New Sensation Assays - Horseshoe Shipment-Sunshine Report-Sunbeam Meeting.

The Bullion-Beck marketed its first car of silver-lead ore today from the recent developments on the 500 level south. This is the first car of ore marketed for several weeks. Considerable ore is in sight, Mr. Farnsworth says, in the Muldoon shaft but it is too expensive to extract it just now, and the management is directing its energies towards connecting with this shaft by upraise from the 500 level of the mine. About 100 feet of an upraise has now been extended and a good body of ore has been opened up. The vein has been crosscut about 20 feet without en-countering the other wall, and Manager Farnsworth says heavy mineralization occurs in all that distance. In this aineralized rock is found the pay chute which at present consists of a body of good ore varying in width from 2 to 5 feet. On this the management is now drifting and the present shipment was taken out at this point. Two or three more cars of ore will follow immediately, and with this showing 500 feet below the Muidoon shaft it looks very prob-able that a fine body of ore will be de-veloped at no distant day. At any rate Mr. Farnsworth is very much encour-aged with the present appearance of the south and the south end.

SUNSHINE REPORT.

Awaits Arrival of Interested Parties from East-Maybe Filed NextWeek.

When questioned today regarding the status of affairs in the Sunshine re-ceivership, Attorney Hoppaugh said that everything awaits the arrival of the in Word interested parties from the East. and was received a few days ago that they would arrive early in Febru-ary and Mr. Hoppaugh expects them next week. On their arrival the con-tract will be finally examined and filed with Judge Morse of the district court for Tooele county, probably at the lat-ter part of the week. The report of the receiver relative to the proposed sale is scheduled to come up on the 19th inst., at which time if the proposed sale is agreeable to the court an order au thorizing its consummation will be made. It is said that several minority stockholders are preparing a vigorous protest against the transaction.

NEW SENSATION ASSAYS.

Erection of a 50-ton Mill is Being Considered by Mr. Kimberly.

Assays from the bottom of the winze at the New Sensation group at Big Cot-tonwood were received by W. J. Lawrence yesterday afternoon, which are considered very gratifying. The first sample showed 35 per cent lead and 26 ounces silver. A second one showed 17 per cent lead and 19 ounces silver, while the third sample assayed 15 per cent lead and 14 ounces silver. The winze from which these samples were taken is about 50 feet deep and is being pushed down from the lower tunnel level in ore containing values similar to those above. It is estimated that there is 15,000 tons of ore already in sight, and Mr. P. L. Kimberly, who has a bond on the property, is considering the erection of a concentrating plant on the property. In relation to this matter Mr. Law ence said today that negotiations are being carried on with Mr. Joe Dederic looking to the erection of a 50-ton mill. The matter will probably be decided within the next day or two. Mr. Kim-berly intends visiting the property next week and no doubt is felt that the bond on the group will be taken before it falls due next summer, and the erection of a mill will be proceeded with this

Millions of Women Use Cuticura Soap

Assisted by Cutleura Ointment, the great skin cure, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and healing red, rough, and sore hands, for baby rashes, itchings, and chafings, in the form of baths for annoying irritations, inflammations, and excoria-

tions, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used these great skin purifiers and beautifiers to use any others, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap is to be compared with

members of the Philadelphia Bourse, who desire in this way to bring the owners of mines and prospective pur-chasers together. Mr. Mahon says the King, left for Park City this morning outlook for the mining congress at Bolse on July 23, 24 and 25 is excellent.

