

CONDEMNED MAN KILLED BY POSSE

Made His Escape and Pursued to His Death.

WAS TRAILED FOR TEN DAYS

He Was to Have Been Hanged on the 20th Instant—His Companion Is Still at Large.

Glasgow, Mont., June 18.—William Hardee, who was sentenced to be hanged here June 26 for the murder of Charles Sheary, near Culberson, in September 1901, and who escaped from the Glasgow jail the 6th inst., was killed by the posse that has been on his trail the past 10 days, about 75 miles south-east of Glasgow.

Charles R. Hill, one of the posse, was killed by Hardee. They had trailed Hardee and McKinney, another prisoner who escaped with Hardee, about 40 miles by the Missouri river. When they found they had crossed the river, the posse crossed the river and struck their trail again, and followed it for 12 or 15 miles.

About sundown Monday evening they thought they were in the brush, and were endeavoring to locate them when a shot rang out from the brush, and Hill fell dead. The ball struck in his right side, and he died instantly. Hardee and McKinney were in the brush. The posse was about 100 yards from them. Several shots had been fired that they were discovered.

After several shots had been fired by each of the men in the posse, one of the criminals was seen moving, partly concealed in the brush, and the posse opened fire again, but nothing more could be seen of them, and it was about dark, so nothing further was done that night. During the fusillade it appears Hardee was hit.

Frank Lornion, one of the posse, who had been to camp for lunch, heard the shooting, and was hurrying back to the posse, when McKinney, behind a hill fired at him, the bullet barely missing his head. Lornion got under cover as quickly as possible and prepared to make an attack, but nothing more could be seen of McKinney.

The location was favorable for the criminals and they had the advantage of brush and rocks, behind which they could hide, and it was almost impossible for them to be seen. The posse had camped for the night, and was not aware that Hardee had been shot through the lungs, and must have died in a very short time after being shot. There were several bullet holes in his hat and clothing, but only one took effect.

Part of the posse returned this evening. Sheriff Cosner will start out tonight with another posse to go to the scene as quickly as possible. It is thought McKinney would be caught.

Tonight about 10:30 o'clock a mob went quietly to the jail, overpowered the two guards, and took Jack Brown, who escaped from jail with Hardee, McKinney and Pierce, the 6th inst., and hanged him from a window of the county courthouse.

Ovation to Capt. Ewen.
Lexington, Ky., June 18.—Capt. Ewen was escorted to the Elks hall last night and given an ovation. Scores of young women clasped hands and declared him the bravest man in Kentucky.

Fear Rio Grande River Flood.
Albuquerque, N. M., June 18.—The people of this city are living in constant fear of being overtaken by a flood from the Rio Grande river, which is reported rising rapidly as a result of heavy rains north of here. For miles up the valley the country is inundated, and a large number of families have been driven from their homes. Great destruction to property has been done. The breaks in the levee at the mouth of the Rio Grande, 10 miles above this city, sent down a tremendous volume of water against the eight foot aqueduct embankment at the mouth of the city.

The water rising at the rate of a foot an hour was creeping toward the top of the embankment when the alarm was given and several hundred citizens rushed to the levee and began the work of strengthening it. They worked through the night.

First Am. Child Born in Guam.
New York, June 18.—Advices from Guam announce the birth there of the first American child on the island. It is a girl and its father is Paymaster Ryan. The christening was marked by a big celebration in which the entire community joined.

Stevens Institute Graduates.
New York, June 18.—Stevens Institute has graduated 49 young men, Charles F. Scott, chief electrician of the Westinghouse Electrical Manufacturing company delivered the address to the graduates.

PANAMA CANAL TREATY.
Things Seem to be Favorable for Its Ratification.

New York, June 18.—Advices from New Orleans and Cartagena show a decidedly favorable turn in the controversy over the question of ratifying the Panama canal treaty, says a Herald dispatch from Panama. The change is due, primarily, to the intrinsic public spirit and to the continued publications here, by prominent men of both the conservative and Liberal parties elucidating the important points in the controversy.

The restoration of public order throughout the republic is also contributing to disperse opinion more favorably toward the canal treaty.

Remarkable Blind Man Dead.
Newburgh, N. Y., June 18.—David N. Selig, a remarkable blind man, is dead here, aged 85. Although sightless from boyhood, he became a few years ago, by his own efforts one of the foremost business men of Newburgh. He manufactured patent chairs of his own invention and employed many men. He also helped to develop a system of industrial education for the blind.

