# UTAH MAN TALKS TO THE ORCHARD

Prof. John Henry Evans Returns  
From a Special Trip to  
Boise.

## TELLS OF HIS IMPRESSIONS.

Went There to Gather Material for a  
Series of Articles for Publication  
in the Improvement Era.

Prof. John Henry Evans returned this morning from a trip to Boise, Idaho, whither he went Sunday last, partly on private business, partly to obtain information from the inmates of the Idaho penitentiary, which he intends using in a series of articles to be published in the Improvement Era during the coming year on the value of early reading and its relation to subsequent conduct.

"I have had a very pleasant trip," said the professor to the "News" this morning. "I received the most cordial and kindly treatment at the hands of all those in the Idaho capital with whom I came in contact. The sight of Boise valley comes as an unexpressed pleasure after riding in the hot sun over the dreary and monotonous stretch of country lying between that place and Pocatello. The climate there, as everybody knows, is delightful, though this spring there are elsewhere, has been cold and unfavorable.

"During the three days I remained there the city was in holiday attire. For these three days—the 3rd, 4th and 5th—there was a grand celebration of the national birthday, for which about \$7,000 had been collected.

"Of course, my principal concern at Boise was the Idaho penitentiary, and a famous trial now being conducted there. No one would suspect from the appearance of that peaceful city that there was going on in the place so close to the heart of the Idaho country is riveted. I attended the trial on Wednesday, both in the forenoon and the afternoon. Notwithstanding the fact that the trial was being conducted in the busy life of the city generally, crowds every day find time to attend the court proceedings. It is noticeable, however, that the nature of the case, that only an occasional woman is seen in the crowd. I was greatly impressed with the dignity of the trial. There is no doubt judging by the very wide latitude allowed both the state and the defense by the court, and the fairness with which the trial is conducted, that absolute justice will be done. All concerned, and the truth be brought out, whoever may be implicated. The general impression that obtains up there seems to be that the case of the defendant would have been stronger had the defense rested with the cross-examination of Orchard. Most probably, however, the defense, hoping to break down the testimony of the witness, introduced a testimony at all. But failing in this, they placed on the stand a host of witnesses.

**INTERVIEW WITH ORCHARD.**  
"Naturally, however, the most interesting thing for me was my interview with Harry Orchard. The prisoner is being guarded so carefully that I appeared small prospects at first of my obtaining the interview on which I had calculated, but through the influence of Mr. Hinkins, the leading counsel for the state, and the Rev. Dean Hinkins, of the Episcopal church, I was able to get in. Orchard and I were together for some time, and the prisoner might be again put on the witness stand and so was kept closely confined, and no one permitted to see him for fear he might get nervous and agitated. But any one at all acquainted with the man would make such a statement; for it would appear that the last person to become in the least friendly.

"Harry Orchard is a short man, rather stout. While one could easily recognize him from the pictures that appear in the public prints, still, he would be much better looking than the photographs, with pleasant features. Dean Hinkins assured me that Orchard has been one of the most loyal of workers for his wife, and one of the sweetest of children, who resembles the father.

**PLEASANT AND AGREEABLE.**  
"Orchard is really a very pleasant and agreeable man to talk with, easy and courteous in his bearing and free of speech. His most striking characteristic, however, is his amazing coolness, and his cheerful and pleasant manner was told by those who were at the trial when he was on the stand that he always carefully discriminated between his private and public life, and that the different ideas in the long, sharp, and rapid questions of Mr. Richardson in that arduous and extraordinary cross-examination he underwent a few days ago. And I can easily believe that what I observed of him in our conversation. He really has an extraordinary mentality."

"Mr. Hinkins was asked for the substance of the conversation, but declined to say anything of it further than that it pertained to Orchard's early life, his home and religious training, the reading he did, and his relations between all this and his subsequent career.

"What about his purported conversion?" was next asked.

**ORCHARD'S CONVERSION.**  
"Well," was the reply, "without venturing an opinion as to the merits of the story he has told the world regarding his conversion, I can say that it appears to me sincerely and genuinely changed. He has no objection at all about talking of his past, providing only it is not merely to gratify some curiosity; that is, in providing that some good might come of it. In fact, this consideration was the appeal which succeeded in obtaining an interview, so that, at least, Orchard himself was concerned. Whatever else this man is, or has been, he is neither a hypocrite nor a coward. No one can talk with him for any length of time without feeling that he is getting a part. Dean Hinkins unquestionably the only person thereabouts who is intimately acquainted with his internal life, is thoroughly conversant with his conversion, and the trial will doubtless be prolonged considerably beyond next week. After this present batch of minor witnesses, Orchard's story will be put on the witness stand, and will be followed most probably by Orchard again, not to speak of arguments for motions by the state and the defense, and the final plea."

