LEGAL NOTICE.

In the Probate Court, in and for Salt Lake County, Territory of Utah.

In the matter of the Estate of Robert Dunn deceased.

Order appointing time and place to hear petition for distribution.

ON READING AND FILING THE PETITION of Charles Lougson, Executor of the estate of Robert Dunn, deceased, setting forth that he has filed his final account of his administration upon said estate in the Court, that all the debts have been fully paid, and that a portion of said estate remains to be divided among the heirs of said deceased, and praying among other things for an order allowing said final account and of distribution of the residue of said estate among the persons entitled.

It is ordered that all persons interested in the estate of the said Robert Dunn deceased, be and appear before the Probate Court of the County of Salt Lake, at the Court Room of said Court, in the County Court House on the 21st day of October, 1886, at 11 o'clock a. m., then and there to show cause why an order allowing said final account and of distribution should not be made of the residue of said estate among the heirs and devisees of the said Robert Dunn, deceased, according to law.

It is further ordered that the Clerk cause copies of this order to be posted in three public places in Salt Lake County, and published in the DESERET EVENING NEWS, a newspaper printed and published in Salt Lake County, three weeks successively prior to said 21st day of October, 1886.

ELIAS A. SMITH, Probate Judge.

Dated September 20th, 1886.

TERRITORY OF UTAH, County of Salt Lake. } ss.

I, John C. Cutler, Clerk of the Probate Court in and for the County of Salt Lake, in the Territory of Utah, do hereby certify that the foregoing is a full, true and correct copy of order appointing time and place for settlement of final account and to hear petition for distribution, in the matter of the Estate of Robert Dunn, as appears of record in my office.

In witness whereof, I have hereunto set my hand and affixed the seal of said Court, this 21st day of September, A. D. 1886.

[SEAL.] JOHN C. CUTLER, Probate Clerk.

AMERICAN.

WASHINGTON WAVELETS.

Ornithological Information—Ross' Report, etc.

WASHINGTON, 18.—The material is largely in hand in the newly organized division of Economic Ornithology of the Department of Agriculture for a series of bulletins upon the relations of the several common species of birds in this country to agriculture. The evidence collected will have a strong tendency in some cases to upset the widely prevalent notions respecting the habits and values of certain birds and in others to lead to organized effort for the mitigation or extinction of pests which bring destruction to valuable branches of agriculture. In the latter category Dr. C. H. Merriam, the head of the division, places the English sparrow as chief. This bird was imported with a flourish of praise some years ago as an agent for the protection of shade trees from the ravages of the caterpillar, worms and other creeping things, and has so multiplied and developed among its new surroundings as to become a

VASTLY GREATER SCOURGE

than the one it was expected to counteract. Its present rate of increase is enormous and the new territory which it invades is estimated at more than 100,000 square miles annually. It is essentially a town bird, nesting about and upon the projections of buildings, but it takes long vacations during the fruit-growing seasons and wreaks its farinaceous appetite upon the largest and juciest of the grapes and the daintiest of the tree fruits, in which work of destruction its aggregate of damages is almost incomputable. How best to prevent its further increase and curtail its roving propensities is an unsolved problem. It may be shot or poisoned, or it may be despoiled of its nest, but neither plan promises permanent relief. The estimated annual loss to rice planters from the depredations of this bird is between three and four million dollars. Dr. Merriam recently spent some time in the rice fields of South Carolina for the purpose of studying the

HABITS OF THE BIRD

and of experimenting as to its depredations. He found the planters making their usual heroic efforts and with partial success to save their crops. For illustration, a field of 200 acres required the employment of more than 50 men and boys. Their duty morning and evening was to create such a hubbub with guns and other noise-producing implements as would prevent the birds from settling upon this particular field and scare them over to those of their neighbors where a similar din was in process for a like purpose. Dr. Merriam thinks that a single hawk trained as were the falcons with which the sportsmen of the middle ages amused themselves, would be an effective protection to a rice field of 200 acres. It is probable that an experiment in this direction will be tried if a person of sufficient experience in the training of birds can be found to undertake it.