Blackmailing by N. Y. Policemen.
New York, June 18.—In a speech before the Order of Acorns, Gen. Francis V. Greene, commissioner of police, has intimated broadly that attempts are being made in the police department to re-establish the machinery of blackmail which he attacked when he remained the wardens to patrol duty last January. He said he hoped to thwart the plan by preventing the formation of a new chain of connections.

"I want to say from my experience," he said, "that the average policeman is not a crook. He has more temptations thrown in his way than any man in any other walk of life. He can make a month's salary in a minute by simply

The Dinner Pail

Of the American working man is generally well filled. In some cases it is too well filled. It contains too many kinds of food, and very often the food is of the wrong kind—hard to digest and containing little nutrition. As a consequence many a working man develops some form of stomach trouble which interferes with his health and reduces his working capacity.

Where there is indigestion or any other indication of disease of the stomach and its allied organs, the use of Dr. Pierce's Golden Medical Discovery will almost invariably produce a perfect and permanent cure.

Mr. Thomas A. Swartz of Salt Lake City writes: "I was taken with severe headache, then came the trouble in the stomach, and my food would not digest, then kidney and liver trouble and my back got weak so I could scarcely get around. At last I had all the complaints of one who I doctored three or four times. I was 40 years old, and I had been married for 15 years. I had become so poorly I could only walk in the house by the aid of a chair, and I was in bed for 10 days. I was thinking that I could not be cured. Then I saw an advertisement for Dr. Pierce's Golden Medical Discovery and made a new man out of myself. The first bottle I took I felt better. The second I was able to get up and after I had taken eight bottles I was all right. I was weighed and found I had gained twenty pounds. I am now stout and healthy to-day. I think, as I ever was."

FREE. Dr. Pierce's Common Sense Medical Advice, paper covers, is sent free on receipt of 21 recent stamps paid by express of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

turning his head. The great majority of the force resist this temptation and do their duty.

"Organized blackmail has been broken in in two, and has not been put together again yet, though efforts may be making in that direction. I think they can be defeated by preventing the establishment of the chain of connections."

OXFORDS AND SLIPPERS—CHILD'S SANDALS.
Big sale at Newman's, 120 Main St.

Motor races, Salt Palace tonight.

To Boston and Return at One Fare
for the round-trip from Chicago via Nickel Plate Road, for Christian Scientists' meeting in June. Tickets on sale June 25th, 26th and 27th, with extended return limit of August 1st. Stopover at Niagara Falls in either direction, without extra charge, and at New York returning on pay air.

INCREASING ITS CAPACITY.
The Telluride Power Company of Provo is increasing its local power from 1,800 horse power to nearly 3,000 horse power. This is being done by extending the flume from the present plant, at Summit Station, eight and one-half miles from Provo. The contractors are continuing their flume from Summit Station to the mouth of the canyon, where they will build the new plant. These improvements require a tunnel through hard blue lime 1,100 feet, and 500 feet have now been completed. They have built about 600 feet of flume and expect to complete it by December. The flume will require about 2,000,000 feet of Oregon lumber, which is now on the ground.

The American Eagle, the patriotic bird, will go high at Calder's Tuesday, June 23rd.

Motor races, Salt Palace tonight.

UNDER QUARANTINE.

One of the Elders in Philadelphia Afflicted With Smallpox.

(Special to the "News.")
Philadelphia, June 18.—Six "Mormon" missionaries, who came here several months ago to gain converts, have fallen into the hands of the health officers. One of them is now in the Municipal hospital suffering from smallpox, and the other five are under rigid quarantine. The missionaries, all of whom have been successfully vaccinated and the quarantine will be lifted on next Tuesday. Ben Nield, a young man about 22 years old, and the most successful of the party in making converts, became sick on Monday. His case was diagnosed as smallpox and he was removed to the Municipal hospital.

A HEALTHY COUPLE

An Old Soldier of 90 Had Some Coffee Experiences.

An old soldier's wife described her coffee experience as follows: "My husband and I have been accustomed to the use of tea and coffee for a very great many years and we were very fond of the coffee. Some time ago we received from a dear friend in St. Louis a Christmas box that included a package of Postum. I prepared some without reading directions and my husband said: 'O nonsense, this tastes just like the crust water that was one of the luxuries they allowed to invalids 80 years ago.' Then I looked up the directions and the Postum as it should be made and we both found it delicious."

