Cutting Cable Rates.

NEW YORK, August 10.—John W. Mackay, president of the Commercial Cable Company, who departed for San Francisco last night, will return here by the end of this month and definite action it is believed will be taken in the matter of arranging

NEW RATES

for cable messages. Hector De Castro, vice-president of the Commercial Cable Company, said to-day to a reporter that his company had decided to wait two weeks longer for the other companies to act. If at that time, or say by the close of the month, the opposition lines fail to restore the rate of 40 cents then the Commercial will drop to 12 cents per word. This may cause others to reduce to 6 cents and in such an event a cable war will become very disastrous. "The cable companies are not making any profit," said De Castro, "and most of them become weary of doing business for fun. Our company is ready to agree upon a 40 cents rate, which is conceded to be about the fair thing. Of course if our competitors reduce the

PRESENT RATES

further we will go with them. We can stand it as long as they can."

In addition to the declaration of the Commercial Company, the Eckert-Chandler-Barker committee, which has been at work calculating the division of pool receipts, also struck an obstacle. It is openly ascertained that nothing can be done with the B. & O., and that the negotiations, just as they seemed to be closed, are liable to be declared off. The Postal Telegraph Company blame Garrett for cutting the rates, and say the only thing to do is to join with the Western Union and give him all the cut rates he wants.

WASHINGTON.

The President Goes to Memphis.—The Wheat Product, Etc.

WASHINGTON, August 10.—Secretary Whitney has recently received from Chief Naval Instructor Wilson a statement that the war ship *Monocacy* is in a very

BAD CONDITION

and suggesting that she be docked and her hull examined with a view to spending $25,000 in repairs on her. The secretary, while endorsing the recommendation to examine her, is strongly of the opinion that she is not worth spending money on.

The second comptroller has allowed a voucher for $850 in the account of Lieutenant Colonel Batchelder. This amount was paid for two horses purchased from Hon. Robert T. Lincoln for the use of the quartermaster's department. The horses were purchased by Col. Batchelder by direct order from the quartermaster-general. Col. Batchelder pleads this order in defense of his action.

THE PRESIDENT

to-day acted on the applications for pardons in three cases:

Wm. Sweeney, convicted in February, 1883, of robbery, and sentenced to five years in the Albany penitentiary, was pardoned on account of his good record, it being his first crime and the fact that he was the support of an aged mother.

Leonard Smiley, a counterfeiter, sentenced in 1883 to five years in the house of correction, was pardoned because he is dying of consumption.

The application of Oscar J. Bosey, sentenced for money order frauds in Texas was denied.

By direction of the Secretary of War, Major Dan S. Bash, paymaster U. S. army,

IS SUSPENDED

from duty and ordered to his home to await further orders. Major Bash is the officer who was robbed of $73,000 at Antelope Springs, Wyoming, March 18, 1887, by Charley Parker, a cowboy. It is understood Paymaster Bash is relieved from duty until the amount is made good to the government, this being the custom in such a case.

The Treasury Department to-day received an application for the prepayment of interest on bonds amounting to $310,550, making the total to date $992,260.

The President to-day assured Senator Harris that he would visit Memphis, Tennessee, during his western and southern trip this fall.

J. R. DODGE,

statistician of the department of agriculture, in a pamphlet entitled "Products and Prices of Wheat," which will be published with the department's August crop report, says: "The official records of imports of wheat to the united kingdom for the first half of the present year show a large increase in the proportion furnished by the United States: 68 per cent, against 53 per cent in the first six months of 1886 and 1887. Counting flour as wheat, the proportion is 73.5 per cent, against 60 8 in a similar period of 1886, and 60.6 in 1885. There is a great reduction in receipts from Russia, a decrease from India of 50 per cent, as compared with the first half of last year, and a decrease from Australia. The quantities imported from January to June inclusive, with the value and average price expressed in measures of this country, are

AS FOLLOWS:

	Bushels.	*Dollars.*	*Value per Bushel.*
Russia	2,782,608	2,847,311	$1.02
Germany	1,113,729	1,236,154	1.10
U. S.	32,713,276	34,870,614	1.07
Chili	1,065,011	1,101,269	1.04
India	5,725,790	5,670,420	99
Other c'nt'r's.	3,660,170	3,726,848	1.02
Total	48,058,484	50,142,725	1.05

The value of wheat from this country is eight cents per bushel more than from India and five cents more than from Russia. It is higher than that of any non European country, and yet the quantity furnished is twice as much as that supplied by all the other countries. This is a satisfactory showing, especially as the prices average

FIVE PER CENT. HIGHER

than for a similar period last year. While India is the principal competitor the United States has in the world's market, her importance as a competitor is greatly overrated. The occurrence of a famine year would reduce to zero her exports. So fixed are the industrial usages of the people that a great enlargement of the wheat area is next to an impossibility. There has never been a material increase as the result of exportation in the surplus of the last ten years, notwithstanding the extension of railroads. It might not be fair to say that these shipments have produced no effect. If any, they have been very small. The reports of ten years include nearly the sum of India's record of exportation, and would scarcely equal

THAT OF EUROPE.

