NO QUOTATIONS. LINCOLN'S BIRTHDAX.

Considerable activity was noticeable today in the mining stock market. Prices on the whole were a little softer. This was especially noticeable in Daly-West, which started out at \$12.271/2 and closed at \$12.20. Eagle and Blue Bell sold down to

\$1.17%, while an odd lot of Dalsy was handed out at 6.

Lower Mammoth was quite active, though it sold from 49 at the outset to Mammoth sold from \$1.061/2 to \$2.031/2.

while Northern Light hung around 5%. Sunbeam entered the lists at 28, but Yankee started at 12 and recorded steady advances until the call closed, when it was found that it had reached

Bunker Hill remains very weak in spite of its reported strikes, while Golden Eagle reacted a little today and sold at 3½. Grand Central showed itself a little stronger today.

The Directors Decide Today to Sink

100 Feet Deeper. eeting of the directors of the Dexter Mining Company was held today at which among other things the sinking of the shaft was considered. It was decided to go down an additional 100 feet which will give a depth of 350 feet A pump will be ordered with which to the increased flow of water which ikely follow. It is expected that epth will enable the management under the rich bodies of sult ore which were recently enered on the 250 foot level. The said to be strong and it is fully ed that this ore will be encount-n large bodies on the 350 foot The clean up for last month was

as large as the output of other that the hoisting plant was being moved to the new shaft and the ore on dump was being worked while the holst was being set up.

RESTRAINING ORDER ISSUED. William A. Clark and Directors of United Verde May Not Sell Mine.

A New York dispatch to the "News" The appellate division of the supreme court on Friday last handed lown a decision restraining United States Senator William A. Clark, of Montana, and the directors of the United Verde Copper Company from selling the mines and other property belonging to the corporation. As a n of the appellate division was

handed down, so that its ruling is prac-"The decision was upon an appeal from an order rendered by Justice Gilves in special term, vacating an tion obtained by Prof. George A. Treadwell, a shareholder in the comng the property on the ground that interest of the minority holders

would be sacrificed. was also alleged that under a the directors the company was to cease a New York corporation and be came a West Virginia company. The reason for this change was, it was reason for this change was, property in that territory."

W. B. Andrew Reports the Young America and Nevada Looking Well.

W. B. Andrew arrived in town today line engine not having sufficient power to run the pump and hoist as at pres-ent arranged. A smaller drum will be secured and it is expected that everything will be in readiness at the mili by March 15th. The water flow in the mine is said to be materially reduced to what it once was. Formerly about 130 gallons a minute entered the workings, but this is now reduced to about 75 or 80;

Everything at the Nevada company's preperty at Galena is said to be looking very encouraging. The 35-foot vein was eross-cut some time ago and drifts are being run to the north and south in the hope of encountering two ore chutes which are known to exist in those directions in the upper workings. A car of ore was to be shipped today which will be followed by another one before many days. A great deal of ore exists on the property which would be considered

good shipping ore if it were in Bing-ham. As it is it is said to be more than likely that a concentrating plant will be built at Galena at no very distant day. Recent developments have exposed a greatly increased tonnage that is said to warrant such a plant in warrant such a plant in the near are, Incidentally Mr. Andrew stated that his brother, who was recently in-jured by falling rock, will be able to be around in a few days.

PROSPECTS AT SUNSHINE. A Great Deal of Assessment Work Now Being Done.

In a review of the camp at Sunexperts have given up hope. It is negreed that a sortie from the beingreed town would result in the Sunshine is by no means dead. The owners of mining claims in that camp do not think of abandoning their property, and a large amount of assessn work has been done and considerable development work is going on. The Old Fred has a new superinten-

dept in the person of H. W. Unsworth, o'clock tonight, and died shortly after being taken to the hespital.

Boyce calmly handed his revolver to a policeman, saying as he did so: 'I had to kill her. She blabbed' too much. I shot her.'

Boyce served as principal musician in the Fourteenth United States infantry and went to the Philippines with the regiment. He was discharged in Manila, he claims, at the expiration of his service, receiving \$500 back pay.

dept in the person of H. W. Unsworth, who has four men at work on the property. During the winter the main shaft has been driven down over 100 feet. New work has recently been commenced 70 feet from the top of the shaft where a drift is being run to cut the ledge on the surface back of the shaft. The owners find sufficient encouragement to continue work.