"My husband is a broken-down soldier and was a cripple and suffered from severe headaches but from the time we commenced to drink Postum we have not taken a cup of tea or coffee. During the hot weather we have eaten no meat, depending for food upon Grape-Nuts. My dear husband's headaches have disappeared since we left off the coffee and began Postum, and I find myself mentally stronger and much better able to concentrate my thoughts than for several years past. Husband had a good appetite now and nothing disturbs his stomach."

"I believe that when mothers come to pay more attention to their children's diet there will be more health and happiness in the world and in domestic life generally. Little by little this change must come."

"Yours very sincerely for all that pertains to health and happiness, the names of you wish." Names furnished by Postum Co., Battle Creek, Mich.

This letter is in the hand-writing of the old lady herself and there are many people half her years who cannot write half so good a letter. The case is one of remarkable vitality and apparently the only ill of her old age were those due to the coffee drinking. These disappeared when Postum was used in place of coffee.

CITIZENS O

DISCUSS WATER

Will Be Asked to Give Views on New Reservoir Proposition.

MATTER WAS UP LAST NIGHT

Fernstrom Makes a Motion to Proceed With the Work at Once—Others Favor Bonds.

The council met in special session last night and talked over the construction of the Parley's canyon storage reservoir for about two hours and then postponed the matter until next Thursday night, without taking any definite action. It was decided to appoint a committee of five to invite the editors of the papers, members of the Commercial club and other citizens who are interested in the water question to be present on that night and join in the discussion and deliberation on this most important matter. The committee named by President Cottrell is composed of Tuddenham, Thomas, A. J. Davis, Cottrell and Fernstrom.

Fernstrom opened the discussion last night by presenting a motion that the board of public works be authorized to proceed at once to advertise for bids for changing the road in the canyon, excavating and constructing the dam, reserving the right to have \$75,000 worth of the work done this year and the balance later. In support of this motion he said that the city would be forever condemned if it didn't do something to increase the water supply of the city. He said that all agreed that the city's canyon was the property to look for such increase and he thought it best to start the work at once and do as much of it as possible this year and if it became necessary to submit the matter to the people to vote on a bond issue it could be done later, say at the coming election. He argued that the method would insure the quickest results and urged the passage of his motion.

Thomas wanted to know if the city for the reservoir had agreed upon. He then moved that the report of City Engineer Kelsey on the location of the reservoir and the construction of the dam be adopted. The motion was unanimously carried.

RESOLUTION BY DAVIS.
A. J. Davis then submitted his resolution, providing for a \$300,000 bond issue for the construction of the reservoir, as a substitute for Fernstrom's motion. In arguing the matter he said that if the citizens will provide for a proper water supply, the railroads coming here will guarantee an increase in population of Salt Lake City of 5,000 people in 18 months. The Short Line and San Pedro roads contemplate building mammoth railroad shops here on the extensive plan and the city of 600 men, he said, provided the proper water supply is guaranteed.

DAVELEY FAVORS BONDS.
Daveley favored a bond issue. He argued that the only proper way was to appeal directly to the people. Railroads and other industries contemplating coming here, he said, have investigated the water supply time and again and always reached the conclusion that it is inadequate. He was confident that if the question is submitted to the people they would give the council authority to issue the bonds.

Thomas made a strong appeal for the issuance of bonds and the construction of the reservoir as a whole and not on a piece-meal basis. Now is the time for a bond issue he argued, when the money is strong and bonds are easy to sell. He urged that a step be taken now to increase the water supply to meet the demands of the next 40 years and not just for three or four years. The meeting at the Commercial club on Wednesday night, celebrating the announcement of the early completion of the San Pedro road, and the near approach to this city of the Moffat road are notices to the council, he said, of a large increase in population and something must be done at once to prepare for it. He thought that the council should go at the matter right and issue enough bonds to increase the water system in a proper way without adding a cent further to the burden of taxation. He stated that the revenues of the water works fund would be sufficient to pay the interest on the bonds. Fernstrom's scheme and said that if the council showed good faith and started the work it would redound to its credit. Black favored a bond issue. He said the revenues of the water system would pay the interest on the bonds and hence there would be no direct tax on the people. Sharp stated that he was ready to vote on the question; that he thought action should be postponed for further consideration. Thomas then moved that further action be postponed for two weeks and that a committee of five be appointed to invite the editors of the papers, members of the Commercial club and other citizens to be present and discuss the matter.