An average 10 per cent surplus that cannot be depended on in a crop half as large as ours cannot take the place of our surplus, which is more than half as large as India. The crop of South America has greater possibilities as a competitor, though its area in wheat is small as yet. If circumstances should favor, it could easily produce a surplus much larger than that of India. The present indications point to more than an average of European crops. Russia and Austria crops are especially fine. The promise of that of Spain is mediocre. In Germany, France and England all reports are generally favorable. The

INDIAN CROP

harvested a few months ago will be 20,000,000 bushels less than the preceding year, say 288,000,000. The product of the world promises to be quite as much as for each of the two preceding harvests. A close calculation cannot be made while such uncertainty exists. The present indications do not promise a material increase of prices. They certainly do not demand increased prices.

Iron and Steel Traffic.

PHILADELPHIA, Aug. 10.—The *Bulletin of the American Iron and Steel Association*, commenting on the statement of imports and exports of the United States for the fiscal year ended on June 30th last, says; The figures relating to our export of iron and steel has never been exceeded in magnitude, except in the fiscal year 1880. The total imports in 1887 were nearly 100,000 tons greater than in 1885 and 1886. In 1887 we imported 1,524,604 gross tons, against 1,445,941 tons in 1885-86. Our imports of iron ore in 1887 were also larger than both 1885 and 1886, amounting in 1887 to 1,141,774 gross tons, against 1,127,110 tons in 1885 and 1886. The

FOREIGN VALUE

of said imports in the fiscal year 1887, amounted to $42,251,585, but to this foreign cost must be added the cost of freight and insurance duties and the brokers' profits, making a probable addition of 50 per cent to the above figure, making a total of $63,000,000 actual cost to our people on one year's import of iron and steel. It must be noted, too, that the figures we give do not include the export of machinery, firearms and other manufactures of iron and steel, the statistics of which, if given, would very considerably increase our last year's contribution to the iron and steel manufactories of Great Britain and the continent.

Criminal Cases.

DENVER, August 10.—Telegrams from Alamoosa, Col., state that the report which reached here day before yesterday that William Carson, the sheriff of Conejos County, and the eldest son of the famous "Kit" Carson, had been murdered in Taos Valley while attempting to arrest an outlaw named Vigil wroves to be untrue. the victim was "Kit," a young brother of Sheriff Carson.

PARIS, August 10.—The Russian Princess Orangenski and her companion, Mdlle. Founne, have been tried before the police tribunal

FOR STEALING

from shops in the Louvre. The Princess was discharged, but Mdlle. Founne was found guilty and sentenced to one month in prison.

BUTTE, August 10.—A Melrose, Montana, special to the *Miner* says: This morning C. O. Maddox, a prominent merchant, got into an altercation with G. A. Clayton and Chas. Powers, ranchmen residing four miles from town, about meadow land. All three were armed, Maddox with a shotgun and the others with Colt revolvers. A shooting bee ensued, in which Maddox was fatally shot through the body by Clayton, and Powers through the head. Clayton gave himself up and is being

BROUGHT TO BUTTE.

Maddox belongs to an old and historic family of Virginia.

BUTTE, Montana, August 10.—W. P. Schuster, an old Philadelphian, who has a brother in the B. & O. telegraph service in that city, shot himself dead here to-day. He had lost some $700 on the Butte races and other gambling, and in despair ended his life. He stood high in nearly all the orders in the Territory.

CHICAGO, August 10.—Dr. John McDonnell and his wife were found in their room at the Briggs House tonight with bullets in their heads. He is fatally and she is dangerously wounded. Both are unconscious and no particulars of the affair can be learned. By the circumstances it appears that he shot her and then attempted suicide. Jealousy is supposed to be the cause.

Death of John Clay.

LEXINGTON, Ky., August 10.—John, the only remaining son of Henry Clay, died at his farm near this city this afternoon of heart disease. He was 67 years old. He had no children. John Clay possessed but few of the characteristics of his illustrious father, being a plain farmer, devoting much of his time to raising thoroughbred horses.

Broken Cables.

NEW YORK, Aug. 10.—Several of the cable companies are suffering from broken cables. On July 25th the French cable parted off Grand Banks. The steamer *Mackay-Bennett* reached the scene of the break yesterday. One of the Western Union cables was interrupted some time ago, and the steamer *Farraday* has just left this port to repair it. One of the Anglo-American cables broke last winter in mid-ocean. The steamer *Minia* has just been dispatched to the scene, and an effort will be made to pick up and repair the broken wire.

