

CHUCKED EACH OTHER UNDER CHIN

Did Judge Taft and Chairman Hitchcock While Chatting Over Campaign.

CABINET WAS NOT DISCUSSED.

No Decision Was Reached as to Arrangements for Inauguration Ceremonies.

Hot Springs, Va., Nov. 10.—President-elect Taft and his national chairman, Frank H. Hitchcock, had a long and pleasant chat today over the many phases of the last campaign.

"We chucked each other under the chin and enjoyed many things in the campaign that were decidedly serious before," said Judge Taft today. He added that Mr. Hitchcock had told him many interesting things that he had not known respecting the pre-election work, and Chairman Hitchcock said that he had the pleasure of informing Mr. Taft that the campaign had been conducted, so far as he was concerned, without the giving of a single promise or pledge which would bind Judge Taft as president, either in exchange for personal service in the campaign or for contributions to the cause.

The makeup of the cabinet was not discussed, was the statement of both participants to the conference. "As to the details of the inauguration ceremonies," said Mr. Taft, "I should be glad to put them on the shoulders of the national chairman to the utmost extent possible, and have told him as much. Just what the arrangements will be, no decision has been reached."

Both Judge Taft and Mr. Hitchcock admitted that they had gone over the campaign in detail. "I think Chairman Hitchcock has proved himself a wonder as a guesser," laughingly remarked Judge Taft. "He said I would get 225 electoral votes. Well, 222 came near enough to the figure to make his reputation exceedingly good."

"At the conclusion of the conference Judge Taft went home back riding. He returned, and after dinner called at the hotel in time to accompany Mr. Hitchcock to the railroad station.

BOILER EXPLODED.

Result Was Death of Five Persons and Injury of Many More.

North Bay, Ont., Nov. 10.—The steamer Temiskaming was approaching the landing at Temiskaming tonight when the boiler exploded, wrecking the steamer and causing the death of at least five persons. Several passengers and crew were hurled into the water and many are injured.

Details of the tragedy are lacking. A man named McBride, a shearer, from the United States, is missing, and there is little doubt of his fate. J. Menard and T. Bergouhan, firemen, and two men whose names are unknown, are dead. Six are badly burned and several may die. A special train was dispatched from Mattawa to bring the injured to that town.

SHEEPMAN FOUND DEAD.

Helena, Mont., Nov. 10.—Coroner Bennett tonight received word that Frank Berger, a sheepman, had shot himself at Canyon Ferry, and indications pointed to suicide. No particulars were given. Coroner Bennett will leave for the scene of the shooting early tomorrow morning.

MAHANEY'S SLAYER CAPTURED.

Helena, Nov. 10.—Elmer Hinton, the young man who killed Contractor Mahaney at Roundup during a quarrel over wages, has been captured in Ferguson county, according to a Record special from Lewistown. Hinton asserts that the killing of Mahaney with a necktie was an act of self-defense.

NEGRO LYNCHED.

Biloxi, Miss., Nov. 10.—A mob of white men stormed the city jail here this afternoon, took out Henry Lelley, a negro, charged with assault upon a white girl, and lynched him. The mob was orderly and finally dispersed, leaving the body hanging in a tree.

SUICIDE'S BODY FOUND.

Reno, Nov. 10.—With an empty bottle of carbolic acid by his side, the body of Ivan Ballard, a machinist, was found on a pile of ties about two miles east of Reno this morning by a trapper, who notified the authorities. That the man committed suicide was indicated

LOW VITALITY

A Dangerous Attendant Symptom of Anaemia.

Many Serious Disorders May Result from Impoverished Blood But Dr. Williams' Pink Pills Prevent and Cure Them.

Besides the thinning of the blood in anaemia there is a low vitality which is a matter for serious consideration because it gives opportunity for any latent trouble to develop. Thus, anaemic (bloodless) people often have reason to fear consumption, and the blood failing to give proper nourishment to the nerves, debility, neuralgia and even some form of paralysis may result.