Such a long postponement was objectionable to the majority of the council. Tuddenham suggested that the matter be postponed until Monday night. Finally Thomas agreed to amend his motion to meet one week from last night and the motion was then unanimously carried.

DR. BETTS DEAD.

Former Resident of Salt Lake Succumbs to Bright's Disease.

Dr. William W. Betts, formerly a practitioner in this city, has just died at Los Angeles of Bright's disease, and his funeral will be held there Sunday. Dr. Betts was widely known through this country on account of his published writings on climatology, and one of his papers speaking highly of the climate of southern Utah was published in the "News" some time ago. Dr. Betts was an expert in throat and lung diseases, and made a great fight for life. But the disease finally overcame him, and his death will be much regretted. Dr. Betts took an active part during the last few years of his practice in this state in exposing the dangers of De La Mar dust at the De La Mar mill, and which has now been done away with by the substitution of the wet for the dry process.

REAL GOOD NEWS

FOR CYCLE FANS

Four Fast Riders Are Expected in Salt Lake Soon.

MANAGER SCHEFSKI'S PLANS

Program of Bike Races for This Evening and Tuesday Evening—National Circuit Meet.

If stock in the local bicycle games does not take a skyward jump in a few days it will be the fault of Manager Schefski of the races. Just at the present time he is nurturing a plan whereby the cycle fans will be given a feast of the sport they love.

Probably the best news is that Iver Lawson, Hardy Downing, Gusse Lawson and Ed Newkirk, four of the fastest men who ever chased a wheel, will arrive in Salt Lake in the near future. It is quite certain that Iver Lawson and Downing will be here Sunday and Monday, and be ready to participate in the excellent program arranged for Tuesday night.

The following telegram was received here last evening and speaks for itself: "Johnnie Chapman—Leave New York today. Will arrive in Salt Lake on Sunday. IVER LAWSON."

It is well known that Iver Downing is coming here and that Iver Lawson is his racing partner. Ed Newkirk, wrote to the "News" that he was coming here. Schefski replied telling them what he would do, and he expects to hear any time that they are on their way here.

THIS EVENING'S PROGRAM.
A program of more than ordinary interest has been arranged for this evening. The principal event will be a motor race of 10 miles by amateurs. Agra and Downing. These youngsters have already demonstrated their ability to go some. The race promises to be a warm affair. They will be joined by Samuelson and Chapman's motors. The other amateurs and professionals will have a chance at the money and fame in a series of sprint races. Among the professionals there is likely to be a hot contest, especially between the big three—Hoffman, Hopper and Stevens. There is keen rivalry between them and each man is determined to go after the money and get it.

GOOD RACES TUESDAY.
Manager Schefski has arranged a rather unique program for Tuesday evening, and it is one that will make every rider on the track put forth his very best efforts to get even close to the money. The feature of the evening will be a tri-oval race between Hoffman and Hopper. They will be followed by a one-mile race between the professionals. This means that the man in the lead will have a one-mile race. A prize of \$10 will be given to the winner at three-quarters and \$25 at the finish. In addition to the tri-oval race, the entire program will be a one-mile race. The pros will also have a one-mile handicap.

NATIONAL CIRCUIT MEET.
Manager Schefski stated today that he had written to Chairman Batchelder of the N. C. A., to make arrangements for a big national circuit meet here in Salt Lake at the close of the season. If Mr. Batchelder's reply is favorable, local cycle fans will see the greatest meet of their lives. It will cost over \$600 in prizes and all the crack riders will be following the national circuit will be here to compete. There will be all kinds of races and the public will certainly be given a variety. Mr. Schefski is confident that he will be the biggest kind of a boom for the cycle game here.

MORE PITCHERS SIGNED.

Maroons Got Taker and Lobsters May Take Petties.

The Maroons are still after pitchers and they have added another one to the staff. The latest find is W. L. Tetter, late of the Butte Pacific National team. He is a right-handed pitcher and has been a star in the amateur ranks. He was signed a few days ago, will pitch his first game tomorrow afternoon against the Lobsters.

Report has it that the Lobsters have been making good eyes at Tetter, and the pitcher who was released by the locals to make room for Ames. It is further said that Tetter will pitch his first game for the Lobsters tomorrow afternoon.

