

## BREVITIES.

English vessels last on an average eighty years.  
Chicago distilleries use 7,000 bushels of grain daily.

Prosperity makes friends, and adversity tries them.  
Galveston "gentlemen" march into church covered and puffing cigars.

The Stanton memorial fund foots up \$147,000.  
Virginia oysters are sent to England packed in mud, that they may reach there alive.

No man can be provident of his time who is not prudent in the choice of his company.

A St. Louis man hung himself because his third wife wanted him to buy her son a new coat.

"How does your new horse answer?"  
"I really don't know, for I have never asked him a question."

The Lancaster Intelligencer threatens to build a railroad in opposition to the Pennsylvania Central.

A religious association of Boston has dissolved because, though the poor heard the gospel gladly, they didn't feel like paying for it.

A Sacramento paper announces a ball in which "no gentlemen are admitted," and adds, "we have received a complimentary ticket."

Nine families have contributed three members each to the English House of Commons, and in the same body there are twenty-one pairs of brothers, and seven pairs of fathers and sons.

A jury in a Justice's Court at San Rafael, California, recently brought in a verdict "that they had agreed to disagree." They paid \$20 for this little joke.

Paris annually sends twenty-five thousand children into the country, to the charge of nurses. Of this number about eleven thousand die the first year from insufficient care.

An Irish girl, who plumed herself on being employed in a genteel family, was asked the definition of the term. "Where they have two or more kinds of wine and the gentleman swears," was the reply.

The moneyed value of the coal raised in England is twenty-one million pounds sterling. To win this amount from the earth requires twenty-five hundred colliers, and gives employment to three hundred thousand persons.

An excellent old deacon who, having won a fine turkey at a charity raffle, didn't like to tell his severe orthodox wife how he came by it, quietly remarked, as he handed her the fowl, that the "shakers" gave it to him.

"Imaginashun too much indulged in," says Josh Billings, "soon is tortured into reality. This is one way good boys thieves are made; a man learns to imagine all day, and imagines the boss belongs to him, and sure enough, the first dark night the boss does."

After having bragged so loudly of its magnificent new hearse, Nashville, Tenn., complains that it was never so beautiful than now; that there are soepidemics, and scarcely any sickness worthy of note, prevailing in any part of the surrounding country. Consequently, the large investment in the hearse is nearly a dead loss.

A Yankee one day asked his lawyer how an heiress might be carried off.  
"You cannot do it with safety," said the counselor; "but I'll tell you what you may do. Let her mount a horse and hold a bride-veil; do you then mount behind her, and you are safe, for she runs away with you." The next day the lawyer found that it was his own daughter who had run away with his client.

Recorder Hackett, of New York, is a keen sportsman and an excellent shot with a gun or pistol. He can knock the ashes off any man's cigar at thirty paces, who has courage enough to hold it in his mouth when the recorder fires. Very confidential friends have allowed him to shoot a dime from between their fingers; and young Bennett, of the Herald, has let him shoot an apple on the top of his head.

Ceronchi, the Italian banker, expelled from France for contributing to the fund of the Irreconcilables, on the morning of his departure, wrote to the Home Minister that he was leaving France as ordered, but that he had a little dog incapable of bearing long and sudden journeys to new climates, and begged the minister to give "Foto" the benefit of naturalization extended to French dogs, by placing him in the Jardin d'Acclimation.

The Chinese are said to be remarkably successful agriculturists. Whereas many of the older farms in California have become almost completely exhausted and unproductive, the Chinese residents make the most fertile fields and gardens anywhere, even on the most arid patches of sandy shore. They have books giving full and minute directions regarding every branch of agriculture, and these are followed by successive generations without material change.

An exchange says:  
A proposed new church at Newark, N. J., is to have "twenty-nine square compartments or stage boxes for families, each capable of holding twelve chairs, with tables in the center for hats and books. The aristocratic worshippers can thus perform their devotions apart from the common throng. There can be devised but one great improvement upon this cozy arrangement; and that is for Pullman to have his inventive genius into the enterprise and invent a sleeping car, with clean linen and attentive darkies to wake up the worshiper when the doxology is reached."

## By Telegraph.

### CONGRESSIONAL.

SENATE.  
Concurred in—Amendments to F. O. Appropriation bill rejected.

