THE WEEK ON **DIVIDEND WAS** DECLARED TODAY. THE EXCHANCE.

Over 200,000 Shares Sold for the The Daly-West Directors Post the Sum of \$45,000. Sum of \$131,537.

JUMP IN GRAND CENTRAL. MAY DAY HAS RICH ORE.

Ben Butler Higher Again Today Star Con. Stronger-May Day Advancing.

Business was fairly brisk on the mining exchange today. Some 33,760 shares changed hands for the sum of \$18,531.75. The sales for the week amounted to 206,078 shares , which brought \$131,537,61. Some declines are recorded but on the whole it may be said that market closes firm. Among the stocks which are lower at the close of the week is Ajax, which was active as low as 83% today after selling at 96 on Monday. The decline is attributed to delay in reaching the expected ore body on the 1,000 level. Anchor was in de-mand today around \$2,43, being a little weaker than on Monday. Ben Butler presents a very interesting spectacle, having advanced several hundred per cent in the past three weeks. On Moncent in the past three weeks. On Mon-day It was traded in at 6½, while it cannot be bought today under 11¼, at which price 2,000 shares changed hands today. Con Mercur is also stronger to-day, selling around \$3.13, while Grand Central opened at \$5.75 and immediate-ly jumped to \$6.05 on the rumor that a dividend will be paid this month. May Day opened the week around 38, and has since jumped to 44, at which price \$00 shares changed hands today. The stock weakened to 43 at the close of call. stock weakened to 43 at the close of call. Northern Light has been very active Northern Light has been very active during the week around 2%. Sacramento remains stationary at 28¹/₄. while Star Con., which sold at 79 on Monday. opened today at 83¹/₄ and jumped to 84¹/₅ on the report that ore had been en-countered on the 400 level. Joe Bowers has weakened to 15%, owing to the strong probability that an assessment will be levied to meet the judgment of \$15,500 recently affirmed against the company by the Supreme court. Silver King advanced to 573 bid on the news King advanced to \$73 bid on the news that the company will pay \$100,000 monthly during the present year. On-tario has been very active this week around \$7.25, while Silver Shield has slightly recovered from its set back to 24 earlier in the week Sunbeam was 24 carlier in the week. Sunbeam was weaker today as was Yankee Con. and Lower Mammoth. Daly West remains firm around \$30.30.

Closing quotations were posted as follows: Bid. Asked.

Affairs-Lower Mammoth Ship-

the regular monthly dividend of thirty cents per share, or \$45,000. This sum will be paid on the 15th inst, to stockholders of record on February 10th, at which time the books close. The payment of this sum makes a total of \$697,500 paid by the company since October, 1899.

On the 10th of the month the Silver King will pay its monthly dividend of product \$100,000 and the Silver Shield of Bingham will hand out \$1,500 while the Roc. co Homestake will pay its monthly dividend of \$4,500 on Tuesday next. It is also considered probable that the Grand Central will make a distribution of \$25,000 this month and it is possible co Homestake will pay its monthly of \$25,000 this month, and it is possible that the Mammoth will pay one, though it is not considered very probable be-fore March 1st. The dividends al-ready in sight for February amount to \$151,000,

MAY DAY STRIKE.

Some Higher Grade Ore Has Been Exposed in Two Places.

In relation to the recent advance in May Day stock the secretary of the company says that an improvement is company says that an improvement is recorded on the 100 level south. News of the change was telephoned in yester-day afternoon. Nothing is said as to the size or values of the ore only the fact that a nice body of richer ore had been opened up in the face of the drift and also in the winze from the 100 level. Some very fine lead-silver ore is report-ed to have been opened up in the winze. ed to have been opened up in the winze.

Jackling Furnace Ready for Business-Month's Cyanide Shipment.