J. J. Brown is now doing development J. J. Brown is now doing development

Jold Reserve company, which secured t last year. Some work was done on it last summer. Mr. Brown is now un-covering the ledge in a new place.
S. S. Taylor is working a force of men in Clay canyon. J. Rush is doing his assessment work and John Bogan s doing considerable work on his claims below the Sunshine.

Emil Raddatz and his brother have oeen at work on the Glencoe since last November. The principal work up to that time had been the sinking over 200 feet on the vein and then drifting north and south. The north drift had been driven about 200 feet, and al-though values were found they were not satisfactorily rich. The work this winter has been directed toward cuting a tunnel at the bottom of the shaft back toward the lower yein. connel is in 120 feet and cuts the for-mation. It is believed the lower vein a nearly reached and it is hoped the values will be found there. A great deal of work has been done on the Glencoe, but entirely on the upper vein, which outcrops along the edge of the canyon that divides the property. There is a well marked division of the ore zone on the Glencoe, an unheaval seeming to have separated it at some early geoogical period.

IRON AND COAL LAND. Representatives of English Syndicate

in Iron County. A company of capitalists, among whom are representatives of an English syndicate direct from London, are in Cedar and vicinity this week looking over our immense iron and coal decosts, says the Cedar City Record. The company, embracing some seven persons in all, were met at Lund Tuesday with teams, and are now being shown over some of the best properties of the district. Upon the report taken back to the London company depends to a great extent the immediate future of Iron county. If the report is favorable, the deal that has been pending for some time with Mr. Taylor will be consummated, and immediately preparations will commence for the construcfacture of iron and steel. And with he line of railroad which will undoubtedly be built connecting us with the coast, southern Utah will undeniably become the Pittsburg of the west. As all parties connected are exceedarry reticent it is impossible to glean aformation of a substantial character this time; in fact, it will doubtless ke weeks to decide the matter, but it not strange, in view of the signifi-nce that the matter has for the fu-

ive of this section, that Cedar people could feel more than passing interest in the strangers. BINGHAM OPERATIONS.

The Ore Shipments for January Amounted to 7,500 Tons.

its resume of the week at the Old Reliable, the Bulletin says: The ore shipments for January amounted to 7,500 tons. The amount, at conservative figures, January is placed at 7,500 tons. Among

shippers this week are the Mascot (Dalton & Lark), with 9 cars; Amazon, 2; Silver Shield, 2; Niagara, 7; Red Wing concentrates, 4; Brooks's mill concen-trates, 4; Last Chance, 1, It is reported that the Parnell mine has uncovered a vein of ore similar to that of the Highland Boy. The Parnell has a force of eight men employed, and it will probably be shipping ore in the

The Silver Shield has a new pump installed, and the main work is sinking to second level from the tunnel. Last Tuesday night at 270 feet denth (125 feet vertical), and within five feet of the east rim, working incline No. 1 of West Mountain Placer encountered bedrock. The contact was expected at 120 feet (vertical), so that a depression as of a basin, indicating a rich gravel layer, is apparent. The latter is about five feet deep, and while yet too wet to make anything like an average test. cannings show a plentiful presence turgets, some as large as wheat ker-

WEEK AT PARK CITY. Daly-West Output - Wages Raised-Ore Shipments.

In the weekly summary the Park City Record says:

A. H. Fueling has sold his group of claims northeast of town, the consideration being \$5,000. The deed was made out to John C. Lynch.

A general raise of 15 cents a day has been made in the wages of the men employed at the Daiy-West. There is rumor to the effect that a 25 cents per day raise has been made by the Sliver King to station tenders. The Marsac mill stamps were hung ap Monday forenoon by the breaking of one of the large belts. It was repaired and started up again, when another belt broke, causing another short stoppage. The stamps, however, are now dropping steadily on Ontario ma-

Forty-eight mining cars of concenrates were turned out from the Daly-West mill Thursday in twelve hours, and we understand the same average ins been taken out ever since. oncentrates have been shipped to the ity, and there is also great activity at the mouth of the Ontario tunnel The Rio Grande Western is having

some difficulty in supplying the de-mand for freight cars. An extra train was run up from the city Wednesday night and Thursday also, with empties. These cars are principally for the sam-pler product and first-class ores that are being shipped in increased quan-titles from this great old camp. There is considerable talk and specu-lation yet as to the outcome of the Daly-West election, and there is a great difference of opinion as to who will be the choice for manager. Some are of the opinion that Mr. J. J. Daly will continue in this office, others say R. C. Chambers will be urged for the convinced that Charles Reed will be given the refusal of the office. The latter gentleman has been out from the elty this week, looking over the prop. erty and incidentally making suggestions here and there, and this has strengthened the belief that he is the

ming man. Following are the shipments of from the Mackintosh sampler for the past week!