With regard to our indigenous birds of prey—hawks and owls—for the killing of which Pennsylvania and perhaps other States pay a premium, Dr. Merriam and the ornithologists are convinced that their services

ARE OF GREAT VALUE

to the farmer. No more than three out of upwards of thirty of the species prey upon the domestic fowl, and even these more than remunerate the farmers by killing the field mice.

The President has appointed Hiram H. Thomas as postmaster at Colusa, California, vice A. B. Pyper, suspended.

Hon. Edmund G. Ross, Governor of New Mexico, in his annual report to the Secretary of the Interior, says: During the first half of the calendar year New Mexico, in common with the West generally, was afflicted with unusual drouth, in consequence of which the cattle industry suffered seriously. Agriculture and mining also suffered, though in a much lesser degree, from the scarcity of water. Since early in July, however, the usual beginning of what is known as the rainy season, rains have been unusually abundant. The feed on the ranges is good with the stock of water in good supply, and convenient, and stock is rapidly getting into excellent condition for winter. Agriculture, too, has been effectually benefited and crops of all kinds will be

FILLY UP TO THE AVERAGE

in quality and yield per acre, while the increase has been largely increased over that of former years. Rains have, in some parts of the Territory, resulted in disastrous floods, doing great damage to roads and bridges and other property, especially railways.

The governor refers to the plan suggested in his last report of storing the surplus water, and adds: The system of storage basins at the heads of several streams, especially the Rio Grande, for which the numerous cañons and arroyas are excellently adapted, would save a vast amount of water, sufficient to irrigate not only the river valley proper, but also the mesas or uplands, practically to the foot of the mountains on either side running parallel therewith. This, the governor says, would reduce to cultivation many millions of acres of productive land now barren and desolate. He asks for a sufficient appropriation to at least satisfactorily test this theory. The cultivation of alfalfa has become somewhat general and is invariably successful. This grass is harvested from two to five times a year.

THE AVERAGE YIELD

at each cutting is from one and a-half to two tons per acre, and sells in the market at an average of $15 per ton.

On the subject of land titles and land frauds the Governor says: "It is undeniable, as shown by the investigations of the Surveyor General, that very large areas of public land, amounting to many hundred thousands of acres, have been illegally and fraudulently absorbed in pretended Spanish and Mexican grants, and that many thousands of acres of public land are still enclosed by private fences, and otherwise held in great cattle ranges to the exclusion of small farmers, in defiance, not only of the law, but of the private right to the common occupancy and use of the public domain. The Governor refers to the great landed estates that have been developed in larger Spanish grants as a serious and threatening evil to the welfare of the Territory, and concludes by suggesting to Congress to prohibit alien ownership of lands.

He expressed his satisfaction at the result of

GENERAL MILES' CAMPAIGN

against the renegade Apaches, and adds that all fear of Indian disturbances in New Mexico is forever settled.

The increase of taxable property during the year is some seven and a half millions, the amount of assessment for 1886 being $36,000,000. A growing interest is being manifested by all people of the Territory in educational matters.

The Supreme Court of the United States reassembled at noon to-day, and without rendering any decisions took up the land grant case of the Kansas City, Lawrence & Southern Kansas Railway Company against B. H. Brewster, the ex-Attorney General, brought here by appeal from the United States Circuit Court for the District of Kansas, and advanced on the docket by reason of the importance of the questions at issue. Judge McCrary, counsel for the appellant, asked the court for an extension of time, which was granted, and Mr. A. T. Brittain, also counsel for the appellant, opened the case. By the bill of complaint in this case the United States claims as against the defendants (appellants in this Court) title to 28,783 acres, situated in Alley county, Kansas. Mr. Brittain was followed by Mr. William Lawrence for appellee and Mr. John T. Dillon for appellant.