Mrs. R. L. Harrod, of 413 South Ohio avenue, Muncie, Ind., recommends Dr. Williams' Pink Pills because they restored her to health when all other medicines failed. "Fifteen years ago," she says, "when I was living at Bellefontaine, Ohio, I was suffering with anaemia. I was pale and had a wax-like color and so short of breath that I couldn't go up stairs without stopping to rest or couldn't stand the least little exertion. I was run down and very thin, didn't feel like eating and didn't want to talk to or see any one. My heart would palpitate so that I would feel weak. I couldn't sleep well, coughed constantly and had pains under my shoulders. I was so miserable that I wanted to die."

The doctors told me that my blood was under and that I was going into a decline and asked me if there had been any consumption in my family. They didn't help me at all and I had read so much about Dr. Williams' Pink Pills that I decided to try a box of them. They helped me so much that I gave up all other medicine and pinned my faith to them alone. I took several boxes and in five weeks was completely restored to health. I became strong and healthy and was able to work again. I know that Dr. Williams' Pink Pills saved my life and I heartily recommend them."

A helpful booklet "Diseases of the Blood" giving more information about anaemia will be sent free upon request. If you are suffering from impoverished blood you cannot afford to wait another day before giving Dr. Williams' Pink Pills a thorough trial. They are for sale by all druggists, or will be sent postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by Dr. Williams Medicine Co., Schenectady, N. Y.

In a letter addressed to his mother, Mrs. I. M. Ballard, 687 Franklin street, Appleton, Wis.

BIG PHOSPHATE DEAL.

Columbia, Tenn., Nov. 10.—Probably the largest deal in the phosphate industry of America was closed here today with the organization of the Franco-American Consolidated Phosphate company with a capital of \$5,000,000 and the purchase by the company of 16,357 acres of phosphate lands in Tennessee. The company has been chartered under the laws of Arizona.

COLDS AND CROUP IN CHILDREN.

"My little girl is subject to colds," says Mrs. Wm. H. Series, of 1118 S. W. Wheeling, Va. "Last winter she had a severe cold and a terrible cough, but I cured her with Chamberlain's Cough Remedy without the aid of a doctor, and my little boy has been prevented many times from having the croup by the timely use of this syrup. As soon as he shows any signs of croup I give him Chamberlain's Cough Remedy for three or four days, which prevents the attack. This remedy is for sale by all druggists."

Made up Overcoats, Trousers, Suits—tailor made. Big saving. Daniels.

BUCKROO JACK.

Indian Sentenced to Hang Friday, Hopes for Commutation.

Reno, Nov. 10.—Sentenced to hang Friday, Buckroo Jack, an Indian, will try to have his sentence commuted to life imprisonment at a special meeting of the pardon board Thursday, on the ground that the Indian moral code and punishment for violation thereof is not in conformity with Nevada laws.

Acting under the Indian law, which makes infidelity punishable with death, he killed his wife for consorting with other Indians.

CHARGED WITH LARCENY.

Boston, Nov. 10.—Mrs. Margaret Dunphy, wife of a Chicago physician, today submitted to extradition proceedings and will start for Chicago tonight to answer a charge of larceny involving \$10,000 worth of jewels and stocks, the property of Charles E. Giles, a Boston money lender.

An arrest warrant was made today that Mrs. Dunphy's husband, Dr. John Dunphy, had brought a civil suit against Mr. Giles to recover \$25,000, alleging alienation of Mrs. Dunphy's affections.

SCHEDULE "A" OF DINGLEY TARIFF

Interests Affected by it. With Few Exceptions, Do Not Want Any Changes in Rates.

FEW REQUESTS FOR INCREASE

Hearings Are Preliminary to Taking Up Question at Extra Session Of Congress.