As soon as the 40-horse power engine and boiler is installed at the Storam and the new Jackling furnace will be start. ed up," said Manager McConaughy to-day. The engine was shipped a few days ago and it is thought everything will be ready for the start by the 10th inst. Mr. McConaughy says the company has a nice balance in the treasury after the payment of all expenses. The

January output reached the local refin-ery this week in the shape of 450 pounds of cyanides, the returns from which afford a nice margin over expenses.

DESERET EVENING NEWS: SATURDAY, FEBRUARY 2. 1901.

Items from Bingham. In its review of Bingham camp for the past week the Builetin says: Shipments this week are averaging about 12 cars-550 tons-per day. Tuesday the Gem, above Last Chance, sent out a carload of promising ore. Arrivals at Dewey concentrator this week include 150 tons from the Ashland.

Dewey mill has just completed an-other run on Northern Light second-The Silver Shield will complete another 2-car shipment of first-class next Sunday.

At Last Chance and Nast mines development work is steadily progressing this winter.

Yesterday the commodious coal bins of the Copper Belt railroad at the depot were completed. They are handily aranged.

The Lucky Joe and Lucky Joe No. 1, by J. W. Pitts, and North Homestake, by W. J. and Fannie Lindsay, are among Bingham claims recently lonted The grade of the Copper Belt rail.

road having been completed from depot to Bingham C. & G. tram terminal, yesterday the last of the construction gangs broke camp and left for the val-The New England company, operat-

ing Nast group, will soon put in a hoist, etc., preparatory to deeper work, and we learn there is talk of a new concentrator for Muddy Gulch in the spring, to treat the Nast second-class

The new 8-drill compressor recently set up at the Bingham C. & G. mines had been run but two or three days line working, when the new compres-sor will take power from that source and the steam plant (4-drill) will be held as a relay in case of accident.

MINING NOTES.

Manager Ed Loose of the Grand Central was in town today.

Two cars of ore were on the market today from the Carisa of Tintic. The Taylor-Brunton sampler reported seven cars of ore from Tintic today.

The Grand Central of Tintle reached the market today with five more cars of ore.

The Grand Central will hereafter ship ts ores to the Bingham Copper and Gold company's new smelter. The Silver Summit of Tintic has just marketed a car of ore which is said to have assayed nearly 60 per cent lead.

The listing committee of the exchange were scheduled to meet this afternoon to consider the listing of several new stocks.

The car of ore from the Lily, of Tin-tic, was sold yesterday afternoon on controls showing 12 ounces silver and 44 per cent lead.

The last shipment from the Grand Guich copper mine was sold on controls showing 40.7 per cent copper and 6 ounces silver per ton.

Mr. L. C. Huck came up from the Annie Laurie last evening after witness-ing the starting up of the new mill. He expected to leave for Chicago this after-

BEN BUTLER STRIKE.

Reports of the New Find Are Not Exaggerated. per ton. A reporter of the Bingham Bulletin,

who visited the Ben Butler mine this drift week, says that he found reports from the late strike were not exaggerated. ines. After running over 1,000 feet the lower tunnet emerged from a long drive in 6.07% quartzite and cut through a vein to its shaly black lime hanging wall. Five feet of ore are exposed-two of first-

class and three that looks like a fine mill article. Some fifteen tons of the first-class were put on dump from the cut, and a shipment will be made next Tuesday. Assay of a sample shows 55.8 per cent lead, 12.6 ounces silver and about 60 cents gold. The ore also apparently carries iron largely in excess

4316 of silica In running the long tunnel three veins carrying low-grade tunnel min-eral were encountered and will ultimately be prospected. A surface ex-amination shows that the strike is in a blind vein. Superintendent McQueen says he knew it was there, but only explains that he "felt it." He said to the writer, a couple of week ago, "There is big ore ahead of me; happen around

in a few days and I'll show you some-261/2 84% thing good enough to eat." Strike in Star Con.

The management of the Star Con. has struck a body of good ore on the 400 Such was the report of a well level. known mining man today. The report could not be verified at headquarters. as Mr. Packard was out of town, but the ore is said to be similar to that on the 300, containing a nice percentage of copper.