THE PRESIDENT,

accompanied by several members of his Cabinet, will attend the State Agricultural Fair at Richmond, Virginia, on Thursday next. On the following Wednesday the President and his Cabinet will go to New York to attend the inaugural ceremonies of the Bartholdi statue.

The Acting Secretary of the Treasury has telegraphed to the Collector of Customs at San Francisco as follows: "By request of the Secretary of State you are directed to extend all possible courtesy to the Prince and Princess Komatsu and suite, and the Prince and Princess Akihito and suite, all of Japan who are expected to reach your port on the 18th instant, and to pass their baggage and effects free of duty."

The issue of standard silver dollars from the mints during the week ended October 16th was $861,904, the same week last year, $1,029,750. The shipments of fractional silver dollars since October 1st amount to $508,139.

Baseball Championship.

CHICAGO, 18.—The St. Louis Browns, champions of the American League, and the Chicagos, champions of the National League of the season of 1886, to-day played the first game of a series of six games, half to be played in Chicago and half in St. Louis, for the championship of the world.

When the game commenced at 3 o'clock, there were from 5,000 to 6,000 people present. McClaude was selected to umpire the game. Anson won the toss and the St. Louis went to the bat.

The following is the score by innings:

Innings	1 2 3 4 5 6 7 8 9
Chicago	2 0 0 0 1 0 3 *—6
St. Louis	0 0 0 0 0 0 0 0 0—0

The new system of umpiring will be tried in Tuesday's game, which provides that there will be a referee and two umpires, one umpire to act for the Chicagos and do the umpiring when the St. Louis club are at the bat; and the other to act for the St. Louis and do the umpiring when the Chicagos are at the bat. In case of a close decision either umpire has the right to appeal to the referee, whose decision shall be final. The two umpires and referee will be chosen by lot from the board of umpires. The referee will stand between the pitcher and second baseman.

The Fire Fiend.

NEW YORK, 18.—A destructive fire occurred to-night at 11 o'clock in Goerck Street, between Sixth and Seventh. Six factory buildings, owned by ex-Alderman Hehr, were totally destroyed, besides the five story brick workshop of Kehr's American Desk Manufacturing Company. The building on Goerck Street were occupied by L. Altman & Co., table manufacturers, and by Steinberg & Unger, cigar box makers. Loss, $200,000.

Chicago, 18.—The *Daily News'* Oakland, Illinois, special says: The greater part of the business portion of Oakland is in ruins. The fire broke out at half past seven p. m. and at midnight whole blocks are a mass of burning debris. The fire is still raging with no means other than buckets to quell it. The fire originated in Chapman & Son's building on the southwest side of the square. It was thought the building was set on fire. The wind blew from the east and south, and the cinders flew in every direction. The stores, drugs, dry goods, meat markets, hardware, in fact nearly every branch of business were gutted of their contents, until the heat forced all to quit. The total loss will probably amount to $300,000; partially insured.

Aid for the Sufferers.

BUFFALO, 18.—The fund in aid of the storm sufferers now exceeds $1500. A letter was received from President Cleveland this morning, enclosing a check for $100 and expressing sympath for the distressed people. There are 105 families being cared for by the relief committees and food and clothing are being liberally provided. There is considerable doubt expressed about permitting squatters to return to the island to be the victims of every severe storm and it is probable the city will refuse to allow a future occupation of that strip of beach for living purposes.

Blaine Booming.

HARRISBURG, Pa., 18.—Blaine and General Beaver, the Republican candidate for Governor, addressed a large audience at Downing to-night, and yesterday at the latter place Blaine visited the graves of Thaddeus Stevens and James Buchanan. The party took supper at the country house of General Cameron and Steeleton. Then in the evening they came here and were met by a crowd estimated at 20,000. There was a large procession, fire-works and addresses again by Blaine and General Beaver.

The Wyoming Governor's Views.

