KENDALL'S SPAVIN CURE.

The most Successful Remedy ever discovered, as it is certain in its effects and does not blister.

READ PROOF BELOW from

Rev. P. N. GRANGER,

Presiding Elder of the St. Albans District.

St. Alban's, Vt., Jan. 20th, 1880.

DR. B. J. KENDALL & CO., Gents—In reply to your letter I will say that my experience with 'Kendall's' Spavin Cure' has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered that a ringbone was forming. I procured a bottle of Kendall's Spavin Cure and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, P. N. GRANGER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement, such as spavins, splints, curbs, callous, sprains, swellings, any lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success to our knowledge, for beast as well as man.

Price $1 per bottle, or six bottles for $5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price by the proprietors, DR. B. J. KENDALL & CO., Enosburgh Falls, Vermont.

EVENING NEWS.

Friday, . August 11, 1882.

A SANDWICH ISLANDS FEAST.

LAIE, Oahu H. J., July 24, 1882.

Editor Deseret News:

It is by request that I attempt to report a very interesting feast gotten up by the natives of Laie and Kahana Branch in honor of Prest. Cluff's wife, Bro. Knell and Kahaulelio, a prominent widow of the land, all of whom were soon to make their departure for Zion.

On the 8th inst., at 11 a. m. the true Hawaiians gathered at the Plantation house, where they sang, the band played, when the Utah Elders joined them and all marched in double file to the old meeting house. It was an unusually fine morning, the air being stirred by a very gentle and refreshing breeze, while the burning hot rays of the sun were softened by an overspreading cloud.

We marched to the tune of the fife and the beat of the drums, with all the enthusiasm of the village school boy armed and equipped to "see the Fourth." On entering the house the committee directed us to the head of the floor, where was spread a table for the Utah Elders, &c. They positioned us around the board, where we remained standing until after opening services. The band played, the choir sang and prayer was offered by Kaleohano, who prayed that we might never want for love, hope and charity.

We were then seated on the floor around the Hawaiian table, which simply a cloth spread upon the floor. The cloth is strewn with leaves and ferns, and the food is placed upon them in dishes of various kinds. In the center of the table was a rack two feet high, and the full length of the table beautifully trimmed with ferns, fruits and flowers. The following is a list of the table comforts: fish, akule, squid, shrimp, puili, wana, meat, beef, pork, chicken, vegetables, poi, sweet potatoes, uhi, ki, fruits, eggs, b. nana, ohias, mangois, cocanuts, sauces, Kuloli, made of poi and cocoanut, kolepa lau, made of sweet potatoes and cocoanut.

The natives had made their boast that Sister Cluff should eat some of everything that was on the table, and they carried it out pretty well, for they stood over her until she was almost compelled to eat everything presented. The house was beautfully decorated Over the stand hung a wreath of ferns and flowers, and in front an arch nicely trimmed, bearing the Hawaiian colors. On the walls was written, "I hookahi na puuwai a hui ma Zions, na hoku 12," which might be interpreted, "Let us be of one heart till we gather to Zion, the Inhabitants of the twelve Hawaiian Islands.

At 2 p.m. we reassembled. After the opening services, Bro. Cluff and wife were seated in front of the stand. The officers of the Female Relief Society then stepped forward and presented them each with an Hawaiian kapas of an orange color; the kapas were spread around Bro. and Sister Cluff, when a prominent lady of the association made a peculiar speech, remarking that they had eaten Hawaiian food, were now dressed in Hawaiian clothing, and were therefore truly Hawaiians. After the lady had finished her speech Brother and Sister Cluff rose and thanked them kindly for their presents promising to keep the same in remembrance of the F. R. S. while they lived.

A song composed for the ocasion was sung by the sisters.

Kupau then took the stand and said: "There have been three great works accomplishd during Brother Cluff's stay of three years on the Islands, first: the building of the new sugar mill; second, the digging of the artesian wells, and third, the commencement of the new meeting house. The labors of the mission have also been very energetically carried on during his mission.

