

CHURCH INTELLIGENCE

MISSION FIELDS.

IN THE POCATELLO STATE.

March 18, 1898.

Twenty-five hundred people

are reported to labor as mis-

sions in the Pocatello State.

During the past year a brief account of my labors in connection with the

Church of Jesus Christ of

the Latter-day Saints.

We left home November 20, 1897,

and arrived in the central United States in early

in the morning.

After a few days we again reached the state, this time from the west.

This called for about thirty miles in length by six or eight in width, and is bounded on the north by the Snake River, on the south by the Colorado River, on the west by the mountains, and on the east about thirty miles from the mountains.

March 18, an excited because of

the heavy rains, from one half to

one and a quarter miles in width, run-

ning through the mountains, caused

water and mud to accumulate over

the entire surface of the land,

making it a pleasant and healthy

place to live. Here on the banks of the

river located the city of Pocatello, and

is a great place to live.

The Indians and a number of other

tribes are here, and the country is

very thickly populated.

This called for about thirty miles in

length by six or eight in width, and is

bounded on the north by the

Snake River, on the south by the

Colorado River, on the west by the

mountains, and on the east about

thirty miles from the mountains.

This is a great place to live.

There are no railroads, but there
