Women's Kidneys.

Women are more often afflicted with kidney disorders than men, but attribute the symptoms to diseases peculiar to their sex, while in reality the kidneys are deranged. Nervousness, headache, puffy of dark circles under the eyes, pain in the back, are signs of kidney trouble that must not be ignored, or a serious malady will result. Foley's Kidney Cure has restored the health of thousands of weak, nervous, broken-down women. It stops irregularities and strengthens the urinary organs. It purifies the blood and benefits the whole system. Sold by F. J. Hill Drug Co.

SESSION OF CITY COUNCIL.

Nelson - Clifton Wedding-Salt Deal Closed-Jurors for April Term of Court-Briefs and Personals.

Ogden, Utah, March 21 .- At the meet. ing of the board of county commissioners a petition was received, signed by 98 residents of the Fart West school district, asking for the segregation of their district from consolidated school district No. 2. The petitioners give as their reasons for asking to be segregated from the district, first the expense for their school is greater at present than previous to the consolidation; second, the trustees are always in confusion; third, it destroys the interest of the people in school matters; fourth. "we like very much to conduct our own affairs." The petition was taken under sfiairs." The petition was taken under advisement. This is the first petition 'presented to the board asking for segregation in school district No. 2, but three petitions had been received from residents of Roy, Wilson and Garland praying for segregation from district No. 1, all of which were tabled.

After six weeks' siege of smallpox we are thankful to say that we have no contagious diseases in our midst. The people are looking forward to a prosperous year, as the Gunnison irrigation company's reservoir between here and Manti contains at the present writing more water than it has since its construction. This, together with the high water which usually comes from the mountains during the next two months, we anticipate will more than fill the reservoir, thereby insuring, with what snow nature has so kindly stored in the mountains, a sufficient amount of water to grow and mature the largest crops that have ever been raised in this place since its settlement.