GEYSER-MARION STRIKE. Good Milling Ore Encountered on

Main Tunnel Level. The report comes to us that an important strike of good grade milling ore has been made at the Geyser-Marion on the main tunnel level, says the Mercur Mercury. The management, when seen, stated that at present they were not ready to make public the details of the new find, did not deny that a strike that may develop important results has been recently made. This old producer has recently given indications of material improvement; the clean-up of gold dust for the last half of January replen-ished the company's treasury to the tune of about \$6,000, while the total monthly pay roll only sizes up about \$5,000. Since the first of the month the force at the mine and mill has been reduced nearly one-half by a judicious rearrangement of the shifts, at the same time handling the former tonnage.

MINING CONFERENCE. Third Attempt to Adjust Mining Dif-

ferences in Slocan District. A dispatch from Sandon, B. C., says that joint committees representing the mine owners and the miners' union have been in session during the past the differences over the eight-hour law and the wage schedule, which has caused the strike in the Slocan during the past eight months. It is believed that the result will be an agreement for the rate of \$3.25 for eight hours' work, the union waiving the additional 25 cents formerly demanded, also waive ing the demand for thirty days' notice before any change shall be made in wages or hours of work.

MINING NOTES.

Acar of ore was on the market from the Erle of Bingham.

Twelve cars of ore were marketed today by the Daly-West of Park City. Paymaster Ford was working today on the January payroll of the Highland Manager George H. Dern went to Mercur mine today to discharge the

Lathrop returned from States line last evening and reports drifting in progress from the 100 foot level of the Ophir mine. The shaft is now down 266 feet and sinking will shortly be re-

sumed. The mine is said to be looking Halley Times: Some of the miners employed at the Red Cloud were laid off Thursday, in anticipation of the early shutting down of the mill to await milder weather. There is a large accumulation of ore at the mill, and much more in sight in the mine.

Baker City Democrat: Harry W. Early, general passenger and freight agent of the Salt Lake & Ogden railway, arrived in Baker City yesterday morning from Salt Lake. Mr. Early contemplates locating here and engaging in mining, together with establishing a mining machinery and smelting

The shareholders of the Rabbits Foot Mitdag company met on Saturday af-ternoon, according to schedule. Every share of stock was represented, and the proposition to change the articles of inerporation so as to make assessn possible, was unanimously adopted. The directors will meet shortly and levy an assessment.

FILIPINOS BURN TOWNS.

Rebels Use Burning Arrows and Do Great Damage.

Hemp Rusiness Hindered - Guerilla Warfare - Smallpox Among Soldiers Battle with Gen. Pilar.

Manila, Feb. 11 .- Of late the insurgents in Albay province, Luzon, have adopted harussing tactics against the towns which the Americans have garrisoned. They camp in the hills and maintain a constant fire upon the sally against them, they scatter, returning when the Americans retire. They shoot burning arrows, and have tile country.

thus burned a large part of the town of Albay. Indeed, most of the larger towns in that province are practically deserted, except by the garrisons, Scarcely any of the inhabitants return to their homes. They are camping in the interior, and it is supposed armed nsurgents prevent them going back. It is reported that there is much suffering | cartridges mong them owing to lock of food. As a result of these conditions, the hemp business in that section is seriously hindered, and ships going for praised the Transvaal and advised the

coolies to do their leading. Hemp held

in the interior is quite inaccessible,

"Enny hoss 'cu do a thing better 'n spryer if he's been trained to do it when a colt, David Harrum,

going there on transports. Many insurgents retreated to that part of the island from Cavite and Batangas Another expedition will soon start to garrison towns along the north coast of the island of Mindanao.

Guerrilla warfare continues south of Manila. Two attempts have been made to ambush the Americans. Col. Schwan, while returning to Manila with his staff and an escort of 100 cavalry from Baangas, was attacked by the insurgents The latter were dispersed, but the Americans had five wounded.

