[SPECIAL TO THE DESERET NEWS.]

By Telegraph.

Per WESTERN UNION Telegraph Line.

NEW YORK.

Severe fighting expected soon—Turkish fleet ordered to the Red Sea—Women's peace Congress—Prince Frederick Charles' communication said to be cut off—Election matters.

NEW YORK, 23.—The special correspondent of the *Tribune*, at Versailles, under date of the 10th, says that the feeling among the highest officers of the besieging army is that Paris will hold out well into January. Careful preparations are being made for such a contingency, and various corps in the provinces are moving, so as to shut out if possible, all hope of rescue. General Trochu is expected to give the Prussians some more desperate fighting about Christmas time.

The Vienna *Presse* states that the Berlin account of the Austrian note on the Luxembourg question is premature. Austria has as yet only addressed England and Holland, and from Holland the answer has been received.

The special correspondent of the *Tribune*, at Vienna, says the reported movements of Prince Frederick Charles are partially contradicted by official correspondence, which says it would be advisable to give the information we have received from Roumania no greater significance than properly attaches to it.

A telegram to the *Press* states, that the Czar has addressed an autograph letter to the Sultan.

A large part of the Turkish fleet, under Hobart Pacha, has been ordered to the Red Sea to suppress the Egyptian intrigues with Arabian revolutionists. From other sources the reported understanding between Russia and Turkey is denied.

A meeting of women was held this morning, by the members of the Union League, for the purpose of arranging the preliminaries for a world's peace congress of women. Owing to the severity of the weather the attendance was slim. Among the more prominent present, were Lucretia Watt, Julia Ward Howe, Mrs. Blake, Prof. Wilcox, Cora Hatch Topper, and Rev. O. B. Frothingham. Mrs. Julia Ward Howe presided. She presented an address, to be adopted as an expression of the meeting. The address embodied the idea that universal peace was necessary to the world's progress, and as the men of the world were occupied in making wars, women should undertake to bring it about. Letters were read from Bishop Simpson, Amasa Walker, John Stuart Mill, Madam Gasparin and others. Addresses were made by Rev. O. B. Frothingham and others; after which the meeting adjourned until this evening.

A private London dipatch says the French claim to have severed Prince Frederick Charles' communication, and to have captured 2,000 prisoners as the Germans were leaving Tours. They also report that the army of the Loire has made a successful union, and is now 130,000 strong, and ready for the offensive.

The steamer *Arizona* has sailed for Hong Kong, *via* Suez canal.

The *Tribune's* Atlanta special, last night, says a heavy Democratic vote was polled throughout the State to-day, but not large enough, I think, to overcome the Republican of the two previous days.

MISSOURI.

Found guilty of murder.

ST. LOUIS, 23.—Armstrong and Jolly, the murders of the Lepine family, near Potosie, Mo., were yesterday found guilty and sentenced to be hanged on the 27th of January.

WASHINGTON.

WASHINGTON.—A letter of the Senator-elect Vance, of North Carolina, published here t -day, in reply to certain accusations against him, excites much comment. He declares he acquiesces in, and will maintain, all legitimate results of the war; and that he earnestly desires the unity and perpetuity of the whole country, its prosperity and honor.

All the members of the Cabinet were present at the meeting to-day, excepting Secretary Robeson and Attorney General Akerman. Unless something of importance transpires, there will not be another meeting of the Cabinet till the 3rd of January.

The President, to-day, signed Schenck's commission as Minister to England.

F. O. Boyd, of New York, representing numerous western distilleries, had an interview with the Secretary of the Treasury and acting Commissioner of Internal Revenue and others. The object being to procure the passage of a law allowing the transportation of spirits in bond from the West to the Era board. The Secretary said there would be no unnecessary obstacles placed in the way of the exportation of surplus products, but the department would not sanction any bill unless properly guarded to prevent fraud. The subject, after the holidays, will be brought before the commissioner of ways and means.

ILLINOIS.

Application for the Utah Governorship.

CHICAGO, 23.—The *Tribune's* Washington special says, General Thomas Osborn, of Chicago, is being strongly urged by General Butler for Governor of Utah; and that General Brayman, of Springfield, is in Washington, looking after the same appointment. But it don't appear that the President is disposed to make any change unless Cullom will accept.

MASSACHUSSETTS.

Fire—Fatal explosion.

SPRINGFIELD.—The Warp mill of the Renfrew Manufacturing Co., was destroyed by fire this evening; loss fifty thousand.

Fifteen hundred pounds of nitroglycerine exploded at the Hoosac tunnel to-day; John Veisar, the superintendent was blown to atoms.

CALIFORNIA.

A big blast—Narrow gauge Railroad.

SAN FRANCISCO.—A blast containing 62,500 pounds of powder will be fired in the Blue Gravel Gold Mine, Suckers Flat, California, next week.

The certificate of incorporation of the Los Angeles, San Bernardino and Central Arizona narrow gauge Railroad has been filed in Sacramento. The intention of the corporators, at the head of whom is Gen. Phineas Banning, is to construct the road as early as possible.

CONNECTICUT.

Fatal accident.

Hartford.—The Rev. Collins Stone, principal of the American Asylum for deaf and dumb, was killed by the cars, to-day, while attempting to cross the track in a carriage.

GEORGIA.

Election matters.

SAVANNAH.—Seven districts are heard from, the Democrats elect five Congressmen and the Republicans two.

LOUISIANA.