Several of the native Elders made appropriate speeches on the occasion, during which the officers of the F. R. S. came in each carrying a squid which they presented to Brother Cluff and wife.

Kaleohano made a few closing remarks thanking the committee for their liberality and kindness.

The choir sang a parting hymn, and the congregation dispersed, all feeling joyful over the proceedings of the day.

Yours respectfully.

SIDNEY CORAY.

MAMMOTH FOOTPRINTS.

IMPRESS OF SANDALS WORN BY A RACE OF GIANTS.

An unusually large number of interested auditors was present on Monday, Aug. 7, at the meeting of the Academy of Science, San Francisco. The walls of the apartment in which the meeting was held were hung with cloth diagrams of the mammoth footprints unearthed within the walls of Nevada State Prison. The diagrams were obtained by rubbing lampblack over the prints, which were then pressed over with the canvas and afterwards painted, the work being undertaken by C. Drayton Gibbes, Curator of mineralogy, and Dr. H. W. Harkness, who was dispatched by the Academy to undermine the Nevada penitentiary in the interest of science, their expense being paid out of the Crocker fund for scientific researches.

Dr. Harkness read the paper of the evening, maintaining that the footprints were of the pliocene period and antedated, the present river system of the Sierras. The Nevada State prison lies in a valley which has an elevation of 4300 feet and is flanked by the Sierras, the Washoe range and the somewhat elevated range of hills in the Carson desert. The prison was built about 20 years ago on the extreme point of a hill; having an elevation of about 60 feet The hill is formed of sandstone which has its origin in the detritus brought by wind and water from the Sierras. This point was chosen with a view to utilizing the labor of the convicts, and about an acre and three quarters have been removed to a depth varying from 15 to 32 feet, showing the hill to be formed of layers of sandstone, alternating with seams of clay. In the lower stratum exposed by the workmen numerous fresh water shells of the genus *Anodonta* are observed. At an elevation of 13 feet above these is found another stratum, in which, in addition to the *Anodonta* are seen a species of *Physa*—an interesting discovery, from the fact that Clarence King reports no fresh water shells in the region except one. The floor of the area bears evidence of having been tilted at a period subsequent to its deposition, and gives evidence of having been at one time the shore of some lake, local and isolated.

TRACKS OF MONSTER MEN.

There were found six series of tracks of man in regular order, and each showing, more or less plainly, the imprint of a sandal. The tracks were made in a layer of sediment of perhaps two inches in depth. Far below this layer is found the compact sandstone. In each instance the mud has been raised by the pressure of the foot into the ridge, which entirely surrounded the print. This mud is only partially solidified, and is still flaky and easily broken on exposure. In nearly all the toe-portion of the sandal is well shown. Backward from the toe we generally find the impression of the outer sandal. The sandal is found to be 19 inches in length, eight inches at the ball of the foot, while the heel is six inches in breadth. In its outline the impression follows clearly the shape of the human foot. The average length of the stride is two feet three inches, and the straddle 18 inches. One marked feature to which attention was called was, that in all these tracks the toes turn well outward, which is not, as a rule, the habit of the North American Indian. Twelve perfect casts were obtained. Invariably the tracks were lost as they led into the ledge.

MARKS OF MAMMOTH.

Other tracks were also found, supposed to be those of the mammoth (*Elephas primogenus*). They were eight in number, with an average stride of 4 feet 4½ inches, the foot having a diameter of twenty-one inches. Neither the toes nor the pads were distinct. Two more series were discovered presenting ten tracks in line. In these the mud has been so soft that a ridge of about five inches had formed itself about each print. There were also seen the prints of a wading bird—either the whooping crain or the big blue heron. These were seemingly not larger than the sizes now living. Tracks of the antelope, the wolf, and either the buffalo or the horse were also found. Two clams have been advanced why the sandal-shaped prints were not those of a human being: First, on account of their colossal size, and secondly, being the space between them creates a suspicion that they were of an animal other than men. Dr. Harkness, however, believes that this was due to the sandal worn, which disagreeable footwear also compelled the walker to distend his limits. With the exception of the heel, in all the foot prints except one the toe in the sandels was very distinct, and while not one perfect imprint of a sandal was found, still by taking the various missing parts found in different specimens, the resemblance of a sandal was obvious. The paper was further illustrated with steropticon views of the prison quarry and its wonderful footprints.

