LOCAL AND OTHER MATTERS.

THEATRE.—Mr. Bates made a good "Richelicu" last evening, although in that character, as well as someothers, he has to sustein comparison with some of the greatest lights of the histrionic profession. Mrs. Bates was fair as "Julia." In profession of this evening, for the benefit of Mrs. Bates, there is a novel programme, consisting of the standard love-drama of "Romeo" and Miss Adams as "Julie" in the three first acts, and Mr. Bates as "Romeo" and Mrs. Bates as "Julie" in the two inst. We are satisfied that in most instances the asserted evils are merely imaginary, and in a few cases prejudice is the only real reason of complaint. UFAH NORTHERN RAILBOAD,-This road progressing finely. The track is being ald at the rate of half a mile a day. If the work of grading goes on as fast as anticipated the cars will be in Logan, the county seat of Cache, by the end of July. We believe that nothing will be lacking to make this an accomplished fact, on the part of the energetic people of Cache Valley, who have gained a well deserved reputation for being generally willing to forward enterprises of a public character, where they conduce to the public weal.

SEVERE ACCIDENT. - Yesterday Mr. J Knott, who resides in the neighborhood of Fourth Street, hired a horse and buggy to take his wife for a ride. On their way they to lake his wife for a ride. On their way they took up Mrs. Chugg, who asked Knott where he was going; he replied "To the devil." On reaching Birch Creek the horse stepped to drink, and Knott stepping on the shaft patted the horse sharply when the animal started and threw Mr. Knott and his wife violently to the ground. Mrs. Chugg jumped into the creek and saved herself. The horse returned without a driver to the livery stables, and we understand, Mr. and Mrs. Knott are severely hurt.—Ogden Junction, May 22,

Wuy Nort-We have been surprised that ome of our furniture dealers have not, among their other importations, brought B A T H S nto this market a stock of from bedsteads. The material of which they are made admits of much beauty and elaboration of design, and we should think they are not very expensive. Besides all this, they are especially adapted for a hot country like this, being less calculated to foster those peculiar forms of insect life, whose pressure is so annoving to people wishing to enjoy peaceful, undisturbed alumber.

Bring on the iron bedsteads. They can be bought for \$2,50 and upwards in Britain, and surely they could be sold for, at most, double that here.

THESE celebrated buths are open to the public at all seasons. Their medicinal properties are so widely known that it is needles to enumerate them.

GREATNESS UNAPPRECIATED,-A tele- Stain DOTA cram the other day informed us that Judge Hawley's court at Beaver was but thinly attended. This is indicative of something noss and talent should not be so unappreciated. If there be a cranial bump known as appreciativeness, its locality on the freads of the "Beaverites" must be indicated by a remarkable indentation instead of a projection. The absence of a huge crowd of enthusiastic admirers, however, may possibly be explained—they are probably waiting till the promised opinion on the mistake of the Supreme Court of the U.S. is forthcoming. The people of Beaver and vicinity may then "hang up the shovel and the hoe" and leave their potatoes, wheat said corn to take care of themselves, while they sit or stand enchained listening to the meltingly eloquent delivery and logically unanswerable 'propositions' emanating from a source combining legal intelligence and lore, supposed (by himself) to be infinitely superior to those qualities as possessed by any combination of hitherto considered greatest luminaries of the legal prosittered greatest luminaries of the legal prossion. Yes, yes.

MURDER. - Our friend Mr. C. M. Browne, conductor on the C. P. R. R., called in yesterday, and informed us that on Monday last be learned of a tragic occur. DESERET NEWS OFFICE rence that had just come to light in Toanorence that had just come to light in Toano. About three weeks ago a fine looking young man, about twenty-three years of age, arrived at Toano, and after a day or two started out for Texas in company with two Mexicans. Since then nothing was heard of him till Monday, when an Indian informed Mr. Henry Morris, the telegraph operator and J. P. at Toano, that the body of a man was lying about ten miles out of town. On investigation it proved to be the remains of the young man above mentioned. He was shot through the heart and head, his pockets had been rifled and everything he had of value taken away except his saddle. From surrounding in-cept his saddle. From surrounding in-cations it appeared he was killed just as cations it appeared to start, after a night everything he had of value taken away was making ready to start, after a night's sleep. It is supposed that the Mexicans with whom he was traveling committed the atrocious deed. Mr. Morris had the body interred, and a cross erected above, with the inscription "Jim," the only name by which he was known. An effort will be made to trace the assassins, and if possible discover the full name of the murdered man .- Ogden Junction, May 22.

TROSE TELEGRAPH POLES .- Many comthe Deseret Telegraph Company in the middle of East and South Temple Streets. Before animadverting on the action of the City Council in granting a charter to the City Council in granting a charter to the company to place the poles there, it should be considered whether they really present any disadvantage after all. The streets are unusually wide, so that the poles are no obstruction. It has been stated that they will prove dangerous in cases of runaway teams. In snawer to which it may be said that probably nine of every ten runaways are the result of unmitigated carelessness, and could be prevented by the application of proper measures.
