Mayor Vansant has issued a pro-clamation prohibiting all dogs from running at large, except such as are muzzled and whole owners have paid the license required by law. All others are to be killed. Owners of dogs are admonished that the ordinances in these respects will be rigorously enforced. So far, well. But there are many of our citizens

zled. They hold that a license will not prevent a dog from going mad, and that a muzzle by a provocative

LAIE, Oahu, Hawaiian Islands,

President Brigham Young:

Dear Brother—With pleasure I avail myself of the opportunity to inform you of my arrival at this place, which, in company with Brothers Nebeker, B. M. Young, R. J. Taylor and Sister Randall and my family, I reached on the evening of the 3rd inst., all in good health and spirits, being only fourteen days and six hours from Salt Lake City to this place. We were forty-two hours in San Francisco, and twenty-six hours in Bonolulu. Our journey was a very pleasant one, the voyage from San Francisco to Honolulu we made in eight days and nine-teen hours. The steamer Costa Rica is a very pleasant vessel, affords excellent accommodations, and is reported to be a much better steamship than any other sailing between San Francisco and Hono ulm. W. F. Sapidge, the captain, we found a very agreeable and worthy man.

The brethren here from Utah and their families are well, the native Saints also to be a mellowed and we delighted to see. President Brigham Young:

being seemingly heightened by some latent taint, required close watching; however, consequence of which, Mr. Taylor having left his home, had taken up his residence at his office, and did not then know the exact state of things. This being the case, and supposing the treatment was now in the hands of Drs. Benedict and Davis, I took no further action in the cases, further than, at the time, supplying a little medicine at the request of Mr. Taylor, which I had no confidence in doing, not knowing how far it might be counteracted by the administration of drugs by professors of a system of medicine so widely different from that I practice.
