A car load of gray pressed brick was received yesterday, from the Denver Pressed Brick company for the interior court of the Federal building. It is just the same color as the stone, and presents an attractive appearance. Seven more cars will be needed to complete the job. Numerous attempts have been made by the several Salt Lake brick companies to make a similar brick, but so far it is found that time has to be used locally in getting the shade, and the government will not

accept any brick or mason work that requires time. The Denver people use a mineral with the clay that gives the requisite shade; and what that mineral is is something the Salt Lake makers would like to find out.

DAVID NELSON DEAD.

Popular Nightwatchman Answers the Final Summons After Well Spent Life.

That sturdy Scotchman, David Nelson, beloved by hundreds in this city, passed to his final rest early this morning at his home, 575 West Third South street, of Bright's disease. The deceased suffered a paralytic stroke a little over a year ago but recovered sufficiently to resume his duties as night watchman in East Temple temple.

His life was held for quite a number of years. His health, however, was greatly impaired and about six months ago he was forced to quit his accustomed haunts and seek the seclusion of his home where he could receive the attention of friends and loved ones. Here he has spent the greater part of his time since then, with the exception, perhaps, of an occasional visit to members of his family who reside in different parts of the state, and in Rexburg, Idaho.

David Nelson was born near Glasgow, Scotland, May 20, 1832, and was therefore in his 71st year. He joined the Church in an early day and prior to emigrating to Utah, which was in 1852, labored as a missionary in Kent, England, where he met the woman who became his wife. By this marriage there is a large family of children, two of whom are still living.

After arriving here he moved to Tooele, where he remained some time, and then he went to Logan where he lived for several years and later he came to Salt Lake, where he has resided the greater part of his time, being for many years a member of the Eighteenth ward, and for the last four years a resident of the Twenty-fifth ward.

Mr. Nelson was a man of sterling worth and a true, consistent Latter-day Saint. His active and his life was known as "Honest David," and this title stuck to him through life. As a young man he was a close companion of Robert Patrick, who said of him today that he was a man who was thoroughly conscientious and one who had a strong conception of honor and dealt justly with all alike. He made friends of all who came in contact with him, and his life was a model of duty, even at his own peril.

The funeral will be held from the Twenty-sixth ward meetinghouse on Friday, Oct. 15, at 2 p. m. Friends are invited to attend.

Cause of Lockjaw.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wound caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most violent and dangerous disease. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as directed on the package. This balm is an antiseptic and causes such injuries to heal without maturation and in one-third the time required by the usual treatment. It is for sale by all druggists.

For their Sixty Years.

Max Winslow's Sarsaparilla has been used for a century and a half, and is the best remedy for all diseases. 20 cents a bottle.

EVANGELICAL MEETING.

One Held in this City Last Night—Noted Criminalist Coming.

The second meeting to be held this fall by the young people's societies of the evangelical churches, was held last night in the First Presbyterian church, with fair attendance. The speakers were Rev. Dr. Paden, Rev. P. A. Simpson, Miss Grace M. Helges and Horace H. Smith, with Christian Training as the theme.

When the matter of the proposed visit of Rev. E. A. Fredenhagen of Topeka, Kan., was brought up, it was arranged that he should speak in the Christian church during the morning service, Sunday, Oct. 25, and in the First Presbyterian church before a union meeting in the evening. Dr. Fredenhagen is the founder and superintendent of the Kansas Society for the Friendless, which has become affiliated with the United Society of Christian Endeavor, and the object of the Kansas society is to extend moral and spiritual aid to those still in bonds. Dr. Fredenhagen is visiting the cities of the west containing large prisons in furtherance of his work, and he will present the cause of the confined in this city with a view to not only stirring up a livelier interest in the Christian Endeavor work now being maintained at the Utah State prison and in the county and city jails, but to urge legislative action looking towards a Utah state board of charities and correction which should exercise a supervisory and a care for such a time as may be necessary, over men just discharged from prison.

Dr. Fredenhagen is a Congregational minister and secretary of the Kansas board of charities and corrections. The members of the Utah state board of corrections and other state, county and city officials having more or less connection with the prison administration, are invited to hear the doctor speak, as he is a noted student of criminology, and speaks not merely on the more spiritual side of penological questions, but also on the sociological and economic phases, in which he has had a wide experience.

It was voted by the meeting to continue these evangelical gatherings every other month.

MISCELLANEOUS "HAIR TONICS."

Most Hair Preparations Are Merely Scalp Irritants, of No Value.

Most hair preparations are merely scalp irritants, mislabeled hair tonics. When hair is brittle, lusterless and begins to fall out, the dandruff germ is getting in its deadly work at the root, sapping the vitality. Since science discovered that dandruff is a germ disease there has been only one preparation put on the market that will actually destroy the dandruff germ, and that is Nebro's Hairdye. It quickly reduces the falling hair stops, and hair grows luxuriantly. Ask our druggist for Herpelide. It always itches instantly, and permits the hair to grow. Sold by leading druggists. Send 10c in stamps to The Herpelide Co., Detroit, Mich. For sale by Z. C. M. I. Drug Dept.

SOCIAL AND PERSONAL.

Mr. T. R. Cutler Was on the Northern Pacific Train Stopped by Dynamite.

General Manager T. R. Cutler of the Utah and Idaho Sugar companies arrived this morning from a big swing around the eastern and northern coasts. He first went to Cleveland and New York for the purpose of letting the contract for the new sugar factory to be built for the Fremont company next year. The plan was to visit E. H. Dyer & Co. of Cleveland, the same firm that has built all the other factories in the west thus far. The first payment of \$25,000 has been made, and the foundation walls will be laid this fall.

Mr. Cutler then went to Minneapolis to look over the sugar market in that section. Taking the Northern Pacific he crossed the country to Washington state, where he visited the factory at Waverly, which is managed by his son, T. R. Cutler, Jr. He then came to Idaho Falls to look over the operations of the new factory there, which, he says, is being rapidly pushed to completion and will start up about Nov. 15.

During his trip over the Northern Pacific, Mr. Cutler happened to be on the train which the dynamiters attempted to wreck, near Bismarck, on Friday last. Fortunately, the dynamite exploded before the train reached it, but a big bridge was badly wrecked, and at least \$15,000 damage was done. There was considerable alarm among the passengers, but one of them were injured. The train was delayed 10 hours. The miscreants who have threatened to blow up the bridges and trains of the Northern Pacific unless they were paid \$50,000, still remain undetected, but Mr. Cutler says they have succeeded in creating general alarm all along the line, and the traffic of the road is suffering heavily in consequence.

The third charge against him, namely, grand larceny, in stealing cattle he had once sold, was dismissed.