THE Great German REMEDY FOR RHEUMATISM. NEURALGIA. SCIATICA. LUMBAGO. BACKACHE. GOUT SORENESS OF THE CHEST SORE THROAT. QUINSY. SWELLINGS AND SPRAINS. FROSTED FEET AND EARS. BURNS AND SCALDS. GENERAL BODILY PAINS. TOOTH, EAR AND HEADACHE. AND All other Pains AND ACHES.

No Preparation on earth equals St. Jacobs Oil as a SAFE, SURE, SIMPLE and CHEAP External Remedy. A trial entails but the comparatively trifling outlay of 50 CENTS, and every one suffering with pain can have cheap and positive proof of its claims.

RACINE, WIS.

Greeting to the People of Utah:

For the last three years our STEEL PLOWS, CHILLED PLOWS, SULKY PLOWS and HARROWS, have been thoroughly tested in your country, and we are proud of the flattering commendations of them that have come from you to us. It has always been our aim, and will be in the future, to make nothing but what is FIRST-CLASS, and that we will thoroughly guarantee. We heartily appreciate your trade and solicit its continuance. You will find a full line of our PLOWS with our General Agent, J. W. LOWELL, of Salt Lake City and Ogden, and his numerous local Agents throughout the Territory.

Yours Very Sincerely.

J. I. CASE,

Plow Company, Racine, Wis.

1882!

VICTORIOUS!

—o—

OSBORNE

SELF-BINDER,

Master of the Harvest.

—o—

IT HAS NO EQUAL!

—o—

☞ **READ THE VERDICTS:**

July 26th, 1882.

We, the undersigned, farmers of Alpine, Utah Co., having this day witnessed the operation of the **Osborne Twine Binder,** in Wheat and Oats, do affirm that it did the most perfect work we ever saw done by any Self-Binder. The cutting was absolutely clean and the grain was tightly bound.

We do not see that any imperfection exists in this machine.

THOMAS CARLISLE,
W. T. BROWN,
STEPHEN MOYLE,
C. M. BECK,
HYRUM HEALY,
GEO. MYERS,
J. S. BECK,
GEO. BODDISON,
EDWARD WINN,
W. O. ADAMS.

ALPINE, Utah, July 26, 1882.

We proposed to D. M. Osborne & Co., that if they could, by actual field trial, demonstrate to our entire satisfaction that their Twine Binder would do better work and tighter binding than the Wood or McCormick Binders are doing, then we would purchase an Osborne.

This proposition was readily accepted by D. M. Osborne & Co., and we are pleased to state that their Machine has demonstrated its superiority to our fullest satisfaction and we have purchased an Osborne through L. P. Lund, Agent at Pleasant Grove.

C. M. BECK,
W. T. BROWN,
HYRUM HEALY,
J. S. BECK.

At the trial above mentioned three Osborne Binders were sold on the field, two of which were purchased by parties who had taken McCormick Binders on their merits, and condemned them on account of the very bad work performed.

SALT LAKE CITY, UTAH, July 24th, 1882.

We started our Osborne Twine Binder to-day in heavy oats on the farm of Fredk. Reich, and after testing it thoroughly we find it without a single defect. The cutting is clean, binding tight, and the knot perfect. It does the best work we ever saw.

B. ADAMS,
DANL. ADAMS.

We witnessed the working of the Osborne Binder above referred to, and freely bear testimony that we never saw its equal. The bundles are tightly bound and every knot perfect.

FREDK. R. REICH,
LOUIS REICH,
CHAS. REICH,
J. GIBSON,
JOHN RICHES,
ROBT. REICH,
D. REICH.

LAURIN, Montana, July 25, 1882.

I have twenty-eight positive orders for Orborne Binders, and prospect for more. The whole troop of other binders set on fire, and don't you forget it. Do not fail to supply my orders.

LEE GOETSCHINS.

