HOW TO BREAK UP A COLD.

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. To do this, however, prompt action is necessary. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the rose, and a thin, white conting on the tongue. When Chambertain's cough remedy is taken every hour on the first appearance of these symptoms, It counteracts the effect of the cold and restores the system to a healthy condition within a day or two.
