

BARONESS VAUGHAN HAS LEFT BELGIUM

Accepted Hint That if She Didn't Depart Voluntarily She Would be Expelled.

SHE TOOK TRAIN FOR FRANCE

To Belgium She Was a Mystery but They Accepted Her as One of Leopold's Whims.

Brussels, Dec. 20.—Baroness Vaughan, whom Leopold made his queen in fact, if not in name, quietly left Belgium today, her reign ended; her power collapsed, accepting the hint of the government that if she did not depart voluntarily she would be expelled from the country.

The baroness packed up those magnificent furnishings of her chateau which were personal gifts of King Leopold and forwarded them across the frontier. She herself took a train for France.

To the Belgians this good looking young woman, with brown hair and gleaming black eyes, was always a great mystery, but they accepted her as they have the other whims of the determined and self-willed king. They have thought for years of her residence beside the king's of the famous floral bridge linking the two domains. They have discussed with unconcern her absolute dominion over the king's private life.

Now, with the king dead, they have been driven to deep resentment that as the king's body was borne through the streets and was lying in state at the palace, her photograph was exhibited and sold in Brussels the same day and her name shouted out by hawkers as "Caroline, the Queen."

In spite of dispatches from Italy and other countries asserting that King Leopold and the Baroness Vaughan had been married according to rite of the church, the king's personal friends persist in the disbelief of this, while they characterize the stories of a civil union as pure nonsense.

They say that Leopold, whatever his faults in private life, would never destroy the official dignity of the kingdom. The semi-official Twentieth Century points out that the Belgian code stipulates that the rights of succession to the throne pass to direct descendants of legitimate birth. If there was a civil marriage in Italy, it might create potential rights, but it is argued, the absence of all records, all publications of such a ceremony and especially the fact that Leopold never mentioned Baroness Vaughan his legitimate wife, effectually disposes of the question.

Prince Albert's plan to reunite the exiled and separated family was fulfilled today, as Baroness Vaughan passed out forever from Belgian life. Princess Louise triumphantly entered the city and was officially greeted at the station and acclaimed by the people. She was conducted with royal honors to the Chateau Bellevue, which henceforth will be her official home. Again today a vast crowd viewed the body of the late king. Many people who came in from the provinces were incensed that the gates were closed at 3 o'clock and they tried to force an entrance. In the panic, people were trodden on, garments were torn and women fainted. Quite a number were injured. Finally the palace was reopened and the visitors were allowed to file past the catafalque.

Arrangements for the funeral and the swearing in of the new sovereign are proceeding rapidly. An army of workmen has taken possession of the cathedral, which is being draped and the chamber of deputies is being rearranged for the ceremonies on Thursday when Albert will triumphantly enter Brussels on horseback. Delegations are arriving from the European courts. The United States will be represented by Henry Lane Wilson, minister to Belgium, and U. Grant Smith, the new secretary, who will arrive here tomorrow.

BARONESS' COUNSEL GIVES OUT SOME HINTS

Paris, Dec. 20.—In an interview this afternoon M. Picard, legal adviser of Baroness Vaughan, when asked if the marriage of King Leopold and Baroness Vaughan was effective, replied: "The baroness has really been married by religious rites; that I can attest."

"Then have the children of the union rights to the throne?"

"Anything may happen and believe me, the affair is only beginning."

"And the royal family?"

"Is preparing to use every chicaneury to obtain the revocation of the gifts to the indirect heirs through the courts. I can tell you that the fight will last a long time, for the baroness will fight. It is her duty to do so."

Baroness Vaughan is a remarkably intelligent woman, far above the average. She possesses an astonishing gift of apprehension and assimilation."

NICARAGUA DEFAULTS.

New York, Dec. 21.—The second payment of \$50,000, due the Nicaraguan government on the claim of \$600,000 due the George D. Emery company has not been paid, in accordance with the agreement signed at Washington a few months ago. It was due last Saturday, but the New York bankers, through whom Nicaragua arranged for payment, received no funds for that purpose, and so could not turn over the money. The agreement made by the Zelayan government will, however, be binding on its successor.

The Emery claim, which was for many years a subject for diplomatic

The Exceptional Equipment

of the California Fig Syrup Co. and the scientific attainments of its chemists have rendered possible the production of Syrup of Figs and Elixir of Senna, in all of its excellence, by obtaining the pure medicinal principles of plants known to act most beneficially and combining them most skillfully, in the right proportions, with its wholesome and refreshing Syrup of California Figs.

As there is only one genuine Syrup of Figs and Elixir of Senna and as the genuine is manufactured by an original method known to the California Fig Syrup Co. only, it is always necessary to buy the genuine to get its beneficial effects.

A knowledge of the above facts enables one to decline imitations or to return them if, upon viewing the package, the full name of the California Fig Syrup Co. is not found printed on the front thereof.