CHEYENNE, Wyo., 18.—Governor Warren concerning his annual report says: Immigration and development have been seriously retarded in Wyoming by the non-issuance of patents to public lands. The records show that but two patents, covering 120 acres, have been issued during the past year. Although sweeping charges of fraud, thieving and land-grabbing have been made against our citizens, not one conviction has been made in Wyoming, and but three cases have been brought into the courts. Entries of land convey no title, and unless final proof is accepted they avail the settler nothing, and his rights are lost under the respective land acts, together with his improvements. Only 61 patents have been issued in this Territory since Jan. 1st 1885. The final proofs of hundreds of poor settlers have been rejected on trifling technicalities. It is true there were nearly 600 more entries in 1886 than in 1884, but this increase does not represent new comers; there are a few made by residents to save their rights, during the last months of Congress, when the repeal of the pre-emption and timber culture acts was imminent. The report asks for liberal treatment of *bona fide* settlers and pioneers, and not protection for illegal holders. A distinction could be made between the honest and alleged dishonest settler by recognizing with patent the deserving entrymen. Thorough examinations are recommended before or at the time of proof. The present rules work against poor settlers in favor of the wealthy. If the proportion of honest entrymen in Wyoming is only two out of 3,500, prosecutions should be instituted.

FOREIGN

Mary's Munificence.

DUBLIN, 18.—Miss Mary Anderson has subscribed £2,500 for the benefit of the sufferers of the Charleston earthquakes, the net proceeds of her performances here during the past week for that purpose.

Irish Crops.

Branches of the Irish National League in Counties Cork and Waterford have been making inquiries regarding the condition of the farms in these districts and have just made a report on the result of their investigations. They say that the harvests have been bad, that oats are selling at from three to five shillings per barrel, and that the heavy fall in stocks has rendered farmers unable to pay rent. On account of the bad harvest, the farmers demand a reduction of from 45 to 50 per cent. in rents, and where a reduction is refused they will pay nothing. A number of landlords offer a reduction of 35 per cent.

The French Navy.

PARIS, 18.—The bill introduced by the Minister of Marine for the "completion of the French navy" proposes an outlay of $28,000,000 for the construction of men-of-war ships and of $12,000,000 for the construction of ports of refuge. It also proposes such concentration of the work under contracts that it shall be completed in four years instead of nine, which is the nominal time named for the whole outlay.

Cholera.

VIENNA, 18.—The cholera returns for yesterday are: Trieste, 16 new cases and 8 deaths; Pesth, 39 new cases and 20 deaths.

"Merit overcomes prejudice." This is why physicians endorse Red Star Cough Cure.

SUMMONS.

In the Probate Court, in and for Salt Lake County, Utah Territory.

Mary E. Brabham Plaintiff, vs. Lewis Brabham, Defendant.

The People of the Territory of Utah send Greeting:

To Lewis Brabham, Defendan .

YOU ARE HEREBY REQUIRED TO appear in an action brought against you by the above-named plaintiff, in the Probate court, of the county of Salt Lake, Territory of Utah, and to answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of summons—if served within this county; or, if served out of this county, but in this district, within twenty days; otherwise within forty days.

The said action is brought to obtain a decree from this court dissolving the marriage contract existing between said plaintiff and you, on the ground that defendant has wilfully neglected and refused to furnish plaintiff with the common necessaries of life.

And you are hereby notified hat if you fail to appear and answer the said complaint as above required, the said plaintiff will apply to this court for the relief prayed for and cost of suit.

Witness, the Hon. Elias A. Smith, Judge, and the Seal of the Probate Court, of Salt Lake County, Territory of Utah, this 7th day of September, in the year of our Lord one thousand eight hundred and eighty-six.

[SEAL.] JOHN C. CUTLER, Clerk.

A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous lines at terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island's main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted, its track is of heavy steel, its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience proved valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the world, unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLOR and SLEEPING CARS, elegant DINING CARS providing excellent meals, and between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and greatest lands of Interior Dakota are reached via Watertown.

A short desirable route, via Seneca and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

For Tickets, Maps, Folders—obtainable at all principal Ticket Offices in the United States and Canada—or any desired information, address,