GREAT GOLD STRIKE. Fabulously Rich Ore Found in a

South Dakota Mine. A very rich strike of gold ore has

Mining company are: B. A. McMillen, president; J. H. Larkin, vice president; C. M. Garrison, secretary, and A. H. Adkinson, treasurer. O. R. Young re-mains managing director. just been made in the Clara Bell mine two miles east of Oreville, in Custer county, says the Deadwood, S. D., corcounty, says the Deadwood, S. D., cor-respondent of the Denver Post who has just visited the mine. The mine has been producing a fair grade of ore for several months, but for the past four days it has been very rich. The ore comes from a vertical, which is opened by a shaft about 150 feet deep. It is a quartz ore, the vein being about 20 feet thick. The mine is half a mile from a two-stamp Tremain mill, where is sought and also \$5,000 damages. The plaintiff leased the claims to the de-fendants on May 19, 1899, and it is al-leged that the defendants violated a condition of the lease by sub-letting the property to Andrew F. Mayberry and R. E. Wilkinson. from a two-stamp Tremain mill, where the ore is treated. This little mill is pounding out a fortune for its owner, a Frenchman named Frank Hebert. Owing to a scarcity of water, it is run only a few hours per day, yet it yields all the way from \$500 to \$2,000 per month. The writer casually examined the pile of ore at the mill, which had It Was the Chief Point of Attack and Sold just been brought in from the mine for treatment. Lying on top was one of the richest specimens of free gold ever found in the Black Hills. The owner then sorted over several wheelbarrow loads of the ore and he was rewarded by finding a half dozen very rich speci mens. The writer joined in the excit. ing search for nuggets and two hand some specimens were found. The bes specimen from the mine is a chunk of rock as large as a small cocoanut which was at least one-half gold other specimen, somewhat larger, had wires of gold from one end to the other with knots and warts of the yellow metal sticking out on all sides. How extensive this rich streak of gold is, is not known, but for four days there has been no let-up. The ore has been averaging \$20 per ton gold for some time. The vein fs becoming much wider and at the present depth another vein has commenced to appear. The ore carries never less than \$5 per ton gold, and from that up into the thousands. It is stated that Omaha capitalists have a deal well on for the purchase of this bonanza mine and that a number of railway officials will figure prominently in the matter.

UTAH TRAIN WRECKED.

Union Pacific Passenger in 111 Luck in Colorado,

Denver, Colo., Feb. 1 .- A number of persons were injured in a wreck of the Union Pacific passenger train No. 3, the Chicago fast mail, which occurred five miles east of Hardin, Colo., at 5:30 o'clock this morning.

A broken rail was the cause of the wreck. The engine and mail car passed over safely, but the baggage car went into the ditch, followed by two passen-ger coaches. The Pullman was partly overturned. The train was running about 40 miles an hour. Twenty pas sengers were badly shaken up bruised, but Conductor Atkinson has reported to Supt. Deuel that none was riously injured.

Inquiry at the local railroad offices disclosed the fact that the wrecked train was coming this way. It is cer-tain that it has a number of Utah passengers on board, but who they are is not known now.

HASSELL ARRAIGNED.

W. F. Hassell, the young man arrested by Sergeant Burbidge a few days ago on the charge of passing worthless checks, was arraigned before Judge Timmony at a late hour this af ternoon. It is alleged that Hassel based two checks, one on a Dallas bank and one on the First National Bank of Ogden. He represented himself to be a member of several lodges and it is said he induced a numbe persons to advance him money on the hecks.

Big Auxiliary Plants.

The Butte Miner says Manager Klepetko, of the Boston & Montana company, is being deluged with correspondence and catalogues since the decision of the company to instal a big steam plant became known. The deision was reached owing to the recent trouble at Great Falls where water power is obtained to run the various plants by means of electricity. The water in the Missouri river is said to have been lower than ever this year and it was necessary to cut down the amount of ore smelted from 3,000 ton Two steam plants tons daily. will be built having a capacity, it is said, of 1,500 and 1,000 horse power respectively.

Horse Shoe Gold Dust.

The Horse Shoe gold mine at Fay, Nevada, reported at the sampling rooms of John C. Griffliths today with a heavier lot of cold evanides than usual. shipment was weighed in at 132 pounds net and is valued at about \$11,000. The concentrated product goes through to Goldsmith Bros. Troop St., Chicago. A good extraction is being made at the mill and with the installing of two more tanks still better results are expected.

MINING NOTES.

The Lily of Tintic marketed a car of ore today, J B. Weimer expects to leave for the

east tomorrow.

Pat Lamb, the veteran miner of Alta was in town today. The Grand Central of Tintic had six

cars of ore on the market today. Six cars of base ore were reported

today from the Swansea of Tintic A car of ore reached the market to-

day from Wm. Hayes at Ely, Nevada. The Shoebridge Bonanza of Tintic was on the market today with two cars of ore.

A car of ore from Uncie Jesse Knight's Humbug reached the market today.

The Horn Silver of Frisco reached the market today with three cars of concentrates.

A car of ore reached the market to-day from the Williams lease on the Red Wing at Bingham. Messrs. P. L. Kimberly, W. G. File

and Manager Scheu went out to the Honorine today.