Washington, Nov. 10.—With a few exceptions the interests affected by schedule A of the Dingley tariff, which includes over a hundred articles under the heading of "chemicals, oils and paints," do not desire any changes in the rates of duty now operative. This was indicated today at the first hearing for consideration of revision of the tariff held before the house committee on ways and means.

The taking up of the question at the extra session of Congress. The chemical products, coal tar, products, chemicals, paints, oils, varnishes, medicinal preparations and extracts for dyeing or tanning were the principal articles on which the committee obtained information from those who appeared before it today.

There were few requests for increases in the present rates of duty. A strong advocate of lower tariff rates was Albert Plaut, who drafted the schedule for medicinal chemicals for the Wilson bill.

"The duties on medicinal chemicals," he said, "are mostly prohibitive, being in most cases 25 per cent, which is a prohibitive rate. The duties are practically the same as the tariff of 1883. What was good for the trade then is not good now."

In addition to recommending that medicinal chemicals now scheduled at 25 per cent ad valorem should be reduced to 15 per cent, Mr. Plaut said that certain articles of a similar nature should be taken off the free list, naming quinine as an example, and recommending for it a 15 per cent ad valorem rate.

N. D. Arnold, representing the Varnish Manufacturers' National association, declared that varnish manufacturers of the country are satisfied with present conditions. He said that Mr. Underwood of Alabama, Democratic member of the committee, Mr. Arnold admitted that his trade did not need any protection with regard to alcohol varnishes. He said that the availability of the denatured alcohol for varnish manufacture an ad valorem rate of 25 per cent for alcohol varnishes instead of the present rate of 25 per cent. He created much amusement by his frank statements with regard to the repeated assertion that surplus production is unloaded on foreign markets by American manufacturers at a loss price than is demanded in the home markets, declaring that this was not true.

John F. Queeny of St. Louis, and president of the Smet-Solvey company of Syracuse, N. Y., said that higher duties on coal tar products, the former requesting that a duty be imposed on salicin, now on the free list. Dr. Springer, representing a chemical firm of Cincinnati, asked that three one-half cents a pound be imposed on prussate of soda, instead of the ad valorem rate of 25 per cent, which now applies under paragraph three for chemical compounds. He said that the low price of this article abroad made it impossible to manufacture at a profit in this country. He asked for a 30 per cent ad valorem rate on tetrachloride of tin, but admitted that this would be a prohibitive rate of duty, which would permit him to increase his profits.

H. S. Wiedner of New York, representing zinc interests of New Jersey; Alfred M. Isaacs, who favored a reduction on low grades of glue, and Larry Mohun of this city, who suggested a duty of one-half cent per pound on cocoon oil, also addressed the committee. Charles E. Evans, said that a tanning chemist of Philadelphia; W. W. Skiddey, representing the manufacturers of extracts for dyeing and tanning, and E. H. Dyer, representing the Paint Manufacturers' association of the United States, advocated the retention of the duties imposed by the present law.

The committee held two sessions today and will resume tomorrow.

SHOE MEN INTERESTED.

New York, Nov. 11.—Citing that the recent issued call for hearings on tariff revision now going on at Washington does not mention shoes, interested in the National Shoe Manufacturers' association and importers of hides and leather have joined forces with the intention of demanding a hearing before the ways and means committee, of the house of representatives. These interests further assert that the removal of the duty on hides has been a live issue for a long time and that they are being discriminated against through the western meat packers. Several conferences have just been held here and in Boston with the result that a committee will be sent to Washington to appear before the committee. Members of the National Shoe Manufacturers' association have prepared data which will be furnished to the committee from which it will be argued should a hearing be granted, that the packers alone share the profit from a 15 per cent tariff on sole leather and hides, and that shoe manufacturers and retailers are compelled in consequence to pay a higher price for the finished product.

GUN WENT OFF.

Result Was the Serious Injury of Mrs. Wm. Ives and Son.

