Those of Engineer Charles Bussy Who Was Killed by Dynamiting of Train.

### NO CLUE TO THE MISCREANT.

Deputies Traced Powder Used to a Mine Near Scene of Explosion-Engineer Lensie's Story.

Butte, Mont., May 2 .- The remains of Engineer Charles Bussy, who was killed by the blast when the Burlington east-bound express was dynamited last night, were found under the engine this morning.

Daylight found a large force of depu ty sheriffs, railway detectives, police and ranchers upon the see

No clue either to the perpetrator or his motive could be secured. Fireman Ehle and Carl Ming, the hydred tramp, are both doing well in a hospital. Carl Ming, the tramp, took a sud-den turn for the worse this morning and died at 9 o'clock in the hospital. He carried a corrector's minor card besued

carried a carpenter's union card, issued at Sheridan, Wyo.

The first tangible clue was secured at 10 o'clock when deputies traced the powder-used at a mine located about a mile from the scene of the explosion. Forty-five sticks of giant powder wore stelen from this mine some time after 10 o'clock last night. It is believed now that this entire charge was exploded, as the locomotive wrecked, one of the largest used in the mountains, was completely demolished. Express Messenger J. H. Valentine was seriously bruised, being badly cut by a flying grenade. His escape from death in his car is considered mirac-ulous. The first tangible clue was secured :

The force of the explosion was ter-rific, according to the crew of the first engine, their engine being lifted bodily off the tracks.

#### ENGINEER LENSIE'S STORY.

"We were about 10 minutes behind time," said Engineer Lensie, of the head engine, No. 270, "and were run-ning at the rate of about 40 miles per hour. The line is perfectly straight and we had a clear track. The first thing I knew there was a terrific ex-plosion and my engine area lifted clear of the track, but quickly settled clear of the track, but quickly settled on the tes along which it ran for about 300 feet. I applied the brakes, but not before the coupling had broken between my engine and the one follow-ing.

ing, "The explosion was one of the most terrific that I ever heard, and for some moments I was unable to hear anything. After applying the air I shouted to my fireman, John Dore-ing, to jump, and we both dropped to the ground as the engine came to a standstill.

The ground as the engine came to a standstill. "I am at a loss to account for the dynamite, except that it mishs have been the act of a hobo who sought to get even for having been thrown off the train at some previous time. "As soon as I realized the situation I hastened to the scene of the wreek and was horrified to find the second engine turned over on its side. A moment later I ran into George Ehele. Engineer Bussy's fireman, and he was walking wildly about with his arms and hands terribly shattered and the skin actually falling from the flesh. Ambulances quickly responded and the poor fellow was hastened to the hospital."

CADET NOTES.

CADET NOTES. When the proceeds of last evening's concert at the tabernacle were counted out, it was found to the surprise of all that \$750 had been netted. The program was excellent, as would be known when it is explained that the following artists took part: High school codet hand: L. P. Christensen, conducfollowing attacts took part. High school cadet band; L. P. Christensen, conduc-tor; Fred E. Smith, baritone; Morris Andrews, violinist; tabernacle cholr; Evan Stephens, conductor, J. J. Mc-Cleilan, organist, and Rosemary Glosz, soloist. Encores were numerous.

Because the boys had been drilled so hard during the day, they did not march in and down to the front of the tabernacle as was at first proposed. During an especially stiff drilling in yesterday's hot sun, four cadets faint-ed but were quickly revived.

Towels and linen for the commissary department were donated yesterday by the American Linen Supply company: the R. K. Thomas company donated a bolt of factory cloth; the Continental Oil company, a case of oil and a box of candles: the White Dressed Meat com-pany, a mutton; the Mount Pickle company, a keg of their fanciest prod-nets: Luclan A. Ray, five cases of ce-reals. George Mack painted two big signs bearing the inscription, "Sail Lake High School Cadets." These will be used during the trip. Numerous other donations were received by the commissary department during the day. Ameng the contributions which came Towels and linen for the commissary

Among the contributions which came in yesterday were \$25 from A. F. Dore-mus and \$125 from the ladies of the U. C. T., who gave a dance Thursday U. C. Owing to the slowness of some sub-scribers and the failure of others to pay as they had subscribed, the finance committeed had \$12,482 last night when it should have had \$14,000. The difference was met, however.

OURFALIAN'S COLLECTION OF ORIENTAL

Soon Mr. Ourtalian will leave for the east on a purchasing trip. In the meantime prices are lowered materially in order that the stock may be reduced to a minimum. Aside from the sale being an annual event, there is less building than usual; conditions throughout the country not having fully righted themselves, which fact has had a potent influence on the unusual reductions.

There was never a time when reliable Oriental Rugs were offered at such close margins. The stock is Persian and Turkish and is exceedingly large and choice.

I Home turnishers and lovers of oriental gems will be impressed with the stock, and particularly at the sweeping reductions in force this month.

Inspection will convince. You are cordially invited to call and see the rugs, which is a pleasure to show.
