FENCIBLE, ETC., ETC.  
210 NORTH SECOND ST., ST. LOUIS, MO.

## BY TELEGRAPH.

FOR WESTERN UNION TELEGRAPH LINE  
**AMERICAN.**  
WIRED FROM WASHINGTON.

WASHINGTON, 10.—Indian Agent  
Wilcox of the San Carlos Agency,  
in a telegram to Commissioner  
Price, says it is rumored that a com-  
pany of rangers is being organized  
at Tombstone, and the general  
directions point to an invasion of the  
San Carlos reservation. He adds  
that the result of such an invasion  
would be disastrous.

Secretary Folger had a confer-  
ence to-day with the Director of the  
Mint and the Hawaiian Minister in  
regard to the request of the Hawa-  
ian Government to have its silver  
money coined at the U. S. Mint.

It was decided to grant the request,  
and preliminary arrangements for the  
coining will be made at once. The  
Mint at San Francisco is the de-  
sired place of coining. The dies will  
probably be made at the Philadelphia  
Mint. The Hawaiian silver coins will be  
of one dollar, half-dollar, quarter,  
and eighth of a dollar.

A memorial has been sent to the  
President by the president and  
board of directors of the Central  
Committee on National Labor Legis-  
lation, petitioning for an extra  
session of Congress, to be called as  
early as practicable, for the purpose  
of considering the relations between  
labor and capital. The memorial  
claims to represent the wage  
workers of the United States in the  
matter of promoting certain  
legislation proposed by the resolu-  
tion of the Senate, adopted in 1882.

They call the attention of the Pres-  
ident to the fact that nearly a year  
has elapsed since the adoption of  
that resolution to investigate the  
relations between capital and labor,  
and yet no report on the subject has  
been made by the committee to  
which it was referred, nor is there  
any sign of remedial legislation. A  
form of investigation was gone  
through with, they say, during a  
single day of the last session of  
Congress, but further time was  
asked by the committee to en-  
able them to travel over the coun-  
try and continue what appeared to  
be a most important investigation  
of public money in collecting facts  
already well known. They add: "It  
appears to your memorialists an ab-  
surdity for a committee of con-  
gressmen to go around the country  
on a junketing feast at the public  
expense, to gather cumulative tes-  
timony in support of evident facts  
to all eyes and ears, and to submit  
indignant feelings intelligent work-  
men, who are the aggrieved people."

They request the President, there-  
fore, if he feels hampered by con-  
flicting opinions of his privy coun-  
sels, to call together the repre-  
sentatives of the people elected last  
fall, and submit to them the adju-  
dication of this problem of remedial  
legislation in the interest of oppressed  
wage workers.

At a meeting this evening of the  
Republican central committee of the  
District of Columbia, resolutions  
were adopted favoring a movement  
to secure the restoration of the sur-  
frage to the citizens of the District.

**The Catalogue of Crimes.**  
ATLANTA, 10.—Samuel Lewis  
(colored) murdered J. W. Williams  
(colored) was taken from the jail  
last night by a mob of 75 blacks  
and 5 whites, and hanged. He con-  
fessed.

Vicksburg, Miss., 10.—A young  
girl named Georgie Smith, who re-  
cently murdered Albert Boykin, a  
young preacher in this State, in at-  
tempting to escape this morning  
was shot dead.

Huntsville, Ala., 10.—The case  
against Dick Liddle, noted member  
of the James gang, who was con-  
victed of the murder of a woman  
in the United States Court, of conspiracy  
for robbery, sentence being then  
suspended, was called up to-day, and  
Judge Bruce released Liddle on his  
own recognizance. This is re-  
garded as a settlement of the case.  
Liddle is free, and can now testify  
in the Frank James trial in St. Louis.

All efforts to have Liddle  
pardoned by the President proved  
unavailing. His release under the  
circumstances virtually removes all  
probability of his being con-  
victed on the charges which con-  
victed him.

New York, 9.—Wall Street was  
thrown into a commotion by a com-  
munication from the banking firm of Coy  
& Co., of Chicago, for embarking  
trust funds. Coy suddenly left re-  
cently, saying he was going to New  
York. It is believed he has gone for  
good.

New York, 9.—Washington and  
H. Tobias, two brothers, aged 30 and  
35, are defaulters to the extent of  
\$5,000, that belonging to their late  
father's estate. They speculated  
some, but it is said the money was  
principally spent in fast living. It  
is thought they may be in Europe.

Fort Worth, Tex., 10.—Twenty-  
four prisoners escaped from jail; all  
were recaptured except four.