Lower Mammoth Report.

The lower Mammoth closes the week with a shipment of five cars of silver ore and one car of copper ore at the sampler, which will be marketed next week. A car of sacked ore will also each the market early in the week. week from which good assays are expected. The winze from the 800 level is said o be disclosing some fine silver ore, and now that Judge Dickson is back, the directors will shortly get together and issue a report to the stockholders, show-ing the situation of the company's affairs.

Coeur d'Alene Copper.

The sale of what is reported to be the first shipment of copper from the Coeur d'Alent is told by the Wallace, Idaho, correspondent of the Spokane Review. The lot was from the Snow Storm and was shipped to Tacoma for storm and was shipped to Tacoma for treatment. It assayed 11.5 per cent copper and 15 ounces silver per ton and netted the company \$21.26 per ton. The property lies about four miles east of Mullan.

Julia S. Developments.

The Bingham Bulletin says J. B. Stephen's will soon perfect patent sur-vey on his Julia S. group of seven claims, and intends resuming developments in early spring, when the lower tunnel will be driven to main ore shoot. As a result of last summer's work tunnel is now in 300 feet, and approximate-

Manager Packard, of the Star Con-solidated, settled for the last two carg of ore on controls showing 54 ounces silver, 8 per cent lead and \$3.40 in gold

It transpires that in running the hrift from the 600 level of the Little Chief, the management went over its but it is now running a drift north within its own lines.

In a notice of the arrival of J. Bransford in Butte, Mont., the Inter-mountain reports him as saying the great Silver King mine could pay dividends "even if silver fell, to 30 cents.

About nine men are employed in the Dalton & Lark drain tunnel which is now in about 200 feet. Mr. Farns-worth says that this work will be continued whether a sale of the property is made or not.

An analysis of the anthracite coal being marketed from Messrs. Milner and Gilson's property near Price, shows 80 per cent fixed carbon, 8.5 volatile matter, 3.5 per cent moisture and 3 per cent ash.

The Shea engine which hauls the Mammoth ore output to the mill and to Robinson station, was badly wrecked in a runaway yesterday morning. As there is only one engine the accident doubtless interfere with the shipwill ments of this month.

Prof. Palmer, the well known mining expert, will leave for Park City tomor-row, where he will be engaged during the greater part of next week in mak-ing an examination of the Daly, presumably to make up a report for use at the annual meeting later in the month

Harry S. Knight, who was in charge of J. C. Griffith's cyanide sampling ooms, has gone to Chihuahua, Mexico, act as chemist and metalluration of p act as chemist and metallurgist at Clark's big property at that enator place, which is being managed by Frank L. Sieger. The property is a big sil-ver gold property, which was worked by Spaniards in early days.

A director of the Matha Washington said vesterday that as soon as the judg ment against the company for \$6,000 is settled work will be resumed. present assessment will furnish the \$1, 000 due from the company on the judg ment and leave nearly \$2,000 in the treasury. The judgment as is well known was secured on account of an accident at the mine.

Bingham Bulletin: The gravity tramway by which Bingham C. & G. ores are to be conveyed from mouth of tunnel to bins at upper terminal of the Copper Belt Railroad is 525 feet in It is ready for business, a trial run having proved it to be in perfect working order. The cars dump automatically, and apparently nothing can be suggested that would increase its utility and value as a labor-saver.

LONDON WOOL AUCTION.

London, Feb. 1.-The offerings at the wool auction sales today number 110,-171 bales. An average attendance brought out good competition and prac-tically all the offerings were sold. Good reasy was taken by American buyers. A large supply of scoureds sold freely to the continent. A few new cross-breds brought forward were actively taken by the home trade.

Business in Salt Lake throughout the

week has ranged as fair, the open weather rather deterring activity in certain lines. Collections are reported is hardly having been up to the standard of last month.

