Forest Fires in Idaho—Serious Cutting Affray—Court Martial—Miscellaneous.

The heat is reported to have been intense throughout Idaho for at least two weeks past.

The body of an unknown man about forty years of age and thought to be a sailor was found in the bay at the foot of Taylor street, San Francisco, on Wednesday.

At Mountain Home, Idaho, the foundation for the $10,000 public school building to be erected at that place has been completed and the brick work commenced.

A court martial is being held at Sacramento, Cal., to try members of the local companies of the Second Infantry, National Guard of California, against whom charges of misconduct were filed, growing out of matters connected with the late strike.

Idaho City World: A forest fire started on Willow creek about a week ago, and is crawling toward the summit, and is now within half a mile of the Mayflower mine. Parties are engaged in fighting it, but their best efforts have been ineffectual. The fire is believed to have started by lightning striking a tree.

The Cheyenne Sun says it is known that several men who worked in the shops here before the strike have been sent for and will be given work on the 1st of next month. This, if true, is good news. The men who were forced to leave here on account of the strike, were good men in every sense of the word, and just those who make good citizens. To know that they will be given work again is most satisfactory news to the people of Cheyenne.

A serious cutting affray, in which Jack Boyd, one of four men in Boyd Bros., received probably fatal injuries, occurred at the Boulder house, Montana, twelve miles southwest of Fairfighting, last Tuesday night. William Thomas, a cowboy, did the cutting. The difficulty was over the right to a position on the float at a dance there. Boyd received one stab near the heart, one over the right lung and the left side of his face was split entirely open, besides numerous painful cuts.

The Cheyenne Tribune says: The thirteen hunters who threatened to clear North park of game have returned to town. The party was absent eighteen days and hunted across South park and back again, killing two bear, six deer, one elk, three antelope, 125 ducks, seventy-five grouse and a number of carnivorous wild animals. They sold the bears, traded considerable game off for vegetables and fruit, and what they intended to distribute among their friends has spoiled on their hands.

Will L. Simpson, county and prosecuting attorney, has returned from Jackson's Hole, says the Leader, Wyo., Clipper, where he has been visiting his relatives. Mr. Simpson confirms the report of the devastations of the Indians in that section. He says that the county is fairly alive with redskins, and that they are killing game in their hearts' content, leaving the carcasses to rot in the sun, carrying away the skins only. They are all of them provided with passes from Captain Ray of the Shoshone reservation.

The Sheep mountain excitement is causing considerable talk here-about, says the Dry Lands (Idaho) Echo. The assays are reported to run from $150 to $1,000 per ton, and the find is directing much attention. W. H. Sharp and John Richard, both of Farmington valley, are the lucky discoverers. Several have already left this district for the new finds, and others contemplate going. This discovery, together with the discovery a short distance below St. Thomas in this county, and the activity in the southern portion of the county, with which it is in this vicinity, makes a marked improvement in the general condition of affairs.

On Tuesday, Ada Nicholas, a fifteen year old girl, whose parents reside seven miles above Los Gatos, Cal., committed suicide by taking poison. For a long time the deceased had been troubled with her eyes, and at one time consulted a physician, who told her she had better see a specialist or else she would have more serious trouble. This seemed to trouble the girl a great deal, and when she went home she told her mother she would rather die than wear spectacles. This is supposed to be the cause of her suicide. The home life of the girl is said to have been always very pleasant and both father and mother are heartbroken over the matter.

Ward was brought up from Spring City on Monday of the outside of that place on the previous evening of a man by the name of Alfred Sabine, by morphine. Sabine was an almost total stranger in Spring City, having come there with his family some weeks ago, seeking employment at his profession, that of civil engineer. He had unsuccessfully been hunting for employment at various places throughout the country, and at last despondency gained the upper hand, and he concluded to square accounts with the world and leave it. He was a foreigner, a German it is said, and had been in the country a little over a year and it being at that time a boom with heavy business stagnation was on, work was not very readily obtained. The county coroner held an inquest and the facts as above stated were brought out. The deceased was about fifty-five years of age and leaves a wife and a daughter.—*Tribune*.