The Government's Policy.

LONDON, August 10.—At the Lord Mayor's annual banquet to the ministers, given at the Mansion House this evening, Premier Salisbury, in a speech, said the government has done everything to give effect to the country's mandate to preserve the unity of the empire. Extra power had been placed at the government's command and the country had a right to complain if these powers had not been used discreetly, but firmly. This is believed to signify that the government will proclaim the Irish National League.

Desecrating Graves.

BOSTON, Aug. 10.—The *Evening Record* publishes an article charging that horrible desecration of the graves of the dead in the heart of the city of Boston have been going on for nearly a week. A week ago the electric company began to dig a trench along Boylston Street for the purpose of laying their wires. As the workmen ascended the hill they encountered the tops of graves and vaults which extend from the burial grounds on the common, under the wall and into Boylston Street. The roofs of the graves were broken in and their contents thrown out on the side of the street, with earth, brick and stones. Scattered all along the side of the trench, says the *Record*, may be seen leg, thigh and arm bones, ribs, portions of skulls and other parts of human skeletons. Some of these bones have been hung up on the fence of the common, where they are the object of scurrilous jests and are pointed out to the passers-by. Workmen have been selling the skulls to whoever wished to purchase.

The Peers Kick.

LONDON, Aug. 10.—A number of tory peers threaten to reject the amendment to the land bill introduced in the Commons, especially the clause providing for the revision of judicial rents. They have also warned the government not to attempt to deal with the question of arrears. The attitude of these lords has paralyzed the cabinet's action in further amending the land bill to satisfy the Parnellites. Gladstonian whips have sent notice to members in the country to be ready to return if the peers mutilate the bill, and the Parnellites have been ordered to muster in full force. Lord Salisbury and the ministerialists are exciting the utmost pressure to suppress a revolt of the peers.

Change of Policy.

CONSTANTINOPLE, August 10.—It is semi-officially stated that owing to a change in Bulgarian affairs, the Porte has abandoned its projected circular to the powers. It is further stated that if Prince Ferdinand assumes power, the Porte will expect the powers to withhold their cognizance until Turkey recognizes the prince.

The Crown Prince.

LONDON, August 10.—The German Crown Prince arrived in Edinburg today and spent the day in sight-seeing. Before the prince left London Mr. McKenzie performed another operation upon his throat. Electricity was applied to the larynx, and the last traces of the escrescence in the throat were successfully removed.

THE RAILWAYS.

The Ives Muddle—The Investigation.

NEW YORK, August 10.—The announcement that a block of stock belonging to Henry S. Ives would be sold at auction, drew a number of Wall Street men to the Real Estate Exchange to-day. The stock represented a monetary value of $535,000. The auctioneer was about offering the stock for sale when he was requested by a party interested to

WITHDRAW IT,

which was done. The reason for the withdrawal was that Ives had made satisfactory arrangements with the Cincinnati, Hamilton & Dayton Railway.

The directors' committee and the creditors' committee held a joint meeting to-day at the office of the Cincinnati, Hamilton & Dayton Railway for the purpose of ascertaining if possible the exact financial condition of the road. The committee also called upon Messrs. Stayner & Ives. The situation is said to be much complicated owing to the close relations this road had to the Vandalia line, composed of the Terre Haute & Indianapolis road and its branches, the financial transactions of which were carried on through the banking house of

IVES AND CO.

A member of the committee said today not less than two weeks would be required to straighten the accounts and as Ives was about the only person thoroughly acquainted with the present complications it would be necessary to employ him for months to come. There is one road of which Ives did not resign the presidency—the Mineral Range Railway Company of Northern Michigan—and to-day rumor had it that one of the stockholders was in the city making inquiries into the management of the road.

The investigation by the Cincinnati, Hamilton & Dayton committee was continued to-day, but the work of treating the preferred stock was suspended and attention was turned to the Vandalia line. Counsel for the committee state that

IVES IS INDEBTED

to the road for a very large amount of money, but whether $1,500,000 or not, as the street has it, he declined to state. Negotiations are now going on for taking up all of Ives' loans secured by the Cincinnati, Hamilton & Dayton collateral, and one creditor, Irving A. Evans, has been paid $80,000 and left at once for Saratoga. Wm. Fellows, of Morgan & Co., who carry the $2,000,000 loan, were asked to compromise on their claim, but refused. Other creditors are now considering the offer made. It is expected that all of Ives' claims will be paid up in a few days, but the largest creditors insist on payment in full.

THE INVESTIGATION.