Washington, 9.—In the Star  
Route trial, John M. Miner, defend-  
ant, was called. He made the de-  
fense a matter of the railroad  
committee, and in the course of his  
testimony of the Northern Pacific  
Railway had been expressed with  
growing notions of the possibilities  
of Eastern Oregon, and thought  
upon the routes of that country had  
been worked to high one of them  
was reduced \$5,000 by his suggestion,  
and the contractors lost more than  
that sum from their re-lease upon  
his judgment. A specific denial was  
made of nearly everything.

The Solicitor of the Treasury has  
made an adverse report upon the  
case of Cuendet, a prominent Jew-  
el at St. Louis, arrested for smug-  
gling \$4,000 worth of diamonds from  
Paris. Cuendet admitted the charges,  
agreed to pay the duty, and also 50 per  
cent. in addition, which it seems  
was exacted from him. District At-  
torney Bliss at St. Louis reported  
there were mitigating circum-  
stances; he did not think Cuendet  
should be indicted. He made the de-  
fense not agree with the District At-  
torney; he holds that it is a proper  
case for indictment, and criticizes  
the action of the authorities in ex-  
acting the additional 50 per cent. on  
the value of the diamonds, while  
the offender was in duress.

It is reported that H. W. How-  
gate, ex-Signal officer, who escaped  
from the custody of a bailiff in this  
city about a year ago, is being  
tried on a charge of embezzle-  
ment, was seen on the street here

to-day by an officer of the Signal  
service.

St. Louis, 10.—The trial of Geo.  
Sobell, charged with setting the  
Newhall House on fire and causing  
the fatal catastrophe of Jan. 10  
last, by which almost 100 human  
beings were sacrificed, was opened  
in the Criminal Court this morning.  
Great interest is evinced on every  
side.

**Roofs and Stresses.**  
ROCHESTER, N. Y., 10.—Ten min-  
utes after 7 o'clock this morning, the  
large building at the north-west  
corner of Church and State streets  
fell with a crash. The side wall  
facing Church street had been  
erected this winter. It is supposed  
the mortar was frozen and the warm  
weather of yesterday loosened the  
bricks, and caused it to fall. There  
were 17 men at work in the build-  
ing. The alarm was sounded, which  
brought out the firemen and police,  
who are working hard clearing away  
the debris. The names of those  
killed in the building were: J. W.  
W. M. Ashbrook, Fred. Kohler, R.  
Bur, W. G. Gould, R. L. Brown,  
Ransom Porter, Anthony Dinkel-  
sper and Mathew S. Pearl, the lat-  
ter being two of the others  
fatally injured. The owner of the  
building was on the roof at the time  
and is seriously injured. Those in  
the basement are probably killed.

Later—There was only one death  
from the falling building, that of  
Matthew Pearl. Wesley Ash-  
brook and R. L. Brown will die.  
The investigation is left toward the  
builder and owner, J. G. Carter.  
Loss, \$25,000. The building had  
been condemned by the fire mar-  
shals several times.

San Francisco, 10.—Henry W.  
Colburn and Bernard A. Ashley,  
keepers of the fog signal, Point New  
Year, San Mateo County, attempt-  
ed to rob a steamer in a cove with two  
friends, Clayton A. and Frank  
Pratt, yesterday. The boat cap-  
tained and all were drowned. The  
wives of the two were the last  
seen to the accident. They sig-  
naled the passing steamer Los An-  
geles, which made search without  
result.

St. Louis, 10.—One of the buildings  
of the American Powder Company  
at Astor, Mass., exploded this fore-  
noon, killing two men; loss not  
heavy.

St. Louis, 10.—Reports of the  
late hurricane at points remote from  
rail and telegraph show great dam-  
age was done, and considerable loss  
of life. John Nease and wife, 55  
years of age, were killed by a tree  
fallen by falling timber near John-  
son's Ferry; Thomas Wilson was  
killed by his horse falling on him.

St. Louis, 10.—The Savannah  
River is rising rapidly. At 8 o'clock  
last evening it registered ten feet  
to-day at noon it is at 28 feet, in-  
creasing at the rate of three inches an  
hour.

Natick, Mass., 10.—The boot and  
shoe factory of Riley, Peabody & Co.  
damaged \$100,000 by fire; in-  
sured.

New Orleans, 10.—Of 198 deaths  
last week, 88 were from small-  
pox.

The rear portion of the Third Dis-  
trict is still overflowed from rain  
and high tide. The flow of water  
through the Gondolero crevasse is  
increased. It will be entirely checked  
soon.

The river to-day reached the  
flood height of 1874, and the water  
paved the way for several parties.  
Sand bags were used to prevent the  
water flowing into the city. Rain  
fell for the 56 hours ending at 2 p.  
m. 11.45 inches.