Butte, Mont., Nov. 10.—A special to the Miner from Glasgow says Mrs. William Ives and infant son were probably fatally injured Saturday afternoon near Glasgow, while accompanying Mr. Ives across Milk river to inspect some traps which had been set on the opposite side of the river.

In some manner a gun, which was loaded and lying in the bottom of the boat, was accidentally discharged, the bullet striking Mrs. Ives in the thigh, making an ugly wound, while one of the legs of the infant was almost entirely shattered, stripping the flesh to the bone.

PRESIDENT WOULD NOT RUN FOR SENATORSHIP

Washington, Nov. 10.—"President Roosevelt six months ago came to the decision that no combination of circumstances would cause him to become a candidate for election to the United States senate from New York state to succeed Thos. C. Platt," said National Committee man Ward of New York today, as he was leaving the White House. Asked if he thought Secy. Root would be the next senator from New York, Mr. Ward replied by asking, "Would Mr. Root be a candidate?" Questioned as to the probability of President Roosevelt being a candidate,

TEA

Good tea and tea are quite different; both grow on the same bush.

Your grocer returns your money if you don't like Schilling's Best; we pay him.

In 1911 to succeed Senator Chauncey M. Depew, Mr. Ward said the future would take care of itself. He remarked that Gov. Hughes in that year will have completed his term as governor of New York and with a record of a splendid administration in the state during the coming two years would make an admirable man for the place. "You believe in playing futures," said Mr. Ward, "that is a good card to play."

HOW TO CURE A COLD.

Be as careful as you can you will occasionally take cold, and when you do, get a medicine of known reliability, one that has an established reputation and that is certain to effect a quick cure. Such a medicine is Chamberlain's Cough Remedy. It has gained a world-wide reputation by its remarkable cures of this most common ailment, and can always be depended upon. It acts on nature's plan, relieves the lungs, aids expectoration, opens the secretions and aids nature in restoring the system to a healthy condition. During the many years in which it has been in general use we have yet to learn of a single case of cold or attack of the grip having resulted in pneumonia when this remedy was used, which shows conclusively that it is a certain preventive of that dangerous disease. Chamberlain's Cough Remedy contains no opium or other narcotic ingredients and is as condiment to a baby as to an adult. For sale by all druggists.

FATAL COLLISION.

Locomotive Strikes Automobile and Kills Four Persons.

Red Bluff, Cal., Nov. 10.—In a collision tonight between an automobile and a locomotive near this city four people were killed and one slightly injured.

THE DEAD.

George K. Willard, Mrs. G. K. Willard, Mrs. Olive Willard, Mrs. Imogen Willard, slightly injured.

The automobile carrying the Willard family and Mrs. Hayes was struck by the engine of a special train carrying General Scott. Young and several division superintendents of the Southern Pacific railroad on a tour of inspection. Mr. and Mrs. Willard and their daughter and Mrs. Hayes were thrown a distance of 200 feet and killed. Imogen Willard was thrown on the cowcatcher and was cut and bruised slightly.

The trainmen claim that the automobile carried no lights.

MAYOR JOHNSON REFUSED TO PRODUCE THE BOOKS

Cleveland, Nov. 10.—Mayor Johnson refused to produce the books of the Pay-as-you-enter-fare-box company when requested to do so today in the receivership hearing of the Municipal Traction company before Special Master Bedford of the federal court.

Then attorneys for the Central Trust company of New York, which is pressing the receivership proceedings, threatened to have the mayor cited for contempt. Mayor Johnson admitted that he and President Dupont of the traction company owned all the stock in the fare-box company. The municipal company had met all the expenses of the fare-box experiments, he said, and would have stood the loss if the fare-box company had been a failure. But, if it proved a success Johnson and Dupont were to get the profits, not the municipal company.

Folger's Golden Gate Coffee

Always uniform—our best product—sold in 1 lb., 2 lb., 2½ lb. and 5 lb. cans. Your grocer will grind it—better if ground at home—not too fine.