The following telegram was received by Farr Bros., agents of Osborne Machines at Ogden:

COLLINSTON, Ut. h. July 26, 1882.

Osborne Twine Binder grand success. Twelve acres cut and no bundles missed.

C. W. ORTH.

COLLINSTON, Utah, July 26, 1882.

We have cut and bound about twelve acres of heavy rye with our Osborne Twine Binder, and during all this time it did not miss a bundle. The cutting, elevating and binding are without defect. Our neighbors who have seen it work say they would have no other machine.

WM. TWITCHELL,
HARRY G. JEMMETT.

WILLARD, Box Elder Co, Utah, July 28th, 1882.

My Osborne Twine Binder started to-day in heavy green wheat. It works to my entire satisfaction and more that fills the warranty.

PETER A. NEBEKER.

"We have seen Mr. Nebeker's binder work and fully indorse his statement, we could not ask for anything better.

S. WARNER,
THOS. WOODLAND,
THOS. BUDER,
J. W. HUBBARD.

CHERRY CREEK, Oneida Co., Idaho, July 27th, 1882.

I am well pleased with the work done by my Osborne Twine Binder and can honestly recommend it to the farmers of Idaho.

BISHOP J. D. JONES.

After thoroughly examining the work done by Twitchell & Jemmett's Osborne Binder, we cannot speak of it in too high terms. It does not miss a bundle and is a complete success.

W. H. BOOTH,
EPHRAIM HANSON,
JAMES HANSON.

MILL CREEK, Salt Lake Co., Utah, July 29th, 1882.

Our Osborne Binder works to perfection. We never saw its equal.

JOHN C. HAMILTON, of Hamilton Bros.

The foregoing are merely samples of a host of testimonials and letters we receive by almost every mail.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR

TO ITS NATURAL VITALITY AND COLOR.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; often renews the growth; and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brashy, weak or sickly hair regrows with lively expression; falling hair is checked and stabilshed; thin hair thickens; and faded or gray hairs resume their original colors. The operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a Dressing for Ladies' Hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

UNITED STATES LAND OFFICE, Salt Lake City, Utah, July 15, 1882.

NOTICE IS HEREBY GIVEN THAT Joseph H. Jennings, Joseph G. Jennings, Horace Lindsley and Winslow Anderson, whose postoffice address is Salt Lake City, Utah, have made application for a United States patent for the Centre Mill Site claim situated in Big Cottonwood Mining District, Salt Lake County, Utah Territory, adjoining the 1,500 linear feet of the lode, surface ground 600 feet wide, being Lot No. 124, and described in the field notes and plat of the official survey on file in this office with magnetic variation of 17 degrees 30 minutes east, as follows: Commencing at the discovery monument, thence north 69 degs. 58 mins. east 1,318 feet to the corner of the north end line of said claim; thence south 20 degs. east 300 feet to post No. 1; thence north 20 degs west 600 feet to post No. 2; thence south 69 degs. 58 min. west 1,318 feet to post No. 3, thence south 20 degs. east 300 feet to post No. 4, thence north 69 degs. 58 min. east 1,600 feet to said post No. 1, the place of beginning, containing an area of 18.09 acres, the amount therein applied for.

Also including conflict with "Little Fred" lode, lot No. 53, and excluding conflict with "Queen Bess" lode, lot No. 54.

And in connection therewith application is made for a United States patent, for the Centre Mill Site described as follows: Commencing at post No. 1 thence south 61 deg. 45 min. W, 438 feet to post No. 2, thence south 24 deg. 15 min. East 465 feet to post No. 3, thence north 61 deg. 45 min. East 438 feet to post No. 4, thence north 28 deg. 15 min. West 465 feet to said post No. 1, containing an area of 4,675-1000 acres.

The said mining claim and mill site being of record in the office of the recorder of said mining district at Argenta, in Salt Lake County, Utah. The nearest known monument being the Little Fred mining claim.

I direct that this notice be published in the DESERET NEWS, the newspaper published nearest the said mining claim for the period of sixty days. H. MCMASTER, Register.