Wettersville, Md., 10.—The most  
disastrous fire ever known here oc-  
curred last night, originating in  
Jacob Thompson's livery stables, in  
which Thompson and Aaron  
Scheffer, employees, were burned  
to death, also 30 horses. Sixteen  
dwellings and stores were burned,  
including the Lutheran Church.

Loss, \$70,000. The fire cleared a  
whole square, from Bond to Carroll  
on Main Street, and up Carroll.  
The fire started at 11:30 last night,  
and was under control at 3 this morning.

The fire was extinguished by rain,  
which fell steadily several hours.  
Nearly all the occupants saved the  
bulk of their property. Several fire-  
men were arrested for setting fire to  
the stable while playing cards. Ow-  
ing to the fear of lynching the jail  
is strongly guarded.

Ansonia, Conn., 10.—The Ansonia  
Hotel burned this morning. Fifty  
guests were in the house, who es-  
caped; only two injured. Loss, \$12-  
50.

Rochester, N. Y., 10.—Last night  
at Van Hosen Oct, near here, on  
the West Shore Railroad, one work-  
man was killed and several fatally  
wounded, by a blast that was sup-  
posed to be drowned.

Denton, Texas, 10.—On the Mis-  
souri Pacific, near Denton, Tex., a  
Booker, a construction train backing  
struck a horse. The train jumped  
the track, and Conductor Everett  
and four hands were killed.

Ottawa, Ont., 10.—Northwest-  
ward the positive assurance of Super-  
intendent Sherwood, of the Dominion  
police, that the reported  
explosion on the Eastern coast was  
a canard. Detective Hengerson and  
four city policemen who have been  
brought here to-day inspected the  
underground passage of the Parli-  
ament building, and found no trace  
of the explosion.

There is no relaxation on the part  
of the authorities and parties in  
connection with the case of Kavan-  
agh and his associates. The police have  
just come into possession of informa-  
tion that a man has arrived in  
Dublin who is supposed to be an  
emancipated convict, and who is  
supposed to be the brother of the  
prisoners. All the hotels are being  
watched with the hope of arresting  
him.

The Cold Stream Guards have  
been placed in buildings adjacent to  
the Green Street House, where the  
trial of the Phoenix Park assassins  
is to take place. The object is to  
secure the protection of the officers  
of the court and of the informers  
who are to testify against the ac-  
cused.

Limerick, 10.—Higgs, fugitive  
from Oranmore district, was arrested  
to-day, charged with conspiracy to  
murder.

**General Items.**  
Paris, 10.—The République Fran-  
coise, replying to the article in the  
Nord Deutsche Zeitung on the sub-  
ject of the defensive alliance be-  
tween Germany, Austria and Italy  
against France, believes Bismarck in-  
spired the article, and adds: "The  
République will attack no one, but  
will make itself respected by all. To  
recommend the alliance to the kind  
feeling of Europe as the sole safe-  
guard against the supposed bellicose  
instincts of Frenchmen, whether

Middletown, N. Y., 9.—Babcock  
& Waterous, manufacturers of wool  
textile machinery, have assigned; in-  
debtedness unknown.

Hallfax, 10.—The steamer Not-  
tingham, New York April 1st for  
London, put in here after a terrible  
experience at sea.

On Tuesday evening after sailing, a gale began  
which raged throughout the night,  
becoming a cyclone on Wednesday  
morning, when the ship was thrown  
on her beam ends. The two days  
following the hurricane prevailed.  
The mizen boom was torn down and  
dashed against the skylight and the  
engine room, through which the  
boom and glass fell, seriously injur-  
ing three engineers. All the doors  
of the deck house burst; the rooms  
were gutted, the gallery wrecked and  
a great part of the ship's provisions  
carried away; thirty-three feet of  
solid steel bulwarks were swept into  
the sea, and thirty feet of damaged  
plating from their fasten-  
ings as if scaffolding. Multitudes  
were drowned the fire and threaten-  
ed to overwhelm the ship. For  
forty-eight hours she was still on  
her beam ends, and the pumps  
choked. The men kept bailing, but  
were only able to keep the water  
from the engine room.

The boat was swimming about  
all this time and had no fodder.  
On Friday morning the men went  
in a body to Capt. Bennett, and de-  
manded to be taken into port or  
have the ship abandoned. The de-  
mand was impossible, the water in  
the engine room preventing the  
first boat from being lowered. The  
water was quickly reduced, steam  
raised, and as soon as the ship  
got under way she righted. Thirty-  
four bullocks and six sheep were  
lost, 184 head of cattle and 199  
sheep on board. About 100 tons of  
cargo were washed overboard.