A number of large photos of the Dex-ter at Tuscarora, Nev., are to be seen at the company's office. The South Swansea of Tintic reported on the market today with five cars of base ore and one of carbonates.

Three cars of ore from the Star Consolidated were sold yesterday afternoon on controls which netted \$28.41 per ton.

The Taylor-Brunton sampler reported 17 cars of ore from Tintic, three cars from Frisco, one from Bingham and one from Nevada today.

Fires were started in theBingham Cop-

New York, Feb. 1 .-- London was favorably influenced by the demonstration of strength here yesterday, and prices of Americans were accordingly advanced all round, extending to one point in St. Paul. Local operators were encouraged by the attitude of the foreign dealings, and at the opening some stocks were materially above yesterday's final prices. The first transactions in Southern rallway and Southern Pacific were 5,000 and 8,000 shares respectively at fractional improve-ments. The latter, after touching 49%. reacted half on heavy selling. St. Paul and Missouri Pacific gained a point, while Mobile Ohio forged up 21/2

to 71. B. & O. ran up quickly on a few transactions to 92. Some of the speci-alties were lifted sharply, including Sugar, Brooklyn Transit, and Tennessee General profit taking occurred in stocks which had made the most pro-gress upward at the opening, causing reactions of from 1 to 1% in Sugar, St Paul, B. & O., Missouri Pacific and

Southern Pacific. The pressure against Southern Pacific was unusually severe enormous blocks being unloaded and the price yielding to 47%. The decline in the general market brought some stocks below yesterday's final prices. Despite the weakness of these proper ties, efforts were made to advance some of the low priced stocks and Chicago and Alton, United States Rubber, Read-

ing, second preferred, Pacific Mail and Mexican Central improved 1 @ 1½. A subsequent rally to over 1.37 in Sugar and a rise of 1¼ and 1½ respectively in Brooklyn Transit and Jersey Central did not reduce the pressure against the active stocks.

Except for a few of the low priced stocks which are now commanding unusual attention, the tendency during the second hour was downward. Southern Pacific continued the chief point of attack and sold down to 47%, compared with 49%, the opening figure. The

failure of the general market to benefit by the upward movement in Sugar and the tractions influenced more general short selling by some traders. Chica-go, Great Western, Reading and Chi-cago, Indianapolis and Louisville were

absorbed heavily and gained 1@1%. St. Paul was marked up to 1.52% in an effort to stimulate a demand for standard railroad stocks. Meanwhile the Iron and Steel issues extended their rise considerably but the general rall road list continued to lag. Toward th close there was a sensational advance in Union Pacific to 39%, as against \$4%, yesterday's closing. The buoyoncy of this stock was utilized to cover profit taking elsewhere, prices declining around. In the final dealings i a1 Union Pacific reacted two points, but there was renewed buying of some of the low priced stocks and some steel issues. The market closed active and irregular.

The bond market was very active and strong. Central of Georgia first incomes rose four points

It is estimated that 90,000 bales will be held over for the second series.

BOSTON COPPER. Boston, Feb. 1.-Boston and Montana

3.14: Butte and Boston, 80%. PIONEER'S FUNERAL.

Will be Held from the Second Ward Meeting House.

The funeral of Mrs. Roxy Elliott Keller will take place from the Second ward meeting house tomorrow afternoon beginning at 1 o'clock.

The deceased was born in the State of New York, November 12, 1810, and was married to Alva Keller, and in 1847, with her husband and family, in Bishop Edward Hunter's company, came to Utah and settled at East Mill Creek among the early settlers of that place, and lived there for many years. but later moved to Park City, and lived with her daughter and son-in-law, John and Lucina Bates. Several years ago she went to Bingham to live with her daughter, Nancy A. Bigler, who was living with her son-in-law, Thos. H. the opera house will be rebuilt. It is covered with a mortgage held by east-ern people and they may decide to col-Blackburn. In a little less than two years Thos. H. Blackburn has been alled upon to lay away his wife and his mother-in-law, and now his wife's grandmother. Three members out of five generations that were living two years ago have gone to rest. She a faithful Latter-day Saint on January 30, 1901, in this city, and leaves two daughters, a great number of grand-children and quite a few great-grandchildren, and some great-great-grand-children in Utah and Canada. Woodward and Burgess have leased the Standard theater to carry out their bookings for the remainder of the sea-