**BEST MEDICINE IN THE WORLD FOR COLIC AND DIARRHOEA.**  
"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Chasler of Skidaw, Ala. "I am subject to colic and diarrhoea, and I have found that though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have been troubled with it since I was a child, and I have a very severe attack of it now. I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy, and it has cured me of a new man." For sale by all druggists.

"The trial will doubtless be prolonged considerably beyond next week. After this present batch of minor witnesses, Orchard's story will be put on the witness stand, and will be followed most probably by Orchard again, not to speak of arguments for motions by the state and the defense, and the final plea."

# EACH RESORT CLAIMS RECORD

Thousands Spend the Day at the  
Four Big Amusement  
Places.

## PEOPLE TURN OUT EN MASSE.

Wandamere, Saltair, Lagoon and Salt  
Palace Entertain Huge Crowds of  
Pleasure Seekers All Day.

Nearly half of Salt Lake's population spent the Fourth at the four big resorts—Wandamere, Saltair, Lagoon and the Salt Palace, while Liberty park and the canyons claimed a goodly portion of the remainder. Such a turnout of pleasure seekers has seldom if ever been witnessed in this city, and according to estimates made by managers of the various places of amusement, the day was an all around recordbreaker.

In the forenoon, the sun seemed to be trying to make up time for his disappearance from public view during May and June, while in the afternoon of the day, though the atmosphere was excessively humid and oppressive, it was no wonder that the multitude sought the benign shade of canyon and water, and the refreshing air of the saline waters.

**10,000 AT WANDAMERE.**  
Ten thousand persons were in attendance at the amusement place. Many of those who visited the lakelet to the south of the city were Salt Lakers, though many came from various other towns in the county. From early morning till late afternoon the grounds were thronged, and if anybody failed to have an enjoyable time, that fact was not apparent. In addition to the usual attractions of the place, there were horse races in the afternoon, and a grand display of fireworks in the evening. The pyrotechnics were set ablaze from the top of the chutes and the effects were most pleasing to the spectators.

**SALT AIR RECORD.**  
Perhaps never before in one day has Saltair been visited by so many people as yesterday. The afternoon train during the afternoon was loaded to the gunwales, and even before noon hundreds were already there. Many could scarcely find standing room, to say nothing of not being able to secure seats. The water was at a delightful temperature, and the number that were in bathing denoted the pleasure of the day.

The Twenty-ninth infantry band from Fort Douglas was in attendance and rendered a choice program, which was warmly appreciated. Not an accident of the outing of the grocers and the defense rested with the cross-examination of Orchard. Most probably, however, the defense, hoping to break down the testimony of the witness, introduced a testimony at all. But failing in this, they placed on the stand a host of witnesses.

**LAGOON THROGGED.**  
Lagoon had more patrons yesterday than any other day, and that means that the day's business was very good. The water was at a delightful temperature, and the number that were in bathing denoted the pleasure of the day.

**AT SALT PALACE.**  
The Salt Palace management, too, claims that yesterday's attendance was a record. This was particularly true at the bicycle races last night, which were witnessed by 8,000 persons. The program rendered in the afternoon by the Salt Lakers, the display of fireworks at night was about the only special feature, and that was an event that added much to the pleasure of a well spent day. The people in charge of the various concessions were as busy as bees from early morning till late at night, serving the demands of their patrons. A game of baseball between the Salt Lakers and the team won by the latter, the score being 5 to 4. So crowded were the home-coming trains and so inadequate the street car service that many people did not get home until well toward morning.

## BUY BECK'S HOT SPRINGS.

Fred Wey and James Breen Will Turn  
Property Into Health Resort.

Fred Wey, proprietor of the Wilson hotel, and James A. Breen of Butte, have secured control of the Beck's Hot Springs property, where they propose to expend a large sum of money in converting it into a health resort. The deal was concluded last evening, with the Zion's Savings Bank & Trust company, the consideration agreed upon being \$60,000, contingent upon a correct title being furnished in 20 days. Mr. Breen is now the owner of the Broadwater Springs and hotel at Helena, and the Grogan Springs and hotel at Butte.

The purchase includes 100 acres which, it is proposed to lay out in parks, and fine hotel and sanitarium surroundings, including also bath-houses and other necessary buildings. The hot houses will be built on the shores of the lake, where rights have been secured. As there is fine fishing and shooting in that vicinity, it is believed that this valuable property which has been lying idle for so many years will at last be utilized and put into attractive shape. It is proposed also to have the street railway extend from Warm Springs to Beck's.