**FOREIGN.**  
**British Briefs.**  
LONDON, 10.—A royal message,  
giving the bill relating to the  
possession of explosives was read  
in Parliament this afternoon.

The Times says there was a prac-  
tical reason for the haste in which  
the bill in regard to explosives was  
passed through Parliament yesterday,  
and explains this by stating that  
some of the members of the dynam-  
ite party are believed to have  
steamed now coming from  
America.

Tracy Gould, American lawyer,  
applied to-day at Millbank prison  
for an interview with Gallagher,  
whom he wishes to defend. Gould's  
name not being on the roll of Eng-  
lish lawyers, the government of Ire-  
land refused him admission. Gal-  
lagher then asked Wm. Dwyer Smyth  
to defend him. Gallagher has made a  
statement to the effect that he  
to-day at Millbank on a charge of  
murder, and met Wilson accidentally, and  
accompanied him to the latter's lodg-  
ings at Nelson Square, being glad to  
meet a fellow-countryman, and had  
not there five minutes when he  
arrested. Wilson declares Gal-  
lagher innocent of the contents of the  
box found at Wilson's lodgings; says  
the first time Gallagher in Brook-  
lyn where the latter attended him in  
the capacity of a physician. Nor-  
man has again expressed a desire to  
enter the witness box. The foot-  
guards are ordered to guard Mil-  
bank prison.

The Times, in an editorial, ex-  
pressed belief that the prisoners ar-  
rested Thursday last arranged a  
plot to place quantities of nitro-gly-  
cerine in various parts of London and  
explode it simultaneously.

Post: the authorities have seized  
two boxes of explosives in a large  
on the Thames. The cases were  
shipped from Hamburg; consignors  
and consignees unknown.

Parrell is confined to his house;  
he will probably not be able to ac-  
tively participate in politics for some  
time.

A dispatch from Dublin states  
that one man who actually partici-  
pated in the murder of Cavendish  
and Burke has declined to be de-  
fended declaring his intention to  
plead guilty. He has no hope of  
escaping conviction. His name is  
withheld. His statement regarding  
his participation in the crime will  
be made in the dock, where he  
previously answered for a murderous  
offense. The man referred to is ob-  
viously Patrick Delaney.

The French legation at Hong  
Kong has called for Fouquier.

Parrell is suffering from a carbun-  
cle. He was in the House to-night,  
but left before the debate on power's  
motion began.

Bernard Gallagher, of dynamite  
notoriety, strongly urges his Amer-  
ican citizenship. He sent a letter to  
the United States minister, paying  
the good offices of the American  
government, and solemnly reiterat-  
ing his innocence. The writing and  
spelling of the communication  
stamp it as the work of a person of very illit-  
erate character.

The police continue vigilant watch  
upon the railway depots and steam-  
boats. It is believed they are  
well advised from America.

Parrell decides not to leave Lon-  
don. He desires to attend the dis-  
cussion of the criminal procedure.

Dublin, 11.—A number of arrests  
are made in connection with the  
murder of Lyden, committed ten  
years ago, and of constable Kavan-  
agh and his associates.

There is no relaxation on the part  
of the authorities and parties in  
connection with the case of Kavan-  
agh and his associates. The police have  
just come into possession of informa-  
tion that a man has arrived in  
Dublin who is supposed to be an  
emancipated convict, and who is  
supposed to be the brother of the  
prisoners. All the hotels are being  
watched with the hope of arresting  
him.

The Cold Stream Guards have  
been placed in buildings adjacent to  
the Green Street House, where the  
trial of the Phoenix Park assassins  
is to take place. The object is to  
secure the protection of the officers  
of the court and of the informers  
who are to testify against the ac-  
cused.

Limerick, 10.—Higgs, fugitive  
from Oranmore district, was arrested  
to-day, charged with conspiracy to  
murder.

**General Items.**  
Paris, 10.—The République Fran-  
coise, replying to the article in the  
Nord Deutsche Zeitung on the sub-  
ject of the defensive alliance be-  
tween Germany, Austria and Italy  
against France, believes Bismarck in-  
spired the article, and adds: "The  
République will attack no one, but  
will make itself respected by all. To  
recommend the alliance to the kind  
feeling of Europe as the sole safe-  
guard against the supposed bellicose  
instincts of Frenchmen, whether

monarchist or republican, is an  
insult which we will re-  
sist. Watch out, France! defensive  
leagues against us, but for God's  
sake spare us advice concerning the  
constitution best suited to the use of  
the republic of monarchy. France  
in the presence of the foreigner is  
France."

The Gambetta monument fund  
has reached \$12,000. Moreton,<