SAN FRANCISCO, August 10.—Lloyd Tevis, president of Wells, Fargo & Co., produced before the Pacific Railway Commission to-day two contracts between Wells, Fargo & Co. and the Pacific Express Company, which latter went out of existence. Tevis stated that by the terms of the consolidation of the express companies the Central Pacific Company received no consideration, but one-third of Wells, Fargo & Co's stock was transferred to Stanford, H. D. Bacon, Charles Crocker, Hopkins, Huntington and himself. Tevis also stated that since the consolidation, Wells, Fargo & Co, had the exclusive express business over the Central Pacific. Tevis admitted he was asked to take stock in the Central Pacific in the Contract and Finance Company,

BUT DECLINED.

"Why did you not accept?" was asked.

"I looked at it from a business point of view, because I thought it would lead to embarrassment. Further, I was apprehensive that if the road did not go through, I would be liable to my pro-rata for the debts."

J. H. Strowbridge, superintendent of construction of the Central Pacific, was recalled and examined in regard to the cost of construction and labor at the time the road was built, but his testimony did not differ materially from that given yesterday.

VARIOUS KINDS OF FISH.

Items of Interest to Pisciculturists.

Bishop W. D. Johnson, of Johnson, Kane County, while here a short time ago, told me that his little reservoir, in which he husbands water for irrigation, literally teems with carp of assorted sizes. The last season's hatch number "myriads" of little fellows as lively as their older cousins.

Bishop Johnson says the carp is as good a fresh water fish as he ever ate, and being a down eastern man, he, no doubt, knows all about fish. His pond swarms with adult carp suitable for stocking other waters. He claims to have enough seed carp to stock all the waters between the south rim of the basin and the Colorado River. All these are the product of eight small carp he received some years ago from the government, and the "only fault" the Bishop finds with the fish is "they multiply too fast."

Mr. John Rowley, of Nephi, says the two-inch carp he received last December "are now six inches long and four inches around," which he considers "a fine growth." His pond is brackish water which "comes from under a gypsum mountain."

An offer to furnish spawning trout has been made to me. They will be delivered as caught (one two and three year old) in this city at very reasonable terms, between the 15th of May and the 15th of June next.

I am maturing plans to obtain eels from the Hudson River, N. Y., for seeding the numerous streams in our Territory. No doubt eels will thrive and multiply rapidly in our rivers, creeks and canals.

I am offered crappies, a most excellent fish and rapid multiplie, and the large Canada frogs, at reasonable prices. The crappies will come from Denver and frogs from near St. Louis.

Persons desiring either live trout, eels, crappies, or frogs to put into their waters, can let me know any time before next spring.

In answer to queries about stocking Weber and Bear rivers with shad fry, Col. McDonald writes me that, "It is contemplated by the commissioner to continue the experiment of stocking the tributaries of the Salt Lake basin with shad fry for at least two successive seasons longer, and on such a scale as to determine beyond question of the success of the species in all your waters, provided the conditions offered by the waters are suitable."

Three years after shad fry were put into the Sacramento river at Sacramento, in 1876, shad were sold in the San Francisco market, and now they are being caught some 600 miles up the Pacific Coast, and are sold in San Francisco at 6 cents per pound.

There is yet time to apply for carp.

A. M. MUSSER.

Salt Lake City, August 6, 1887.

COMPOSITION
Fire-Proof Roofing.
I AM NOW PREPARED TO PUT ON Composition Fire-Proof Roofing, which is considered the best adapted and most durable roof for our climate.

A particle is applied to each nostril and is agreeable. 50 cents at Druggists; by mail registered, 60 cents. ELY BROTHERS, 232 Greenwich St., New York. deod&w

CITY TAXES!

TO THE TAXPAYERS OF SALT LAKE CITY:—You are hereby notified that the City Council of said city, in accordance with law, will sit as a Board of Equalization, at the City Hall, on Tuesday, August 23rd, 1887, at 4 p. m. The business of said board will be to hear and determine all complaints which may be made in regard to the assessed value of any property, and if found necessary, to change and correct any valuation either by adding thereto or deducting therefrom; also to remit or abate the taxes of any insane, idiotic, infirm or indigent person to an amount no exceeding $5 for the current year.

By order of the City Council.
HEBER M. WELLS,
Recorder.
Salt Lake City, August 6th, 1887.

NOTICE OF ASSESSMENT.

UTAH AND SALT LAKE CANAL COMPANY.
Office 123 W. North Temple Street,
SALT LAKE CITY, Aug. 6, 1887.

Notice is hereby given that at a meeting of the Directors, held on the 30th day of July, 1887, an assessment of two dollars per share was levied on the capital stock of the Corporation, payable to the Secretary, at the General Office of the Company, 123 W. North Temple Street, Salt Lake City, on the 24th day of September next. Any stock upon which this assessment may remain unpaid on the said 24th of September, will be delinquent and advertised for sale at public auction; and unless payment is made before, will be sold on the 19th day of November, 1887, to pay the delinquent assessment, together with the cost of advertising and expense of sale.

E. SMITH,
d&s 4w Secretary.