BABY SCRATCHED FOR THREE YEARS

Until He Would Bleed—Eczema Covered His Whole Body and Head—Suffered Keenly from Itching and Burning—Hundreds of Dollars Spent on Fruitless Treatments.

CUTICURA CURED HIM—NEVER TROUBLED SINCE

"My little grandson when a year old had eczema all over his whole body and head. It lasted nearly three years. He had big sores on his head and the matter would run from them. He suffered from the itching and burning and would scratch until he would bleed. He was a perfect sight. We tried every kind of salve and ointment but they did no good. After spending hundreds of dollars, and having several doctors, which did him no good, we saw the Cuticura Remedies advertised and we got some to see if they would help him. We used the Cuticura Soap to wash him with and then applied the Cuticura Ointment. They cured him nicely. He is now five and has never been bothered with it since. Mrs. David Ames, 9 Columbia Ave., Rockland, Me., Feb. 22 and Mar. 9, 1909."

CUTICURA

Cleanses, Purifies and Beautifies Skin, Scalp, Hair and Hands

The constant use of Cuticura Soap, assisted when necessary by Cuticura Ointment, not only preserves, purifies and beautifies the skin, scalp, hair and hands, but prevents inflammation, irritation and clogging of the pores, the common cause of pimples, blackheads, redness and roughness, and other unsightly conditions. All who delight in a clear skin, soft, white hands, a clean, wholesome scalp and live, glossy hair, will find that Cuticura Soap and Ointment more than realize every expectation.

Complete External and Internal Treatment for Eczema of Infants, Children and Adults. Cuticura Soap (25¢) to Cleanse the Skin, Cuticura Ointment (25¢) to Soothe the Itch and Cure the Eczema. (See the form of Cuticura Soap and Ointment in the box.) Sold everywhere. Sold throughout the world. Potter Drug & Chem. Co., 232-page book on treatment and cure of the skin.

discussion between the United States and Nicaragua and which threatened to disrupt relations between the two countries, grew out of a timber concession which the Nicaraguans cancelled.

DON'T.

Don't think because you have taken many remedies in vain that your case is incurable.

You have not taken Hood's Sarsaparilla.

It has cured many seemingly hopeless cases of scrofula, catarrh, rheumatism, kidney complaint, dyspepsia and general debility—many cases that may have been worse than yours.

What this great medicine has done for others it can do for you.

THREATS AGAINST LIFE OF RICHARD PARR

New York, Dec. 20.—Threats of death by poison and violence against Richard Parr, the special treasury agent who unearthed the sugar frauds on the Williamsburg docks of the American Sugar Refining company, are contained in a letter given out by him tonight and received, he says, on Dec. 11. The letter follows:

"The editor of the Sun died suddenly. Some prominent men in the customs died suddenly. You have been taken suddenly ill. Beware of poison."

"(Signed) SUGAR."

Mr. Parr was in fact taken suddenly ill during the recent trial of six former employees of the sugar company, a day or two before the letter was written. His illness was supposed to be an affection of the nerves.

Other letters received by him, he said, tonight contained threats of death and injury by violence. He had been told that he would be pushed off a subway platform in front of a moving train and that he would be shot.

STUDY FOR WOMEN.

Will be Such as to Prepare Them for Remunerative Employment.

Chicago, Dec. 21.—Courses of study to prepare women for remunerative employment than that of teaching will be urged by state universities as a result of a conference of deans of women of state universities now being held in Chicago.

Representatives of 14 state universities are attending the conference and before final adjournment will discuss questions affecting the status of women, courses of study, social life of schools and other matters in which women are interested directly.

GRANT SIGNED.

General Grant has fitly been spoken of as "an unaffected great soldier." It may have been the blending of this large mindedness and lack of affectation that invariably made him so courteously kind to any one who asked his assistance, so generous in his praise of an opponent, even when that opponent was fighting him to the death. The following little story emphasizes all these qualities:

After the fall of Fort Donelson, to prevent the needless violation of property by either the army or by camp followers, protections were issued by the United States government. To Miss C., whose six brothers were fighting in the confederate army, such a protection was granted. It had been signed by all the commanders of the post in turn—by Buell, Rosecrans, Schofield, Sheridan, Grant and many others—and the list was long and impressive. At last it became necessary for General Grant's signature to be added.

"When I entered the office," says Miss C., "the general was smoking, his feet higher than his head. But he seemed instantly to stand upright before me and his cigar was thrown away in a moment."

"I handed him my protection."

"You have rather a formidable list of names," he said as he took it from me."

"And I hope that you will add yours to it and make it even more formidable," I replied.

"For answer he sat down again ready to put his signature at the end of the parchment, when he suddenly stopped and looked at me."

