

Saturday, December 3, 1870.

LOCAL AND OTHER MATTERS.

THEATRE.—Remember the fine comedy of "Extraneous," and the farce of "Did you ever see your wife to Lake Side," at the Theatre to-night. Fun and frolic are the order of the evening; go and enjoy them, all who want a merry lute.

IN TOWN.—The Reverend Father T. Mesple, a minister of the Roman Catholic Church is now in this city on a visit from Boise city, I. T. He passed through this valley twenty-four years ago, since which time he has resided chiefly in Oregon and Washington Territories. He, of course, can see and appreciate the transformation that has been effected here by the perseverance and industry of the settlers; and he expresses both pleasure and astonishment at the change that has taken place.

"EMIGRANTS" AND "RELEASED."—The *Millennial Star*, of the 6th ult., says:

"A small company of Saints will embark on the steamship *Manhattan* for New York, on their way to Utah, Nov. 16th. Any of the Saints who wish to go with this company, must notify us at once and be in Liverpool not later than Tuesday, Nov. 15th. The fares all the way through will be the same as in the summer.

"According to the request of President B. Young, Elder Ralph Thompson has been released from his duties as traveling Elder in the London Conference, with permission to return home. We regret that the mission is about to lose the faithful and efficient services of Elder Thompson."

AN INGENIOUS PIECE OF MECHANISM.—We were shown, this morning, a very ingenious piece of mechanism, an artificial hand, constructed by our townsman, Z. W. Derrick. The fingers and body of the hand are made of hard wood, the joints and other parts being made strong by means of neat brass and copper work. The manner in which the hand is made to open and shut is as follows: sinews, composed of strong catgut, are passed through small wire loops over the back and front of the fingers to the interior of the palm, where they are attached to a small windlass which, when wound up with a key, opens or shuts the hand according to the direction in which it is turned. This interesting piece of work is strongly constructed and would prove invaluable to persons who are minus the natural members in driving team, besides besides being useful for numberless other purposes.

WILL PRACTICE LAW.—The Omaha Herald says:

"Col. Frank H. Head, formerly of Wisconsin, and latterly Superintendent of Aborigines at Salt Lake City, is soon to take up his residence and profession (law) in Chicago."

ANOTHER LECTURER ON UTAH.—The *Sacramento Union*, of the 30th, ult., says:

"Rev. G. M. Pierce, missionary to Utah, will deliver a free lecture in the Sixth Street M. E. Church, this evening, on Utah, Salt Lake City, Mormonism, Polygamy, etc. Pierce has been one year engaged in his work, and has made himself familiar with the condition—civil, social and religious—of the Mormons. This lecture will consist mainly of facts, personal incidents, and interviews, showing the true condition of things there, including the opinions of polygamy, the attitude of Mormonism to the civil government, and the prospects as a mission field."

We have known some others of the missionaries sent by the religious folks to Utah, after laboring here awhile, take to lecturing elsewhere about Utah and its people. It seems to be a paying card to deal, as almost anything on that subject, especially when treated upon by a missionary, seems to be taken up with great interest. We have known two of these *reformed* lecturers lie so outrageously about the Latter-day Saints, one of them only a few months ago in the east, that if it were possible, the Devil himself would have blushed for them. We hope that the gentleman referred to by the *Union* will not follow the example of the two referred to; and that when speaking of the "Mormons" he will be as honorable and truthful as minister of the gospel ought to be.

INFORMATION WANTED.—W. A. Wade, of Kanab, Millard Co., wishes to learn the address of Richard W. Gibbs, who emigrated to this valley in the summer of 1869. When last heard of he was at Providence, Cache Co.

LOST.—On the 18th of last October, Mrs. E. Snow, of St. George, lost, in the 13th Ward of this city, a dark woolen shawl, rolled up in paper. The finder is requested to leave it at Dr. Clinton's.

EXCELLENT FLOUR.—We have eaten recently, some of the best bread we ever tasted in this country, made from XXX flour, ground at the Timpanogas (Provo) Co-operative Flour Mills. This flour was brought to this city by Bishop A. O. Smith, who has charge of the mill; and is sold in either half or whole sacks. We are pleased to be able to give this notice of these mills, the more so as they are co-operative mills. Provo has long enjoyed the best reputation for the manufacture of flour of any place in the Territory outside Salt Lake City; in fact its brand is very favorably known in the adjacent territories. We are glad to chronicle the fact that with a change of ownership in the mills there is no diminution in the excellence of the flour manufactured there.