Gun Club Shoot.
Following is the detailed score of yesterday afternoon's gun club shoot in which six members participated:

John Sharp 1110 1111 1111 1111 1111 1111
Jones 1110 1111 1111 1111 1111 1111
Cowan 1110 1111 1111 1111 1111 1111
J. M. Swen 1110 1111 1111 1111 1111 1111
Dart 1110 1111 1111 1111 1111 1111
Harry Swen 1110 1111 1111 1111 1111 1111
1091 1111 1111 1111 1111 1111

AFRIKANDER THE WINNER.
Great Three-year-old Captured the Suburban Handicap.

New York, June 18.—For the first time in the score of years of its history, the Suburban Handicap, greatest of American turf events, was won by a three-year-old. Afrikaner, the swift, game son of Star Ruby-Afrikander, finished first in a splendid field of 15, of which he was giving weight. His victory was marked by a claim of foul made by George Odum, rider of Herbert, the second horse. But the judges decided that the winner had earned his prize and let the race stand as run.

Charles Dwyer, Simon Delmei, proprietors of the Hampton stable, in whose colors Afrikaner ran, won \$15,000 in the race and made a generous present to Little Fuller, the New Orleans graduated jockey who piloted their horse to a stirring victory. They had also backed the horse at 10 to 1 in the winter betting, driving his odds to 50 to 1.

Thirty thousand persons saw the race and few bet on the winner. Shrieks for old Herbert, who seemed sure to win in the stretch, came from every point, and cries of encouragement greeted Odum when he mounted the stairs of the judges' stand to lodge his claim of foul. Little Fuller, meantime, was enjoying the first fruits of victory and, seated in the floral horsebox, was being borne across the lawn.

He paid a bit when suddenly summoned to face the judges, but set forth his case with calm and dignity. He was not allowed. Five minutes of intense anxiety, in which even the women were quiet, passed before the red board went up.

He paid a bit when suddenly summoned to face the judges, but set forth his case with calm and dignity. He was not allowed. Five minutes of intense anxiety, in which even the women were quiet, passed before the red board went up.

The most economical of all.

GORHAM SILVER POLISH

Owing to its form is free from waste. Contains no injurious ingredient. All responsible jewelers keep it. 25 cents a package.

FIGHT WAS A DRAW.

Joe Walcott and Young Peter Jackson Go Twenty Rounds.

Portland, Ore., June 18.—Joe Walcott of Boston and Young Peter Jackson of Baltimore, both colored, fought a 20-round draw at the Postume club tonight. When the referee declared the fight a draw at 10 and the crowd roared all around the fight for Jackson, as it was clearly his fight for the last five rounds.

From the fourteenth round and both appeared in the final condition. During the first 10 rounds Walcott did most of the leading, while Jackson fought on the defensive, occasionally landing a left-hand punch to his opponent's ribs or a right jab over the kidneys. Jackson was able to slip and in doing so had to take a lot of punishment, for the Boston man kept him with his left and landed hard on his head.

In the fourteenth round Jackson swung right and left on Walcott's head and at the end of the round the Boston man looked tired. In the fifteenth they mixed it up and Jackson was able to slip the ring, Jackson doing more than his share of the leading.

From the sixteenth to the end of the fight both men fought hard, but Walcott hugged his opponent to avoid punishment in every round. Jackson was able to stand punishment, and at the end of the fight was fresh. In the last two rounds Walcott clinched repeatedly and hung on with his arms around Jackson's waist until the referee pulled them apart.

CHORUS GIRLS'

GOOD FORTUNE

Is Said to be One of the Heirs to a Million Dollar Estate.

ONCE LIVED IN SALT LAKE.

On Her Father's Death She Became The Principal Beneficiary of His Large Estate.

(Special to the "News.")
Pittsburg, Pa., June 18.—A chorus girl singing at Duquesne Garden last week is believed to be one of the heirs to a \$1,000,000 estate in Utah. She is being eagerly sought. Superintendent of Police McFigue received a communication yesterday from Mrs. Isabella Morris of Bryn Mawr asking assistance in locating her daughter who disappeared two years ago from her home in Salt Lake City, Utah, to go on the stage. A short time after the girl's disappearance her father died leaving an estate valued at \$1,000,000, of which the missing daughter is the principal beneficiary. Every effort has been made to find her. Last week a family friend here and was known as Mabel Arnold. The company, which was singing in "Wang," returned to Brooklyn and an effort will be made to locate the girl there.

Who the girl is referred to in the above dispatch, is not known, nor is it believed that the estate mentioned is located in Utah. Such estates are not over numerous in this section and when circumstances of such a character occur, the facts are usually better understood than they seem to be in this case.