Howard introduced a joint resolution prohibiting applications for the alteration of railroad charters by companies who have received land grants, unless the reasons therefor are specifically set forth.

Drake introduced a joint resolution, extending the operations of the internal revenue law to foreign telegraph companies, having offices in the United States; referred.

Sherman reported with amendments, the House tax and tariff bills, with amendments.

The House bill authorizing the settlement of the accounts of officers of the army and navy was concurred in. The Post Office appropriation bill came up.

Sumner's amendment for penny postage was rejected 19 to 23, and Nye's for a two-cent postage 23 to 28, and for allowing all newspapers to go free to bona fide subscribers in the United States 23 to 25; also Drake's allowing five hundred dollars to each member of the Senate and House for postage. The latter was rejected without division. The abolition of the franking privilege will not take effect till October.

HOUSE.  
Bill for the admission of British North American States, etc.

In the evening session bills were introduced authorizing the President to open negotiations with the British North American provinces for their admission as States of the Union; also for the annexation of Dominica, providing the public buildings and fortifications, to be incorporated as a State in the Union, the United States to pay \$1,152,000 in gold to liquidate the debt of Dominica. Also a supplementary act for the relief of the widows and orphans of the crew of the *Onesida*. A resolution was offered instructing the ways and means committee to report a bill reducing the duties on potatoes and all kinds of fish fifty per cent, which the House refused to take, 65 to 55, and referred to the committee on ways and means.

The House considered and passed the fortification bill, appropriating \$1,265,750.

The army bill, appropriating \$29,977,367 was passed.

Cullom reported a bill to authorize the people of New Mexico to form a Constitution and State government and for the admission of such State as the State of Lincoln; recommended.

Cox, from the committee on banking, reported a bill requiring the national banks going into liquidation, to release their circulating notes; passed.

Maynard asked leave to offer a resolution declaring the full concurrence of the House to the statements made in the President's Cuban message. Filibustering commenced and the resolution was withdrawn.

ILLINOIS.  
Terribly hot weather—Applicants for the Utah Secretaryship—Business in Congressional committee—Probable duration of the session of Congress.

SPRINGFIELD.—The past two days have been terribly hot, the thermometer standing at 96 to 98 in the shade. Rain is much needed in this section, but the crops are not suffering materially.

CHICAGO.—The Tribune's Washington special says that among the applicants for the Secretaryship of Utah is General B. F. Shaw, of Dixon, Ill. Another man put in his application in less than an hour after Col. Crowe's death.

It is announced that the Senate Judiciary committee has agreed to report in favor of Ackerman's confirmation.

There is a prospect of a warm debate over Whittemore's case though many members want to proceed at once to vote.

The Sandomingo committee cannot report to the Senate before Wednesday, and perhaps not before Thursday, as the evidence is not yet all printed, and the consideration of the treaty also goes over for two or three days more. The majority report will be very severe on the Consul agent, Perry, who was the principal witness against Babcock, and whom they mean to extinguish by trying to show that he is a thief and perjurer.

The Senate, to-day, confidentially received a large package of papers from the President, covering the correspondence and orders from the Executive to our naval commander and others, relative to the treaty negotiations.

The franking bill lies over unfinished. Very few Senators really want to press it, but the chances are that it will go through in some form to-morrow. As it now stands it abolishes the use of frank on the first of next October, except that newspapers are to get their exchanges free, and country newspapers are to circulate free in the county where they are published. There are strong objections to adding matter to the Post Office appropriation bill, but it will probably be done.

The Times' special says that some of the chairmen of committees express the opinion that the session of Congress will have to be extended beyond the fifteenth of July in order to get through the absolutely necessary business.

NEW YORK.  
The Quarantine Difficulty—Society for preventing cruelty to Animals—Terrible Heat Storm—Drowned.

NEW YORK.—A meeting of merchants was held yesterday to take united

action with a view to have the quarantine trouble adjusted by resort to law, if necessary. The matter will first be presented to the quarantine commissioners, on appeal from the decision of the health officer. That official claims that he is justified in pursuing the course which he has followed, and holds that he is acting for the best interests of the whole community.