Lieut-Col. Beacom, with six companies of the Forty-second infantry, had a

two hours' fight with Gen. Pio de Pilar's command, which attempted to ambush the Americans along the trail through Morong province, near the lake. Here also the insurgents were dispersed, but the Americans had several wounded, among them a captain.

Gen. Bell is operating southward through Zambales province with a small force. Another expedition is pro-ceeding northward from Subig.

It is reported that the insurgent Gen-eral Alejandro has recovered from his wound, and has assembled a large force in that district. The plague continues. Eight cases were reported last week among the na-tives and Chinese. There is no excite-

ment, however, and business and social life are undisturbed. Smallpox is prevalent among the natives along the railroad and in the towns on the northern coast. Two officers of the Thirty-sixth infantry have died of the disease, and another officer and several soldiers have been stricken.

Washington, Feb. 11.—Capt. Frank M. Wells, chaplain of the First regiment of volunteers, who has just returned from the Philippine islands, spoke in Garneld memorial church today under the auspices of the W.C. T. U. on the auspices of the W.C. T. U. on the liquor question in the Philippine islands. He declared that since the Americans took Manila 400 places where liquor is sold had sprung up in where liquor is sold had sprung up in Manila, while before the Americans came to the islands, Manila had only three saloans. The Filipinos, he asserted, spoke well of the American soldiers, save that they said the Americans "were bad people" when they had drunk too much liquor. Whisky, he said way sold in the barracks at light said, was sold in the barracks at Hollo, not over fifteen feet from his headquarters, until he put an end to it by complaints to the colonel and provost mar-

The transport Indiana, on which he returned to the United States, he charcterized as a "whisky transport," and as said that he had unsuccessfully athe transports stopped while in the

Molineux Not Worried.

New York, Feb. H .- Roland B. Moineux, convicted of the murder of Mrs. Katherine J. Adams, was said today by Warden Hagan to have slept as calmly n Saturday night as he did on any other night since his incarceration in the Tombs, beginning nearly a year ago. He arose at the usual hour, ex-ercised for one hour, ate breakfast and ead with apparent composure the norning newspapers, after which he attended the usual Sunday services.

The condemned man had but one visitor today. The caller was his grief-stricken and venerable father, who has not yet given up hope and expects that the higher courts, which will be ap-

pealed to, will free his son. All of the memebers of the jury re-fused to answer definite questions as to what had transpired in the jury-room, but one of them, desirous of imparting some information regarding the inal proceedings of the celebrated case, ade a statement in which he said:
"If I were going to write as a report-

about it, I would probably commence y saying the jury was a unit upon the ufit of the defendant; that one, two, or erhaps three of them, however thought it well to go through the case, discuss the various phases of it and see if the evidence, beyond a most casonable doubt, would warrant such verdlet. "I understand there was much co

jecture as to why the jury did not go to lunch after the charge as expected, and as a reporter, I should attempt to explain that by saying it was decided almost immediately after they reached the reached the room, while discussing whether to go to lunch or not, that all were of one inind and each thought the whole mat-ter could be finished in probably an hour at the most, and in order to get to their homes quietly, they decided to forego the lunch, and get along on the sandwiches."

"Would you write that there had been much balloting?" he was asked. "Well, I don't think I would have much balloting in my version, probably a preliminary and final after the

PROHIBITION OF ARMS. Mexico's Attitude Because of American Filibusters.

Chicago, Feb. 12.-A special to the

Chronicle from El Paso, Tex., says: The Mexican government now prohibits the entrance of arms and ammunition to the state of Sonera, owing to the revolution now in progress there. American miners who have hereto-fore been permitted to carry rifles and six shooters and belts full of cartridge into Sonora are now prevented from carrying any arms whatever, and are stripped of ammunition at Nogales and Naco. This order was issued because it was reported that Americans were pouring into Senora in the guise of miners, while their real object was assist the rebellious Yaquis in gain ing their freedom. The new orders are enforced by Mexico only at Arizona ports of entry, and persons entering Sonora via El Paso and Casa Grandes American outposts. When the troops are permitted to carry all the arms and ammunition desired. Many persons have taken advantage of this to convey these contraband goods into the hos-

Not So Serious.

Cairo, Feb. 11 .- The official investigation shows that only a few Egyptian officers, all of them young men, were involved in the trouble with the two Soudanese battalions, whom they advised not to obey the order to give up

Egyptians to take advantage of British distractions in South Africa.

It seems that the implicated officers
