

for him to talk. He had nothing whatever to say on the matter but would answer any question that might be propounded to him.

In response to a question by Mr. Moran he said that the work of paving would be completed on the west side of State street to Third South street inside of twenty days.

Councilman Bell asked if it was absolutely necessary to import the workmen employed in cutting the stone blocks. Major Silva replied in the affirmative saying that neither the necessary workmen nor tools could be procured in this Territory.

A communication from the Pacific Paving company, asking the council to authorize the establishment of grade stakes on State street, between First and Second South streets, was, on motion of Wantland, referred to the mayor with power to act.

Horn called Wantland to task for not addressing the chair, as a preface to his remarks.

Wantland claimed that he always did so, but his colleagues shook their heads and President Loofbourow reminded the ubiquitous gentleman from the first that the formality mentioned by Alderman Horn should be observed.

An adjourned session of the City Council was held Friday night, June 17th, President Loofbourow in the chair. The aldermen in attendance were: Rich, Folland, Horn, Bell, Lawson, Evans, Simondt, Helss, Beardsley, Wantland.

Absent—Karrick, Hardy, Moran, Ewing.

THE PROCEEDINGS.

After the minutes of Tuesday night's session had been read, amended and approved business was transacted as follows:

BOSTON OFFICIALS HEARD FROM.

The recorder read the following:

Hon. R. N. Baskin, Mayor of Salt Lake City:

Dear Mr. Mayor—I have been requested by the aldermen and other officials of this municipality who recently visited your good city to extend to the city government of Salt Lake, through you, its honored executive, their kindest and most heartfelt thanks for the generous hospitality and courteous treatment extended upon that very enjoyable occasion, and to assure you that they trust in the near future to reciprocate their kind attention when they visit Boston.

Very respectfully.

JOHN H. LEE,

Chairman of Board of Aldermen.

Filed.

INVITATION ACCEPTED.

A telegram was read from the Train Dispatchers' Association of America, now in session in New Orleans, that they had accepted the invitation of the Council to hold their sixth annual meeting in this city in June next. Received and filed.

CLEAN THE SIDEWALKS.

Bell introduced the following:

Resolved, That the street supervisor be instructed to enforce the ordinance passed by the City Council September 29th, 1891, in regard to weeds on sidewalks.

Adopted.

PLAT, K.

Rich offered the following:

Resolved, That the lands which belong to the city and which are situated south of the capitol grounds and between State street and City Creek, be subdivided into lots and blocks to be known as Plat K, Salt Lake City survey, and that the city engineer is hereby authorized and instructed to incur the necessary expense and to stake out and plat said lands accordingly.

Adopted.

THE DOG ORDINANCE.

An ordinance in relation to unlicensed dogs was read by title by the recorder. A motion to take it from the table was lost after which Lawson moved to postpone action indefinitely.

Rich—I second that motion.

The Recorder—Mr. President, I would like to say something on that ordinance before that motion is put.

Mr. Stanton then proceeded to say that the passage of the ordinance would do away with from 1000 to 2000 unlicensed curs which now are a nuisance to the community.

Wantland said that he was in favor

of postponing action until there was a fuller representation of the council. He had investigated the subject thoroughly the last ten days and he knew the passage of the ordinance would be beneficial to the city.

Lawson said the only reason for opposing the ordinance was that it would entail additional expense on the city. The dog-tax collector could already make from \$3,500 to \$4,500 per year. That was certainly sufficient to maintain the city's dog department.

Horn said he failed to see where the city would derive any benefit by the passage of the ordinance as stated by Mr. Wantland. If the dogs were curs and had no owners no tax could be collected.

Evans called for the reading of the present law. His request was granted, and after the recorder had finished Mr. Evans stated that he believed it stringent enough. It looked to him like a scheme to get more fees for the incumbent in office. It was like squeezing juice out of a lemon.

Folland said that he considered the proposition in the light of extortion and would oppose its adoption.

The vote to indefinitely postpone lost to a tie vote.

SEWER AND WATERMAIN CONNECTIONS.

City Attorney Hodge submitted a notice to property owners to proceed at once to connect the premises owned by them with the water and sewer mains on both sides of East and West Temple streets, from South Temple to Fourth South, and both sides of First and Second South from West Temple to State street.

The recorder was ordered to publish the notice for ten days.

HARD ON VENDORS AND BOOTBLACKS.

The heads of the police department asked the City Council to abolish the practice of granting licenses to fruit vendors and bootblacks to erect stands on the outside of all sidewalks within the city. Granted.

RECEPTACLE FOR ASHES.

An ordinance providing for the erection of receptacles for ashes, and prohibiting sweepings to be put into the water ditches, and designating the penalties for non-compliance with its provisions, came up on its third reading and after considerable discussion went over until Tuesday night next.

PRIVATE SIDEWALKS.

The committee on streets reported favorably on the petition of Louis Cohn and others asking that property owners be allowed to lay their own sidewalks until the work was ordered done by the city. Adopted.

SEWER RESOLUTION AND ESTIMATES.

Councilman Lawson introduced the following which was adopted:

Be it Resolved, That the city engineer be instructed to return an estimate of cost of a sewer on the south side of First South street, extending from Second to Fifth East, the same being in and a part of sewer district No. 4.

From the same gentleman:

Resolved, That the city engineer be instructed to return an estimate of cost of a sewer located on the north side of Fifth South street, extending from East Temple to West Temple street, the same being in and a part of sewer district No. 6.