In local stocks there has been considerable activity and a number of transfers has been made. The concerns which attract most attention continue to be the various sugar factories. It is reported on good authority that the Oregon Sugar compa-ny, which is to build the new factory at Logan, will issue \$400,000 new stock. giving the present stockholders first option, and the people of Cache county

The Lehi and Ogden factories are now making contracts with farmers for the coming season. The operations of the first named will extend into Salt Lake. Utah, Wasatch, Sanpete and Sevier counties. An enormous acreage is looked for throughout the State, as all the fac for throughout the state, as an the rac-tories have advanced their prices for beets to the farmers. The new auxili-ary plant of the Utah Sugar company, which, as the "News" has already an-nounced, will be built near Provo, will cost about \$50,000. It will be connected with the pine line now running from with the pipe line now running from Springville to Lehi, and its erection

row evening, at 6:30, on Christianity and Mormonism.

February 1, 1901, Pretoria, beloved daughter of James N, and Mary Ann Ashman. The deceased was 1 year and 21 days old and her death was caused by spinal meningitis. Funeral Sunday at 1133 East Fourth South, at 12 noon. Friends invited

is not indicative of any strike happen-ing at those two camps in the immedipublic, especially to the friends of th ate future, ward. The State board of arbitration held a An entertainment of an unusual na-ure will be given at the Seventeent semi-official meeting with the strikers' committee yesterday afternoon during the course of which the men were urged ward meeting house next Wednesday evening. The program will open with a series of original contributions of a hu-

The strike situation has taken on an-

other phase to the extent that there

cems to be under the present law no

hope of the trouble being settled by

arbitration just as long as the men re-

use to resume work. The strikers have

ish and are seeking the aid of the labor unions in this State to assist them in making things as unpleasant as possi-

ble for the Pleasant Valley Coal com-

pany. Accordingly a boycott has been proclaimed upon the company, and, fur-ther, an effort will be made by the men

to induce the miners now working at

lastle Gate and Sunnyside to walk out

ecided to fight out the issue to a fin-

to return to work and the hope held that then the Pleasant Valley coal comdifferent places of the room where candy and other articles will be dis-pensed. There will be numerous other features of a very interesting charac-ter. Some of the artists who will take part are Phil Margetts, the guiltar and mandeding shub and Prof 1 f land. pany would agree to put the matter on an arbitration basis. This advice, was not taken kindly to by the committee, and one of their number, P. J. Rooney, was dispatched to Schofield to confer with the strikers in regard to any future action. In the meantime, late last evening,

the remaining members of the committee held a consultation with the representatives of the local trades' unions with the result that they promised to take up the matter. The meeting was held at the hall of the Federation of Labor and was a representative one to the extent that eleven trades were represented at the council. Before the meeting adjourned a resolution was unanimously expressing passed sympathy with the strikers and wishing them every success in the fight which they had undertaken. In addition to this resolution the meeting undertook to enter a sensational motion to the effect that a boycott be declared upon the coal of the Pleasant Valley oal company. All present pledged their unions to use no more coal coming from the mines of the company unti the trouble between the employers and employes had been amicably adjusted Later in the evening Messrs, Hoye and George, of the strikers' committee appeared before the Federation of Labor, and upon the solicitation of that body, set their case before those assembled. The outcome of this meeting was that it was decided to hold a mass Friday, Feb.8th

meeting of the trades in the hall on Monday evening at 8 o'clock, when the alleged wrongs of the miners would be ventilated and those fully would take action in the matter of assisting the miners by their influence. It is openly asserted today that every la-bor organization in the State will next week fall into line in this matter, and it is said that when the trades come out openly as being in active sympathy with the striking miners that the men at Castle Gate and Sunnyside will throw down their tools and walk out as a protest against the attitude of the company in regard to the strike.

The miners' committee is said to hold that the law in regard to arbitration which is in existence in this State does not answer the purpose for which it was designated, accordingly they will today draw up and frame a bill which will be presented to the Legislature for immediate action.