NEW ORLEANS.—The *Picayune* says the news of Blanchard's rejection as Postmaster has created great excitement here among Republicans, and great indignation was expressed, in certain quarters, against Senators Sawyer and Kellogg. It is authentically announced that a resolution will be introduced at the next meeting of the Legislature demanding their resignation.

FOREIGN NEWS.

CANADA.

QUEBEC, 23.—The great tidal wave predicted for to-day, creating so much alarm and anxiety, failed to appear anywhere along the coast.

MONTREAL, 23.—It is reported that Sir John Rose is *en route* for Canada, entrusted with a mission from the British Government regarding the fisheries question. After consulting with the Dominion government, he will proceed to Washington with a view to conciliate and compromise.

The people are coming forth again, now that the day has passed without the earthquake or tidal wave in the gulf. Dr. Vallwood has been taking observations all day, but there are no signs of electric or other disturbances.

MONTREAL.—Messrs. Allens, proprietors of the Montreal Ocean Steamship, Co. contemplate establishing a steam-fleet between Philadelphia and Liverpool.

FRANCE.

Fighting around Paris.

BORDEAUX, 23.—A dispatch from Tours, dated the 22nd, signed by the Mayor, informs the department of the Interior that no more Prussians have entered the department of Eudre et Loire. Gambetta was received at Lyons with the warmest acclamations and a universal request that the fullest measures of justice be accorded to the wretches who have disturbed the order of the city. Several persons were arrested for complicity in the assassination of M. Foue.

Advices from Paris, on the night of the 21st, bring an official report of the recent military operations. It says that operations were resumed to-day and only ceased at night fall. On the night Generals Mairo and Bloiza occupied Neuilly-sur-Marne, Villa Euvard and Maison Blanche, all to the East of Paris. The fire of the enemy was silenced on all points. It also stated that, after a short combat, in which General Favre was wounded, troops from St. Dennis, under Admiral La Roncere carried Bourget, north of Paris, but were unable to hold the place and retreated, having captured a hundred prisoners. The forces of General Ducrot were also engaged south of the city, in a violent artillery action against Mount Ablon and Blanc Maisson. Ducrot occupied Drosby and Drangy. General Nore made a feint on the side of Mount Valerien, west of Paris.

AUSTRIA.

VIENNA, 21.—A rumor is propogated by the Austrian newspapers that the Roumanian Bund intends declaring the Danubian Duchies independent.

GREAT BRITAIN.

A Turkish expedition against the Arabs.

LONDON, 22.—Von Glotz surprised the French at Laugres, driving them with heavy losses in prisoners, arms and baggage. On Tuesday, at Paris, the fire was active but ineffective. A sortie on the guard and 12th corps caused several hours fighting. The loss of the Prussians is small.

The *Times* says the Americans are ready to fight, although appreciating the value of peace, because their exposed points are few and their resources unbounded. While not seeking war, they are not likely to decline a challenge, while England is always averse for converse reasons.

Antwerp is so overstocked with importations, that the authorities notify their inability to shelter them. The wharves and docks are covered with merchandize suffering from exposure.

A Turkish expedition, numbering 15,000, against the Arabs, has already gone. Reinforcements will follow.

The weather was cloudy in the South of England, and the eclipse of the sun was seen imperfectly. It was well observed in the North at Wick.

A Prussian column is observed approaching Pouizicout and Rheims, its supposed destination being Laon, Lefeveres and Chauncy, to attack the army of the north.

FRANCE.

Blois Confused and Crowded.

BLOIS, 19.—The city is crowded and has not been so much excited since the memorable general assembly of states, held previous to the formation of the new league. The troops are all armed. There are innumerable teams for supply trains and ambulance wagons and thousands of stragglers jumbled together in an inextricable mass. Intermittent fighting continues, without any concentrated force, since the capture of Orleans.

ITALY.

FLORENCE, 21.—The bill ratifying the Roman plebiscite was passed by the Deputies, by 239 to 29. New Year's day is fixed for Acsta's entry into Madrid.

WEST INDIES.

HAVANA, 23.—Three steamers have arrived with two hundred and fifty troops from Spain.

THE DANFORTH
NON-EXPLOSIVE
PETROLEUM FLUID!
—OR—
THE terrible and fatal disasters, which are almost daily occurring by the careless use and explosions of kerosene oil, should call the serious attention of using it to its deadly qualities and induce them to procure a substitute for it.
Thousands have perished by using kerosene oil, and thousands more will be offered a sacrifice to its death-dealing properties without its use is discontinued or its destructive element done away. If a fluid capable of a far more brilliant light,
Cheaper, More Cleanly and Perfectly Free from the Danger of Explosion
can be found, is it not perfectly suicidal to delay for a single day to use it? Such a fluid, by years of patient experiment and the expenditure of over fifty thousand dollars, has been provided by R. F. DANFORTH, of Cleveland, Ohio, and it has been introduced to the public with great success.
For the Danforth Non-Explosive Petroleum Fluid it is claimed:
1st. That it is Non-Explosive and perfectly safe in whatever form used.
2d. That it is entirely free from filth and grease, and will not stain silks or fabrics of the most delicate colors or tints.
3d. That it is entirely free from all disagreeable odor.
4th. That it gives a purer, more brilliant and at the same time a softer light than any oil or fluid in use, and is fully equal to gas light.
5th. That it is (except daylight) the cheapest light ever discovered.
Surely, if the fluid is as above represented, kerosene oil should be discarded in every family where it is used, and the Danforth Fluid used in its stead. Not to use it would be trifling with the lives and property of every member of the family.
The FLUID 75c. per gal.
The Fluid, Burners, Chimneys, etc., in large or small quantities, can be procured of