ATTENTION INDIAN INTERPRETERS AND OTHERS.—The following letter, we feel assured, will enlist the sympathy and assistance of Indian interpreters and others who may have any business whatever with Indians or Indian matters:

Cedar City, U. T.,

Nov. 27th, 1870.
Editor *Deseret News*.—On my way home in October, I learned at Mena, that a band of Utes had been there a few days previous having in their possession a white girl, with blue eyes, shaved, and about four years old; that the squaw claiming her said she had bought her of the Snakes for one pony and would sell her for two. Her eyes and age answer well to my granddaughters, who was stolen from Cache Co., and sold to the Snakes. This is to request Indian interpreters and all others throughout our settlements wherever these Utes may come, and the agent at Uintah, to pay for and purchase that girl, and I will pay all charges, whether she prove to be my granddaughter or not.

ERASTUS SNOW.

THAT HARRIS CORPUS CASE.—The ruling on the application for a writ of *habeas corpus*, in the case of Messrs. Savage, Ottinger and others, now in confinement at Camp Douglas, was rendered this morning, in the Third District Court, by Judge Hawley. The writ was denied by the Court on the ground that no cause was shown why it should be granted, and hence he should hold the prisoners to answer to a grand jury.

UTAH CENTRAL FREIGHT TARIFF.—The Utah Central Company have just issued their schedule of local freight tariffs, which will take effect on the 1st of December. It would be well for all interested in forwarding freight between this city and Ogden to peruse this schedule, as it furnishes the rules and conditions under which the Company will carry freight, to and from this city and Ogden and intervening points; also the classifications, of the various kinds, whether "special," "first" or "second" class. Every particular relating to freighting on their line may be gleaned from this printed schedule, which is got up in a condensed yet very comprehensive form, and may be had on application at the freight depot at the Utah Central Railroad.

"EMIGRANTS" AND "RELEASED."—The *Millennial Star*, of the 6th ult., says:

"A small company of Saints will embark on the steamship *Manhattan* for New York, on their way to Utah, Nov. 16th. Any of the Saints who wish to go with this company, must notify us at once and be in Liverpool not later than Tuesday, Nov. 15th. The fares all the way through will be the same as in the summer.

"According to the request of President B. Young, Elder Ralph Thompson has been released from his duties as traveling Elder in the London Conference, with permission to return home. We regret that the mission is about to lose the faithful and efficient services of Elder Thompson."

AN INGENIOUS PIECE OF MECHANISM.—We were shown, this morning, a very ingenious piece of mechanism, an artificial hand, constructed by our townsman, Z. W. Derrick. The fingers and body of the hand are made of hard wood, the joints and other parts being made strong by means of neat brass and copper work. The manner in which the hand is made to open and shut is as follows: sinews, composed of strong catgut, are passed through small wire loops over the back and front of the fingers to the interior of the palm, where they are attached to a small windlass which, when wound up with a key, opens or shuts the hand according to the direction in which it is turned. THE CELEBRATED COOKING STOVES!

SUPERIOR

For Wood.
They are really what their name indicates, SUPERIOR to any other stove in the market, and for Economy, Durability, Convenience & Dispatch Are Unequalled!

KANSAS, ALASKA

IMPROVED AMERICAN

For Coal.
Which for Neatness of Design, Thoroughness of Construction, Capacity of Oven, Economy in the Use of Fuel and Uniformity of Operation, place them as the best stoves in the market.
They have been constructed specially for the use of our Western Bituminous Coal (for which all stoves of Eastern manufacture are so ill adapted). Enlarged Flues insure a perfect draft; the plates that line the fire chamber are unusually heavy, and combine certain peculiarities in their construction which give these stoves superiority over all others in the consumption of fuel.

Bridge, Beach & Co.,

20,000,000 ST. LOUIS.
Made the first Stoves ever made West of the Mississippi River.

Deal in Metals!