"For how long do you wish this protection for your estate, Miss C? he asked."

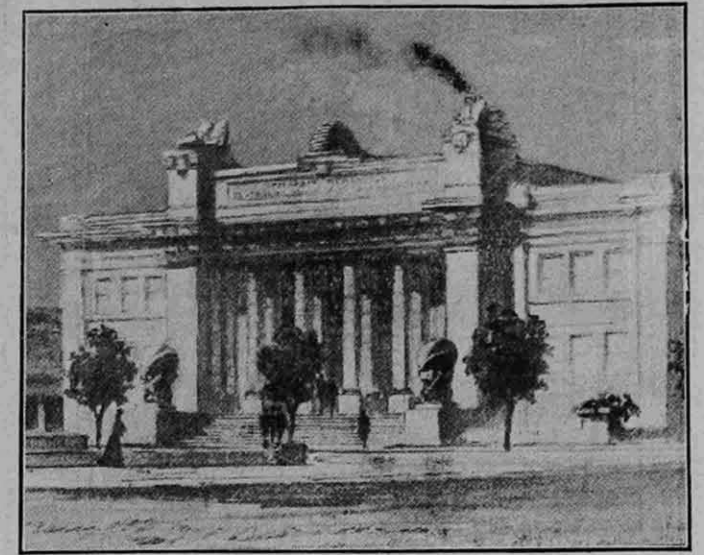

"Until the day of judgment, general," I answered boldly.

"Then he smiled that sweet, quizzical smile of his that made so many people, even when they were his enemies, love him and said:

"My dear young lady, you have great confidence in your armies! But with such courage and with such a leader as General Lee I cannot wonder. Then, with a great flourish, he added the words, 'Till the day of judgment, Ulysses S. Grant,' and handed it back to me."—Youth's Companion.

HOME OF THE L. D. S. CHURCH TEACHERS' COLLEGE, PROVO.

Temple hill, on which this beautiful building is growing to completion, was so named by the pioneers of Utah valley because of its evident fitness as a site for one of our sacred temples. That it is to be crowned by a temple for the salvation of the living, rather enhances the gratification of this long-cherished ideal, while its graceful contour and pure white walls lend the same picturesqueness to the landscape that the sacred edifice first contemplated would have done. The building will be visible over all the western and southern half of the valley, including Springville, Spanish Fork, Payson, Salem and Santaquin.

Funds necessary \$110,000
Subscriptions 69,733
Yesterday's canvass (about) 2,000
Amount still necessary 38,267

This building is the gift of the Alumni association. At every annual banquet since the death of Dr. Karl G. Maeser, the absorbing topic has been the erection of a memorial worthy the genius of this great teacher. Finally when the title to Temple hill was acquired for educational purposes, it was resolved that the memorial to Dr. Maeser should take the form of the administrative, or first of the collection of college buildings to constitute the future home of the university proper. Plans were accordingly called for, and from a large number submitted, the design, which preserves the artistic purity of Greek architecture, was adopted.

The first cost was placed at \$80,000. Sixty per cent of this amount was subscribed at the alumni banquet last June, and on such an excellent showing the work was begun. By the time the concrete basement had been laid, the question of making the superstructure a thing of beauty for all time, as befitted the founder of Church school

education, led to changes in the plans, especially that of using white colts dressed stone from Mant's famous quarries, instead of brick as at first contemplated, and so the cost was advanced to \$110,000.

Since this is the season for giving, one other little historical incident is worthy of repetition.

When the site for this building had been definitely fixed on the southwest brow of Temple heights, it was discovered that a real estate firm owned the extreme point of the hill, perhaps half an acre in all. Characteristic of their tribe, they were "lying low" for a fancy price. They were finally induced, however, to take \$1,000 for the plot.

That was one year ago. The situation being explained one morning to the school, a motion carried that each student deny himself some indulgence during the holidays, and contribute the price of it to buy this small intervening plot, which is now immortalized as Y-point.

The response was instantaneous and enthusiastic, and did not stop till the amount had reached \$1,225—a Christmas present to their alma mater prophetic of the greater gift of \$3,861 made to the same good cause a week ago today. If the touches of loyalty and self-sacrifice which these students are carrying to their homes are kept busy relieving others, a warmth of giving will be kindled, which will make the new Church Teachers' college a speedy reality.

STUNG FOR 15 YEARS

by Indigestion's pangs—trying many doctors and \$200.00 worth of medicine in vain. E. F. Aycock, of Ingleside, N. C. at last used Dr. King's New Life Pills, and writes they wholly cured him. They cure Constipation, Bilelessness, Sick Headache, Stomach, Liver, Kidney and Bowel troubles 25c at Z. C. M. I. Drug Department, 112-114 Main St., Salt Lake City.
