterday when Benjamin J. Marsh advocated the most radical changes in the present mode of living in the interest of children. Mr. Marsh unequivocally urged the segregation of all parents who were physically and morally unfit to bring strong, healthy children into the world.

"We should use every possible argument, help means of preventing the dissolution of families," said Mr. Marsh, who is secretary of the Pennsylvania society to protect children from cruelty. "When it is shown that the parents are not the proper persons to care for their offspring, however, there should be no hesitancy about taking the children from them."

"We have many men and women who bring children into the world who are so dissolute as to make them unfit for parenthood. I emphatically assert that some means should be taken to prevent their offspring from being born into vice."

Mr. Marsh advocated obtaining homes under different environment for families that were so placed as to be subjected to insanitary or immoral surroundings.

Miss Jane Adams declared that the present system of child labor was the greatest danger with which children of the present were compelled to cope.
