

MRS. BRADLEY ON TRIAL NOV. 11

Number of Additional Witnesses Summoned to Washington In Her Behalf.

IN JAIL ELEVEN MONTHS.

Slayer of Ex-Senator Brown Will Stand Trial for Her Life Next Monday at Nation's Capital.

A number of additional persons have been summoned to Washington, to appear as witnesses in the case of Mrs. Annie M. Bradley, who on Monday, Nov. 11, will be placed on trial for the killing of ex-Senator Arthur Brown. Among the 111 summoned by the prosecution are D. H. Wenger, William H. King, Albert H. Kelley, Asa B. Moseley, James Rowan, Parley P. Christensen, Archibald Livingston and Max Brown. The proceedings, as stated, begin next Monday, and it will be necessary for the witnesses to start at once for the seat of government.

Mrs. Bradley shot Arthur Brown in his room at the Raleigh hotel, Washington, on Dec. 8, 1896, and five days later he died. Their associations had been a matter of mystery for a number of years, and B. C. was the final refusal of the ex-senator to fulfill his oft-repeated promise of marrying Mrs. Bradley, it is alleged, that caused the tragedy.

NEARLY A YEAR IN JAIL.

Mrs. Bradley has been in prison during the 11 months that have passed since the shooting, except for a brief period that she was at a Washington hospital during the last summer. She is about 50 years of age, and is the mother of two children, of whom she claims Arthur Brown was the father.

UTAH RIFLE ASSOCIATION.

Organization Effected Last Night by Gen. James A. Drain.

The Utah State Rifle association was organized last night, in the state armory, as the result of the visit of General James A. Drain, president of the National Rifle association, and an election poll held on Nov. 18, when constitution and by-laws and officers will be chosen. Gen. Drain made an interesting address before all the lodges affiliated with the National Guard. He said that membership in the association is not necessarily limited to military organizations, but all interested in rifle shooting and gunmanship may participate. Members who belong to the army, those under army regulation, and those belonging to associations should enter their organizations respectively.

The speaker called attention to the necessity of having good marks men in military service, here in the state, conditions under which competitions take place, the various makes of rifles and ammunition, etc., and said that there would be no through Congress at that time in putting the National Guard on a footing with the regular army, so that in case of war, the guard could stand up to the front with their own officers. From this address, the state rifle association was started with these parties subscribing their names and paying one dollar first year annual dues: Gen. James A. Drain, Adm. Geo. E. Wedgewood, Col. Dr. G. B. Prout, Capt. W. C. Walker, Col. F. P. Palmer, Lieut. C. L. Arms, F. V. Fitzgerald, Lieut. Barrett and Major W. G. Williams.

Gen. Drain left on the late train for Helena, Mont., where he expects to remain.

He will take in the northern states when he returns, and will represent the movement in the movement. During the evening Gen. Drain read letters from Presidents Roosevelt, Secy. of State Root, Secy. of War Taft, and others, in which the writers heartily endorsed the objects of the National Rifle association and subscribed themselves as life members.

He will be missed by his fellow clubswingers, but they wish for him the best of luck in his new undertaking.

BOARD SPURNS OFFER.

Will Not Buy City Improvement Warrants Because of Methods.

The state land board at a meeting today refused the offer of Contractor F. J. Kennedy to sell \$21,890 worth of special improvement warrants issued by the city in payment of the work done by him. Kennedy, through his agent, O'Connor, offered to sell the warrants at 95 cents on the dollar, a premium of 5 per cent in addition to the 6 per cent interest on the warrants until maturity and 3 per cent after default. The reason back of this is that the city's financial condition is such that the land board did not feel that the investment would be safe.

"The fact that the 'inner circle' on the 'American' party has instructed its constituents who are members of the finance committee, which is considering the report of the special auditors employed at a cost of \$1,000, to withdraw the report from the public has created a feeling of uncertainty on the part of the land board. They fear that the city has passed its legal debt limit and that the security may not be good."

The land board, however, bought \$1,000 worth of Provo city's paving bonds.

PARK CITY MAN TAKES OWN LIFE

JERRY MURPHY CUTS THROAT WITH RAZOR AND SHOOTS HIMSELF.

(Special to the "News.")

Park City, Utah, Nov. 7.—Jerry Murphy, a half brother of John Murphy, committed suicide last evening by cutting his throat and shooting himself with a 22-caliber rifle. No reason except despondency caused by heavy drinking can be found for the deed.

Murphy returned from Salt Lake yesterday and going into the lot of the Roy Mercantile building proceeded to cut out his self-destruction. He cut his throat with a razor and shot himself, but which he did first is not known.

His brother body was discovered at noon today and taken to the undertaker's.

Murphy was between 25 and 30 years of age and favorably known in this camp where he has spent the major portion of his life.

FOR USE ON PUBLIC ROADS.

Atty.-Gen. Breeden Gives Opinion as To Expenditures of State Money.

Attorney General Breeden returned the following opinion this afternoon, on "Highways on which appropriations can be legally expended," in reply to an inquiry from Iver Ajax, county clerk at Tooele.

In reply to your inquiry of recent date respecting the expenditure of public money for the improvement and repair of public highways you are advised that the sum of \$2,000 was appropriated by the last legislature to be used in your county under the direction and supervision of the county commissioners for the improvement and repair of highways and bridges.

In my opinion no part of this appropriation can legally be used to improve or repair what is known as private or privately owned roads, but shall be used on all roads of public highway dedicated to and used by the public generally.

The state statute defines a highway as follows: "In all counties of this state, all roads, streets, alleys, lanes, places, trails and bridges laid out or erected as such by the public or dedicated or abandoned to the public, or made such in actions for the partition of real property, are public highways."

It is further, when a highway has been traveled and used by the public continually for a period of ten years, the law implies a dedication of the land on which the highway is located to the use of the public for the purposes of travel.

Now, if the roads you speak of fall within the above definition of a highway, that is to say, if these roads have been abandoned to public travel, and have been in the possession of the public for a period of ten years or more continuous, then they are highways as the legislature intended to cover by this appropriation, and you are advised accordingly."