Henry Bergh has received an official notice that the Rhode Island legislature has incorporated an institution similar to the New York Society for the prevention of cruelty to animals; also that similar societies have been organized in Quebec.

TROY.—A tremendous hail-storm here has done great damage to the fruit. It is also reported at Albany, Binghamton and Poughkeepsie.

J. H. Rowley, of Elmira, a miller, and Melville Barton, were drowned by being run down in a boat by a propeller, at Milton to-day.

BUFFALO.—General Starr and Col. Smith have gone to Washington to answer the charge pending in the U. S. Circuit Court concerning the Fenian raid.

NEW YORK.—One hundred and fifty Chinese arrived in the Boston train to-day, and sixty more are expected to reach here on the Norwich boat. It is said that they have been unable to procure employment, and that some of them have come from North Adams, Mass., where they had been taken to make shoe soles.

MISSOURI.  
Removal of Headquarters—Arrested—A Brute Caught.

ST. LOUIS.—The headquarters of this military department will be moved to Fort Leavenworth about the 30th.

Joseph Tracy, the engineer of the train, who caused the collision at Eureka, on the Missouri Pacific Railroad, a few weeks ago, was arrested to-day.

A brute, named Peter Trumbler, was caught last night attempting to outrage a little girl ten years old.

MASSACHUSETTS.  
Hail and Thunder Storm.

BOSTON.—A hailstorm, extending through the western part of Massachusetts, this morning, did great damage to the crops.

During a heavy thunder-storm many buildings were struck, but there was no loss of life.

NEW HAMPSHIRE.  
Fires.

CONCORD, N. H.—Winston and Mitchell's tannery, at Northampton, has been burned; loss, \$25,000, partially insured.

BINGHAMTON.—A fire, on Sunday, destroyed the stocks of Hallett Brothers, Parker and Webster and G. T. Barnes & Co.; loss heavy; insurance \$40,000.

WASHINGTON.  
Exclusive Privilege Renounced.

In the evening session of the Senate Sumner presented a copy of a correspondence from the State Department, as a renunciation by the French Cable Company of the exclusive privilege of landing cables on the coast of France; ordered printed.

CALIFORNIA.  
\$5,000 Reward—A Savage Gone East.

SAN FRANCISCO.—The Board of Supervisors has authorized the Mayor to offer a reward of \$5,000 for the apprehension of the parties who tampered with the ballots in the First Ward, in the recent election.

The railroad company declines to avail itself of the fraud.

Savage, chief of the Fenian brotherhood, left for New York to-day.

MARYLAND.  
Funeral of Bonaparte.

BALTIMORE.—The funeral of Jerome Napoleon Bonaparte, yesterday, was quite private. Among the pall-bearers were Reverdy Johnson, Hon. Thomas Swann, John A. Dix and Commodore Purviana.

IOWA.  
Shooting scrape.

COUNCIL BLUFFS.—Charles Austin and a man named Bell, both printers, employed at the Times office, got into a dispute yesterday, when Bell shot Austin, it is thought, fatally.

FOREIGN NEWS.

SPAIN.  
Sub-marine Telegraph, etc.

MADRID.—In the Cortes Romero submitted a project for a sub-marine telegraph to the Balearic Islands.

The Imperial insists that the Peninsula, under the house of Braganza, is the aim of the revolutionary party.

CREAT BRITAIN.  
Good Advice to Churchmen—Disraeli answering his Reviewers.

LONDON.—The Archbishop of Canterbury has addressed a letter to the Bishop of Bristol, discouraging any counter movement in the Church of England to the Ecumenical Council, and advising abstention from any such action by all who are dignified, wise and sober. He considers that the English Church formalities will suffer by any response to the proceedings of the Roman Council.

Disraeli, in a second edition of his letter, replies sharply to criticisms made on that work in *Blackwood's Magazine*.

## UTAH CENTRAL RAILROAD

### Pioneer Line of Utah.

ON AND AFTER

THURSDAY, MAY 19th, 1870.

Trains will leave Salt Lake City daily at 5 a.m. and 2.45 p.m.; arrive at Ogden 7 a.m. and 4.45 p.m.; leave Ogden City at 8 a.m. and 5.30 p.m.; arrive at Salt Lake City 10 a.m. and 7.30 p.m.

In addition to the above an
